

India Maintains top Global Ranking with Maximum Recoveries

Has one of the Lowest Mortality Rates in the world

Posted On: 03 OCT 2020 11:33AM by PIB Delhi

India continues to occupy the top global position as the country with the maximum number of recoveries. The total recoveries has crossed **54 lakhs today** (54,27,706). It accounts for **21%** of the global recovered cases, while its share in the total cases stands at **18.6%**.

India has maintained its global position with one of the lowest case fatality rates (CFR) when compared to several other countries.

While the global CFR stands at **2.97%** as on date, the comparative figure for India is **1.56%**.

The deaths per million population in India is one of the lowest in the world. While the global average is **130 deaths /million** population, India is reporting **73 deaths /million** population.

Case fatality rate - amongst the lowest in the world

India's steady trend of posting high number of daily recoveries continues with **75,628 recoveries** registered in the last 24 hours.

Higher number of single day recoveries is also reflected in the continuous increase in the national recovery rate, which is at present **83.84%**.

74.36% of the recovered cases in the past 24 hours are from 10 States/UTs. Maharashtra has contributed the highest number to these followed by Andhra Pradesh and Karnataka.

Nearly 77% of the active cases are in 10 States/UTs. Maharashtra is at the lead with more than 2.6 lakh cases.

As on date, the active cases contribute only **14.60%** to the positive caseload of the country.

77% of active cases in the 10 States & UTs

For the 12th successive day, India has sustained its steady trend of maintaining the active cases below the 10-lakh mark. The number of active cases today is **9,44,996**.

India Trajectory: Number of active patients

79,476 confirmed cases have been reported in the last 24 hours in the country.

78.2% of the new cases are concentrated in ten States/UT. Maharashtra contributed close to 16,000 to the new cases, lower than the day before. Kerala surged to second place with 9,258 new cases while Karnataka reported more than 8000 daily new cases.

78% of new cases in the 10 States & UTs

1,069 deaths have been registered in the past 24 hours.

10 States and UTs **account for 84.1%** of fatalities in the past 24 hours.

39.66% of deaths reported yesterday are from Maharashtra with 424 deaths followed by Karnataka with 125 deaths.

84% of new deaths in the 10 States & UTs
