

India records a new Milestone: Recovery Rate touches 90.00%

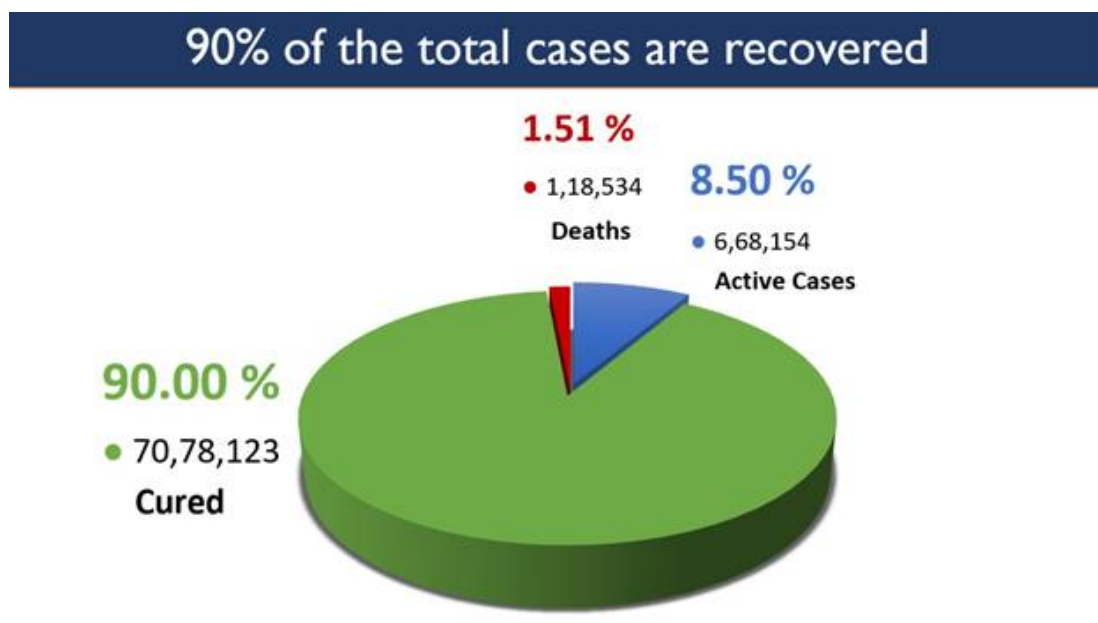

Active Caseload continues to slide, only 8.50% of Total Positive Cases

Less than 1000 deaths since last one week

Total number of labs exceeds 2000

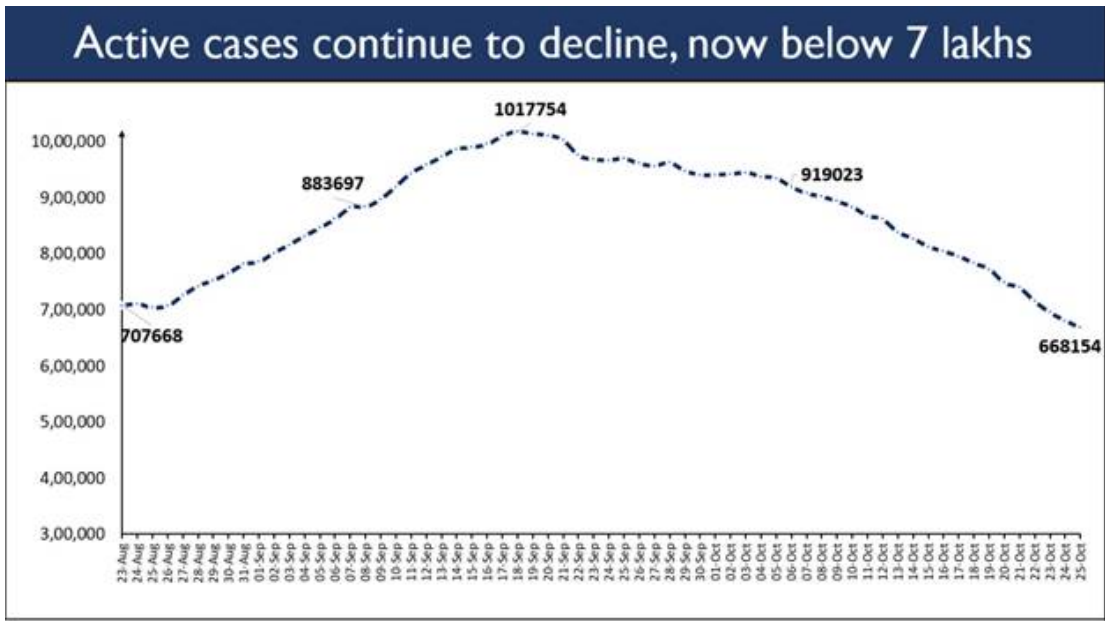

Posted On: 25 OCT 2020 11:11AM by PIB Delhi

India has recorded another landmark achievement. The national Recovery Rate has touched **90%** today. **62,077** have recovered and discharged in the last 24 hours whereas the new confirmed cases stand at **50,129**.

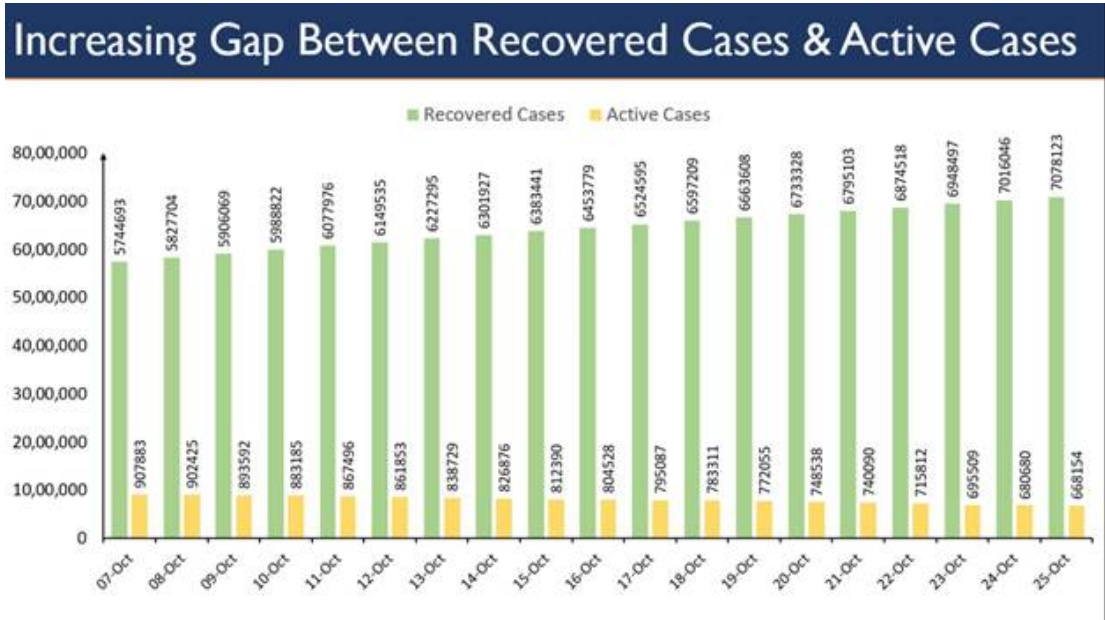

This achievement is matched by the downward spiral fall of the total active cases, which are maintained below the 7 lakh mark for the third successive day.

Presently the active cases comprise merely **8.50%** of the total positive cases of the country standing at **6,68,154**.

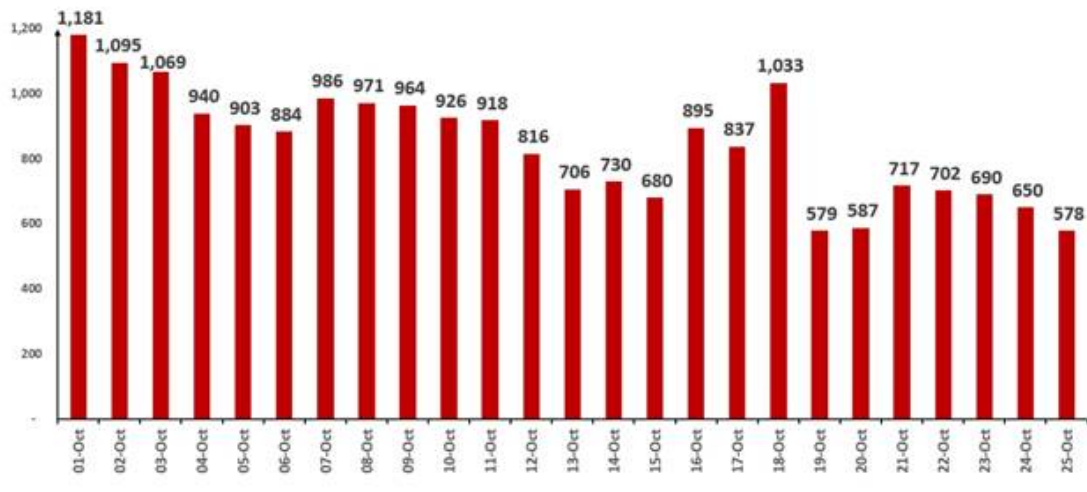

The total recovered cases also continue to rise. They are **70,78,123** so far. With increasing number of recoveries, this gap is continuously widening. The gap between Recovered cases and Active cases has crossed **64 lakh (64,09,969)**.

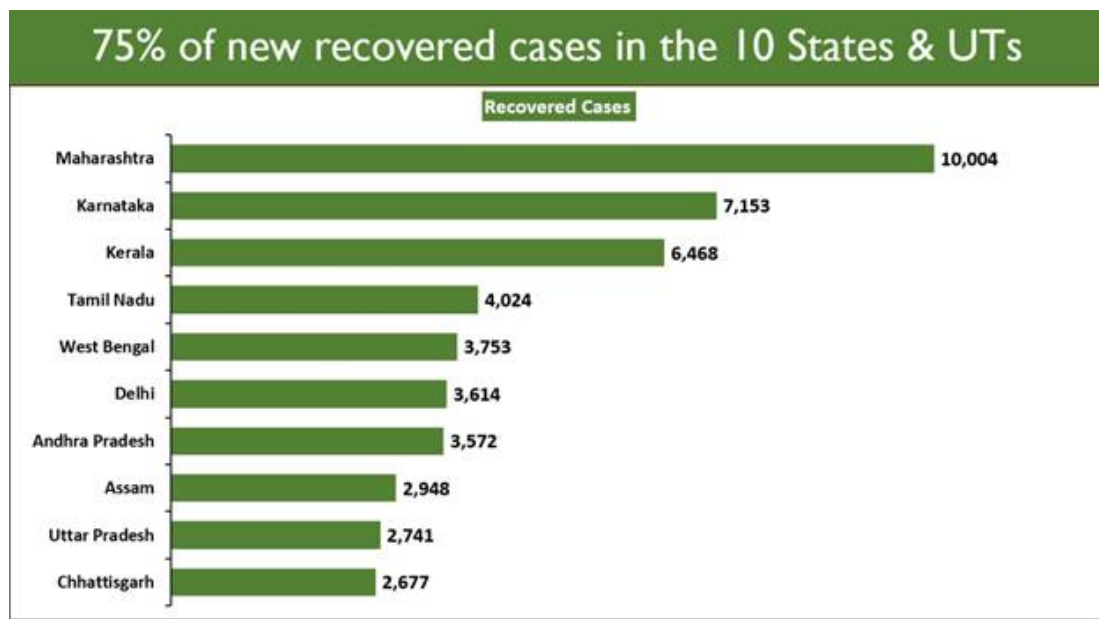

Less than 1000 deaths have been continuously reported since the last one week. The deaths are below the 1100 mark since 2nd October.

Less than 1100 deaths have been reported continuously since 2nd Oct

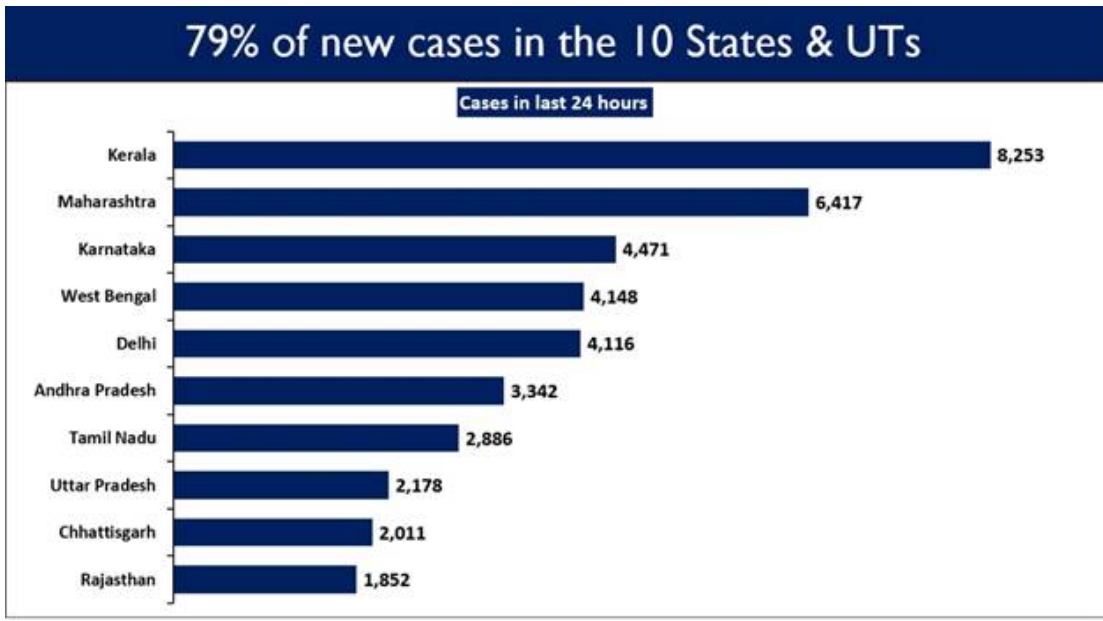

75% of the new recovered cases are observed to be concentrated in 10 States/UTs viz. Maharashtra, Karnataka, Kerala, Tamil Nadu, West Bengal, Delhi, Andhra Pradesh, Assam, Uttar Pradesh, and Chhattisgarh.

Maharashtra leads the tally with more than 10,000 single day recoveries.

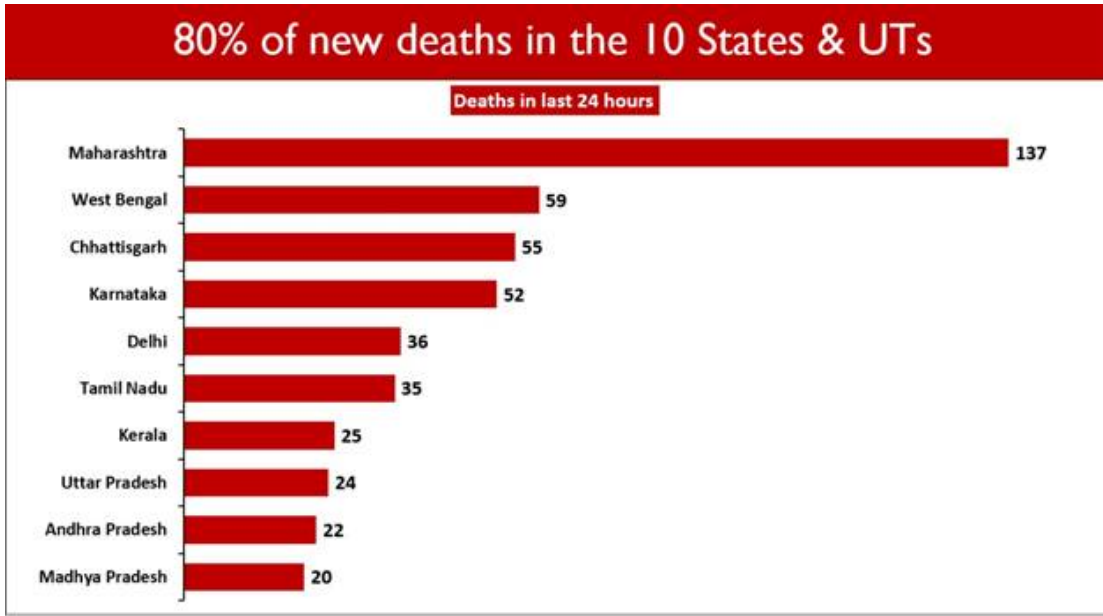

50,129 new confirmed cases were recorded in last 24 hours.

79% of the new cases are from 10 States and UTs. Kerala continues to be the State reporting a very high number of new cases with more than 8,000 cases followed by Maharashtra with more than 6,000 cases.

578 case fatalities have been reported in the past 24 hours. Of these, **nearly 80%** are concentrated in ten States/UTs.

Maharashtra has contributed the maximum to the new fatalities with 137 deaths.

India's **testing lab network** has inked another achievement today. The total number of labs has crossed **2000**. Starting from one lab in Pune, the number of labs stands at 2003 which includes 1126 Government laboratories and 877 Private laboratories.
