# India reports 37th Day of Recoveries outnumbering New Cases

## Positivity Rate and Daily Fatalities continue with sustained Decline

Posted On: 09 NOV 2020 11:00AM by PIB Delhi

For the second day, new cases reported in the last 24 hours did not cross the 50,000 mark. **45,903 persons** have tested positive for COVID-19 in the last 24 hours. New daily cases continue to trend downwards with the success of Jan-Andolan promoting COVID appropriate behaviour.

The trend of recoveries outnumbering new cases has continued for the 37th Day with **48,405** cases recovering in the last 24 hours.

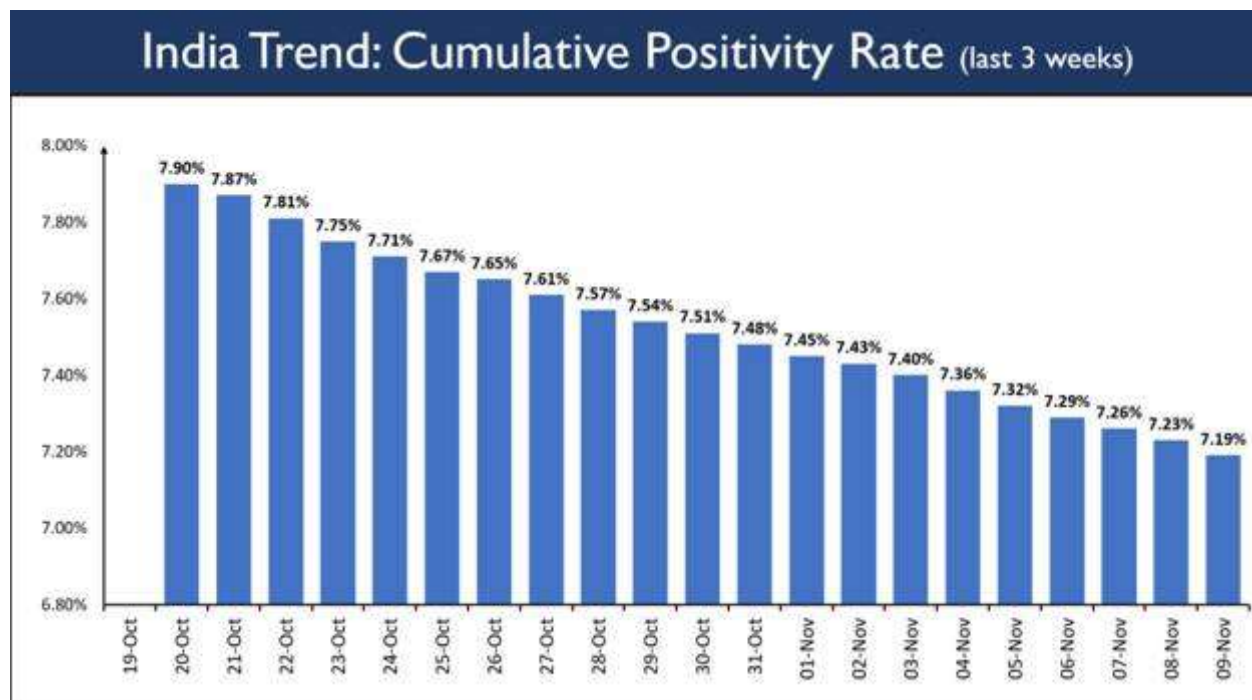

This trend has continued to shrink the active caseload of India which is presently 5.09 lakhs. With a manageable contribution of **5.95%** of India's total positive cases, India's active caseload stands at **5,09,673**.

The Recovery Rate has also been boosted with the trend of recoveries exceeding new cases. It presently stands at **92.56%**. Total Recoveries today stand at **79,17,373**. The gap between Recovered cases and Active cases has steadily widened to **74,07,700**.

India's Cumulative Positivity Rate has also declined as new cases decline but focus on testing remains a prime commitment of the Centre and the State/UT governments. India's Cumulative Positivity Rate has dropped to **7.19% today**.

**79%** of the new recovered cases are observed to be concentrated in 10 States/UTs.

Maharashtra has reported the maximum number of single day recoveries with 8,232 newly recovered cases. 6,853 people recovered in Kerala followed by 6,069 in Delhi.

**79% of the new cases** are from 10 States and UTs.

Delhi has reported the highest daily new cases, also its highest tally so far with 7,745 new cases. Delhi is followed by Maharashtra with 5,585 cases and Kerala with 5,440 cases.

## 79% of new cases in the 10 States & UTs

490 case fatalities have been reported in the past 24 hours. Fatalities have continued to decrease with less than 500 fatalities reported in the last 24 hours.

## Daily New Deaths

Of these 490 new deaths, ten States/UTs account for **nearly 81%**. More than a quarter (25.51%) of mortalities reported in the last 24 hours is from Maharashtra with 125 fatalities. Delhi and West Bengal follows with 77 and 59 new deaths, respectively.

## 81% of new deaths in the 10 States & UTs
