

# Centre rushes high level teams to Himachal Pradesh, Punjab and Uttar Pradesh to support the States in COVID response and management

## Active Caseload declines to 4.85% of Total Cases

## Recovery Rate increases to 93.69%

Posted On: 22 NOV 2020 11:24AM by PIB Delhi

The Union Government has decided to depute high level Central Teams to Uttar Pradesh, Punjab and Himachal Pradesh to support the States in COVID response and management. These States have been either reporting a rise in the number of active cases i.e. those who are hospitalized or are in home isolation under medical supervision, or demonstrating a rise in the daily new cases.

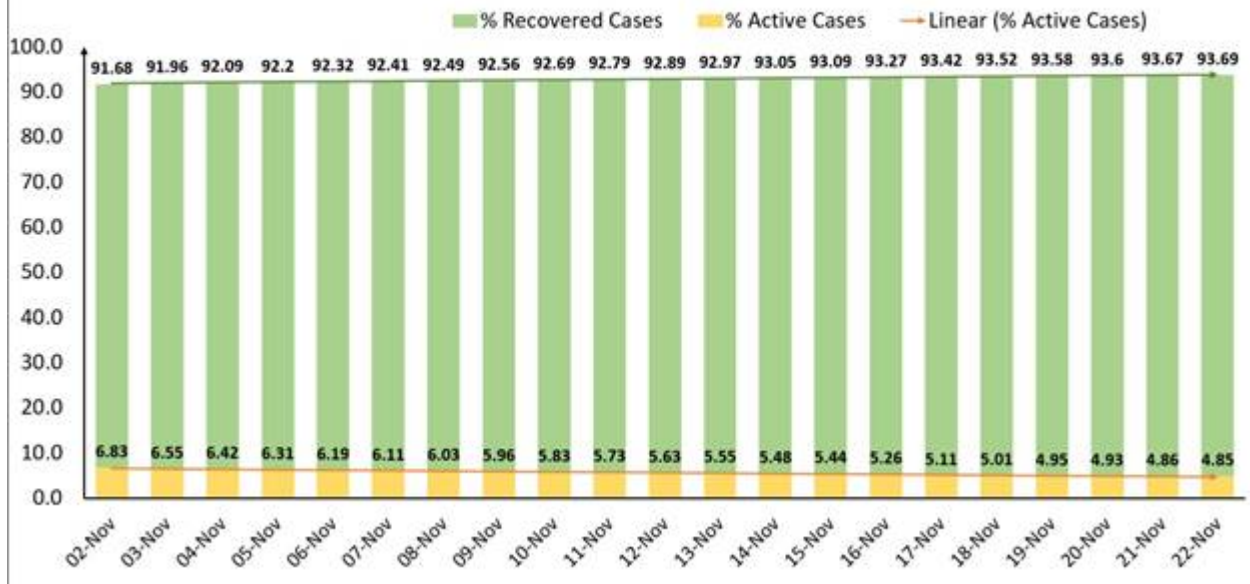

These three-member teams will visit the districts reporting high number of COVID cases and support the State efforts towards strengthening containment, surveillance, testing, infection prevention and control measures, and efficient clinical management of the positive cases. The Central teams shall also guide in effectively managing the challenges related to timely diagnosis and follow up.

Earlier the Union Government has sent the high level teams to Haryana, Rajasthan, Gujarat and Manipur, and Chhattisgarh.

India's present active caseload (**4,40,962**) has further declined to **4.85%** of the total Positive Cases, and has been sustained below the 5% mark. The Recovery Rate has improved to **93.69%** today as the country registered **43,493** new recoveries in the last 24 hours taking the total recovered cases to **85,21,617**.

The gap between Recovered cases and Active cases is steadily increasing and presently stands at **80,80,655**.
