India has achieved several significant milestones in its fight against COVID.

The new confirmed cases in the last 24 hours have **fallen under 22,100**. The daily new cases stand at **22,065 after 161 days**. The new added cases were 22,252 on 7<sup>th</sup> July, 2020.

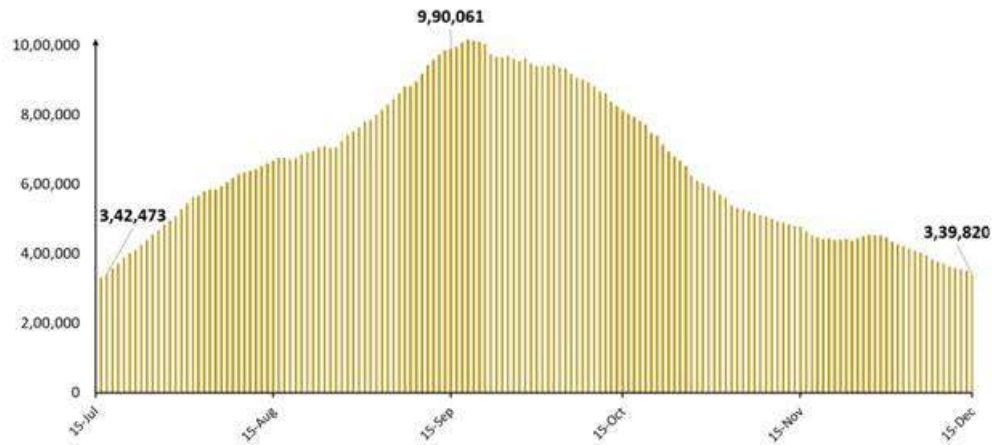

With a high number of COVID patients recovering every day and the sustained fall in the mortality rate, India's steady trend of registering dipping active cases continues.

In another achievement, the active cases have drastically declined **below 3.4 lakh**. The total positive cases of the country are **3,39,820** and now comprise merely **3.43%** of the total cases.

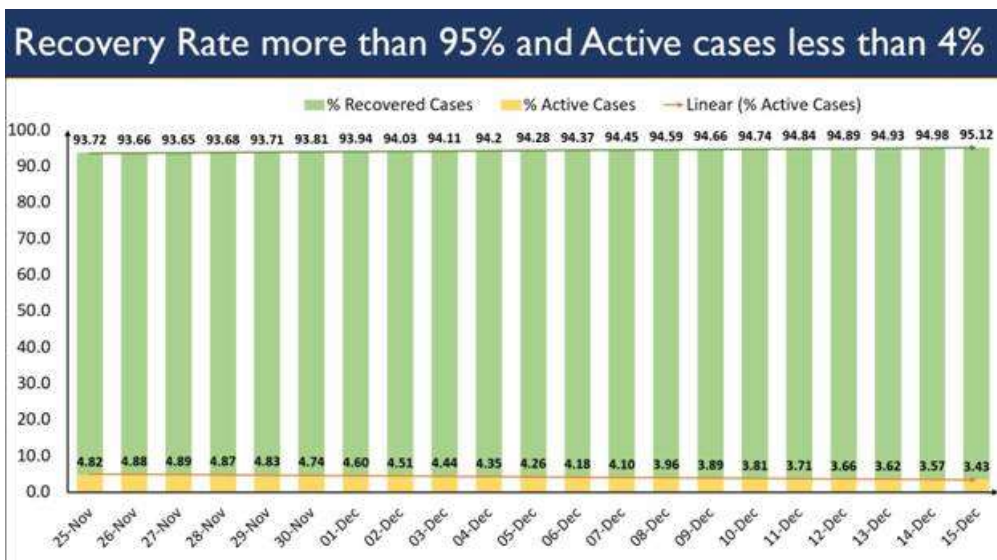

## Active cases continue to decline, now below 3.5 lakhs

The slide in the active cases is supplemented by an exponential rise in the recoveries. The total recovered cases have **crossed 94 lakhs (94,22,636)**. The gap between active cases and recovered cases is continuously increasing and stands at **90,82,816**.

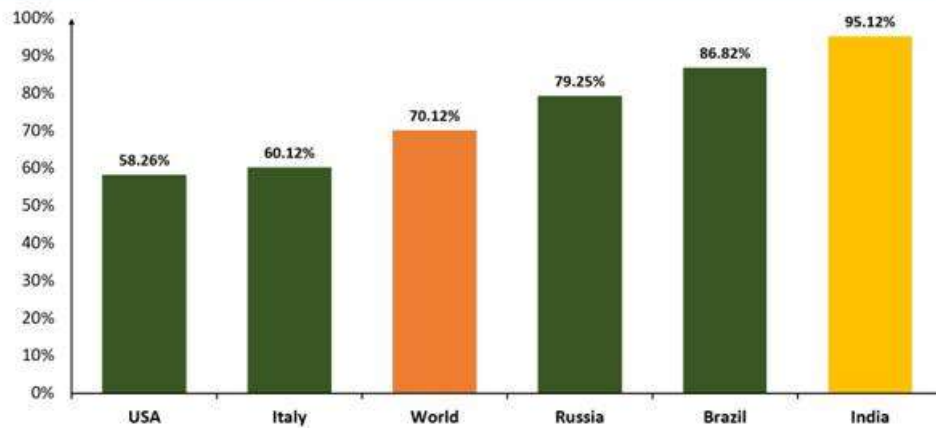

The national Recovery Rate has further escalated to **95.12%**.

India's Recovery Rate is **one of the highest in the world** for countries with high caseload.

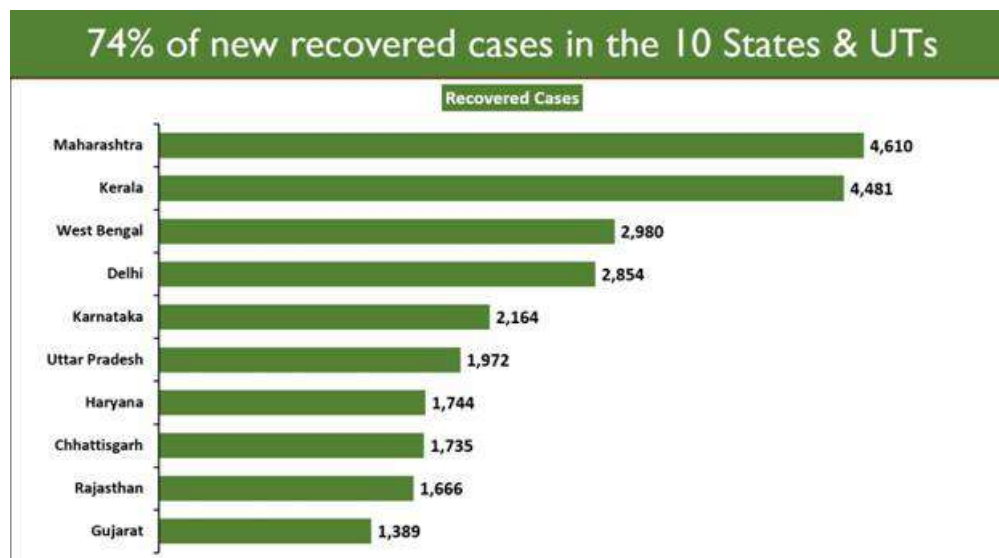

## Recovery rate – Highest in the world

**34,477** patients have recovered and discharged in the last 24 hours.

**74.24%** of the new recovered cases are observed to be concentrated in 10 States/UTs.

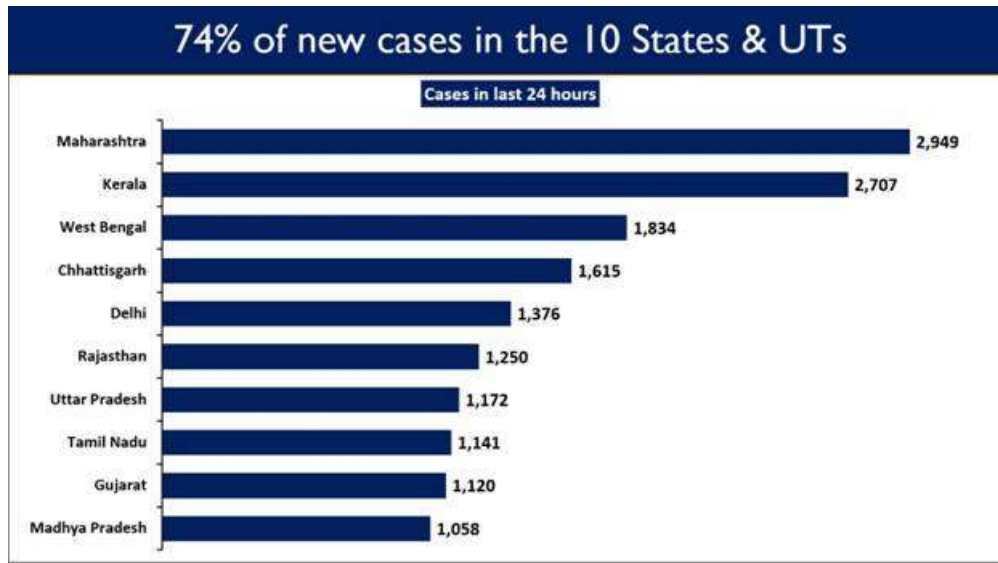

Maharashtra has reported the maximum number of single day recoveries with 4,610 newly recovered cases. 4,481 people recovered in Kerala followed by 2,980 in West Bengal.

**73.52%** of the new cases are from 10 States and UTs.
