India reports less than 30K Daily New Cases continuously for last 13 days

Daily Recoveries outnumber daily New Cases successively since last 29 days

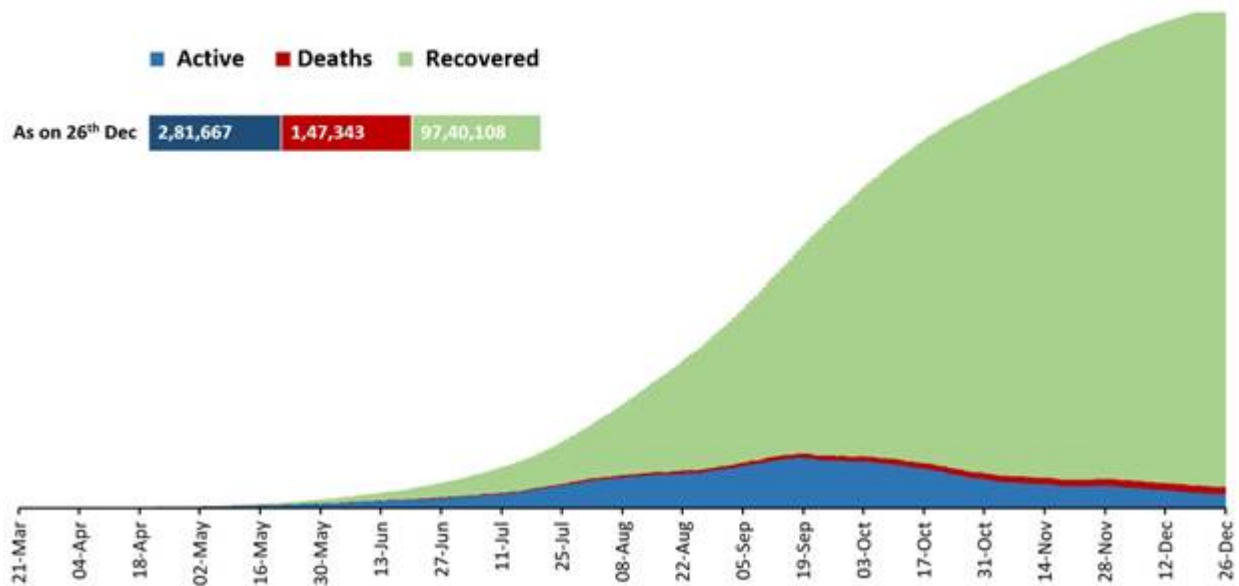

Posted On: 26 DEC 2020 10:44AM by PIB Delhi

The exponential rise in recoveries in tandem with lower daily new cases has resulted in consistent decline in the active cases and low mortality. Total recovered cases are nearing **97.5 lakh (97,40,108) today**. India's cumulative recoveries are **highest in the world**.

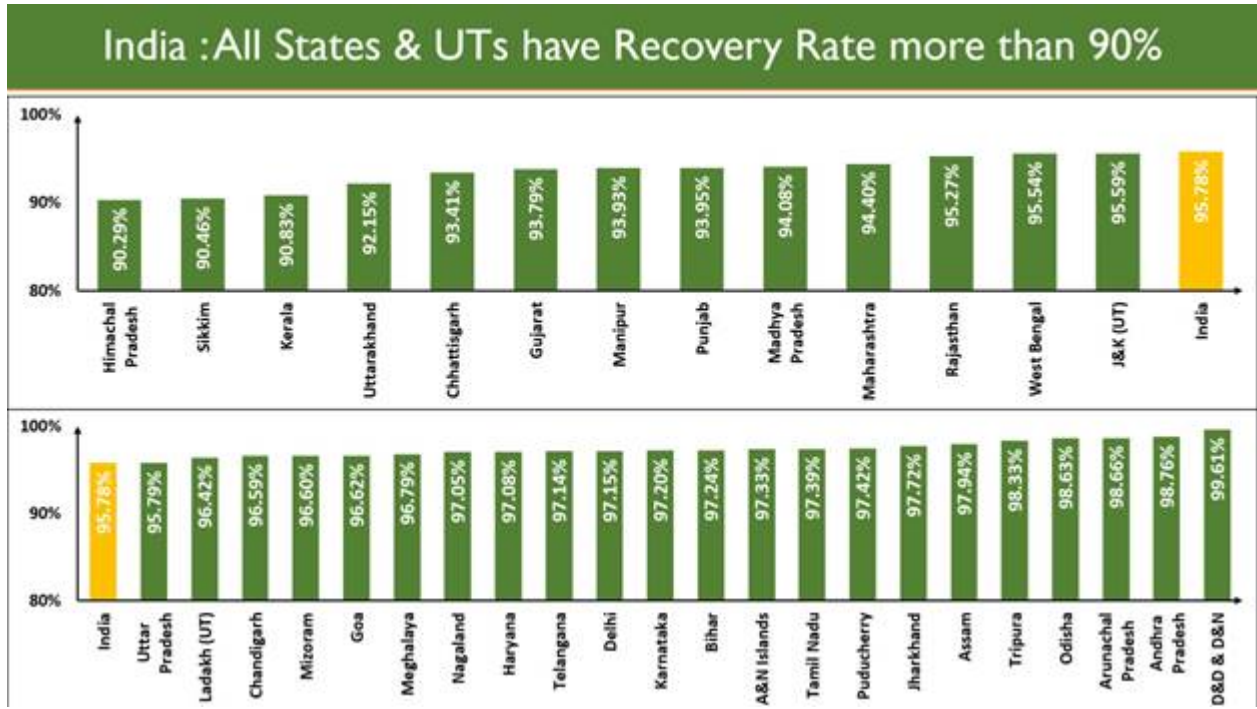

The rising recoveries have also improved the Recovery Rate to **95.78%** today.

India's present active caseload of **2,81,667** consists of **2.77%** of India's Total Positive Cases.

Recovered Cases cross 97 lakhs and Active Cases below 3 lakhs

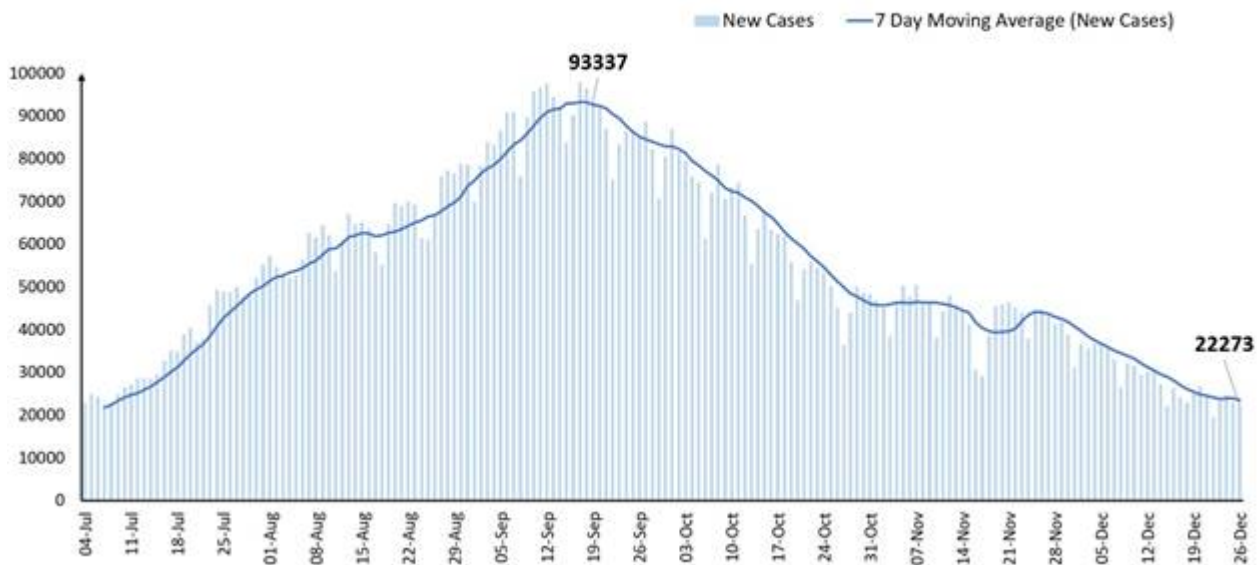

Following the national pursuit, All States/UTs have recovery Rate more than 90%.

The daily new cases have been less than 30,000 for last 13 days. **22,273** new cases were registered in the last 24 hours in the country.

Daily new cases less than 30,000 for last 13 days

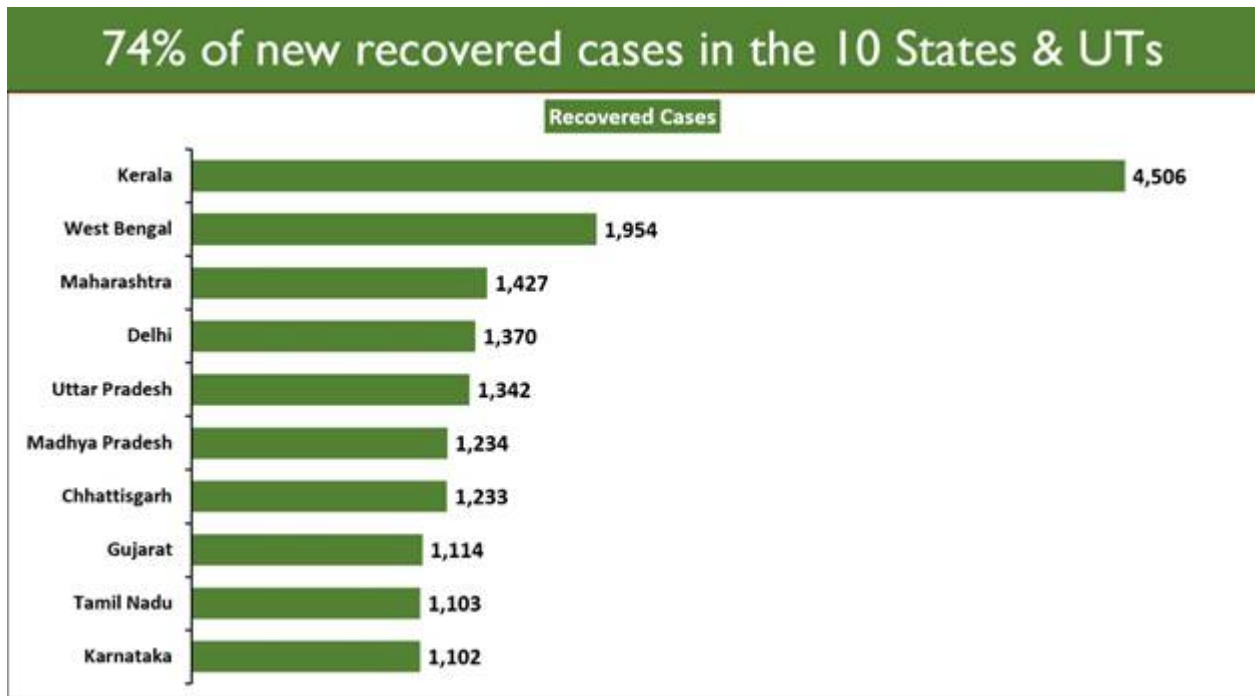

The daily new recoveries recorded in the country have been more than the daily cases registered since the **last 29 days**. **22,274** cases recovered and were discharged in the last 24 hours.

New recoveries have exceeded new cases continuously in the last 29 days

73.56% of the new recovered cases are observed to be concentrated in 10 States/UTs.

Kerala has reported the maximum number of single day recoveries with 4,506 newly recovered cases. 1,954 people recovered in West Bengal followed by 1,427 in Maharashtra.

79.16% of the new cases are from 10 States and UTs.

Kerala reported the highest daily new cases at 5,397. It is followed by Maharashtra with 3,431 new cases. West Bengal recorded 1,541 new cases.

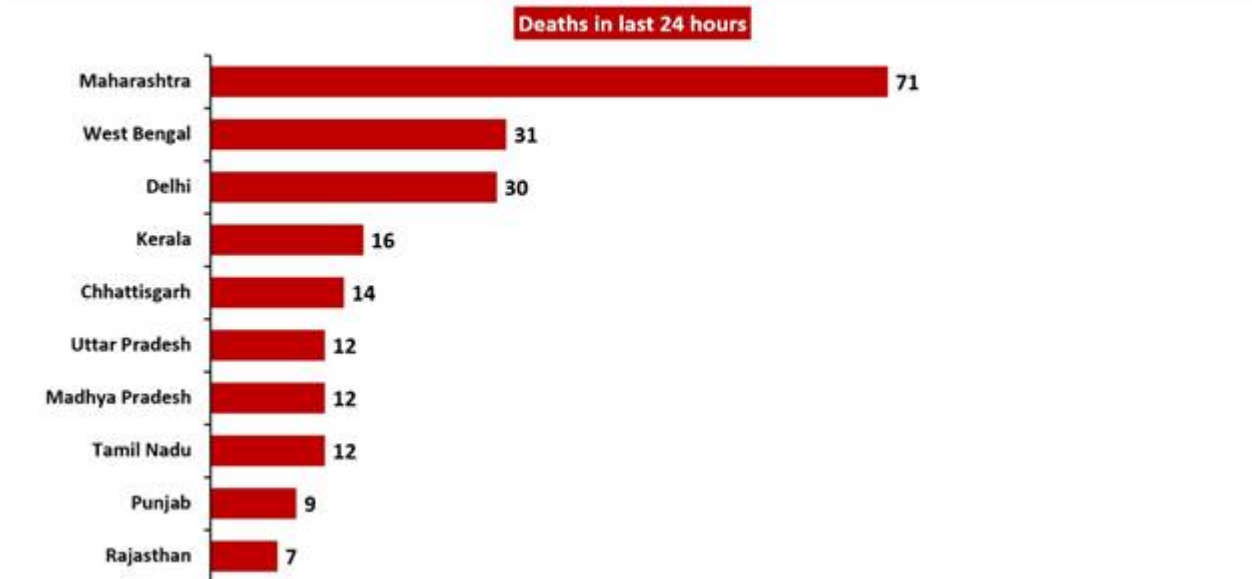

79% of new cases in the 10 States & UTs

251 case fatalities have been reported in the past 24 hours.

Ten States/UTs account for **85.26%** of the new deaths. Maharashtra saw the maximum casualties (71). West Bengal and Delhi follow with 31 and 30 daily deaths, respectively.

85% of new deaths in the 10 States & UTs
