## COVID19 Update

### Union Health Secretary writes to Maharashtra, Kerala, Chhattisgarh, and West Bengal

### States urged to take prompt steps and to keep a 'strict vigil' to curb recent spike in COVID cases

### States advised against any laxity which may squander the results gained so far

Posted On: 07 JAN 2021 6:22PM by PIB Delhi

The Union Health Secretary has written to Maharashtra, Kerala, Chhattisgarh and West Bengal urging them to take steps to curb the spike in COVID19 cases. These States are reporting an upsurge in the number of daily news cases in the recent days.

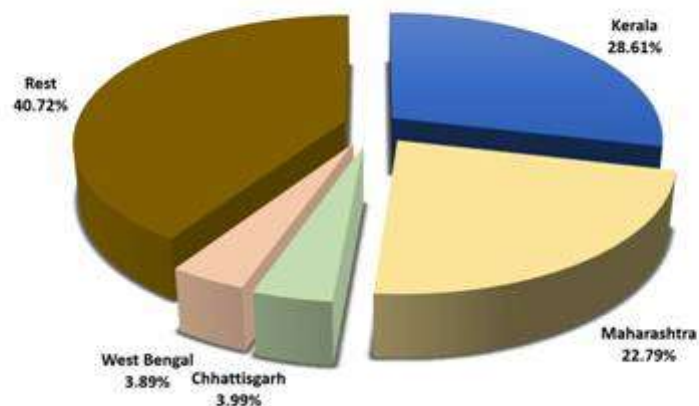

The States have been advised to maintain a 'strict vigil' and to take steps to keep a check on the rising cases, especially in view of the new strain of the virus being observed in certain countries which has also been reported in a few States in the India. The Health Secretary has drawn the attention of the States to the low and declining testing rates in the States, stating that any laxity at this crucial junction may squander the results of our collective actions in containing the transmission. They have been advised to analyse the surge at the district and sub-district levels to understand the reasons for this rise and plan adequate measures proactively to curb the same. Aggressively implementation of the 'Test-Track-Treat' strategy adopted by the country has been strongly advised now more than ever by the Union Health Secretary. The health authorities in the States have also been advised to proactively promote wearing of mask and other COVID appropriate behaviours even while the vaccination drive is about to begin. It is important to ensure that there is no complacency in the collective efforts in containment and management of COVID19, the Health Secretary has strongly reiterated.

The States have been assured of all necessary support of the Health Ministry required to manage the pandemic.

**The four states comprise 59% of the total active cases in the country.**

## 4 States/UTs account for 59% of total active cases in the country

The total COVID19 cases in Kerala are 7,90,882 which form 7.61% of the total cases. %. The Active Cases are 65,252 (comprising 28.61% of the total national figure). Total number of Recovered Cases is 7,22,421 accounting for Recovery Rate of 91.34, while the total deaths in the State are 3,209 with Case Fatality Rate of 0.41%. **The Daily Average cases in Kerala in the last 7 days are 5,023 whereas Daily Average Deaths in the last 7 days are 23.** The tests per million (TPM) of Kerala stand at 1,96,432 and Positivity Rate is 11.28%.

	Kerala	% Share in Total
<b>Total Cases</b>	7,90,882	7.61%
<b>Total Recovered</b>	7,22,421	7.21%
<b>Total Deaths</b>	3,209	2.13%
<b>Active Cases</b>	65,252	28.61%
<b>Daily Average Cases in last 7 days</b>	5,023	
<b>Daily Average Deaths in last 7 days</b>	23	
<b>Recovered in last 7 days</b>	4,227	
<b>Case Fatality Rate</b>	0.41%	
<b>Recovery Rate</b>	91.34%	
<b>Doubling Time (in days)</b>	106.68	
<b>TPM</b>	1,96,432	
<b>Total Tests</b>	70,12,513	
<b>Daily Average Tests in last 7 days</b>	51,524	
<b>Overall Positivity rate</b>	11.28%	
<b>Weekly Positivity rate</b>	9.75%	

The Health Secretary has expressed concern over the dip in the overall tests in the past two weeks in the state combined with increase in the Positivity Rate. The weekly Positivity Rate has been consistently above 11% for the past two weeks, while the case positivity rate for the country is less than 2.5% for the same period.

In view of the above, a high level central team led by Dr S K Singh, Director, National Centre for Disease Control (NCDC) has been rushed by the Central Government to Kerala. The team will review the public health interventions in management of COVID- 19 by the State Government and support the State health authorities in these measures.

Total Cases in Maharashtra stand at 19,54,553 accounting for 18.80% of the national figure. 18,52,759 patients have recovered in the State resulting in Recovery Rate of 94.79%. The **Active Cases in the State are 51,969 (amounting for 22.79% of national figure)**. The State has reported total of 49,825 fatalities, with CFR of 2.55%. The **Daily Average cases in Maharashtra in the last 7 days are 3,707 and Daily Average Deaths in the last 7 days are 51.**

The TPM is 1,02,870 while the State Positivity Rate is pegged at 15.43%.
