India's Total Recovered Cases leap past Active Cases by more than 1cr

Daily Fatalities drop to 145 after nearly 8 months

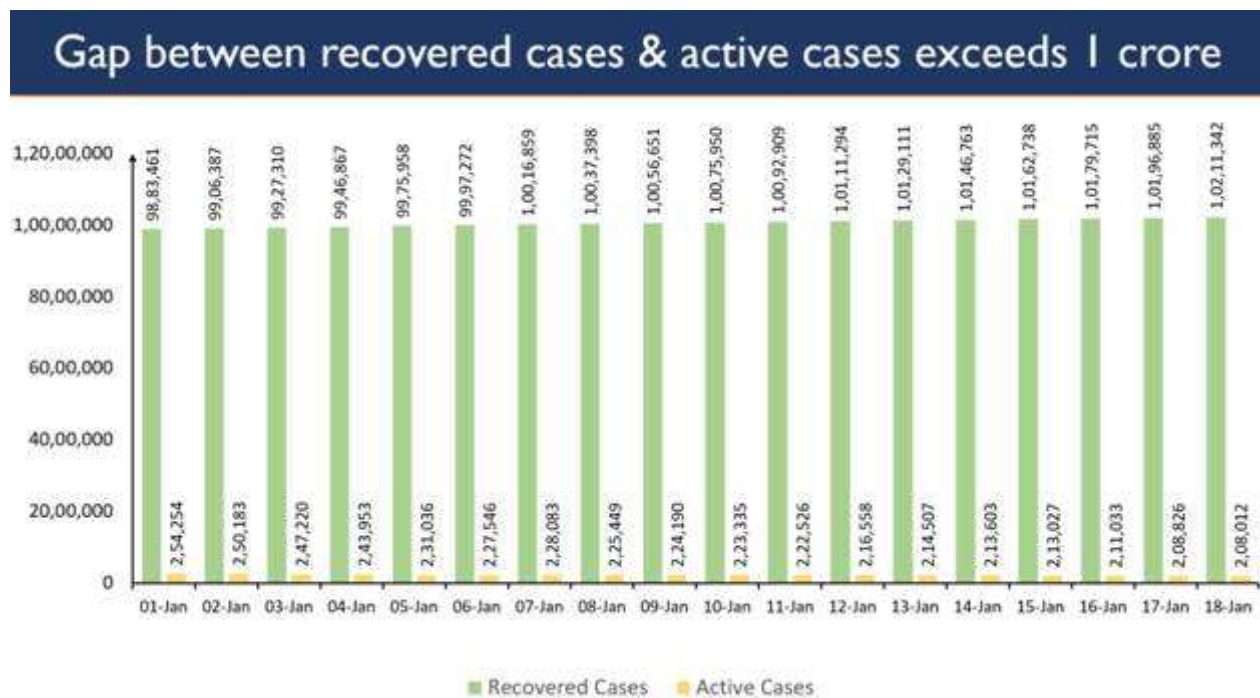

Posted On: 18 JAN 2021 12:07PM by PIB Delhi

In a landmark achievement, India's total recovered cases have leaped over the Active caseload by more than one crore today.

The total number of recoveries has touched **1,02,11,342** while the Active Cases in the country stand at **2,08,012** today. The gap between the two has progressively grown to touch 1,00,03,330. The total recovered cases are nearly 50 times the active cases in the country.

With this, India's Recovery Rate has touched **96.59%**.

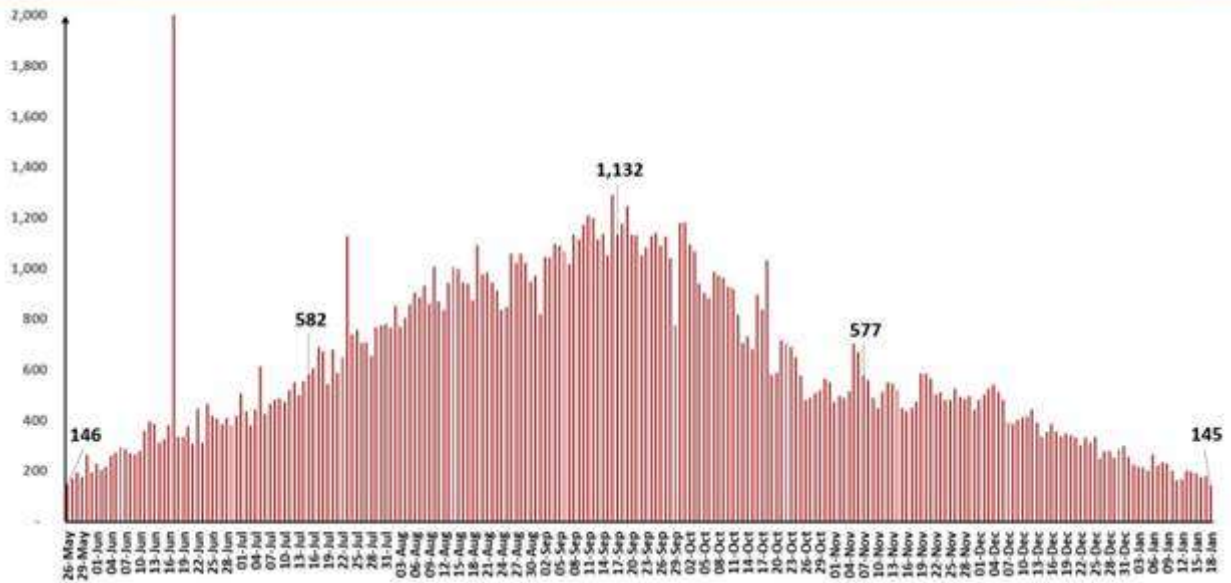

14,457 recoveries have been registered in the last 24 hours in the country while the number of new confirmed cases in the last 24 hours is **13,788**.

As India's daily positive cases see a continuous slide, the daily fatalities due to COVID19 in the country have also seen a steady decline. The country has recorded **less than 150 fatalities (145)** in the last 24 hours after **approximately 8 months (7months 23 days)**.

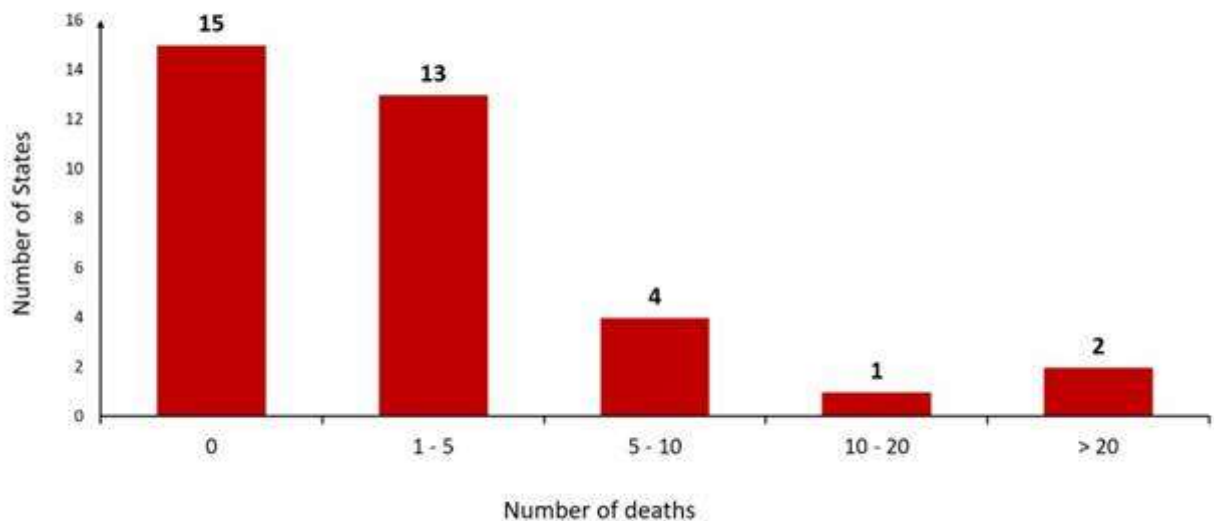

Daily deaths less than 150 after 8 months (approx.)

The following graph shows the daily deaths contribution by different States in last 24 hours. 15 States have contributed 0 deaths, 13 States have contributed between 1 to 5 daily deaths, 4 States have contributed 5 to 10 deaths, 1 State has contributed 10 to 20 Deaths and more than 20 States have contributed 2 Deaths.

Distribution of Daily Deaths
