Steady decline in number of deaths; Daily Fatalities below 150 continuously since last 10 days

17 States/UTs have not reported any death in last 24 hours

33 States/UTs have less than 5000 active cases

More than 58 lakh beneficiaries vaccinated against COVID19- India 3rd topmost country with maximum vaccinations

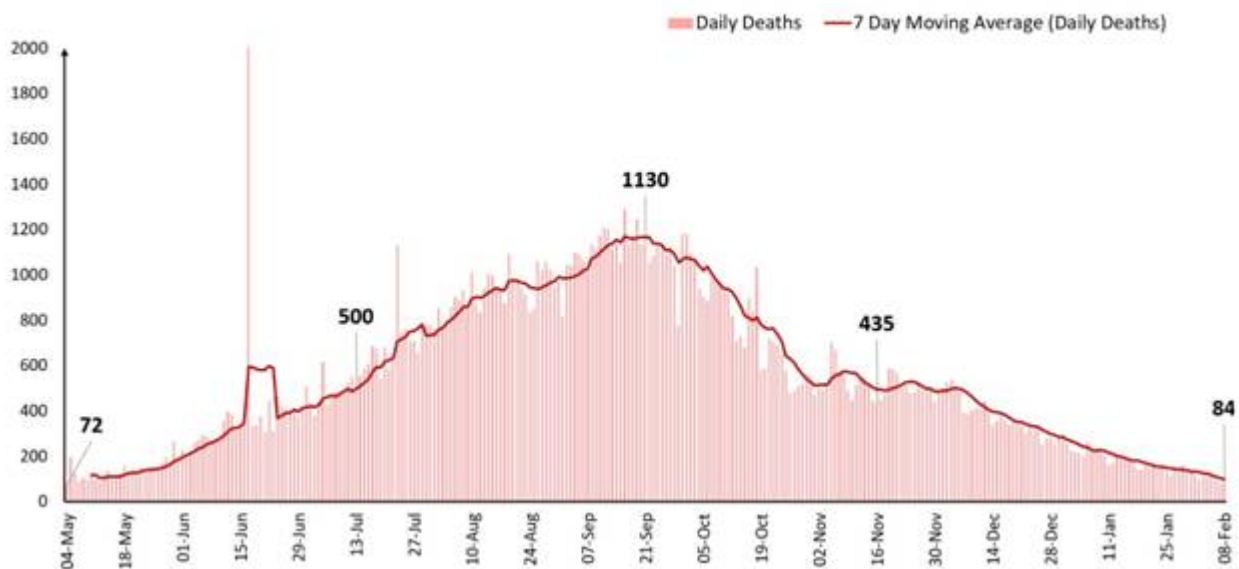

Posted On: 08 FEB 2021 11:06AM by PIB Delhi

In a significant achievement, India has been recording less than 150 daily deaths continuously for the last 10 days. **Only 84 deaths were reported in the last 24 hours.**

The effective strategy of containment including prompt tracing & tracking, aggressive and widespread testing, combined with standardized clinical management protocols have ensured the low mortality levels, in addition to consistent low daily positive cases.

Daily deaths less than 100 in last 24 hrs

As part of the COVID management and response policy, there has been a sharp focus of the Central Government on not only containing the COVID related fatality, but to reduce deaths and to save lives by providing quality clinical care to the critical and severe patients of COVID.

Collaborative efforts of the Union and State/UT governments have resulted in reducing the case fatality level substantially.

17 States/UTs have not reported any deaths in the last 24 hours. These are A&N Islands, D&D & D&N, Arunachal Pradesh, Tripura, Mizoram, Nagaland, Lakshadweep, Ladakh (UT), Sikkim, Rajasthan, Meghalaya, Madhya Pradesh, J&K, Puducherry, Andhra Pradesh, Odisha and Assam.

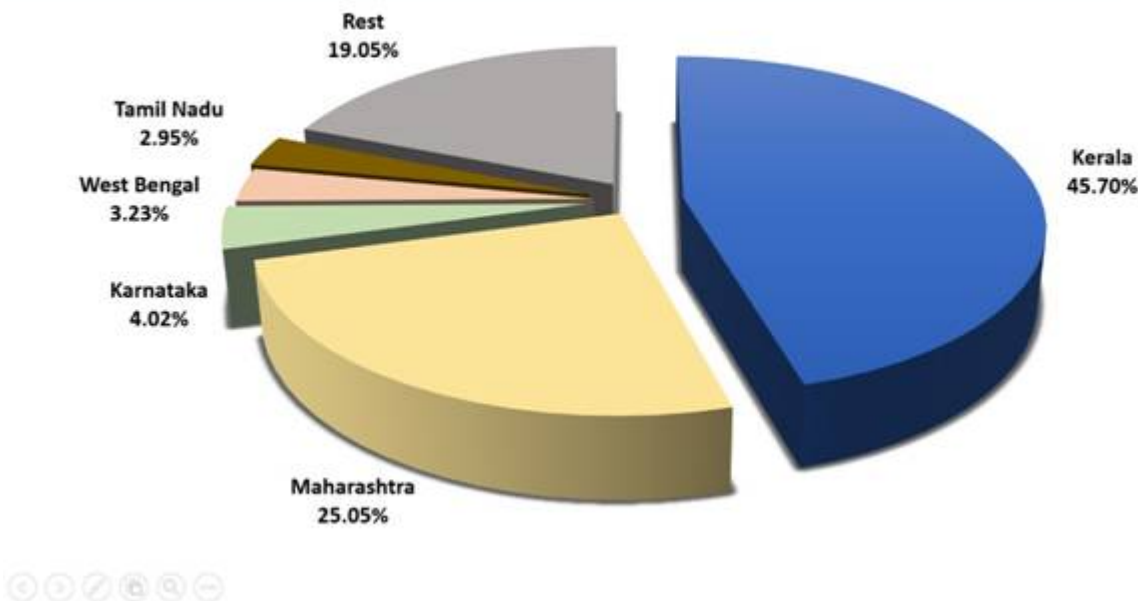

The country's active cases decline further to **1,48,609** in the last 24 hours. The active cases of the country now comprise just **1.37%** of the total positive cases.

11,831 new confirmed cases were recorded in the last 24 hours in the country. **11,904** new recoveries were registered in the same period.

5 States account for **81%** of the total active caseload of the country. **Two States, Kerala and Maharashtra** cumulatively account for **70%** of the total active cases of India.

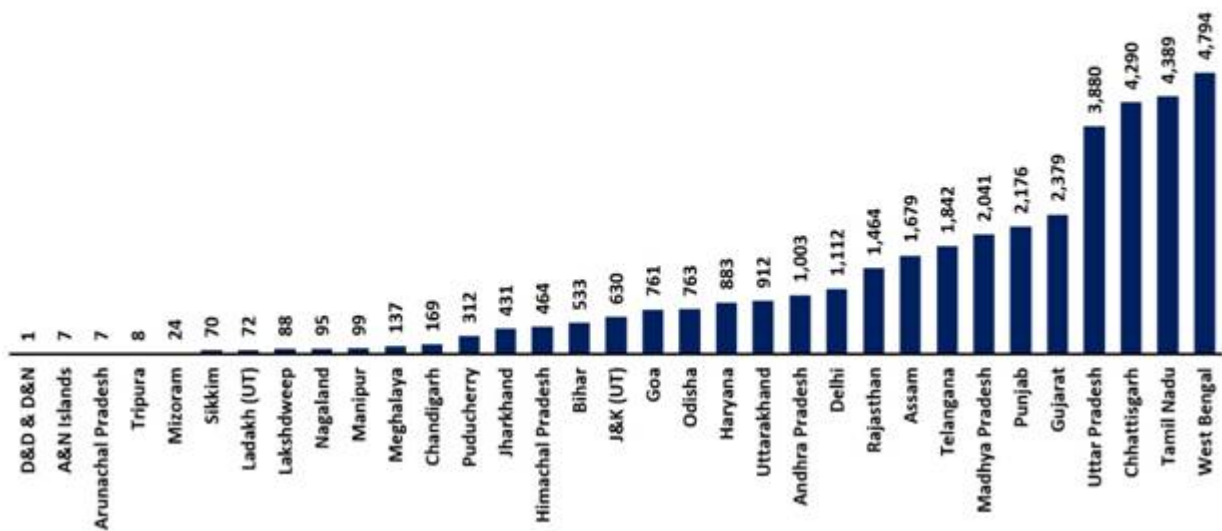

5 States account for 81% of total active cases in the country

33 States/UTs have less than 5,000 active cases.

33 States & UTs have less than 5,000 active cases

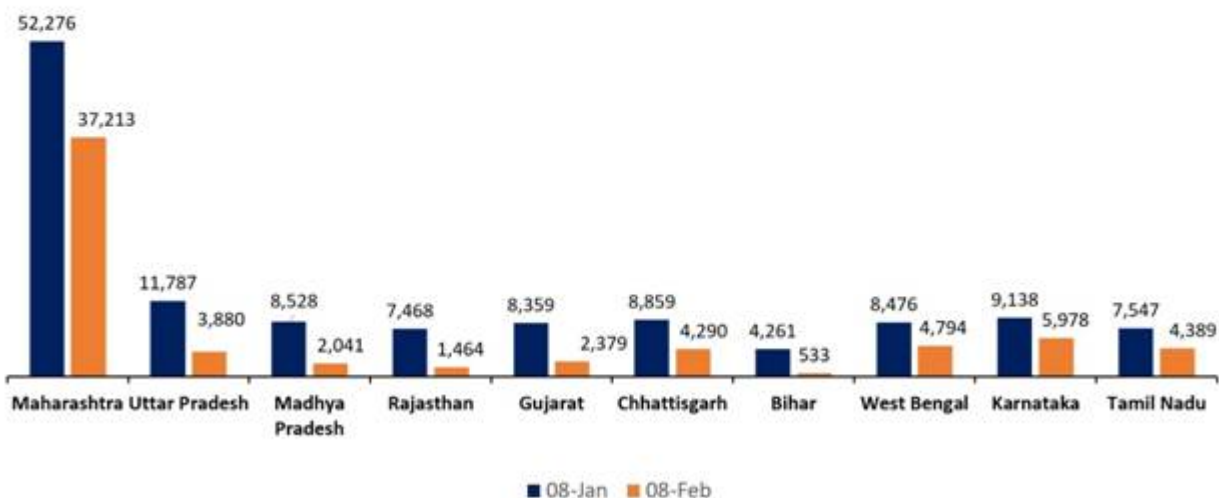

Following the national trend, States/UTs have also shown a significant decline in their active caseload.

Maharashtra has shown the maximum decline of active cases in the last month, followed by Uttar Pradesh.
