

UPDATE on COVID19 VACCINES

More than 21 crore vaccine doses provided to States/UTs

More than 1.97 crore doses still available with States/UTs to be administered

Posted On: 20 MAY 2021 1:43PM by PIB Delhi

Vaccination is an integral pillar of the comprehensive strategy of Government of India for containment and management of the pandemic, along with Test, Track, Treat and COVID Appropriate Behaviour. As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost.

Govt. of India has also been facilitating direct procurement of vaccines by the States/UTs.

Implementation of the Liberalized and Accelerated Phase 3 Strategy of Covid-19 Vaccination has started from 1st May 2021. Under the Strategy, in every month 50% of the total Central Drugs Laboratory (CDL) cleared vaccine doses of any manufacturer would be procured by Govt. of India. It would continue to make these doses available to the State Govts totally free of cost as was being done earlier.

Government of India has so far provided, both through the free of cost category and through direct state procurement category, more than 21 crore vaccine doses (21,07,31,130) to States/UTs. Of this, the total consumption (including wastages) is 19,09,60,575 doses (as per data available at 8 AM today).

Nearly 2.00 crore (1,97,70,555) COVID Vaccine doses are still available with the States/UTs to be administered.

Furthermore, nearly 26 lakh (25,98,760) vaccine doses are in the pipeline and will be received by the States/UTs within the next 3 days.
