

Union Home Secretary reviews COVID-19 situation in North Eastern (NE) States and Union Territories

Posted On: 07 JUL 2021 5:34PM by PIB Delhi

The Union Home Secretary chaired a meeting here today to review the COVID-19 situation in all the North Eastern (NE) States and Union Territories (UTs).

During the meeting, current status and trends on the active cases, Case Fatality Rate (CFR), Case Positivity Rate (CPR) and vaccination status in respect of all the UTs and NE States was discussed. It was also noted that out of 73 districts in the country with CPR above 10 percent, 46 districts are in NE States, where strict containment measures need to be taken as per extant guidelines.

The Union Home Secretary emphasised to follow five-fold strategy of Test-Track-Treat-Vaccinate and COVID appropriate behaviour, as has been laid out in Ministry of Home Affairs (MHA) order dated 29th June, 2021. The NE States and UTs were advised to strictly monitor the situation at district/ city level and take timely corrective measures, wherever any early sign of surge is noticed. For those districts identified with high case positivity and higher bed occupancy, States/UTs may consider imposing restrictions in a calibrated manner. Strict enforcement of COVID appropriate behaviour was reiterated and it was advised to involve political leaders and civil society organisations.

The meeting was attended by Chief Secretaries, Directors General of Police and Principal Secretaries (Health) of these States/UTs. Member (Health) NitiAayog, Director NCDC and senior officers of the MHA and the Ministry of Health & Family Welfare were also present.
