

“Guidelines for Buffer Stock Management of COVID 19” to State Governments/UT administrations issued

States/UTs are being provided 15 days advance visibility of vaccine doses provided to them

Posted On: 27 JUL 2021 4:09PM by PIB Delhi

Ministry of Health and Family Welfare vide its D.O.No.X.11035/178/2021-DRS on dated 13.07.2021 issued “Guidelines for Buffer Stock Management of COVID 19” to State Governments/UT administrations requesting them to initiate the necessary procurement process on priority, with a view to ensure continuous availability of drugs for any possible future surge in cases.

The National Covid-19 Vaccination Programme is built on scientific & epidemiological evidence, WHO Guidelines and Global Best Practices. It is expected that beneficiaries aged 18 and above will be vaccinated by December 2021.

The National Covid-19 Vaccination Programme commenced with vaccination of Health Care Workers, free of cost. The Programme was expanded with time to include vaccination of Front Line Workers, citizens more than 60 years of age, citizens more than 45 years of age and eventually, citizens more than 18 years of age. Government of India procures and provides vaccine free of cost to the States/UTs. In addition, 25% of the monthly production of vaccine manufactured is available for procurement by private hospitals.

Government of India has made pro-active arrangements to augment the production capacities of domestic vaccine manufacturers by facilitating technology transfer, providing financial assistance, providing advance payment against supply orders and by streamlining the Regulatory pathway for approval of vaccines. Government of India has further placed procurement orders to ensure adequate supply of vaccines to facilitate vaccination of eligible adult citizens.

States/UTs are provided advance visibility of vaccine doses that would be supplied to them 15 days in advance to enable them to plan vaccination in accordance with availability of doses and to maximize the convenience of the beneficiaries.

The information was given by the Union Minister of Chemicals and Fertilizers, Shri Mansukh Mandaviya in a written reply in the Lok Sabha today.
