COVID-19 Update

- India's Cumulative COVID-19 Vaccination Coverage crosses the landmark of 45 Cr
- More than 43 Lakh vaccine doses administered in the last 24 hours
- Recovery Rate stands at 97.38%
- 43,509 Daily New Cases reported in last 24 hours
- India's Active Caseload (4,03,840) presently constitutes 1.28% of total cases
- Daily Positivity Rate (2.52%) less than 5% for 52 consecutive days

India's COVID-19 vaccination coverage crossed the landmark of 45 Cr yesterday. Cumulatively, **45,07,06,257** vaccine doses have been administered through 54,11,501 sessions, as per the provisional report till 8 am today. **43,92,697** vaccine doses were administered in the last 24 hours.

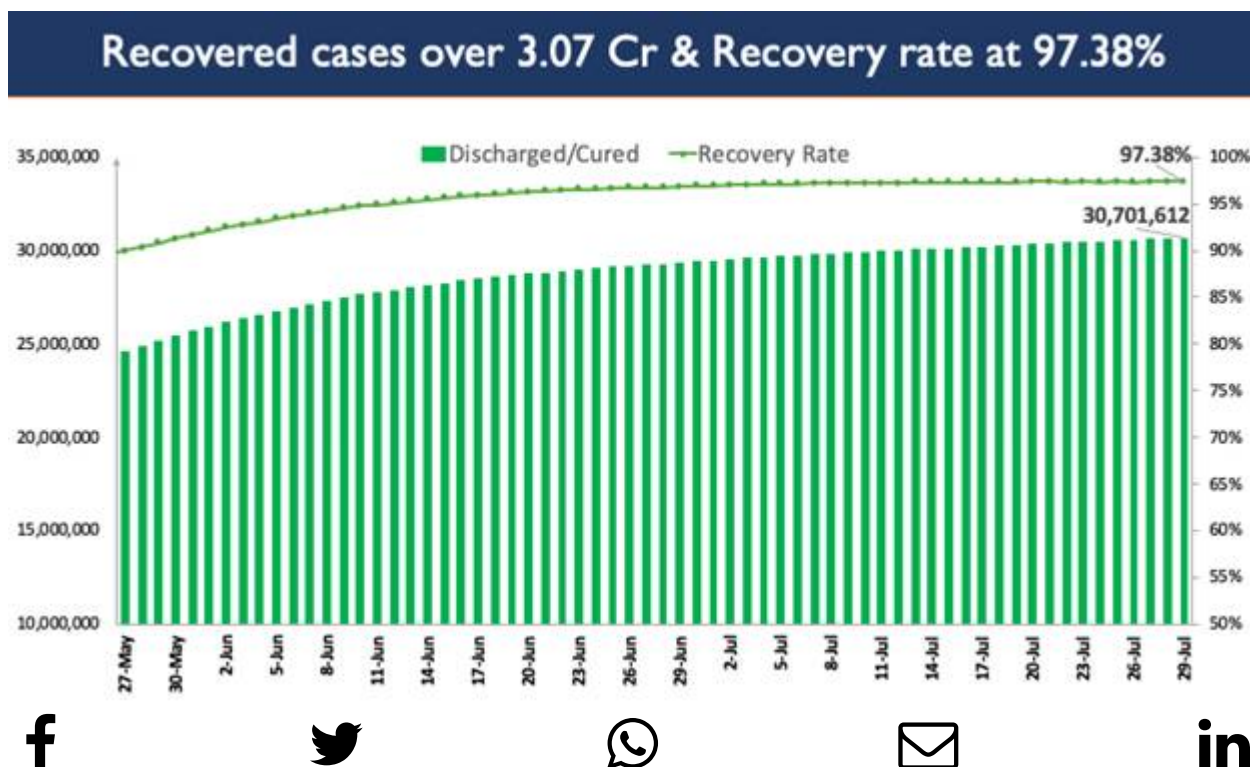

These include:

HCWs	1 st Dose	1,02,96,166
	2 nd Dose	77,71,787
FLWs	1 st Dose	1,79,14,176

	2 nd Dose	1,10,81,579
Age Group 18-44 years	1 st Dose	14,68,84,314
	2 nd Dose	72,09,744
Age Group 45-59 years	1 st Dose	10,30,99,861
	2 nd Dose	3,68,42,675
Over 60 years	1 st Dose	7,43,50,754
	2 nd Dose	3,52,55,201
Total		45,07,06,257

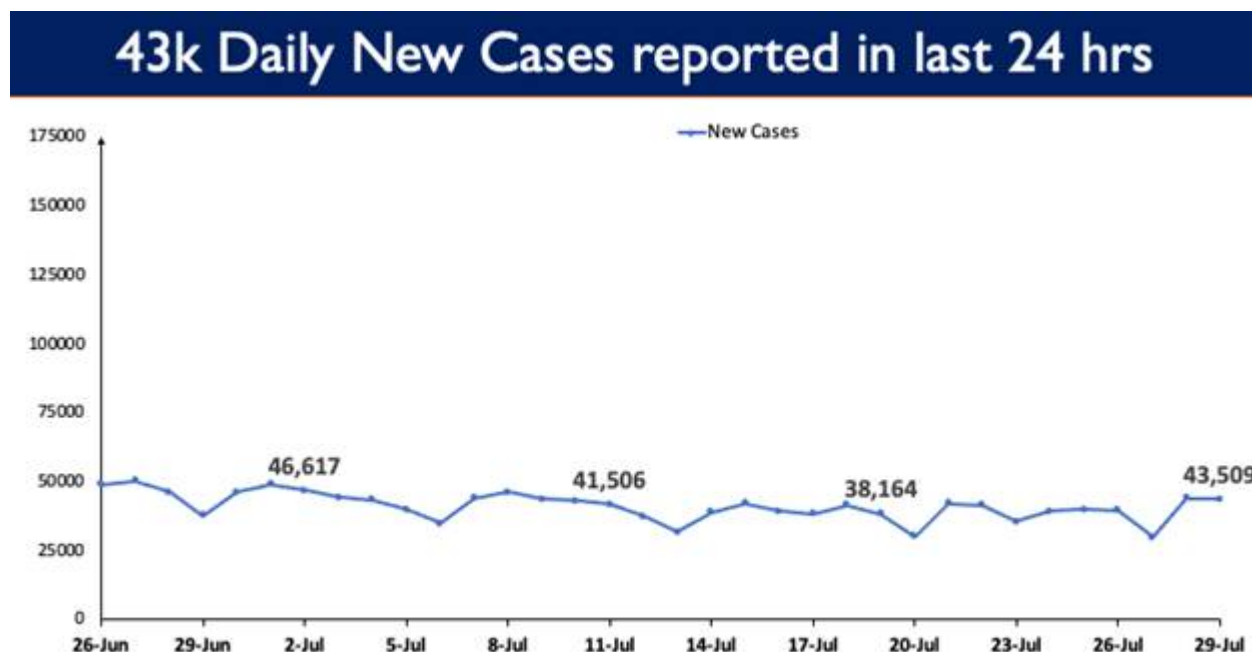

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,07,01,612 people have already recovered from COVID-19** and **38,465** patients have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.38%**.

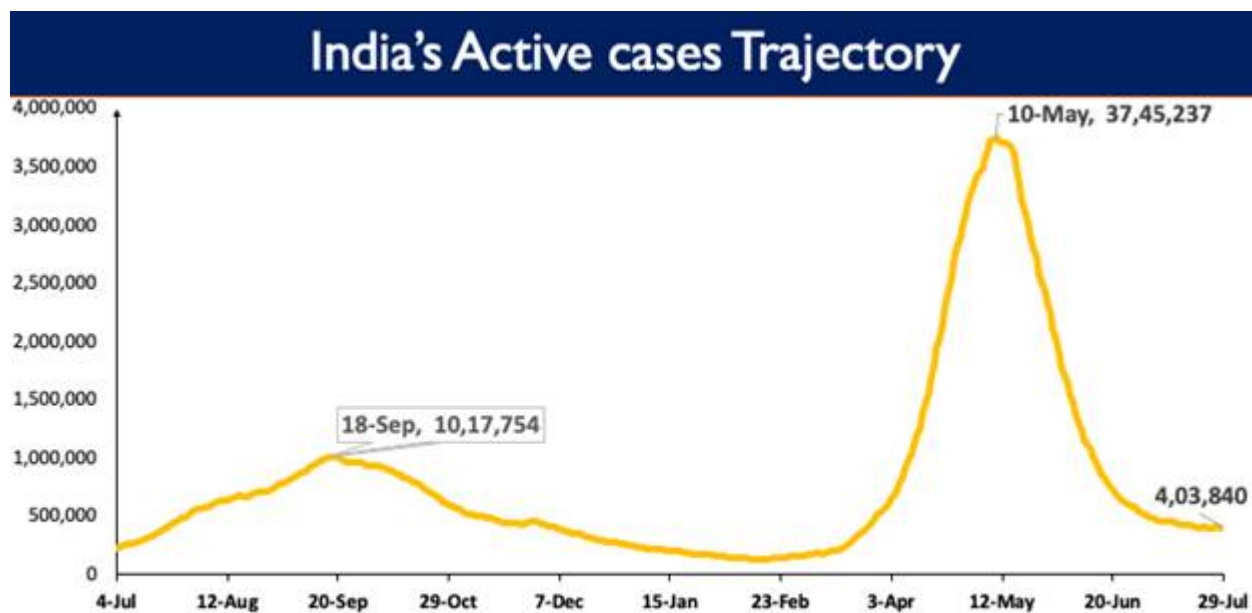

India has reported 43,509 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since thirty-two continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India's Active Caseload today stands at **4,03,840** and active cases now constitute **1.28%** of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 17,28,795 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **46 crore** (46,26,29,773) tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate is currently at 2.38%** and the **Daily Positivity rate stands at 2.52% today**. Daily Positivity rate has remained below 5% for 52 consecutive days now.

Landmark decision taken by Government of India in Medical Education

27% reservation for OBCs and 10% reservation for Economically Weaker Section (EWS) in All India Quota (AIQ) Scheme for undergraduate and postgraduate medical / dental courses (MBBS / MD / MS / Diploma / BDS / MDS) from current academic year 2021-22 onwards

Nearly 5,550 students will be benefitted

Government is committed to providing due reservation both to Backward Category and EWS Category

Under the visionary guidance of the Prime Minister Shri Narendra Modi, Ministry of Health and Family Welfare has taken a historic and a landmark decision for providing 27% reservation for OBCs and 10% reservation for Economically Weaker Section (EWS) in the All India Quota (AIQ) Scheme for undergraduate and postgraduate medical / dental courses (MBBS / MD / MS / Diploma / BDS / MDS) from the current academic year 2021-22 onwards.

Hon'ble Prime Minister in a meeting held on 26th July (Monday), 2021 had directed the concerned Union Ministries to facilitate an effective solution to this long pending issue.

This decision would benefit every year nearly 1500 OBC students in MBBS and 2500 OBC students in postgraduation and also around 550 EWS students in MBBS and around 1000 EWS students in postgraduation.

In view of sharp spike in COVID-19 cases, Centre rushes High Level team to Kerala

Central Team to support the State in effective public health interventions for COVID19 management

Union Ministry of Health & Family Welfare has decided to depute a high-level multi-disciplinary team to Kerala to collaborate with the State Health Authorities in instituting effective public health measures for COVID-19 management in view of the significantly enhanced number of daily COVID cases being reported by Kerala.

The 6 member Central team to Kerala is headed by Dr. S K Singh, Director, National Centre for Disease Control (NCDC). The team shall reach Kerala on 30th July, 2021 and visit a few districts.

Ayush Ministry strongly denies baseless claim by NICE on COVID-19 treatment protocol

Some misleading claims have been made by a naturopathy related network NICE (Network of Influenza Care Experts) and have been published by some media platforms without journalistic verification. The main claim is regarding developing a protocol of treatment of COVID-19 that has been approved by the Ministry of Ayush. The claimant has unethically and misleadingly attributed Ministry of Ayush's approval to it. The Ministry of Ayush strongly denies all such claims of NICE and considers the publication of related news as completely misleading and baseless.

The Ayush Ministry further clarifies that the said agency, NICE, has not submitted any application for the so-called protocol to the Ministry of Ayush. If any proposal related with COVID-19 treatment/management is submitted to the Ministry by NICE, it will get thoroughly examined by the Interdisciplinary Technical Review Committee (ITRC). The committee has a well-established and rigorous scientific screening process for such validation. Without the approval of this committee, no Ayush streams related agency can claim to have developed a protocol. NICE has done a very unethical, illegal and baseless act in claiming to have developed an Ayush Ministry approved naturopathy-based protocol for COVID-19 treatment. Equally serious is its act of using the name of the Ministry without Ministry's explicit permission.

COVID-19 Update

- **India's Cumulative COVID-19 Vaccination Coverage exceeds 44.61 Cr**
- **More than 40 Lakh vaccine doses administered in the last 24 hours**
- **Recovery Rate stands at 97.39%**
- **43,654 Daily New Cases reported in last 24 hours**
- **India's Active Caseload (3,99,436) presently constitutes 1.27% of total cases**
- **Daily Positivity Rate (2.51%) less than 5% for 51 consecutive days**

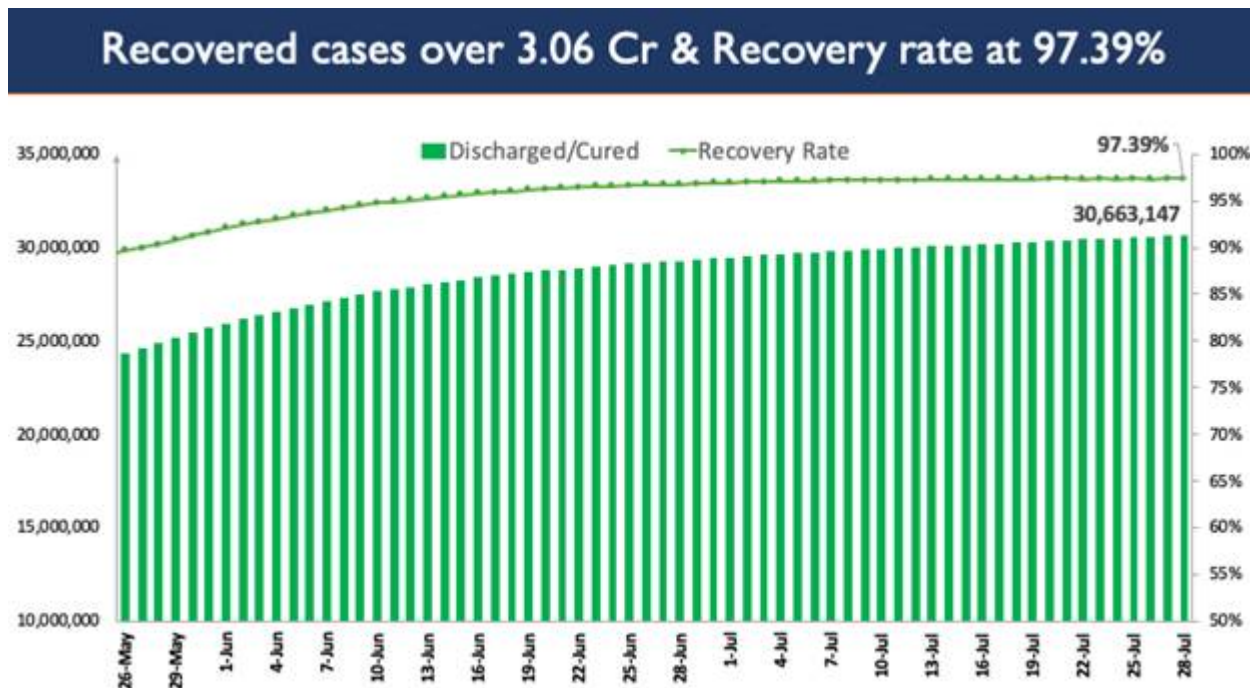

India's COVID-19 vaccination coverage exceeded 44.61 Cr yesterday. Cumulatively, **44,61,56,659** vaccine doses have been administered through 53,73,439 sessions, as per the provisional report till 8 am today. **40,02,358** vaccine doses were administered in the last 24 hours. These include:

HCWs	1 st Dose	1,02,93,723
	2 nd Dose	77,53,002
FLWs	1 st Dose	1,79,07,362
	2 nd Dose	1,10,20,080
Age Group 18-44 years	1 st Dose	14,44,83,609
	2 nd Dose	68,86,188
Age Group 45-59 years	1 st Dose	10,25,21,263
	2 nd Dose	3,62,42,655
Over 60 years	1 st Dose	7,41,18,104
	2 nd Dose	3,49,30,673
Total		44,61,56,659

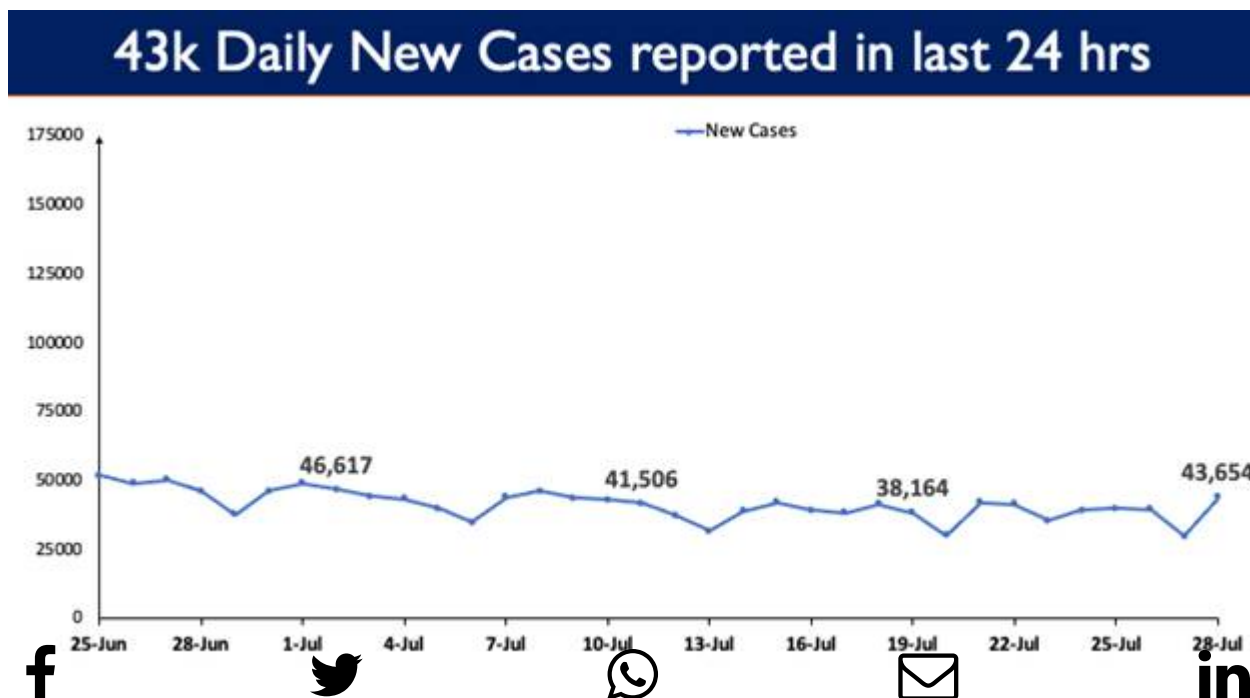

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,06,63,147 people have already recovered from COVID-19** and **41,678** patients have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.39%**.

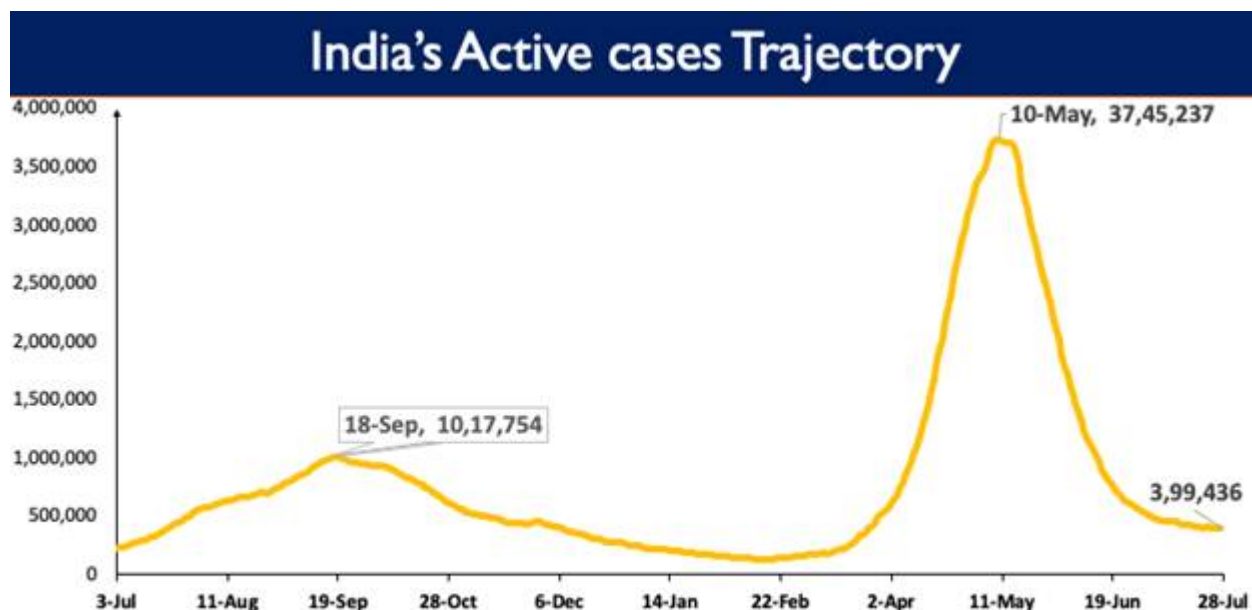

India has reported 43,654 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since thirty-one continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India's Active Caseload today stands at **3,99,436** and active cases now constitute **1.27%** of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 17,36,857 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **46 crore (46,09,00,978)** tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate is currently at 2.36%** and the **Daily Positivity rate stands at 2.51% today**. Daily Positivity rate has remained below 5% for 51 consecutive days now.

Centre advises States to conduct State-specific Sero Surveys in consultation with ICMR to generate district-level data on sero-prevalence

The findings would guide formulation of localized Public Health Responses for COVID19 management

The Union Government has advised all States/UTs to conduct sero-prevalence surveys in consultation with ICMR to generate district-level data on sero-prevalence which is essential in formulating localized public health response measures. This has been stated in the letter written by the Union Health Secretary to Additional Chief Secretary/Principal Secretary/Secretary (Health) of all States.

The Union Health Ministry has referred to the findings of the 4th round of National Sero-Prevalence Survey done by ICMR and has advised the States to conduct the sero-prevalence studies in their own States/UTs in consultation with ICMR, so that such studies follow a standardized protocol, and the findings of such studies can then be utilized quickly by the respective State/UT to guide objective, transparent and evidence-based public health response to COVID-19.

Sero-positivity in the general population by State

State	Total Tested	IgG positives (N/S)	Seroprevalence %	State	Total Tested	IgG positives (N/S)	Seroprevalence %

Government taking steps to undertake the production of COVID BEEP on a large scale-Dr Jitendra Singh

COVID BEEP is India's first indigenous, cost effective, wireless physiological parameters monitoring system for COVID-19 patients

Union Minister of State (Independent Charge) Science & Technology; Minister of State (Independent Charge) Earth Sciences; MoS PMO, Personnel, Public Grievances, Pensions, Atomic Energy and Space, Dr Jitendra Singh said Government is taking steps to undertake the production of COVID BEEP on a large scale. In a statement laid on the table of the Lok Sabha in reply to a question, the Minister said that COVID BEEP is India's first indigenous, cost effective, wireless physiological parameters monitoring system for COVID-19 patients, developed by ESIC Medical College Hyderabad in collaboration with Electronics Corporation of India Ltd. (ECIL) and Department of Atomic Energy.

COVID-19 Vaccination Update

More than 45.73 Crore vaccine doses provided to States/UTs

More than 2.28 Crore balance and unutilized doses still available with States/UTs and private hospitals to be administered

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

VACCINE DOSES	(As on 27 July 2021)
SUPPLIED	45,73,30,110
IN PIPELINE	24,11,000
CONSUMPTION	43,80,46,844
BALANCE AVAILABLE	2,28,27,959

More than **45.73 crore (45,73,30,110)** vaccine doses have been provided to States/UTs so far, through all sources and a further **24,11,000** doses are in the pipeline.

Of this, the total consumption including wastages is **43,80,46,844** doses (as per data available at 8 AM today).

More than **2.28 Cr (2,28,27,959)** balance and unutilized COVID Vaccine doses are still available with the States/UTs and private hospitals to be administered.

COVID19 Mortality: Myths Vs. Facts

India follows ICMR guidelines which are based on WHO recommended ICD-10 codes for correct recording of all COVID-19 deaths

The robustness of statute based Civil Registration System (CRS) ensures institutionalized registration of births and deaths in the country

Given that the CRS has been implemented for decades in India, missing out on COVID-19 deaths unlikely

It is clarified that the Union Government has been transparent in its approach to COVID data management and a robust system of recording all COVID-19 related deaths already exists. All States and Union Territories have been entrusted with the responsibility to update the data on a continuous basis.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1739439>

COVID19 Vaccination: Myths Vs. Facts

Vaccine doses are supplied to the States/UTs as per advance allocation in various schedules throughout a month

More than 516 million doses indeed will be supplied from January 2021 to 31st July 2021

India has crossed the landmark of 440 million doses administered, the largest number achieved in the world at a brisk pace

Vaccine doses are supplied to the States/UTs as per advance allocation and advance information to them. Vaccines are supplied in various schedules throughout a month. Therefore, availability of 516 million doses till end of a particular month does not mean that every dose supplied till that month is going to be consumed/ administered. There would be supplies in pipeline, which should be available for next few days till next supplies of vaccine doses materialize in a particular State/District/Sub District to keep vaccination going on.

COVID vaccination dramatically reduces infection, finds AFMS study

- VIN-WIN cohort study published in Medical Journal Armed Forces India
- Study shows impact of protection against COVID-19 by COVISHIELD vaccine

- **93 per cent reduction in fresh infections, deaths reduced by 98 per cent**
- **Study conducted largely on healthy males**

Armed Forces Medical Services (AFMS) published the Vaccine effectiveness among healthcare and frontline Workers of Indian Armed Forces (VIN-WIN) cohort study in Medical Journal Armed Forces India, a peer reviewed scientific journal on July 27, 2021. The study highlights the impact of protection against COVID-19 by COVISHIELD vaccine by analysing the effect on fresh infections and deaths. According to the study, there was a 93 per cent reduction in fresh infections and the deaths were reduced by 98 per cent. It is possibly the largest study worldwide on COVID-19 vaccine effectiveness, so far.

COVID-19 Update**India's Cumulative COVID-19 Vaccination Coverage exceeds 43.51 Cr****Recovery Rate stands at 97.35%****39,361 Daily New Cases reported in last 24 hours****India's Active Caseload (4,11,189) presently constitutes 1.31% of total cases****Daily Positivity Rate (3.41%) less than 5% for 49 consecutive days**

India's COVID-19 vaccination coverage exceeded 43.51 Cr yesterday. Cumulatively, **43,51,96,001** vaccine doses have been administered through 52,95,458 sessions, as per the provisional report till 8 am today. **18,99,874** vaccine doses were administered in the last 24 hours.

These include:

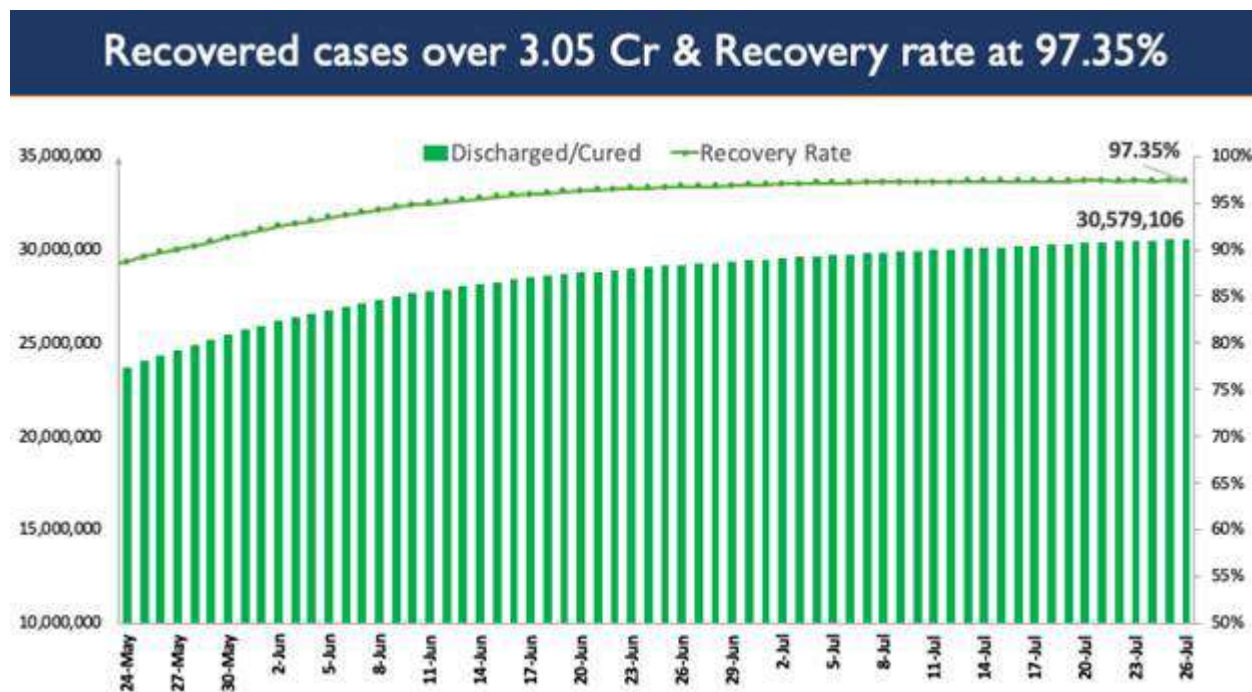

HCWs	1 st Dose	1,02,87,343
	2 nd Dose	77,06,397
FLWs	1 st Dose	1,78,56,000
	2 nd Dose	1,08,45,879
Age Group 18-44 years	1 st Dose	13,91,72,057
	2 nd Dose	62,18,541
Age Group 45-59 years	1 st Dose	10,09,68,508
	2 nd Dose	3,45,89,799
Over 60 years	1 st Dose	7,35,18,799
	2 nd Dose	3,40,32,678

Total**43,51,96,001**

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,05,79,106 people have already recovered from COVID-19** and **35,968** patients have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.35%**.

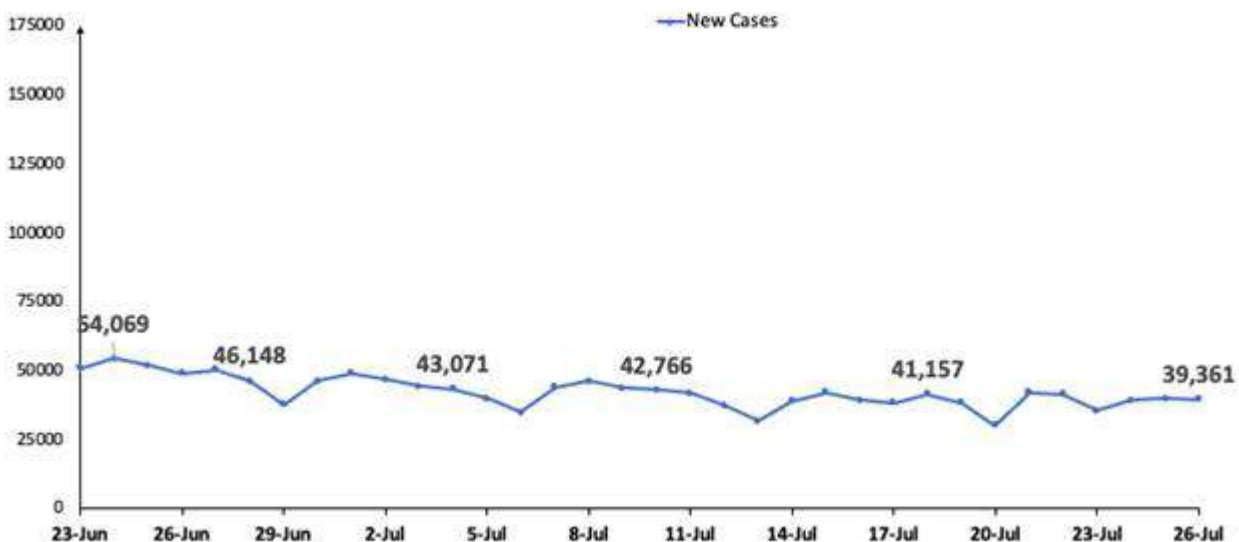

India has reported 39,361 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since twenty-nine continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

39k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **4,11,189** and active cases now constitute **1.31%** of the country's total Positive Cases.

India's Active cases Trajectory

With substantially ramped up testing capacity across the country, a total of 11,54,444 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **45.74 crore (45,74,44,011)** tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate is currently at 2.31%** and the **Daily Positivity rate stands at 3.41% today**. Daily Positivity rate has remained below 5% for 49 consecutive days now.

A COVID positive mother should continue to breastfeed the baby but is advised to keep the baby at a distance of 6 feet from her when she is not breastfeeding - Dr Manju Puri, Head, Department, Obstetrics and Gynaecology, Lady Hardinge Medical College, New Delhi

“Vaccines help the body develop immunity against a specific pathogen, it does not affect any other body tissue”

We strongly recommend an overall health check-up post-Covid recovery to ensure that the mother and the foetus are doing fine - Dr. Manju Puri

Dr Manju Puri, Head, Department, Obstetrics and Gynaecology, Lady Hardinge Medical College, New Delhi talks about the recent decision to administer Covid-19 vaccination during pregnancy, and what precautions women should take to protect herself and her child from catching COVID-19.

It has now been approved that woman can take COVID-19 vaccines even during pregnancy. How will it help?

During the second wave, many women contracted COVID-19 during pregnancy compared to the first wave. COVID if severe can lead to serious complications during pregnancy, especially during the last trimester as the uterus is enlarged and presses on the diaphragm, compromising a woman's ability to cope with a fall in oxygen saturation. This may lead to a sudden fall in blood oxygen saturation and risk the lives of both the mother and the child. Vaccines will help prevent severe disease in pregnant women.

Also, vaccinating a mother is likely to give some degree of protection to the new-born as the antibodies developed in the mother's body post-vaccination will pass on to the developing foetus through her blood. In the case of lactating mothers, an infant gets these antibodies through the mother's breast milk.

Scientists join hands targeting to synthesize compounds to inhibit maturation & propagation of COVID 19 virus

Scientists from India, Russia, Brazil, and South Africa will work together to repurpose, validate and synthesise lead compounds against main protease and RNA replicas, the enzyme that catalyses the replication of RNA, of SARS-CoV-2. The approach which could inhibit both maturation and propagation of viruses during the infection in the host cells can help produce new COVID-19 medicines with improved production methods.

The area of multistage targeted inhibitors of SARS-CoV-2 has emerged few months back after WHO announced Covid-19 as global emergency. The multistage process involves viral genome replication, transcription and maturation are the multistage processes, which are interlinked in the viral machinery and promote viral propagation. They are regulated by the enzymes protease and RNA replicase. Inhibiting these effects would be crucial to complete the dream of millions of people on this earth to develop/repurpose a drug molecule against COVID-19.

Inputs from PIB Field Units

KERALA: Kerala reported 17,466 new cases of Covid 19 on Sunday. The TestPositivity Rate (TPR) which stood at 11.91 percent on Saturday increased again touching 12.3 percent on Sunday. The state also reported 66 deaths taking the official toll to 16,035. As many as 15,247 persons recovered from the infection. So far a total of 1,86,82,938 people have received the first and second dose of vaccines. Of these 1,30,33,268 received the first dose and 56,49,670 got the second dose.

TAMIL NADU: Tamil Nadu recorded on Sunday, a total of 1,808 positive cases, positivity rate is now at 1.3%. A total of 2,11,35,771 people have been vaccinated in the State till now of which 1,73,31,932 have received their first dose and 38,03,839 have received second dose.

KARNATAKA: As per the State Government bulletin released for 24-07-2021, New Cases Reported: 1,001; Total Active Cases: 23,419 New Covid Deaths: 22; Total Covid Deaths: 36,374; Around 82,709 were vaccinated yesterday with a total of 2,88,75,892 have been vaccinated in the state till now.

ANDHRA PRADESH: State reported 2252 new Covid-19 cases after testing 84,858 samples with 15 deaths, while 2440 got discharged during the last 24 hours. Total cases: 19,54,765; Active cases: 22,155; Discharges: 19,19,354; Deaths: 13,256. A total of 1,95,70,887 doses of Covid vaccines have been administered in the state as on yesterday, which include 1,49,13,422 first doses and 46,57,465 second doses.

TELANGANA: As many as 494 new cases and four fatalities were reported yesterday taking the total number of cases in the state to 6,41,153 and deaths to 3,784. The positivity rate among the covid patients in the state has reached to 97.94 percent against the national average of 97.32 percent. The Case Fatality Rate is reported to be 0.59 percent against the national average of 1.3 percent. The number of active cases in the state now stands at 9,405.

Maharashtra: Maharashtra on Sunday reported 6,843 new coronavirus positive cases and 123 fatalities, raising the overall tally to 62,64,922 and the toll to 1,31,552. With 5,212 patients being discharged after treatment during the day, the count of recoveries in Maharashtra went up to 60,35,029 so far, leaving the state with 94,985 active cases.

Gujarat: Gujarat's COVID-19 tally rose to 8,24,713 as 30 new cases were reported on Sunday, while the toll remained unchanged at 10,076 as no death was reported from the infection during the day. The discharge of 42 people from hospitals took the recovery count to 8,14,307, which is 98.74 per cent of the tally, leaving the state with 330 active cases. In Gujarat, schools for classes 9 to 11 have been reopened with 50 percent seating capacity from today.

Rajasthan: Twenty fresh Covid cases were reported in Rajasthan, taking the infection tally to 9,53,542 on Sunday. No new fatality occurred due to the disease in the last 24 hours and the death toll stood at 8,952. Of the 20 fresh cases, seven were reported from Jaipur, among others. There are 313 active cases in the state, while a total of 9,44,277 patients have recovered from Covid so far.

Madhya Pradesh: Madhya Pradesh on Sunday added 12 COVID-19 cases to its tally, which reached 7,91,750, while the toll remained unchanged at 10,512 as no death was reported during the day. The recovery count stands at 7,81,090, leaving the state with 148 active cases. 2,78,67,459 COVID-19 vaccine doses have been administered so far in the state, including 4,628 on Sunday. Schools across the state reopened after 16 months for students of Class 11th and 12th from today with 50% attendance. As per the instructions of state government there is ban on all kinds of mass activities such as prayers, student meetings, and swimming pool sessions.

Chhattisgarh: Chhattisgarh's COVID-19 count rose to 10,01,167 on Sunday with the addition of 130 fresh cases, while the death toll mounted by five to 13,516. The number of recoveries reached 9,84,913 after 10 people were discharged from various hospitals while 166 others completed their home isolation stay during the day. The number of active cases in Chhattisgarh now stands at 2,738.

Goa: A day after no Covid mortalities, Goa reported six Covid-19 deaths on Sunday, highest in two weeks. Goa's COVID-19 tally reached 1,70,491 on Sunday after 75 cases were detected during the day, while the death toll rose by six to touch 3,132. The recovery count increased to 1,66,201 after 149 people were discharged from hospitals on Sunday, leaving the state with 1,158 active cases.

Assam: A total of 22 Covid deaths were reported in Assam in the last 24 hours, while 1,054 new infections were detected. COVID-19 casualty of children much less than that of adults. 26 of the 9,426 Covid affected children of the age group 0-5 years and 29 of the 45,569 affected children of the age group 6-18 died.

Manipur: The State on Sunday reported 13 death cases and 1207 new positive cases out of 8327 samples tested registering a positivity rate of 14.50 per cent. On July 24, a total of 30,667 persons received their vaccination shots to take the total to 11,94,736. Out of the total, those who have received their second dose are 1,65,300.

Meghalaya: Ten more patients succumbed to Covid-19 on Sunday, taking the death toll in the state to 1,024 while 597 fresh cases pushed the active tally to 5,007. The total recoveries have gone up to 55,163 after 288 patients recovered from the viral infection in the past 24 hours. Out of the total number of COVID deaths in the last one week, 97% were of those who were not vaccinated.

Sikkim: Out of 2,093 samples tested, Sikkim recorded 337 new Covid positive cases on Sunday. There was one death. Sikkim's daily Covid count goes past 300 for seventh time in past 94 days.

Nagaland: Nagaland reports 68 new cases and 4 deaths on Sunday. Active cases are 1285 while tally goes up to 27,308.

COVID-19 Update

- India's Cumulative COVID-19 Vaccination Coverage exceeds 43.31 Cr
- Recovery Rate stands at 97.36%
- 39,742 Daily New Cases reported in last 24 hours
- India's Active Caseload (4,08,212) presently constitutes 1.30% of total cases
- Daily Positivity Rate (2.31%) less than 3% for 34 consecutive days

India's COVID-19 vaccination coverage has exceeded 43.31 crores. Cumulatively, 43,31,50,864 vaccine doses have been administered through 52,72,431 sessions, as per the provisional report till 8 am today. 51,18,210 vaccine doses were administered in the last 24 hours.

These include:

HCWs	1 st Dose	1,02,86,512
	2 nd Dose	76,98,343
FLWs	1 st Dose	1,78,52,440
	2 nd Dose	1,08,19,457
Age Group 18-44 years	1 st Dose	13,81,09,509
	2 nd Dose	60,62,371
Age Group 45-59 years	1 st Dose	10,07,21,803
	2 nd Dose	3,42,99,610
Over 60 years	1 st Dose	7,34,17,431
	2 nd Dose	3,38,83,388
Total		43,31,50,864

Out of the people infected since the beginning of the pandemic, 3,05,43,138 people have already recovered from COVID-19 and 39,972 patients have recovered in the last 24 hours. This constitutes an overall recovery rate of 97.36%.

India has reported 39,742 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since twenty-eight continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India's Active Caseload today stands at 4,08,212 and active cases now constitute 1.30% of the country's total Positive Cases.

India's Active cases Trajectory

With substantially ramped up testing capacity across the country, a total of 17,18,756 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 45.62crore (45,62,89,567) tests so far.

While on one side testing capacity has been enhanced across the country, Weekly Positivity Rate is currently at 2.34% and the Daily Positivity rate stands at 2.31% today. Daily Positivity rate has remained less than 3% for 34 consecutive days, and has remained below 5% for 48 consecutive days now.

COVID-19 Update

- India's Cumulative COVID-19 Vaccination Coverage exceeds 42.78 Cr
- Recovery Rate stands at 97.35%
- 39,097 Daily New Cases reported in last 24 hours
- India's Active Caseload (4,08,977) presently constitutes 1.31% of total cases
- Daily Positivity Rate (2.40%) less than 3% for 33 consecutive days

India's COVID-19 vaccination coverage has exceeded 42.78 crores. Cumulatively, 42,67,799 vaccine doses have been administered through 42,78,82,261 sessions, as per the provisional report till 8 am today. 42,67,799 vaccine doses were administered in the last 24 hours.

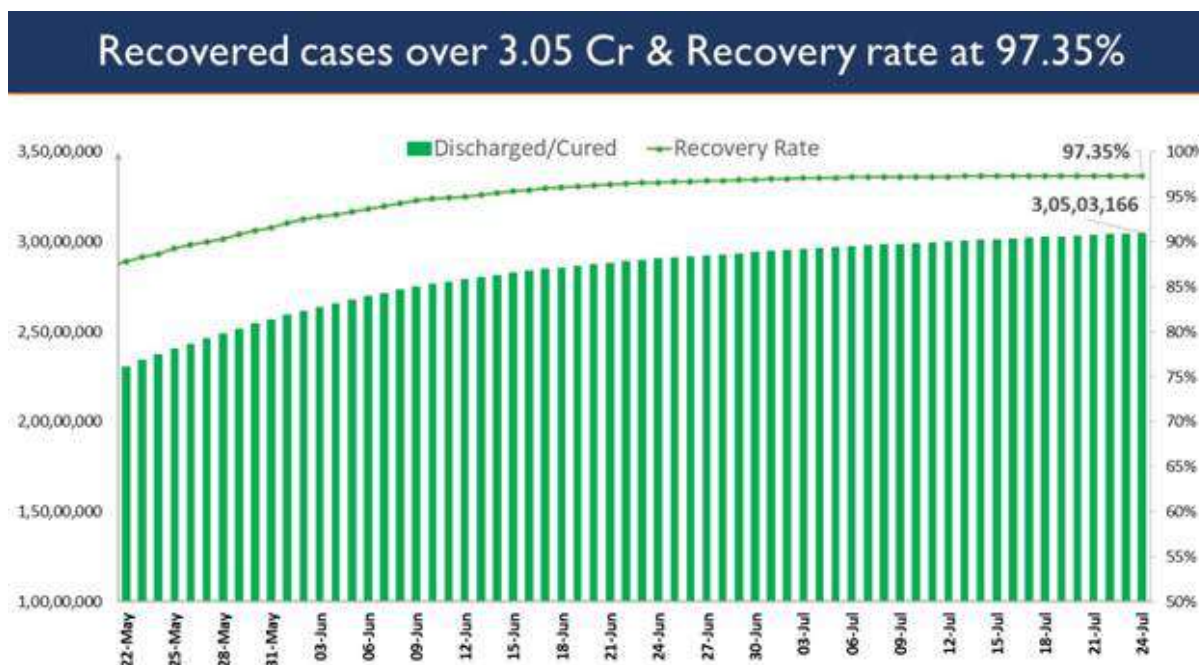

These include:

HCWs	1 st Dose	1,02,83,491
	2 nd Dose	76,74,804
FLWs	1 st Dose	1,78,44,127
	2 nd Dose	1,07,32,410

Age Group 18-44 years	1 st Dose	13,54,32,522
	2 nd Dose	57,68,314
Age Group 45-59 years	1 st Dose	10,00,94,927
	2 nd Dose	3,34,30,580
Over 60 years	1 st Dose	7,31,64,749
	2 nd Dose	3,34,56,337
Total		42,78,82,261

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, 3,05,03,166 people have already recovered from COVID-19 and 35,087 patients have recovered in the last 24 hours. This constitutes an overall recovery rate of 97.35%.

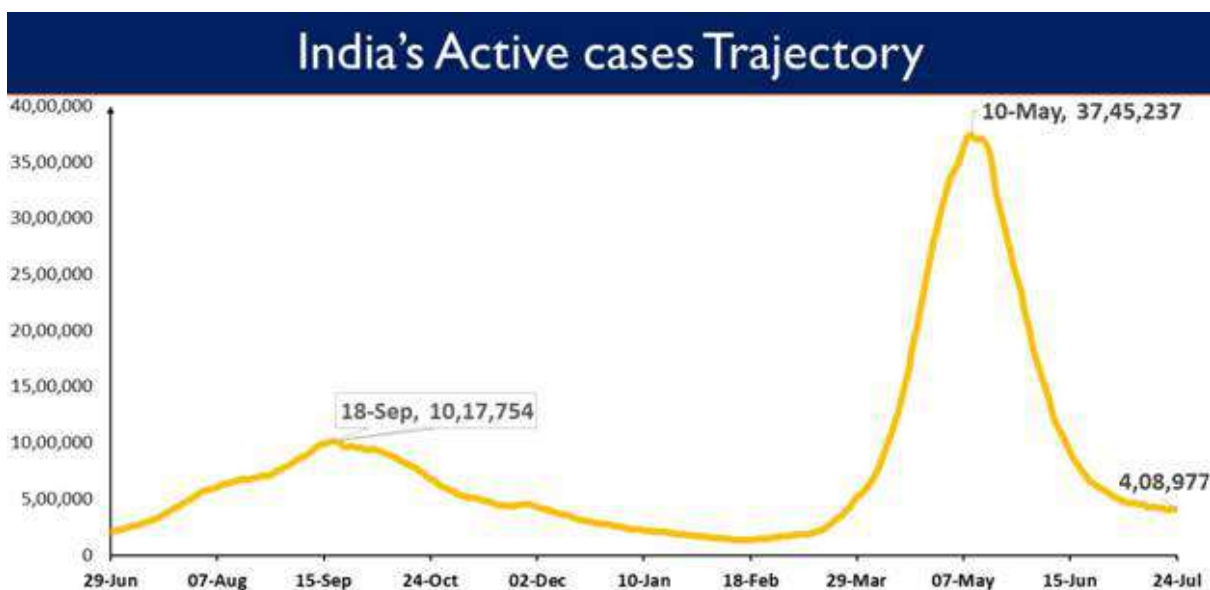

India has reported 39,097 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since 32 continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India's Active Caseload today stands at 4,08,977 and active cases now constitute 1.31% of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 16,31,266 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 45.45 crore (45,45,70,811) tests so far.

While on one side testing capacity has been enhanced across the country, Weekly Positivity Rate is currently at 5 % and the Daily Positivity rate stands at 2.40% today. Daily Positivity rate has remained less than 3% for 33 consecutive days, and has remained below 5% for 33 consecutive days now.

COVID-19 Update

- India's Cumulative COVID-19 Vaccination Coverage exceeds 41.78 Cr
- Recovery Rate stands at 97.35%
- 41,383 Daily New Cases reported in last 24 hours
- India's Active Caseload (4,09,394) presently constitutes 1.31% of total cases
- Daily Positivity Rate (2.41%) less than 3% for 31 consecutive days

India's COVID-19 vaccination coverage has exceeded 41.78 crores. Cumulatively, 41,78,51,151 vaccine doses have been administered through 51,60,995 sessions, as per the provisional report till 7 am today. 22,77,679 vaccine doses were administered in the last 24 hours.

These include:

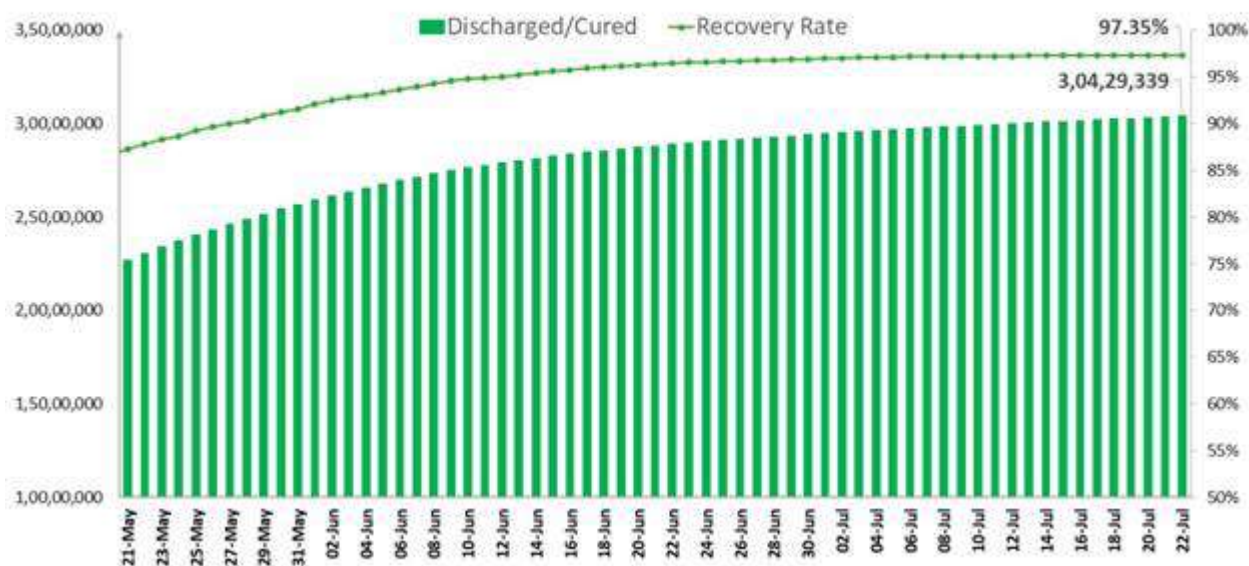

HCWs	1 st Dose	1,02,77,386
	2 nd Dose	76,11,600
FLWs	1 st Dose	1,78,24,546
	2 nd Dose	1,05,49,835
Age Group 18-44 years	1 st Dose	13,05,53,816
	2 nd Dose	53,22,634
Age Group 45-59 years	1 st Dose	9,89,17,103
	2 nd Dose	3,15,85,098
Over 60 years	1 st Dose	7,26,86,361
	2 nd Dose	3,25,22,772
Total		41,78,51,151

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, 3,04,29,339 people have already recovered from COVID-19 and 38,652 patients have recovered in the last 24 hours. This constitutes an overall recovery rate of 97.35%.

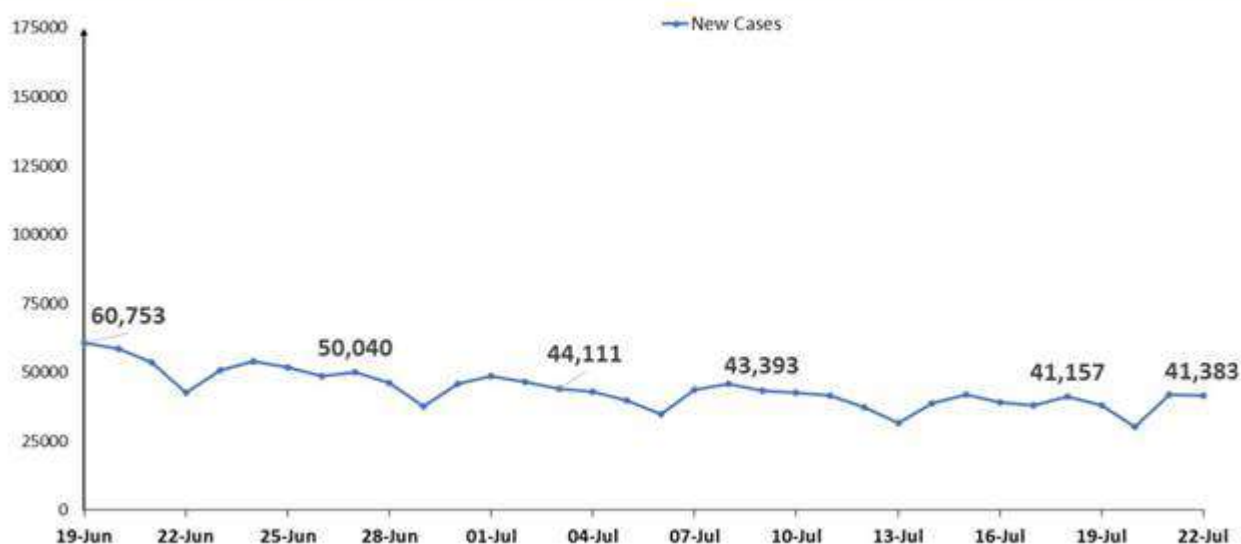

Recovered cases over 3.04 Cr & Recovery rate at 97.35%

India has reported 41,383 daily new cases in the last 24 hours.

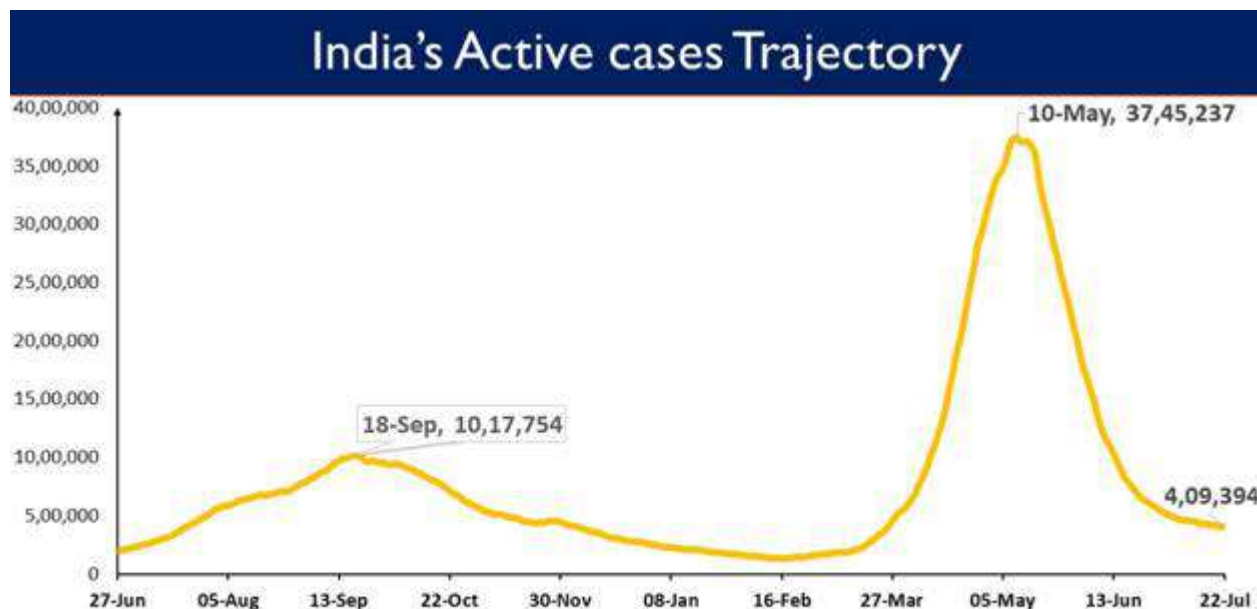

Less than 50,000 Daily New Cases have been reported since twenty-five continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

41k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at 4,09,394 and active cases now constitute 1.31% of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 17,18,439 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 45.09 crore (45,09,11,712) tests so far.

While on one side testing capacity has been enhanced across the country, Weekly Positivity Rate is currently at 2.12% and the Daily Positivity rate stands at 2.41% today. Daily Positivity rate has remained less than 3% for 31 consecutive days, and has remained below 5% for 45 consecutive days now.

COVID-19 Vaccination Update

More than 43.79 Crore vaccine doses provided to States/UTs

More than 3.20 Crore balance and unutilized doses still available with States/UTs and private hospitals to be administered

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

VACCINE DOSES

(As on 22nd July 2021)

SUPPLIED	43,79,78,900
IN PIPELINE	7,00,000
CONSUMPTION	40,59,77,410
BALANCE AVAILABLE	3,20,01,490

More than **43.79 crore (43,79,78,900)** vaccine doses have been provided to States/UTs so far, through all sources and a further **7,00,000** doses are in the pipeline.

Of this, the total consumption including wastages is **40,59,77,410** doses (as per data available at 8 AM today).

More than **3.20 Cr (3,20,01,490)** balance and unutilized COVID Vaccine doses are still available with the States/UTs and private hospitals to be administered.

COVID19 Mortality: Myths Vs. Facts

Union Health Ministry has always advised States to conduct death audits in their hospitals and also report any cases or deaths that could have been missed

India follows ICMR guidelines which are based on WHO recommended ICD-10 codes for correct recording of all COVID-19 deaths

India has a robust system of recording Covid-19 deaths

There have been some recent media reports alleging that India's toll of excess deaths during the pandemic could be in millions, terming the official COVID-19 death toll as 'vastly undercounted'.

In these news reports quoting findings from some recent studies, US & European countries' age-specific infection fatality rates have been used to calculate excess deaths in India based on the sero-positivity. The extrapolation of deaths has been done on an audacious assumption that the likelihood of any given infected person dying is the same across countries, dismissing the interplay between various direct & indirect factors such as race, ethnicity, genomic constitution of a population, previous exposure levels to other diseases and the associated immunity developed in that population.

Inputs from PIB Field Units

Punjab: The total number of patients tested Positive is 598521. Number of active cases is 869. Total Deaths reported is 16246. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 1356941. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 408009. Total above 45 Vaccinated with 1st dose is 3681650. Total above 45 Vaccinated with 2nd dose is 1061582.

Haryana: Total Number of Samples found positive till date is 769640. Total active COVID-19 patients is 789. Number of deaths is 9611. Cumulative number of people vaccinated till date is 10823925.

Chandigarh: Total Lab confirmed COVID-19 cases is 61914. Total number of Active Cases is 41. Total number of COVID-19 deaths till date is 809.

Assam: 1,547 fresh COVID-19 cases were detected in the State on Wednesday & 25 people died of the pandemic. While the positivity rate in the State during the day was 2.09 percent, the recovery rate was 96.06 percent.

Manipur: Manipur sees 1,327 cases; positivity rate at 19.4% amid curfew, 15 deaths reported. On Tuesday, 24,795 doses of vaccines were administered in the State and the cumulative number of vaccinated individuals has reached 9,65,342. 1,25,580 have got full dose of the vaccine so far.

Meghalaya: Meghalaya recorded over 500 fresh COVID cases while six more patients succumbed to viral infection in the last 24 hours.

Nagaland: Nagaland reports 105 new cases of COVID-19 and 3 deaths on Wednesday. Active cases are 1218 while total is 26,943.

Sikkim: The number of active cases of Covid-19 in Sikkim are 2,616 with 251 new cases of novel coronavirus being reported in the past 24 hours from the testing of 1,265 samples on Tuesday, giving Sikkim a daily test positivity rate of 19.8%. Sikkim's tally of confirmed cases of COVID-19 detected in the State since 28 Feb, 2020, has now reached 24,047. The State also recorded one more COVID death in the last 24 hours taking the State's COVID death toll to 326.

KERALA: While the 17,481 new cases confirmed on the day were the highest in over 45 days, the TPR of 11.97% on Wednesday was the highest since June 13, when the figure had been over 12%. So far a total of 1,74,87,400 people have taken vaccination in the state. Out of this, 1,23,67,167 took first dose and 51,20,233 second dose.

TAMIL NADU: Tamil Nadu recorded 1,891 new cases of COVID-19. No fatality recorded in 21 districts, 1.96 crore people have been vaccinated for Covid-19 in the state.

KARNATAKA: As per the State Government bulletin released for 21-07-2021, New Cases Reported: 1,639; Total Active Cases: 25,645 New CovidDeaths: 36; Total Covid Deaths: 36,262; Around 1,48,500 were vaccinated yesterday with a total of 2,79,32,492 have been vaccinated in the state till now.

ANDHRA PRADESH: State reported 2527 new Covid-19 cases after testing 86,280 samples with 19 deaths, while 2412 got discharged during the last 24 hours. Total cases: 19,46,749; Active cases: 23,939; Discharges: 19,09,613; Deaths: 13,197. A total of 1,91,54,888 doses of Covid vaccines have been administered in the state as on yesterday, which include 1,47,39,442 first doses and 44,15,446 second doses.

TELANGANA: A total of 691 new cases and five fatalities were reported yesterday taking the total number of positive cases in the state to 6,38,721 and deaths to 3,771. The Case Fatality

Rate (CFR) is reported to be 0.59 percent against the national average of 1.3 percent. The number of active cases in the state now stands at 9,908.

Total		41,54,72,455

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,03,90,687 people have already recovered from COVID-19** and **36,977** patients have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.36%**, which is showing a sustained increasing trend.

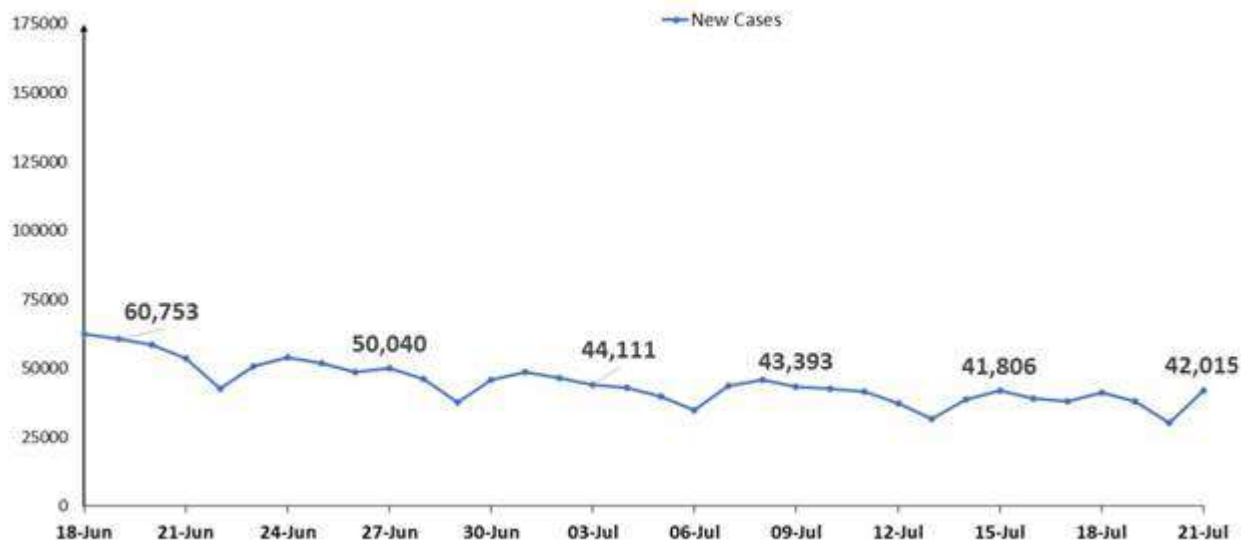

India has reported 42,015 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since twenty-four continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

42k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **4,07,170** and active cases now constitute **1.30%** of the country's total Positive Cases.

India's Active cases Trajectory

With substantially ramped up testing capacity across the country, a total of 18,52,140 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **44.91 crore (44,91,93,273)** tests so far.

While on one side testing capacity has been enhanced across the country, **weekly Positivity Rate is currently at 2.09%** and the **Daily Positivity rate stands at 2.27% today**. Daily Positivity rate has remained less than 3% for 30 consecutive days, and has remained below 5% for 44 consecutive days now.

Prime Minister apprises Floor Leaders of both Houses on the Public Health Response to the Pandemic

Pandemic should not be a matter of politics, it is a matter of concern for entire humanity: PM

PM stresses the need to properly plan the vaccination drives at the district level based on the advance availability information

Looking at the situation in various countries, need to stay vigilant: PM

Leaders across parties thank PM for his efforts through the pandemic

Prime Minister Shri Narendra Modi interacted with floor leaders of all parties of both houses of the Parliament yesterday to keep them informed of the trajectory of COVID-19 in India and the Public Health Response to the Pandemic.

PM thanked all leaders for participating in the meeting and giving very practical inputs and suggestions and added that inputs from different parts of the country help immensely in policy design.

PM said that the pandemic should not be a matter of politics & is a matter of concern for entire humanity. He added that mankind hasn't seen such a pandemic in the last 100 years. PM also spoke about the efforts being made to ensure one oxygen plant in every district across the country.

PM informed leaders about the rising speed of India's vaccination program and how the first 10 crore doses took around 85 days while the last 10 crore doses have taken 24 days. He also informed the leaders that the daily closing stocks show an average of more than 1.5 crore vaccines at the end of the day throughout the country.

Research on Ayush Medicines to Curb Covid-19 Outbreak

During the second wave of this pandemic, AYUSH-64 and Kabasura Kudineer were repurposed for COVID 19 after the robust scientific studies found them useful in asymptomatic, mild and moderate COVID-19 infection as standalone and/or as an adjunct to Standard care as per the studies conducted by Ministry of Ayush in collaboration with Ministry of Health and family Welfare, Ministry of Science and Technology (CSIR & DBT), Department of Science and Technology and reputed scientific organisations and hospitals. However, Govt. of India has released “National Clinical Management Protocol based on Ayurveda and Yoga for management of COVID-19”.

IIT Ropar develops first-of-its-kind Oxygen rationing device – AMLEX

To increase the life of medical oxygen cylinders three fold, the Indian Institute of Technology, Ropar has developed a first-of-its-kind Oxygen Rationing Device – AMLEX that supplies a required volume of oxygen to the patient during inhalation and trips when the patient exhales CO₂. This process saves oxygen which otherwise unnecessarily get wasted.

So far, during exhalation, the oxygen in the oxygen cylinder/pipe is pushed out along with the exhaled CO₂ by the user. This leads to wastage of a large volume of oxygen in long run. In addition to this, a large volume of oxygen escapes from the openings of the mask to the environment in the resting period (between inhalation and exhalation) due to continuous flow of life saving gas in the mask. As we have seen the demand of medical oxygen has jumped manifold amid the second wave of Covid-19, the device would help in stopping the unwanted wastage of the same.

Indian start-up makes affordable and dual powered defibrillator - SanMitra 1000htc

Jeevtronics, an ISO13485 certified company, has already received four patents in US and India, and had been facilitated financially by BIRAC under the schemes of BIG and IIPME (Early Transition stage) in the past. SanMitra 1000 HCT is designed to international IEC standards for medical devices and the patented technology costs INR 99,999+ taxes, which is 1/4th of the big brands, as reported by the start-up. These defibrillators can be usually preferred over chest compressions (CPR), and can even prove fruitful in treating COVID-19 patients suffering from issues related to rate or rhythm of the heartbeat (Arrhythmias).

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage exceeds 40.64 Cr

Recovery Rate increases to 97.32%

38,164 Daily New Cases reported in last 24 hours

India's Active Caseload (4,21,665) presently constitutes 1.35% of total cases

Daily Positivity Rate (2.61%) less than 3% for 28 consecutive days

India's COVID-19 vaccination coverage has exceeded 40.64 crores. Cumulatively, **40,64,81,493** vaccine doses have been administered through 50,69,232 sessions, as per the provisional report till 7 am today. **13,63,123** vaccine doses were administered in the last 24 hours. These include:

HCWs	1 st Dose	1,02,69,922
	2 nd Dose	75,52,270
FLWs	1 st Dose	1,77,95,125
	2 nd Dose	1,03,66,268

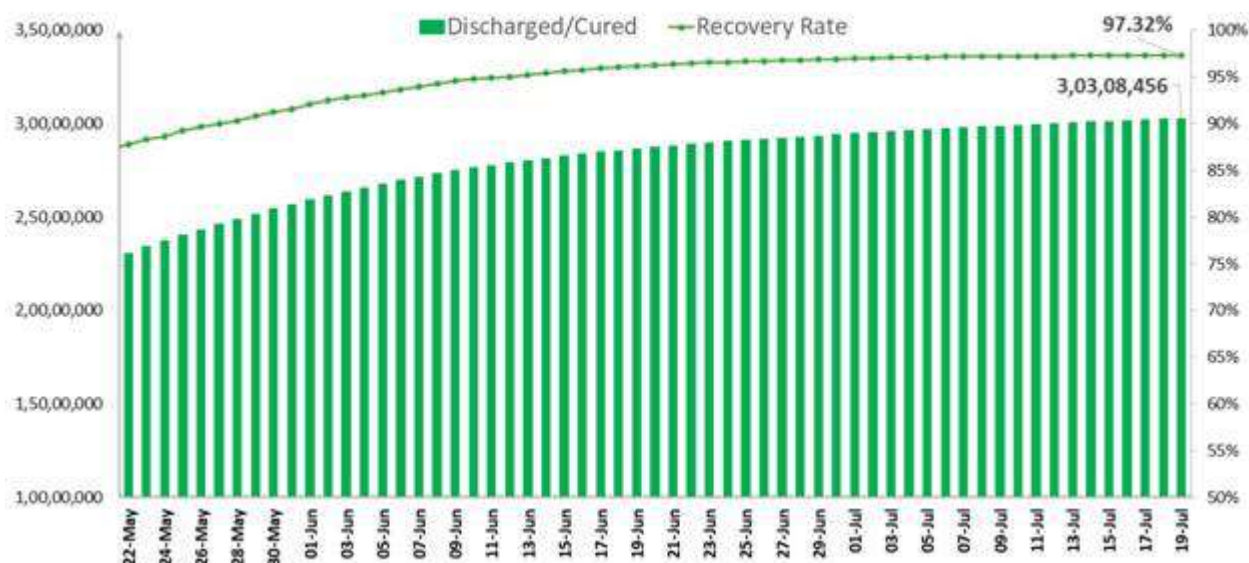

Age Group 18-44 years	1 st Dose	12,50,80,488
	2 nd Dose	49,07,782
Age Group 45-59 years	1 st Dose	9,76,43,768
	2 nd Dose	2,93,47,090
Over 60 years	1 st Dose	7,21,55,133
	2 nd Dose	3,13,63,647
Total		40,64,81,493

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,03,08,456 people have already recovered from COVID-19** and **38,660** patients have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.32%**, which is showing a sustained increasing trend.

Recovered cases over 3.03 Cr & Recovery rate at 97.32%

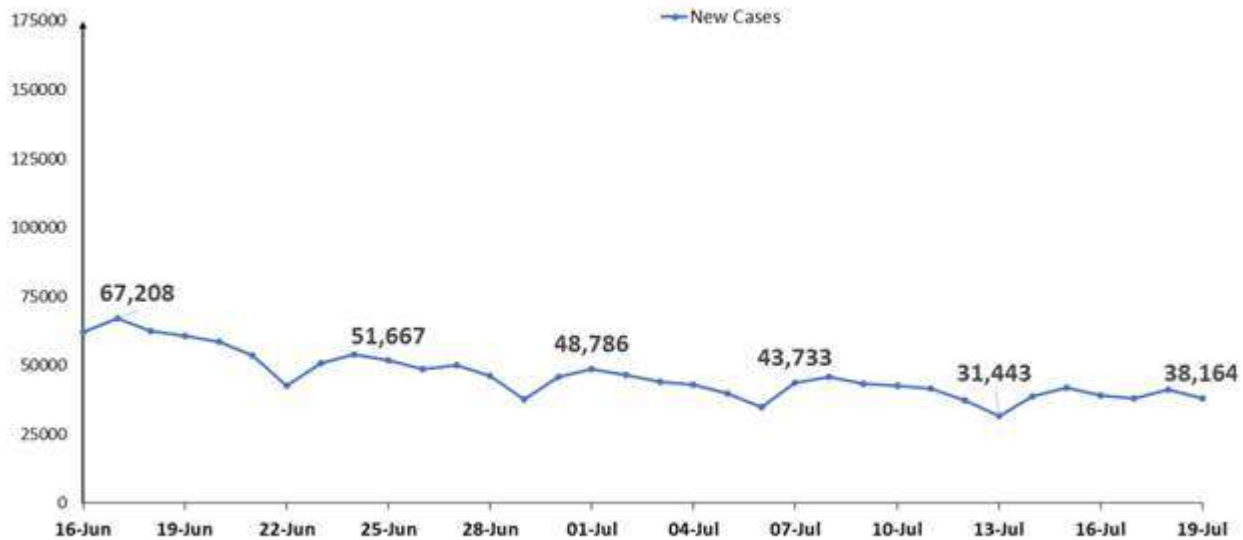

India has reported 38,164 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since twenty-two continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

38k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **4,21,665** and active cases now constitute **1.35%** of the country's total Positive Cases.

India's Active cases Trajectory

With substantially ramped up testing capacity across the country, a total of 14,63,593 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **44.54 crore (44,54,22,256)** tests so far.

While on one side testing capacity has been enhanced across the country, a continued decline in weekly case positivity is noticed. **Weekly Positivity Rate is currently at 2.08%** while the **Daily Positivity rate stands at 2.61% today**. Daily Positivity rate has remained less than 3%.

for 28 consecutive days, and has remained below 5% for 42 consecutive days now.

B.1.617.2, known as the Delta variant, is around 40-60 percent more transmissible than Alpha Variant- Dr. N K Arora, Co- Chair, INSACOG

“Current vaccines are effective against Delta Variant as per the studies undertaken by ICMR on the issue”

“Any future waves will be controlled and delayed if more people get vaccinated and follow COVID-Appropriate Behaviour effectively”

It is difficult to say that the disease caused due to Delta Variant is more severe- Dr. N K Arora

In a recent interview, Dr N K Arora, co-chair, Indian SARS-CoV-2 Genomics Consortium (INSACOG) elaborates about the Standard Operating Procedure (SOP) for testing and follow-up on variants, what makes the Delta variant so transmissible, how genomic surveillance can help contain its spread, and reemphasises on the importance of COVID appropriate behaviour.

COVID-19 Update

- **India's Cumulative COVID-19 Vaccination Coverage crosses the landmark of 40 Cr**
- **Recovery Rate increases to 97.31%**
- **41,157 Daily New Cases reported in last 24 hours**
- **India's Active Caseload (4,22,660) presently constitutes 1.36% of total cases**
- **Daily Positivity Rate (2.13%) less than 3% for 27 consecutive days**

India's COVID-19 vaccination coverage crossed the landmark of 40 crores. Cumulatively, **40,49,31,715** vaccine doses have been administered through 50,46,387 sessions, as per the provisional report till 7 am today. **51,01,567** vaccine doses were administered in the last 24 hours. These include:

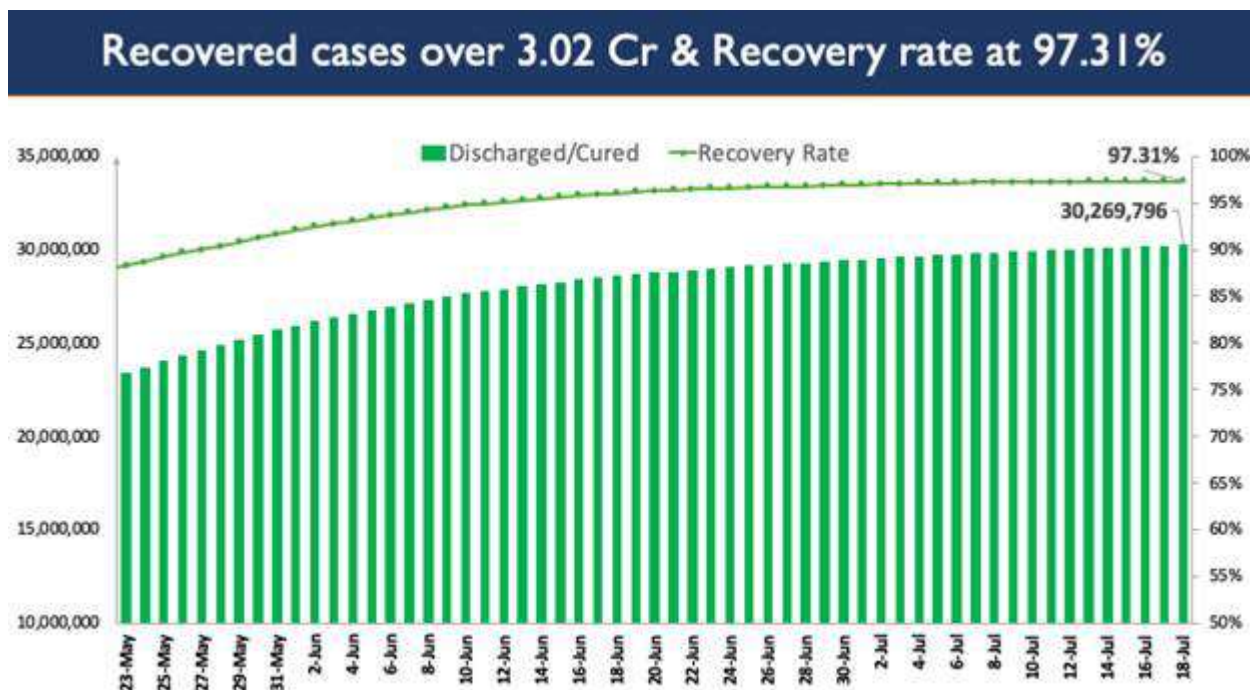

HCWs	1 st Dose	1,02,69,092
	2 nd Dose	75,40,656
FLWs	1 st Dose	1,77,92,396
	2 nd Dose	1,03,48,504
Age Group 18-44 years	1 st Dose	12,42,65,428
	2 nd Dose	48,64,609
Age Group 45-59 years	1 st Dose	9,74,79,640
	2 nd Dose	2,90,71,946
Over 60 years	1 st Dose	7,20,87,206
	2 nd Dose	3,12,12,238

Total**40,49,31,715**

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,02,69,796 people have already recovered from COVID-19** and **42,004 patients** have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.31%**, which is showing a sustained increasing trend.

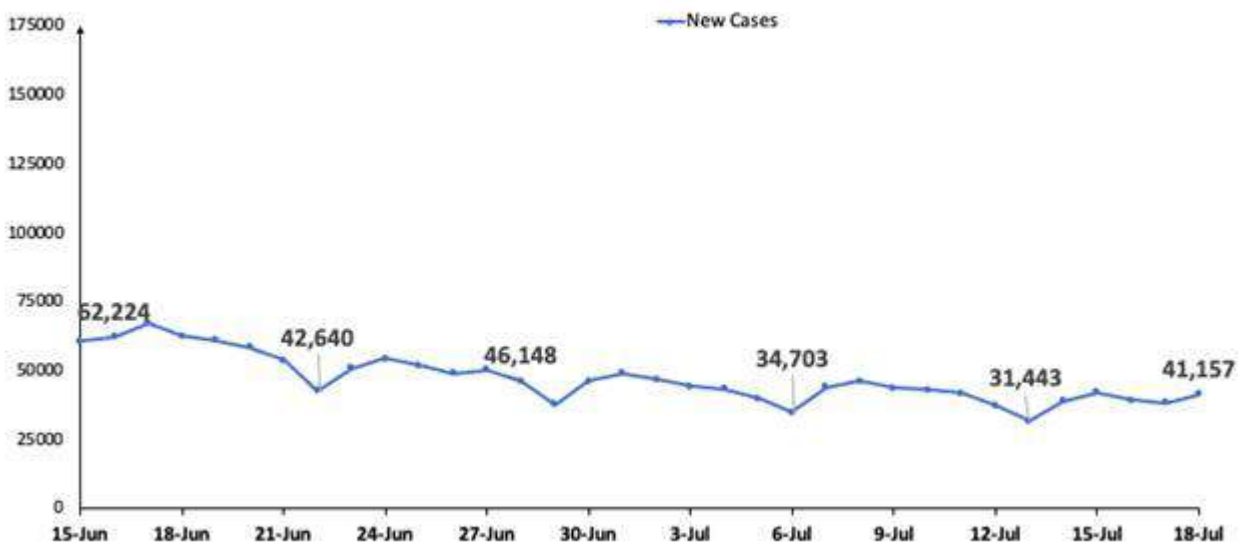

India has reported 41,157 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since twenty-one continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

41k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **4,22,660** and active cases now constitute **1.36%** of the country's total Positive Cases.

India's Active cases Trajectory

With substantially ramped up testing capacity across the country, a total of 19,36,709 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 44.39 crore (**44,39,58,663**) tests so far.

While on one side testing capacity has been enhanced across the country, a continued decline in weekly case positivity is noticed. **Weekly Positivity Rate is currently at 2.08%** while the **Daily Positivity rate stands at 2.13% today**. Daily Positivity rate has remained less than 3% for 27 consecutive days, and has remained below 5% for 41 consecutive days now.

COVID19: Myths vs. Facts

MoHFW has recommended Tuberculosis (TB) screening for all COVID-19 positive patients and COVID-19 screening for all diagnosed TB patients

Multiple advisories and guidance have been issued by MoHFW to reiterate the need for bi-directional screening of TB-COVID and TB-ILI/SARI

Lack of evidence to link the increase in TB cases to COVID-19

There have been some media reports alleging that a sudden rise in cases of Tuberculosis (TB) has been noticed among patients who were infected with COVID-19 recently, leaving the doctors worried on receiving around a dozen similar cases every day.

It is clarified that Tuberculosis (TB) screening for all COVID-19 positive patients and COVID-19 screening for all diagnosed TB patients has been recommended by Ministry of Health and Family Welfare (MoHFW). States/UTs have been asked for convergence in efforts for better surveillance and case finding of TB and COVID-19, as early as August 2020.

Apart from this, multiple advisories and guidance have also been issued by MoHFW to reiterate the need for bi-directional screening of TB-COVID and TB-ILI/SARI. The States/ UTs have been implementing the same.

PM interacts with the CMs of 6 states to discuss Covid situation

PM lauds states for cooperation, united efforts and collaboration

CMs thank PM for lending all possible help

The trend of increase in cases in Maharashtra and Kerala is a cause of concern: PM

Test Track, Treat and Teeka is tested and proven strategy: PM

We have to take proactive measures to prevent the possibility of the third wave: PM

Fill the infrastructural gaps, especially in the rural areas: PM

Corona is not over, pictures of post unlocking behaviour worrisome: PM

The Prime Minister, Shri Narendra Modi interacted with CMs of Tamil Nadu, Andhra Pradesh, Karnataka, Odisha, Maharashtra and Kerala to discuss Covid related situation. Union Home Minister, Health Minister were also present in the meeting. The Chief Ministers thanked the Prime Minister for lending all possible help and support in tackling Covid. They briefed the Prime Minister about the progress of vaccination and steps that are being taken to contain the spread of the virus in their states. They also provided feedback about the vaccination strategy.

COVID19 Vaccination: Myths vs. Facts

Union Health Ministry committed to maintaining non-COVID essential healthcare services including immunization under Universal Immunization Programme (UIP)

India has achieved 99% DTP3 coverage in first quarter of 2021, highest coverage recorded till date

It is clarified that since the outbreak of the pandemic, Union Ministry of Health and Family Welfare has been focused towards maintaining essential services including immunization under the Universal Immunization Programme (UIP). The Ministry along with all States and UTs and development partners, has worked towards mitigating negative impacts of COVID-19 and taking urgent actions to ensure that children receive life-saving vaccines under UIP.

COVID-19 Update

- India's Cumulative COVID-19 Vaccination Coverage crosses the landmark of 39 Cr
- Recovery Rate increases to 97.28%
- 41,806 Daily New Cases reported in last 24 hours
- India's Active Caseload (4,32,041) presently constitutes 1.39% of total cases
- Daily Positivity Rate (2.15%) less than 3% for 24 consecutive days

India's COVID-19 vaccination coverage has crossed the landmark of 39 crores. Cumulatively, 39,13,40,491 vaccine doses have been administered through 49,41,567 sessions, as per the provisional report till 7 am today. 34,97,058 vaccine doses were administered in the last 24 hours.

These include:

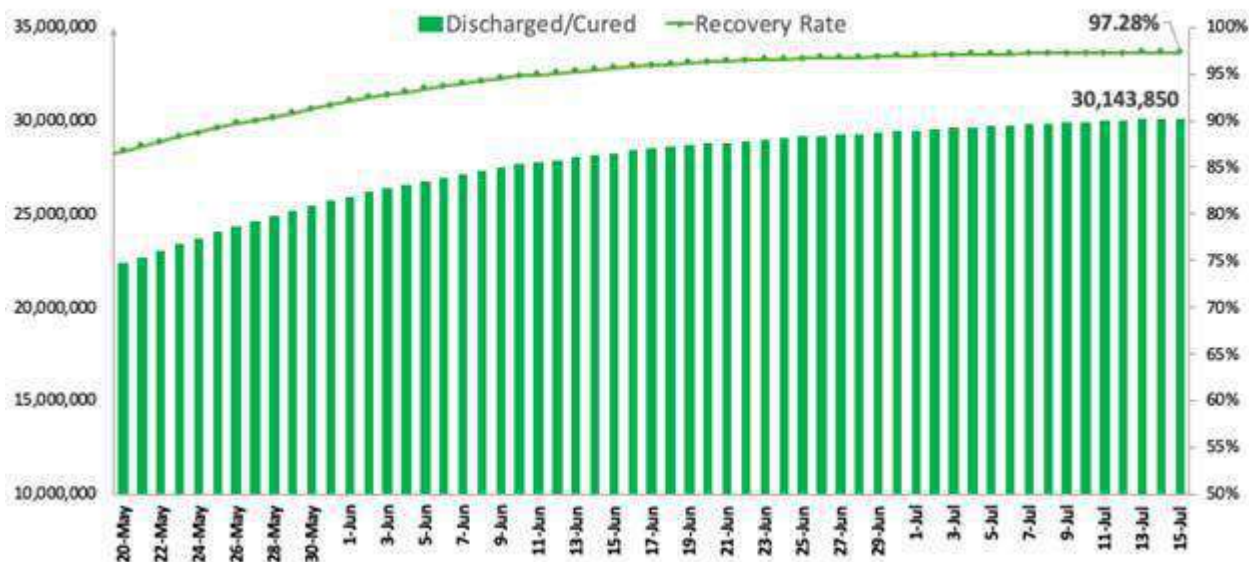

HCWs	1 st Dose	1,02,59,902
	2 nd Dose	74,67,814
FLWs	1 st Dose	1,77,49,670
	2 nd Dose	1,01,08,761
Age Group 18-44 years	1 st Dose	11,80,17,979
	2 nd Dose	42,03,947
Age Group 45-59 years	1 st Dose	9,60,12,486
	2 nd Dose	2,62,71,510
Over 60 years	1 st Dose	7,14,89,465
	2 nd Dose	2,97,58,957
Total		39,13,40,491

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,01,43,850 people have already recovered from COVID-19** and **39,130** patients have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.28%**, which is showing a sustained increasing trend.

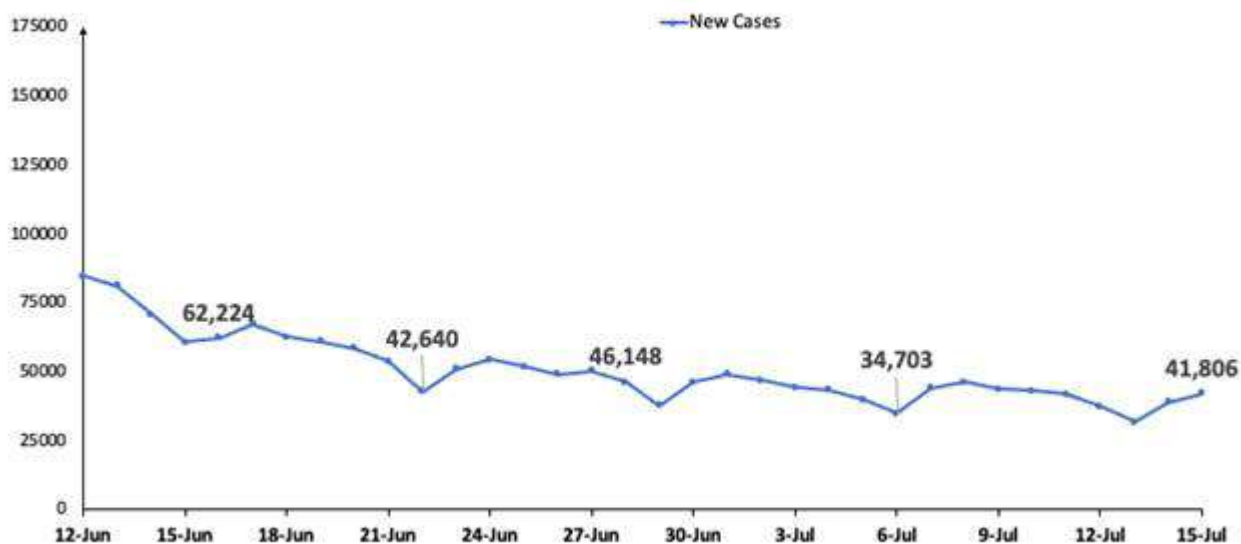

Recovered cases over 3.01 Cr & Recovery rate at 97.28%

India has reported 41,806 daily new cases in the last 24 hours.

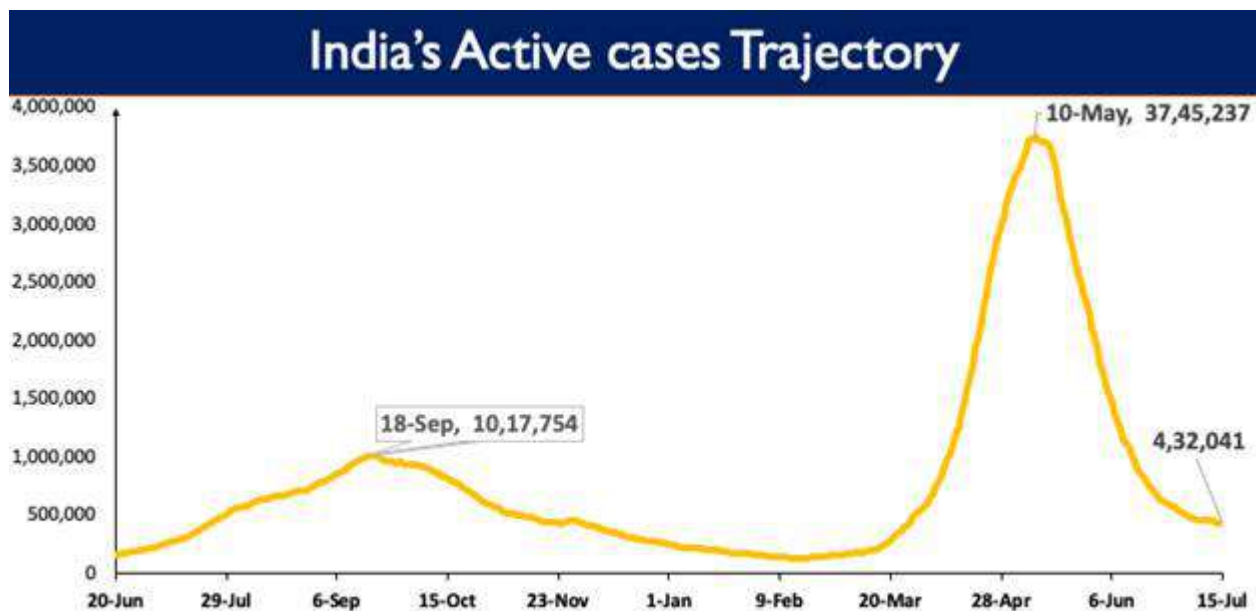

Less than 50,000 Daily New Cases have been reported since eighteen continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

41k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **4,32,041** and active cases now constitute **1.39%** of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 19,43,488 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 43.80 crore (43,80,11,958) tests so far.

While on one side testing capacity has been enhanced across the country, a continued decline in weekly case positivity is noticed. **Weekly Positivity Rate is currently at 2.21%** while the **Daily Positivity rate stands at 2.15% today**. Daily Positivity rate has remained less than 3% for 24 consecutive days, and has remained below 5% for 38 consecutive days now.

PM inaugurates and lays foundation stone of various development projects in Varanasi

- **Lauds Kashi and Uttar Pradesh for their efforts in fight against the pandemic**
- **Kashi is becoming a big medical hub of Purvanchal: PM**
- **Cleanliness and beauty of Maa Ganga and Kashi is an aspiration and priority: PM**
- **Work is on for schemes worth 8000 crore in the region: PM**
- **Uttar Pradesh is fast emerging as the leading investment destination of the country: PM**
- **Rule of law and focus on development is ensuring that people of UP are getting benefits of the schemes: PM**
- **Reminds people of UP to remain vigilant against the virus**

Addressing the gathering, the Prime Minister recalled the difficult last few months when the mutated coronavirus attacked with full force. The Prime Minister lauded the efforts of Uttar Pradesh and Kashi in dealing with the challenge. He praised the efforts of the Government of Uttar Pradesh in dealing with the pandemic. He praised his team from Kashi, the administration and the entire team of Corona warriors for the way they mobilized day and night to create arrangements in Kashi. "Even in the difficult days, Kashi has shown that it never stops and never tires", said the Prime Minister. He contrasted the unprecedented handling of the second wave with the earlier instances when Japanese encephalitis type of diseases used to wreak havoc. Even the small challenges used to acquire massive proportions in the absence of medical facilities and political will. Today UP is the state with the highest number of tests and vaccinations, he said.

ESIC felicitates donors to ESIC Hospitals during COVID-19 Pandemic

Speaking on the occasion, Union Minister for Labour & Employment and Environment, Forests and climate change Shri Bhupender Yadav said the government has undertaken the 3Ts for confronting the pandemic for over 125 crore people of the country. These include tracking, testing and treatment. He said, the country has moved ahead in the field of production of masks and PPE kits, while two indigenous vaccines have been developed in the country. He expressed hope that around 257 crore vaccines will be produced and distributed by the year end. The Minister said the government is totally committed for welfare of the people, it has endeavoured to provide electricity and health facilities to all in the country. In this direction, the health budget has been enhanced by 137per cent. He said under the new Social Security Codes all benefits will be extended even if there is only one employee covered in a company.

COVID Update

National Cumulative COVID-19 Vaccination Coverage exceeds 38.76 Cr

Recovery Rate increases to 97.28%

38,792 Daily New Cases reported in last 24 hours

India's Active Caseload (4,29,946) presently constitutes just 1.39% of total cases

Daily Positivity Rate (2.10%) less than 3% for 23 consecutive days

India's cumulative vaccination coverage has exceeded 38.76 crore. A total of **38,76,97,935** vaccine doses have been administered through 49,10,876 sessions, as per the provisional report till 7 am today. **37,14,441** vaccine doses were administered in the last 24 hours.

These include:

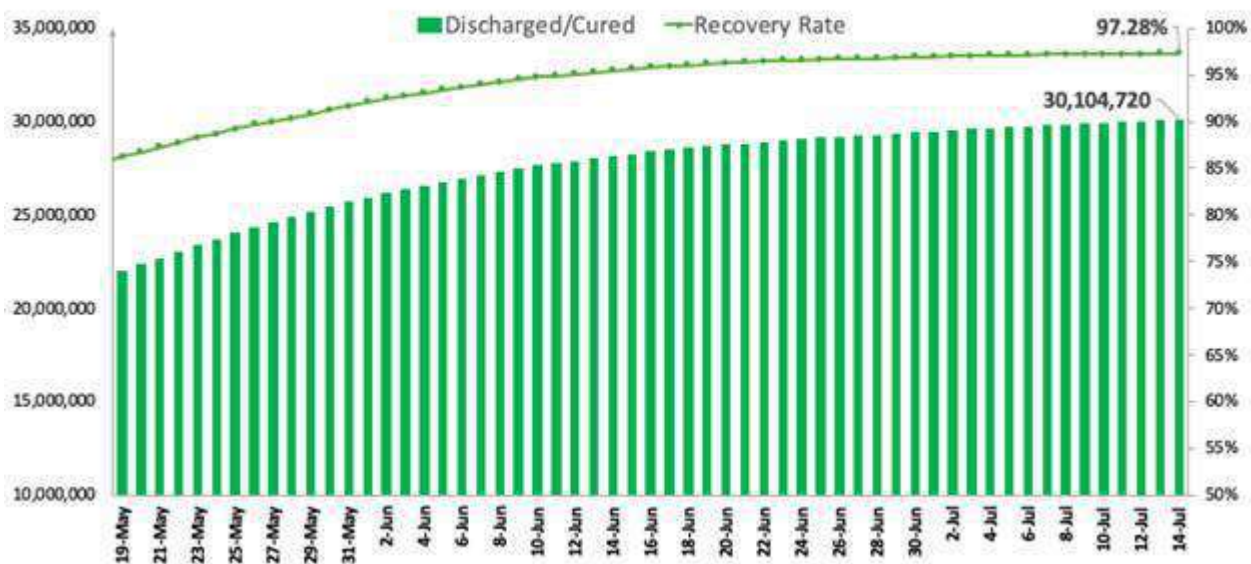

HCWs	1 st Dose	1,02,56,229
	2 nd Dose	74,47,783
FLWs	1 st Dose	1,77,30,845
	2 nd Dose	1,00,52,409
Age Group 18-44 years	1 st Dose	11,64,12,064
	2 nd Dose	40,30,999
Age Group 45-59 years	1 st Dose	9,56,42,767
	2 nd Dose	2,54,39,376
Over 60 years	1 st Dose	7,13,45,634
	2 nd Dose	2,93,39,829
Total		38,76,97,935

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,01,04,720 people have already recovered from COVID-19** and **41,000 patients** have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.28%**, which is showing a sustained increasing trend.

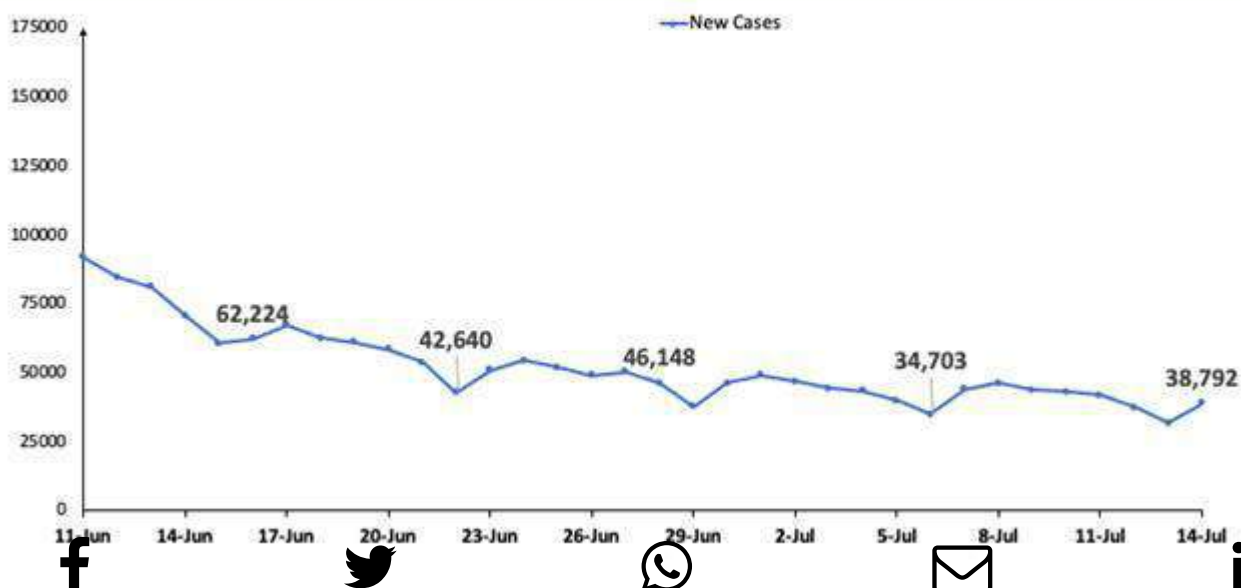

Recovered cases over 3.01 Cr & Recovery rate at 97.28%

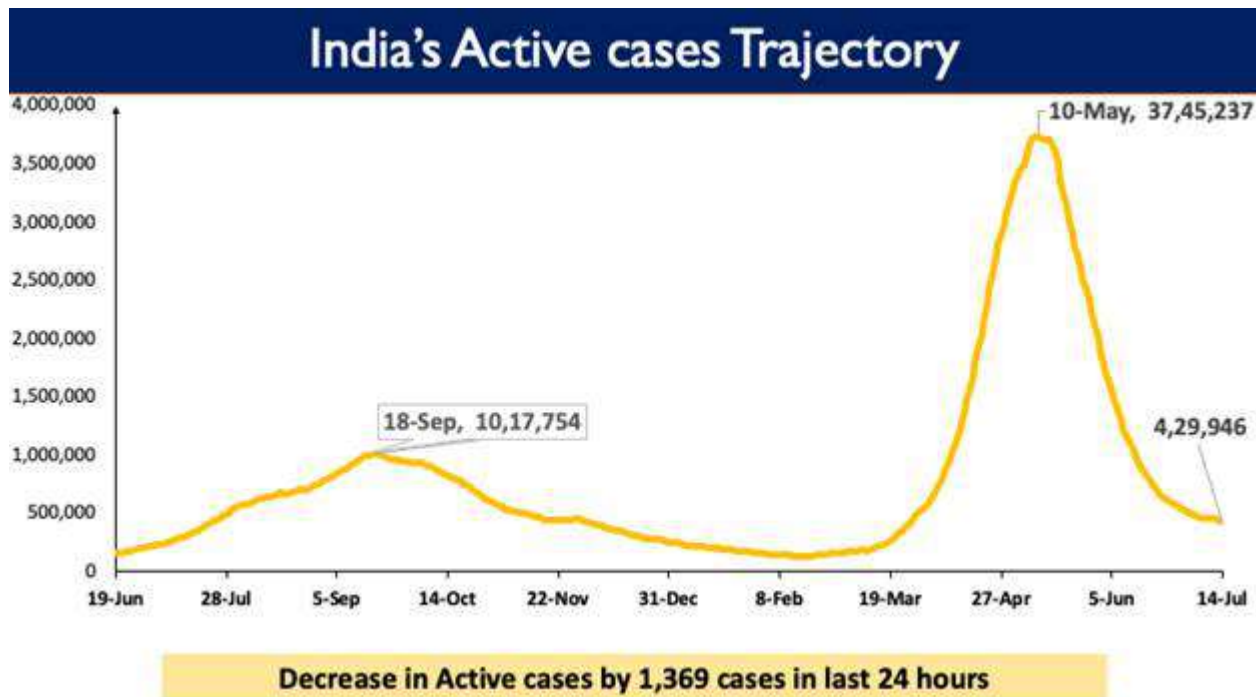

India has reported 38,792 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since seventeen continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

38k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **4,29,946** and active cases are now only **1.39%** of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 19,15,501 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 43.59 crore (43,59,73,639) tests so far.

While on one side testing capacity has been enhanced across the country, a continued decline in weekly case positivity is noticed. **Weekly Positivity Rate is currently at 2.25%** while the **Daily Positivity rate stands at 2.10% today**. Daily Positivity rate has remained less than 3% for 23 consecutive days, and has remained below 5% for 37 consecutive days now.

Union Health Ministry reviews Status and Progress of Vaccine Procurement by Private COVID Vaccination Centers (PCVC)

Slow pace of Procurement and administration of Vaccine by PCVCs in some States a cause of ‘serious worry’

States advised to conduct Daily Review to Facilitate Vaccine Procurement & Administration by Private COVID Vaccination Centers

Union Health Secretary Shri Rajesh Bhushan chaired a high-level meeting today with Health Secretaries and senior immunization officials of 15 States/UTs of Uttar Pradesh, Madhya Pradesh, Rajasthan, Odisha, Telangana, Arunachal Pradesh, Karnataka, Kerala, Tamil Nadu, Maharashtra, Gujarat, West Bengal, Delhi, Punjab and Haryana through video conference (VC) today. Nodal representatives from the two COVID vaccine manufactures, Ms/ Bharat Biotech and M/s Serum Institute of India (SII), were also present.

In light of the revised guidelines for universalisation of the countrywide COVID Vaccination Program and recent advisories, the progress of vaccine procurement and administration by the Private COVID Vaccination Centers (PCVCs) in these states/UT was reviewed. States were again informed of the usage of Co-WIN platform as the backend management tool for the order placements. States/UTs are required to aggregate this demand.

Myths Vs. Facts on COVID-19 mortality figures

Inferences drawn from comparison of HMIS and CRS data on Covid-19 deaths are fallacious and speculative

India has a robust system of recording Covid-19 deaths

It is reiterated that the Union Government has been transparent in its approach to COVID data management and a robust system of recording all COVID-19 related deaths already exists. All States and Union Territories have been entrusted with the responsibility to update the data in this particular system on a continuous basis. In order to avoid inconsistency in number of deaths being reported, Indian Council of Medical Research (ICMR) has issued 'Guidance for appropriate recording of COVID-19 related deaths in India' for correct recording of all deaths as per ICD-10 codes recommended by World Health Organisation (WHO) for mortality coding.

COVID19 Vaccination: Myths Vs. Facts

Union Health Minister Shri Mansukh Mandaviya addresses issues of shortage of COVID vaccine in a series of tweets

“States/UTs informed in advance of Vaccine availability to ensure effective advance planning of the vaccination drive to avoid mismanagement”

Advises those who are spreading misinformation among the people through irresponsible statements for introspection

The Union Health Minister stated that the prevailing situation can be better understood by an analysis of the prevailing situation based on evidence and facts. To enable vaccination through Government and Private hospitals, 11.46 crore vaccine doses were made available to State governments and Union Territories in June 2021 by Union Ministry of Health and Family Welfare. This availability has been increased to 13.50 crore doses in the month of July, he said.

Cabinet approves increase in Dearness Allowance and Dearness Relief

In view of the unprecedented situation which arose due to the COVID-19 pandemic, three additional instalments of Dearness Allowance (DA) to Central Government employees and Dearness Relief (DR) to pensioners, which were due from 01.01.2020, 01.07.2020 and 01.01.2021, had been frozen.

Now, the Government has decided to increase the Dearness Allowance to Central Government employees and Dearness Relief to pensioners with effect from 01.07.2021 to 28% representing an increase of 11% over the existing rate of 17% of the Basic Pay/Pension. The increase reflects the additional instalments arising on 01.01.2020, 01.07.2020 and 01.01.2021. The rate of Dearness Allowance/Dearness Relief for the period 01.01.2020 to 30.06.2021 shall remain at 17%

Government caps Trade Margin up to 70% on Price to Distributor level on five medical devices

Keeping in view the evolving COVID pandemic, and the continuing demand of the medical devices, the Government has decided to regulate their prices for affordable healthcare and COVID management. By invoking extraordinary powers under Para 19 of the DPCO, 2013 in larger public interest National Pharmaceutical Pricing Agency (NPPA) has vide its notification dated 13.07.2021, capped the Trade Margin up to 70% on Price to Distributor (PTD) level on (i) Pulse Oximeter, (ii) Blood Pressure Monitoring Machine, (iii) Nebulizer, (iv) Digital Thermometer, and (v) Glucometer.

Earlier, in February 2019 NPPA had previously capped the Trade Margin on Anti-Cancer Drugs and on 3rd June 2021 for Oxygen Concentrators. Based on the notified Trade Margin, NPPA has instructed the manufacturers / importers to report revised MRP within seven days. Revised MRPs will be informed in public domain thereafter by NPPA. The revised prices will come into effect from 20th July 2021.

Record Allocation 109.33 LMT foodgrains for free of cost distribution to the 14.71 Crore beneficiaries of Uttar Pradesh under PMGKAY

Foodgrains worth Rs 40093 crores allocated

Automation in Public Distribution ensuring that benefits of the scheme reach real beneficiaries and also that they get full quota of entitlement

In order to bring relief to the most vulnerable, a record allocation 109.33 LMT food grains for free of cost distribution for Uttar Pradesh has been made under PMGKAY. Over 14.71 Crore persons of Uttar Pradesh are being benefited through the said scheme. The cost of these food grains amounts to Rs 40093 crores.

The Government of India is bearing the entire cost on account of such distribution including food subsidy, intra-state transportation, dealer's margin/additional dealer's margin etc and the foodgrains are being issued free of cost to the State Government by Food Corporation of India. Under this scheme, 5 Kg food grains per person (which includes 3 Kg Wheat and 2 Kg Rice) per month was distributed additionally to the NFSA beneficiaries. Uttar Pradesh has the highest allocation in the country under NFSA.

COVID-19 Update**India's Cumulative Recoveries crosses 3 Cr mark****National Cumulative COVID-19 Vaccination Coverage exceeds 37.73 Cr****37,154 Daily New Cases reported in last 24 hours****India's Active Caseload (4,50,899) presently constitutes just 1.47% of total cases****Daily Positivity Rate (2.59%) less than 3% for 21 consecutive days**

In a significant milestone in its fight against COVID-19, India's cumulative recoveries has exceeded 3 Crore people. Out of the people infected since the beginning of the pandemic, **3,00,14,713 people have already recovered from COVID-19** and **39,649 patients** have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.22%**, which is showing a sustained increasing trend.

On the other hand, India's cumulative vaccination coverage exceeded 37.73 crore. A total of **37,73,52,501** vaccine doses have been administered through 48,51,209 sessions, as per the provisional report till 7 am today. **12,35,287** vaccine doses were administered in the last 24 hours.

These include:

HCWs

1st Dose

1,02,49,021

	2 nd Dose	74,07,589
FLWs	1 st Dose	1,76,68,922
	2 nd Dose	99,13,421
Age Group 18-44 years	1 st Dose	11,24,48,511
	2 nd Dose	37,46,523
Age Group 45-59 years	1 st Dose	9,35,18,992
	2 nd Dose	2,38,13,758
Over 60 years	1 st Dose	7,01,33,406
	2 nd Dose	2,84,52,358
Total		37,73,52,501

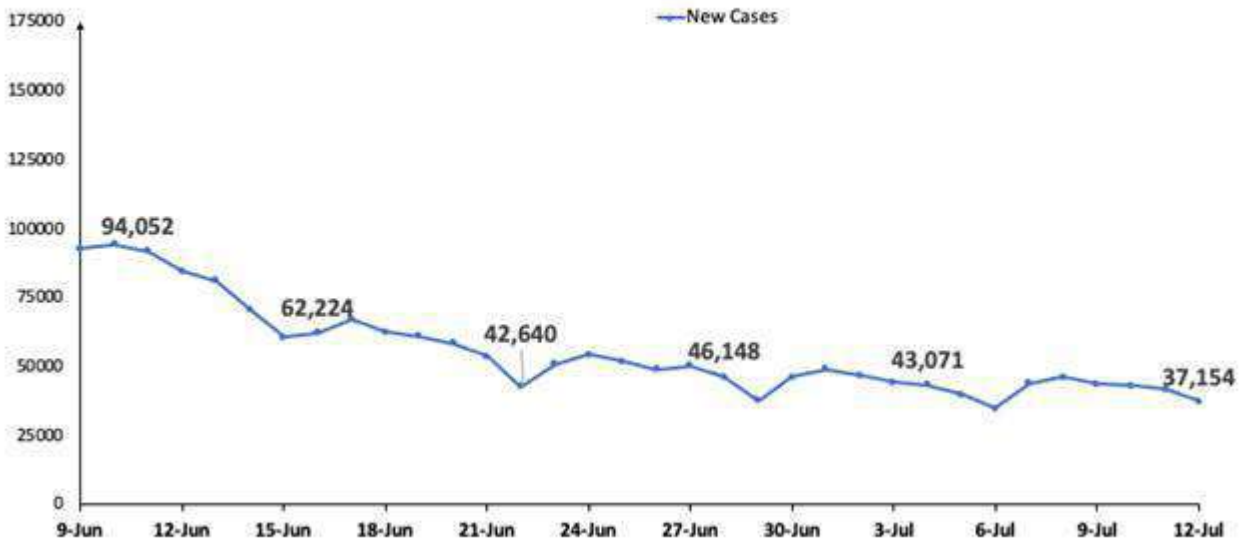

The new phase of universalization of COVID-19 vaccination commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

India has reported 37,154 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since fifteen continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

37k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **4,50,899** and active cases are now only **1.46%** of the country's total Positive Cases.

India's Active cases Trajectory

Decrease in Active cases by 3,219 cases in last 24 hours

With substantially ramped up testing capacity across the country, a total of 14,32,343 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 43 crore (**43,23,17,813**) tests so far.

While on one side testing capacity has been enhanced across the country, a continued decline in weekly case positivity is noticed. **Weekly Positivity Rate is currently at 2.32%** while the **Daily Positivity rate stands at 2.59% today**. Daily Positivity rate has remained less than 3% for 21 consecutive days, and has remained below 5% for 35 consecutive days now.

Finance Minister Smt. Nirmala Sitharaman attends Third G20 Finance Ministers and Central Bank Governors Meeting

The G20 Finance Ministers and Central Bank Governors reaffirmed their resolve to use all available policy tools for as long as required to address the adverse consequences of COVID-19.

Smt. Sitharaman appreciated the Italian G20 Presidency for identifying three catalysts of resilient economic recovery from the pandemic as being Digitalization, Climate Action and Sustainable Infrastructure and shared the Indian experience of integrating technology with inclusive service delivery during the pandemic.

The Finance Minister shared recent policy responses of Government of India to strengthen the health system and economy, including the efficient application of CoWIN Platform to scale-up vaccination in India. Smt. Sitharaman added that this platform has been made freely available to all countries as humanitarian needs outweigh commercial considerations in this extraordinary crisis. The Finance Minister stated that as the co-chair of Framework Working Group of the G20, India along with UK, views digitalization as an agenda that will continue to play a key role in bolstering economic growth.

COVID-19 Update

- **India reports 43,393 new cases in last 24 hours**
- **India's Active Caseload currently at 4,58,727**
- **Active cases constitute 1.49% of total cases**
- **2,98,88,284 Total Recoveries across the country so far**
- **44,459 patients recovered during last 24 hours**
- **Recovery Rate increases to 97.19%**
- **Weekly Positivity Rate remains below 5%, currently at 2.36%**
- **Daily positivity rate at 2.42%, less than 3% for 18 consecutive days**

COVID-19 Vaccination Update

India's COVID-19 Vaccination Coverage exceeds 36.89 Cr

More than 40 lakh Vaccine Doses administered in the last 24 hours

More than 11.18 Cr Vaccine doses administered in the age group 18-44, so far

India's cumulative COVID Vaccination Coverage exceeded **36.89 crore (36,89,91,222)**, as per the provisional report till 7 am. Cumulatively, more than **11.18 Cr (11,18,32,803)** Vaccine Doses were administered in the age group 18-44 years.

40 Lakh (40,23,173) Vaccine Doses were administered in the last 24 hours.

	Cumulative Vaccine Dose Coverage					
	Healthcare workers	Frontline workers	People Aged 18-44 Years	People Aged ≥ 45 Years	People Aged ≥ 60 Years	Total

1st Dose	1,02,41,588	1,76,40,956	10,84,53,590	9,25,87,549	6,97,55,230	29,86,78,913
2nd Dose	73,71,624	98,12,170	33,79,213	2,21,77,450	2,75,71,852	7,03,12,309
Total	1,76,13,212	2,74,53,126	11,18,32,803	11,47,64,999	9,73,27,082	36,89,91,222

On Day-174 of the vaccination drive (8th July, 2021), out of total **40,23,173** vaccine doses that were given, 27,01,200 beneficiaries were vaccinated for 1st dose and **13,21,973** beneficiaries received 2nd dose of vaccine.

Date: 8th July, 2021 (174th Day)						
	Healthcare workers	Frontline workers	People Aged 18-44 Years	People Aged ≥ 45 Years	People Aged ≥ 60 Years	Total
1st Dose	2,369	10,787	20,31,634	4,65,091	1,91,319	27,01,200
2nd Dose	13,367	32,090	1,79,901	7,19,936	3,76,679	13,21,973
Total	15,736	42,877	22,11,535	11,85,027	5,67,998	40,23,173

20,31,634 vaccine doses were administered as first dose and **1,79,901** vaccine doses given as second dose in the age group 18-44 years yesterday.

Cumulatively, **10,84,53,590** persons in the age group 18-44 years across 37 States/UTs have received their first dose and total **33,79,213** have received their second.

Eight States viz. Uttar Pradesh, Madhya Pradesh, Rajasthan, Tamil Nadu, Bihar, Gujarat, Karnataka and Maharashtra have administered more than 50 lakh first dose of COVID-19 Vaccine in the age group 18-44 years.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1734121>

More than 38.18 Crore vaccine doses provided to States/UTs

More than 1.70 Cr balance and unutilized doses still available with States/UTs and private hospitals to be administered

PM chairs high level meeting to review ramping up of oxygen supply across the Country

More than 1500 PSA Oxygen plants are coming up across the nation

PSA Oxygen plants contributed by PM CARES would support more than 4 lakh oxygenated beds

PM instructs officials to ensure that the plants are made functional at the earliest

Ensure adequate training of hospital staff on operation and maintenance of oxygen plants: PM

Deploy advanced technology like IoT to track performance and functioning of oxygen plants: PM

PM Narendra Modi today reviewed the progress of oxygen augmentation and availability across the country. Officials briefed PM about the progress on installation of PSA Oxygen plants across the country. More than 1500 PSA Oxygen plants are coming up across the nation which includes contribution from PM CARES as well as various ministries & PSUs.

PSA Oxygen plants contributed by PM CARES are coming up in all states and districts of the country. PM was informed that once all PSA Oxygen plants coming up through PM CARES would be functional, they would support more than 4 lakh oxygenated beds.

Cabinet approves "India COVID 19 Emergency Response and Health Systems Preparedness Package: Phase II" at a cost of Rs 23,123 crore

The Union Cabinet chaired by Hon'ble Prime Minister Shri Narendra Modi yesterday approved a new scheme 'India COVID-19 Emergency Response & Health System Preparedness Package: Phase-II' amounting to Rs. 23,123 crores for FY 2021-22. This scheme aims to accelerate health system preparedness for immediate responsiveness for early prevention, detection and management, with the focus on health infrastructure development including for Paediatric Care and with measurable outcomes. The Phase-II of the Package has Central Sector (CS) and Centrally Sponsored Schemes (CSS) components.

In March 2020 last year, when the country faced the first wave of the COVID 19 pandemic, the PM announced a Central Sector Scheme of Rs. 15,000 crore for the "India COVID 19 Emergency Response and Health Systems Preparedness Package", providing a critical impetus to the efforts of MoHFW and States/UTs, and catalysing health systems activities for pandemic management. Since mid-February 2021, the country is experiencing a second wave with spread into rural, peri-urban and tribal areas.

Breastfeeding mothers should get themselves vaccinated against COVID-19 without any hesitation: Dr. Samiran Panda, Head, Division of Epidemiology and Communicable Diseases, ICMR

“Vaccines available now are largely effective against the new variants of COVID-19”

COVID19 virus may reach its endemic stage after a while, like Influenza: Dr. Panda

Breastfeeding mothers should get themselves vaccinated against COVID-19 without any hesitation. The anti-bodies that are developed in the mother as a result of the vaccination get passively transferred to the baby while breastfeeding and could be helpful to the child, says Shri Samiran Panda, Head, Division of Epidemiology and Communicable Diseases, Indian Council for Medical Research.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1734159>

Inputs from PIB Field Units

Maharashtra: Maharashtra has reported 9,114 new COVID-19 cases and 121 fatalities, which took its overall infection count to 61,31,976 and death toll to 1,24,296. A total of 8,815 patients were discharged from hospitals on Thursday, which pushed the state's overall recovery count to 58,89,982. There are 1,14,444 active COVID-19 cases in the state. On Thursday, the state vaccinated 3,18,143 people.

Gujarat: Gujarat on Thursday added 62 new COVID-19 cases taking its tally of infections to 8,24,091. State's death toll stood at 10,072, while 534 patients were discharged from various hospitals, taking the count of recoveries to 8,12,522. With this, the rate of recovery in Gujarat now stands at 98.60 per cent. The state has 1,497 active cases.

Rajasthan: The Covid tally in Rajasthan reached 9,52,956 with 69 fresh cases, while the death toll stood at 8,942 as no new fatality was reported in the state. As many as 9,43,190 people have recovered from the infection, while there are 824 active cases in the state.

Madhya Pradesh: Madhya Pradesh reported 26 new COVID-19 cases while fatality count reached 9,023 on Thursday. The number of active cases in the state reduced to 416 while 47 patients were recovered from infection. Meanwhile, more than 6 lakh people got the dose of corona vaccine under the vaccination campaign yesterday.

Chhattisgarh: Chhattisgarh's COVID-19 case tally was 9,97,035 on Thursday with 346 new cases coming to light. The state also recorded three deaths, taking the death toll to 13,467. The number of recoveries rose to 9,78,654. The number of active cases in the state stands at 4,914. Around 1.04 crore persons have been vaccinated against COVID-19 in Chhattisgarh till now.

Goa: Goa recorded 195 new coronavirus cases and four deaths on Thursday. The caseload in the coastal state thus rose to 1,68,210 and death toll reached 3,086. With 176 persons getting discharged from hospitals, the number of recovered patients rose to 1,63,159. There are 1,965 active cases in the state now.

KERALA: A total of 1,53,14,751 people have so far been vaccinated in the state. Of this, 1,14,20,643 took first dose and 38,94,108 second dose.

TAMIL NADU: Tamil Nadu on Thursday saw 3,211 fresh cases and 57 deaths. This took the cumulative case tally to 25.10 lakh and toll to 33,253. There are less than 100 cases in 29 districts. A total of 1,72,43,531 people have so far been vaccinated in TN. Out of this, 1,43,63,683 took first dose and 28,79,848 took second dose. Similarly, in Puducherry UT, a total of 5,66,451 people have so far been vaccinated. Out of this, 4,70,845 took first dose and 95,606 took second dose.

KARNATAKA: As on 08-07-2021, New Cases Reported: 2,530; Total Active Cases: 38,729 New Covid Deaths: 62; Total Covid Deaths: 35,663; Around 1,55,773 were vaccinated yesterday with a total of 2,49,00,211 have been vaccinated in the state till now.

ANDHRA PRADESH: State reported 2982 new Covid-19 cases after testing 91,070 samples with 27 deaths, while 3461 got discharged during the last 24 hours. Total cases: 19,14,213; Active cases: 31,850; Discharges: 18,69,417; Deaths: 12,946. A total of 1,67,15,916 doses of Covid vaccines have been administered in the state as on yesterday, which include 1,33,47,424 first doses and 33,68,492 second doses.

TELANGANA: A total of 731 new cases and four fatalities were reported yesterday taking the total number of cases in the state to 6,29,785 and deaths to 3,714. The recovery rate has reached 97.63 percent against the national average of 97.14 percent. The Case Fatality Rate (CFR) is reported to be 0.58 percent against the national average of 1.3 percent. The number of Active Cases in the state now stands at 11,206.

Punjab: As on 8th June, 2021, the total number of patients tested Positive is 597,195. Number of active cases is 1,927. Total Deaths reported is 16,157. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 13,49,497. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 3,99,145. Total above 45 Vaccinated with 1st dose is 35,32,270. Total above 45 Vaccinated with 2nd dose is 8,84,635.

Haryana: As on 8th June, 2021, Total Number of Samples found positive till date is 7,69,148. Total active COVID-19 patients is 1,034. Number of deaths is 9,525. Cumulative number of people vaccinated till date is 9,65,164.

Chandigarh: As on 8th June, 2021, total Lab confirmed COVID-19 cases is 61,794. Total number of Active Cases is 100. Total number of COVID-19 deaths till date is 809.

Himachal Pradesh: Total number of patients tested Covid positive till date is 2,03,245. Total number of Active Cases is 1,307. Total deaths reported till date is 3,470.

Assam: A total of 21 Covid deaths were reported in Assam in last 24 hours, while 2,644 new infections were detected in 1,06,760 tests done during the day.

Manipur: In Manipur 839 more test positive and 12 deaths recorded. Manipur records positivity rate of 19.1 pc, highest in Jun and July. On July 7, a total of 30,627 received their vaccination shots to take the total number of vaccinated people to 8,26,702 and out of this the number of people who have received their second dose is 91,092.

Meghalaya: Meghalaya registered an increase in fresh cases of COVID-19 with 532 being detected on Thursday, even as four more deaths occurred in the state. The total active cases stand at 4,391 while the number of recoveries has gone up to 47,963 with 366 patients declared cured/recovered from the viral infection in the past 24 hour.

Sikkim: 222 people tested positive for Novel Coronavirus in the past 24 hours. One more Covid death reported. 222 new cases picked up from testing of 1,076 samples, giving Sikkim a daily positivity rate of 20.6%. At present, there are 2,144 active Covid cases in the State.

Tripura: In Tripura 407 cases were detected and 6 died in last 24 hours. Positivity rate for the whole state has come down to 4.75%.

Nagaland: Nagaland reports 64 new cases and 125 recoveries on Thursday. Active cases are 1004 while total reaches 25,727.

COVID-19 Update

India's COVID-19 Vaccination Coverage exceeds 36.48 Cr

45,892 Daily New Cases reported in last 24 hours

India's Active Caseload currently at 4,60,704; constitutes 1.50% of total cases

Daily Positivity Rate (2.42%) less than 5% for over a month

India's cumulative vaccination coverage exceeded 36.48 crore today as per the provisional report till 7 am today. A total of **36,48,47,549** vaccine doses have been administered through 47,40,833 sessions, as per the provisional report till 7 am today. **33,81,671** vaccine doses were administered in the last 24 hours.

These include:

HCWs	1 st Dose	1,02,38,831
	2 nd Dose	73,57,382
FLWs	1 st Dose	1,76,29,332
	2 nd Dose	97,78,648
Age Group 18-44 years	1 st Dose	10,63,61,310
	2 nd Dose	31,93,918
Age Group 45-59 years	1 st Dose	9,21,04,824
	2 nd Dose	2,14,42,733
Over 60 years	1 st Dose	6,95,55,573
	2 nd Dose	2,71,84,998
Total		36,48,47,549

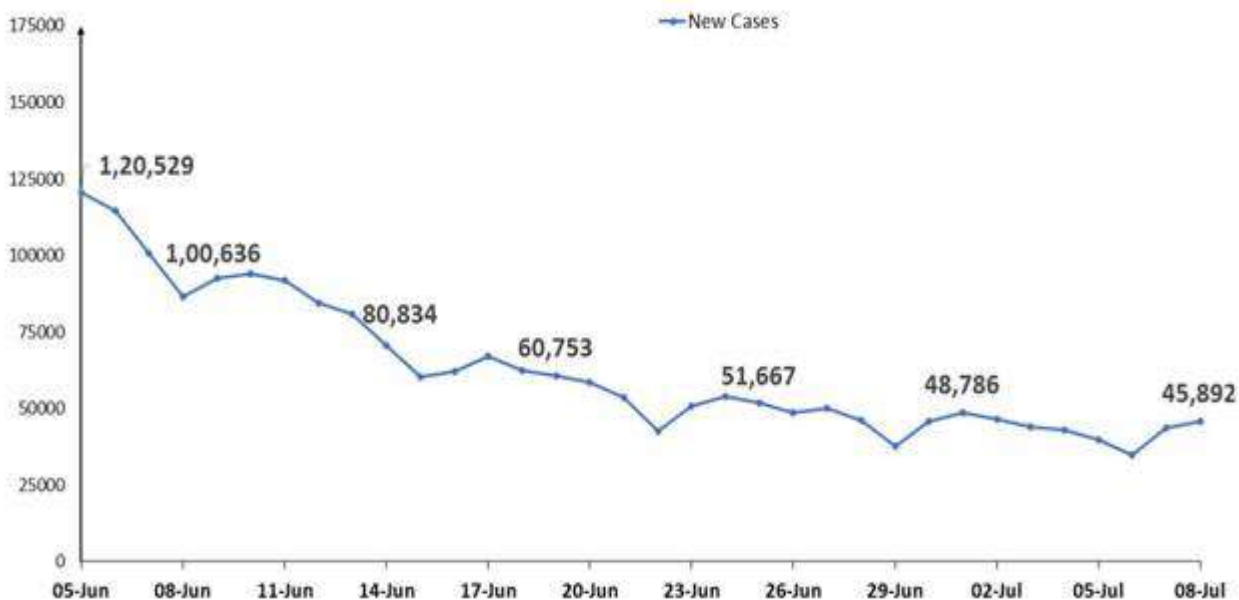

The new phase of universalization of COVID19 vaccination commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID19 vaccination throughout the country.

India has reported 45,892 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since eleven continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

45k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **4,60,704** and active cases are now only **1.50%** of the country's total Positive Cases.

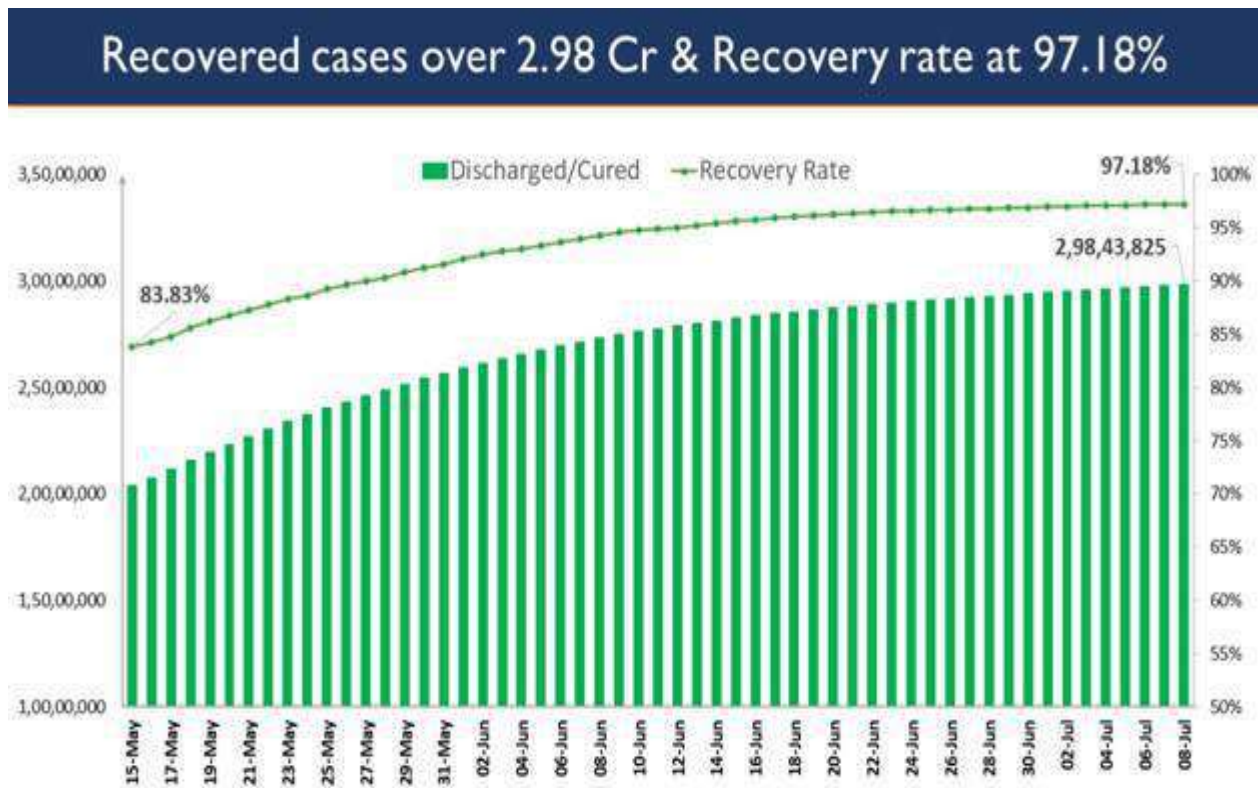

India's Active cases Trajectory

Active cases constitute 1.50% of total cases

Out of the people infected since the beginning of the pandemic, **2,98,43,825 people have already recovered from COVID-19** and **44,291 patients** have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.18%**, which is showing a sustained increasing trend.

With substantially ramped up testing capacity across the country, a total of 18,93,800 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 42.52 crore (42,52,25,897) tests so far.

While on one side testing capacity has been enhanced across the country, a continued decline in weekly case positivity is noticed. **Weekly Positivity Rate is currently at 2.37%** while the **Daily Positivity rate stands at 2.42% today**. Daily Positivity rate has remained less than 3% for 17 consecutive days now, and has remained below 5% for over a month.

	2 nd Dose	2,67,84,222
Total		36,13,23,548

The new phase of universalization of COVID19 vaccination commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID19 vaccination throughout the country.

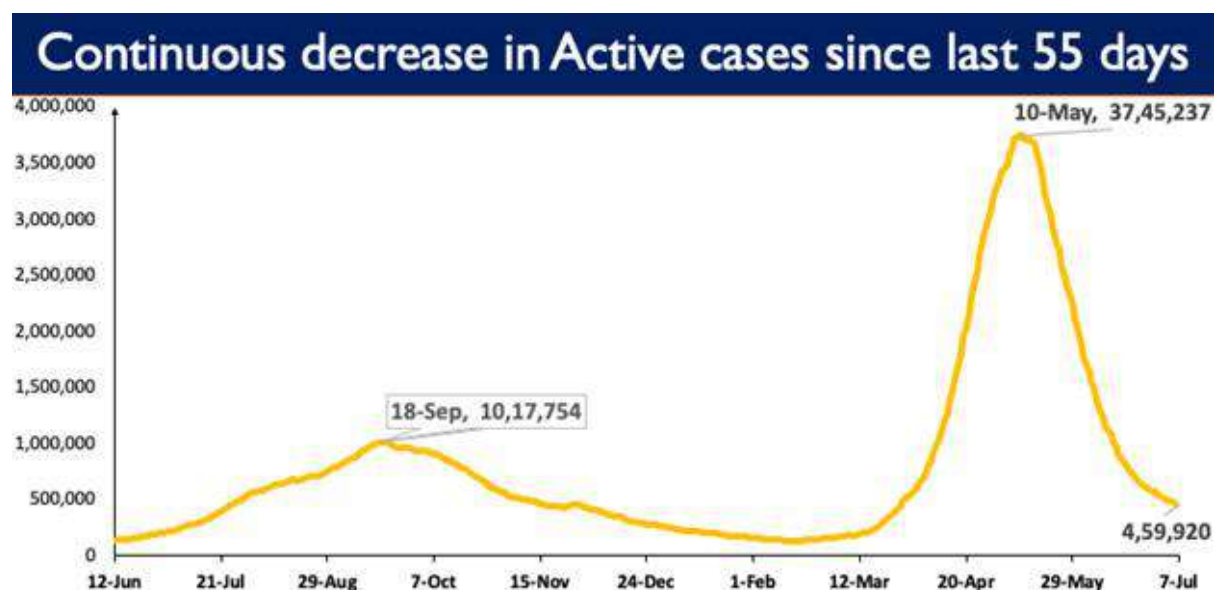

India has reported 43,733 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since ten continuous days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India has also been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at **4,59,920**.

A net decline of **4,437** is witnessed in the last 24 hours and active cases are now only **1.50%** of the country's total Positive Cases.

Decrease in active cases by 4,437 cases in last 24 hrs

As more people are getting recovered from COVID-19 infection, India's Daily Recoveries continue to outnumber the Daily New Cases for 55 consecutive days now. **47,240** recoveries were registered in the last 24 hours.

More than 3,000 (**3,507**) recoveries were reported during the last 24 hours as compared to the daily new cases.

COVID-19 Vaccination Update

More than 37.43 Crore vaccine doses provided to States/UTs

More than 1.67 Cr balance and unutilized doses still available with States/UTs and private hospitals to be administered

More than 37.43 crore (37,43,25,560) vaccine doses have been provided to States/UTs so far, through all sources and a further 48,65,110 doses are in the pipeline. Of this, the total consumption including wastages is 35,75,98,947 doses (as per data available at 8 AM today).

More than 1.67 Cr (1,67,26,613) balance and unutilized COVID Vaccine doses are still available with the States/UTs and private hospitals to be administered.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1733269>

COVID19 Vaccination: Myth vs. Facts

States/ UTs had been informed adequately in advance regarding Vaccine doses being made available to them in July

States/ UTs to receive more than 12 crore doses of vaccine in July

Recently, there have been some media reports alleging that there was 32% less vaccination in the last one week as compared to the week preceding it. It is clarified that all States/ UTs are being informed much in advance about the doses that will be available during the month of July, 2021 including the supply to private hospitals. The States/UTs have been advised to plan their COVID -19 Vaccination sessions based on the availability of the COVID vaccines.

Union Home Secretary reviews COVID-19 situation in North Eastern (NE) States and Union Territories

The Union Home Secretary chaired a meeting here today to review the COVID-19 situation in all the North Eastern (NE) States and Union Territories (UTs). During the meeting, current status and trends on the active cases, Case Fatality Rate (CFR), Case Positivity Rate (CPR) and vaccination status in respect of all the UTs and NE States was discussed. It was also noted that out of 73 districts in the country with CPR above 10 percent, 46 districts are in NE States, where strict containment measures need to be taken as per extant guidelines.

Q&A on Indian SARS-CoV-2 Genomics Consortium (INSACOG)

India started sequencing SARS-CoV-2 viral genomes in 2020. Initially, NIV and ICMR sequenced samples of international passengers who arrived in India from UK, Brazil or South Africa or transited through these countries, as these countries reported a sudden surge in cases. RTPCR positive samples from States reporting sudden surges in cases were sequenced on priority. This was further expanded through efforts of Council of Scientific and Industrial Research (CSIR), Department of Biotechnology (DBT) and National Centre for Disease Control (NCDC), as well as individual Institutions.

PM addresses CoWin Global Conclave as India offers CoWIN platform as a digital public good to the world to combat COVID19**CoWin platform is being made open source, available to any and all countries: PM****With nearly 200 million users, the 'AarogyaSetu' app is a readily available package for developers: PM****No parallel to such a pandemic in hundred years and no nation, however powerful, can solve a challenge like this in isolation: PM****We have to work together and move ahead together: PM****India adopted a completely digital approach while planning its vaccination strategy: PM****Secure and trustworthy proof help people to establish when, where and by whom they have been vaccinated: PM****Digital approach also helps in tracking the usage of vaccination and minimizes the wastage: PM****Guided by the approach of 'One Earth, One Health', humanity will certainly overcome this pandemic: PM**

The Prime Minister, Shri Narendra Modi today addressed the CoWin Global Conclave as India offered CoWIN platform as a digital public good to the world to combat COVID19.

The Prime Minister began with conveying his condolences for all the lives lost to the pandemic, in all the countries. The Prime Minister remarked that there is no parallel to such a pandemic in hundred years and no nation, however powerful, can solve a challenge like this in isolation. “The biggest lesson from the COVID-19 pandemic is that for humanity and the human cause, we have to work together and move ahead together. We have to learn from each other and guide each other about our best practices” said the Prime Minister.

Dr. Harsh Vardhan addresses Co-WIN Global Conclave**Upholds India's belief in the ancient philosophy of 'VasudhaivaKutumbakam': the entire world is one family**

“Co-WIN is the crown jewel of our Digital India Initiative”

“The transparent system allows tracking of each dose of vaccine, monitoring of supplies at vaccination facilities to record the demand at a granular level and has enabled vaccine accessibility and inclusivity for all”

“We are committed to inoculating our entire adult population by December 2021”

Prime Minister Shri Narendra Modi digitally inaugurated the Global CoWIN conclave today. Dr. Harsh Vardhan, Union Minister for Health and Family Welfare addressed the inaugural session of Co-WIN Global Conclave through Video Conference. The conclave was attended by dignitaries from 142 countries including Afghanistan, Bangladesh, Bhutan, Maldives, Guyana, Antigua & Barbuda, St. Kitts & Nevis and Zambia amongst several others.

COVID-19 Update**India's COVID-19 Vaccination Coverage crosses 35 Cr mark****Less than 50,000 Daily New Cases reported for a week****India's Active Caseload declines to 4,85,350; Active cases constitute only 1.59% of total cases****Daily Positivity Rate (2.34%) less than 5% for 27 consecutive days**

India's cumulative vaccination coverage crossed the landmark of **35 crore** yesterday. A total of **35,12,21,306** vaccine doses have been administered through 46,04,925 sessions, as per the provisional report till 7 am today. **63,87,849** vaccine doses were administered in the last 24 hours. These include:

HCWs	1 st Dose	1,02,27,957
	2 nd Dose	73,08,968
FLWs	1 st Dose	1,75,81,755
	2 nd Dose	96,55,149
Age Group 18-44 years	1 st Dose	9,98,28,219
	2 nd Dose	27,26,338
Age Group 45-59 years	1 st Dose	9,05,89,022
	2 nd Dose	1,86,76,107
Over 60 years	1 st Dose	6,89,10,208
	2 nd Dose	2,57,17,583
Total		35,12,21,306

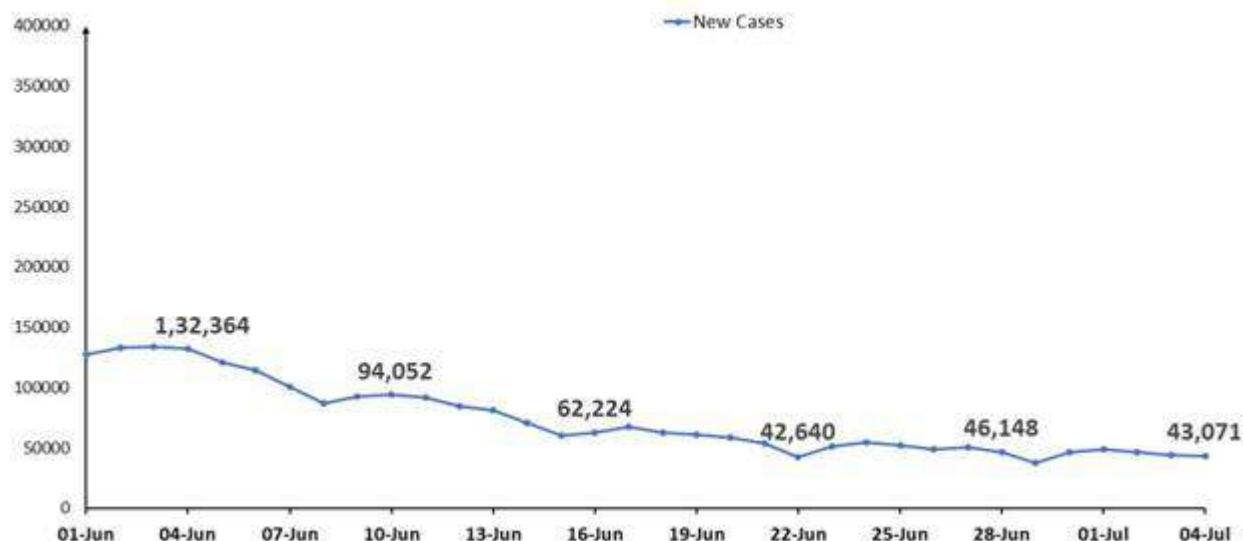

The new phase of universalization of COVID19 vaccination commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID19 vaccination throughout the country.

India has reported 43,071 new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since **seven continuous days**. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

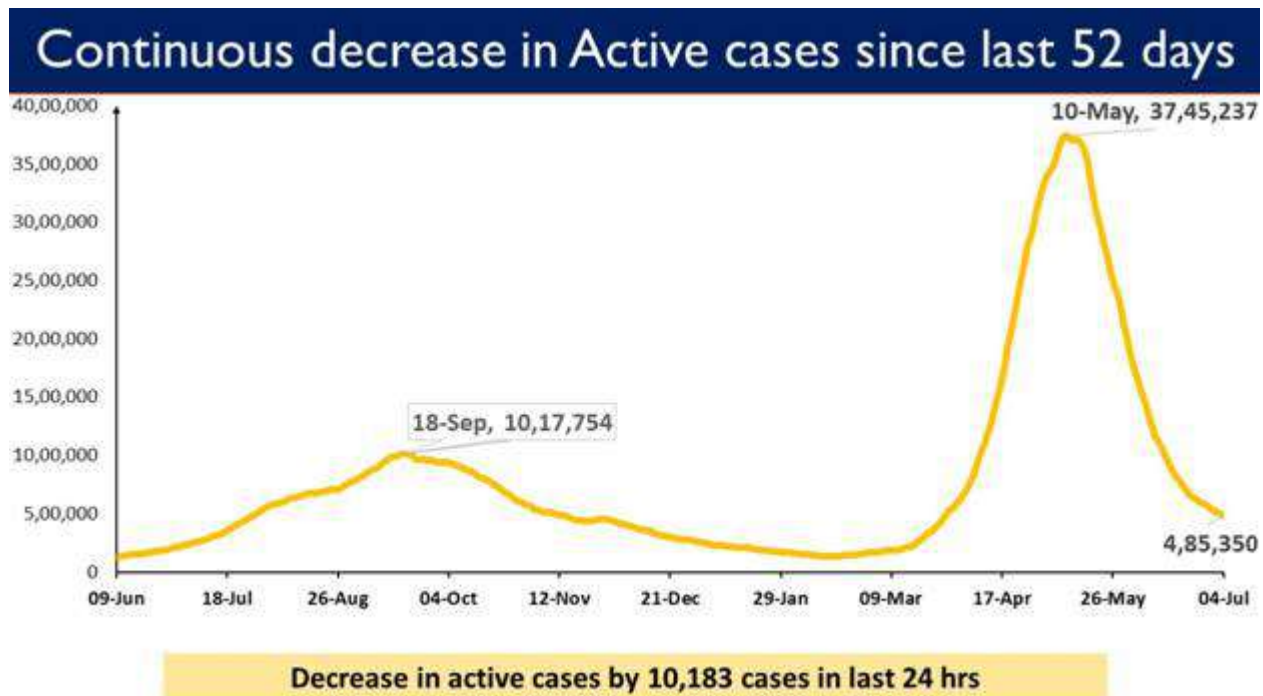

43k Daily New Cases reported in last 24 hrs

India has also been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at **4,85,350**.

A net decline of **10,183** is witnessed in the last 24 hours and active cases are now only **1.59%** of the country's total Positive Cases.

As more people are getting recovered from COVID-19 infection, India's Daily Recoveries continue to outnumber the Daily New Cases for 52 consecutive days now. **52,299** recoveries were registered in the last 24 hours.

More than 9,000 (**9,228**) recoveries were reported during the last 24 hours as compared to the daily new cases.

Vice President calls for fast-tracking of genome sequencing of new COVID-19 variants to speed up vaccine, drug development

VP urges international partnership to study developing a universal vaccine for various variants

Vaccine drive should become a national movement: Shri Naidu

The Vice President visited CCMB's LaCONES (Laboratory for the Conservation of Endangered Species) facility soon after his arrival in Hyderabad. He witnessed a presentation by Scientist-in-charge of LaCONES, Dr. Karthikeyan Vasudevan and visited National Wildlife Genetic Resource Bank, Assisted Reproduction Lab and animal cages at the facility.

Addressing scientists and research scholars, Shri Naidu observed that sequencing, as an adjunctive tool, plays a critical role in identifying the emergence of new viral mutations and thus helps combat the spread of Covid-19. It would also help in timely interventions, he added.

COVID-19 Update

- **India's COVID19 Vaccination Coverage increases to 33.57 cr**
- **With 48,786 New Cases reported in the last 24 hours, less than 50,000 Daily New Cases reported for four continuous days now**
- **India's Active Caseload (5,23,257) constitute only 1.72% of Total Cases**
- **Daily Positivity Rate (2.54%) less than 5% for 24 consecutive days**

India's cumulative vaccination coverage exceeded 33.57 crore yesterday. A total of **33,57,16,019** vaccine doses have been administered through 44,75,791 sessions, as per the provisional report till 7 am today. 27,60,345 vaccine doses were administered in the last 24 hours. These include:

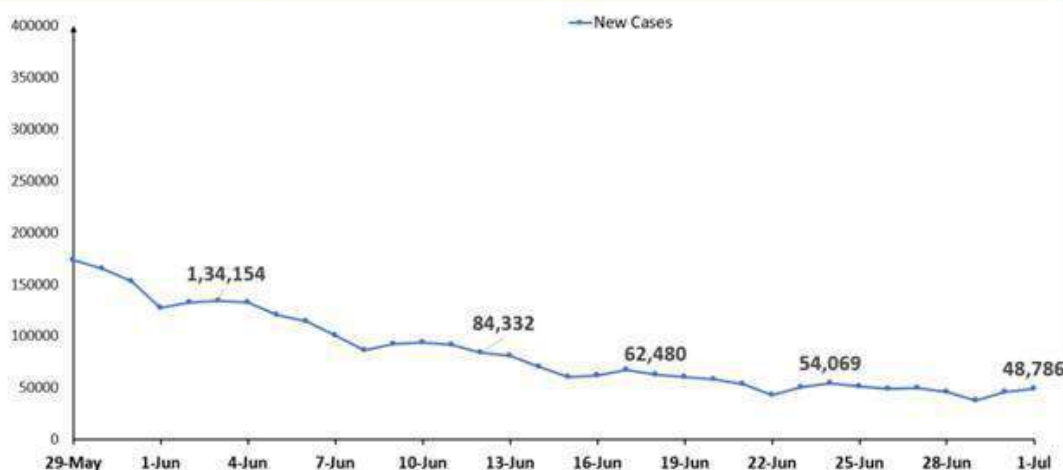

HCWs	1 st Dose	1,02,12,078
	2 nd Dose	72,56,031
FLWs	1 st Dose	1,75,12,765
	2 nd Dose	95,16,814
Age Group 18-44 years	1 st Dose	9,16,00,418
	2 nd Dose	21,82,234
Age Group 45-59 years	1 st Dose	8,86,47,056
	2 nd Dose	1,63,14,943
Over 60 years	1 st Dose	6,81,27,563
	2 nd Dose	2,43,46,117
Total		33,57,16,019

The new phase of universalization of COVID19 vaccination commenced from 21 June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID19 vaccination throughout the country.

India has reported 48,786 new cases in the last 24 hours. Less than 50,000 Daily New Cases have been reported since **four continuous days**. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

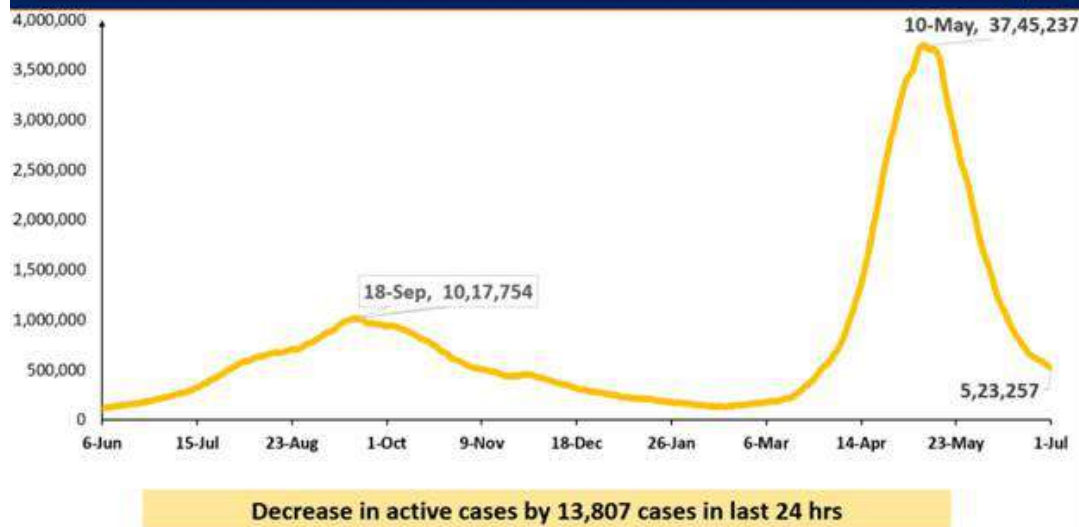

48k Daily New Cases reported in last 24 hrs

India has also been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at 5,23,257 today.

A net decline of **13,807** is witnessed in the last 24 hours and active cases are now only **1.72%** of the country's total Positive Cases.

Continuous decrease in Active cases since last 49 days

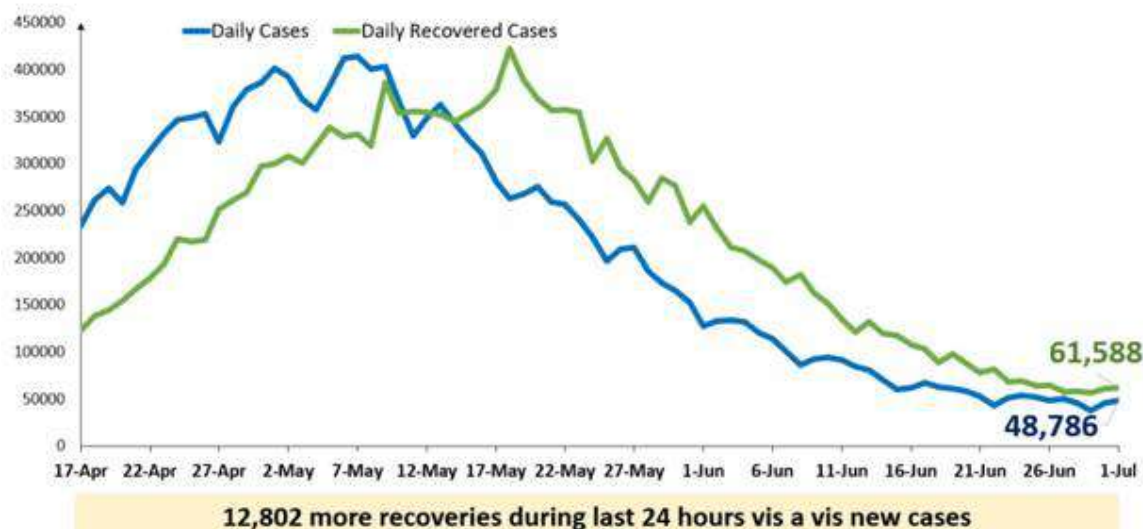

As more people are getting recovered from COVID-19 infection, India's Daily Recoveries continue to outnumber the Daily New Cases for 49 consecutive days now. **61,588** recoveries were registered in the last 24 hours.

More than 12,000 (**12,802**) recoveries were reported during the last 24 hours as compared to the daily new cases.

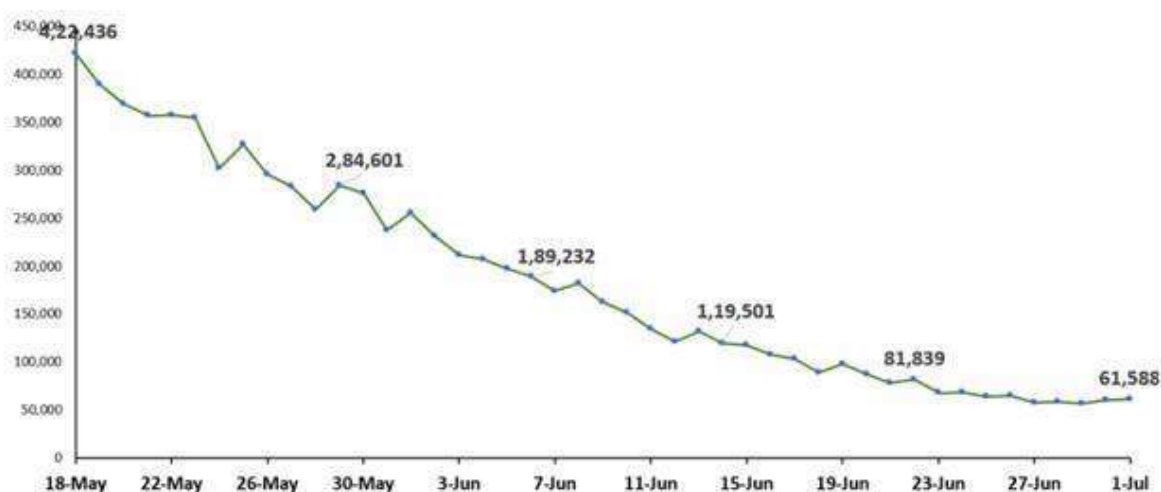

Recoveries exceeding the Daily cases reported

Out of the people infected since the beginning of the pandemic, **2,94,88,918** people have already recovered from COVID-19 and **61,588** patients have recovered in the last 24 hours. This constitutes an overall recovery rate of **96.97%**, which is showing a sustained increasing trend.

Daily Recovered Cases

With substantially ramped up testing capacity across the country, a total of 19,21,450 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 41.20 crore (**41,20,21,494**) tests so far.

While on one side testing capacity has been enhanced across the country, a continued decline in weekly case positivity is noticed. **Weekly Positivity Rate is currently at 2.64%** while the **Daily Positivity rate stands at 2.54% today**. It has remained less than 5% for 24 consecutive days now.

COVID19 Vaccination: Myths vs. Facts

COVID-19 Vaccination programme gives priority to strengthening the country's healthcare system by protecting the professionals, health and frontline workers and the most vulnerable population groups

All citizens irrespective of their income status are entitled to free vaccination by Government of India

Non-transferable Electronic Vouchers are in the pipeline to be used to support vaccination of Economically Weaker Sections at private COVID Vaccination Centres

India's National COVID Vaccination Program is built on scientific and epidemiological evidence, WHO guidelines and global best practices. It is anchored in systematic end-to-end planning and is implemented through effective and efficient participation of States/UTs and the people at large. Government of India's commitment to the vaccination program has been unwavering and proactive from the beginning.

PM addresses doctors on National Doctors' Day

- **PM pays tribute to the services and sacrifices of doctors during pandemic**
- **Health sector budget has been doubled to more than 2 lakh crore rupees: PM**
- **Our doctors are facing this new and fast mutating virus with their experience and expertise: PM**

- **Government is committed to the safety of doctors: PM**
- **Calls for evidence-based studies on benefits of yoga**
- **Stresses the importance of documentation, Covid pandemic can be a good starting point for detailed documentation**

The Prime Minister, Shri Narendra Modi has greeted the doctor community on Doctors' Day today. He said this day, celebrated in the memory of Doctor BC Roy, is the symbol of the highest ideals of our medical fraternity. He thanked the Doctors on behalf of 130 crore Indians for their services during the difficult times in last one and half years of the pandemic. He was addressing an event organized by Indian Medical Association via video conference today.

Dr. Harsh Vardhan addresses Medical Fraternity at the inauguration of Gratitude Week on National Doctors' Day

- Enumerates a three-fold action plan to defeat COVID-19
- “History shall bear witness that when the time came and humanity needed to be saved, it was the doctors who stepped up to answer the Call of Duty”

Wishing them on the auspicious occasion of National Doctors’ Day, Dr. Harsh Vardhan first remembered and condoled the sacrifices of COVID Warriors: “Normally a day to be celebrated with much vigour & zeal, I can’t help but feel disheartened thinking about the numerous noble souls from our medical fraternity who left for heavenly abode, most of them much before their time. Their loss is deeply unfortunate and yet a matter of immense pride and inspiration for the medical community at large. History shall bear witness that when the time came and humanity needed to be saved, it was the doctors who stepped up to answer the call of duty.”

Robust, mobile OxyJani can cater to acute & chronic oxygen needs at grassroots level

Indian researchers have designed a robust, mobile group oxygen concentrator that can be used in rural settings and also be rapidly deployed in emergencies in any location.

The second wave of COVID-19 led to an acute shortage of medical oxygen. While the crisis in the bigger cities was more about rapidly responding by overcoming supply chain limitations, in smaller cities and villages, the crisis exposed the chronic lack of medical oxygen infrastructure in the country.

Shri Piyush Goyal says India will be playing a much greater role in the post pandemic world in

creating resilient supply chains

Minister of Railways, Commerce & Industry, Consumer Affairs and Food & Public Distribution Shri Piyush Goyal yesterday said that India will be playing a much greater role in the post pandemic world in creating resilient supply chains. Speaking at the India Global forum yesterday, he said that we are looking at a greater degree of engagement with countries that are democratic in their political system with which we can relate & trust as a partner. He added that India is working towards greater engagement with countries with which we have a shared ecosystem, countries which believe in transparent rules-based trading mechanisms. He said that India is talking to UK, Australia, Canada and EU for trade related matters, and is keen to speed them up.
