People Received First Vaccine Dose

The infographic features a central illustration of two large blue hands holding a syringe and a vial. Inside the '0' of '500', two medical professionals in white coats and masks stand. Below the main text, a horizontal strip contains four small photographs showing healthcare workers administering vaccines to patients. At the bottom, social media icons for Facebook, Twitter, and Instagram are followed by the handle '@MansukhMandviya' and a website URL 'www.MansukhMandaviya.in'.

COVID-19 Update

India sets new record on COVID Vaccination Drive Day 228

Highest Ever administration of 1.04 Cr doses today until 7 pm

India's Cumulative COVID-19 Vaccination Coverage crosses 65.12 Cr

India home to more than 50 Cr persons with one shot of COVID Vaccine

Recovery Rate currently at 97.53%

30,941 New Cases reported in the last 24 hours

India's Active Caseload (3,70,640) is 1.13% of Total Cases

Weekly Positivity Rate (2.51%) less than 3% for last 67 day

In a significant achievement, a record high of more than 1.04 crore (1,04,42,184) Vaccine Doses have been administered today, just five days after India witnessed the first day of administration of 1 Cr vaccine doses. India's COVID-19 vaccination coverage has also consequently crossed 65 Crore (65,12,14,767) landmark milestone today.

This is as per the 7 pm provisional report. The daily vaccination tally is expected to increase with the compilation of the final reports for the day by late tonight.

Union Health Minister Shri Mansukh Mandaviya lauded the entire country for the achievement of more than 1 Cr doses for the second day within a span of five days.

The cumulative coverage of vaccine doses, segregated based on population priority groups, is as follows:

Cumulative Vaccine Dose Coverage		
HCWs	1 st Dose	1,03,58,383
	2 nd Dose	83,89,866
FLWs	1 st Dose	1,83,23,410
	2 nd Dose	1,32,25,370
Age Group 18-44 years	1 st Dose	25,32,89,059
	2 nd Dose	2,85,62,650
Age Group 45-59 years	1 st Dose	13,16,49,547
	2 nd Dose	5,49,49,421
Over 60 years	1 st Dose	8,72,83,530

	2 nd Dose	4,51,83,531
Cumulative 1st dose administered		50,09,03,929
Cumulative 2nd dose administered		15,03,10,838
Total		65,12,14,767

Today's achievement in the vaccination exercise, segregated by population priority groups, is as follows:

Date: 31stAugust, 2021 (228th Day)		
HCWs	1 st Dose	623
	2 nd Dose	18,213
FLWs	1 st Dose	2289
	2 nd Dose	83,872
Age Group 18-44 years	1 st Dose	56,43,704
	2 nd Dose	12,78,568
Age Group 45-59 years	1 st Dose	14,01,387
	2 nd Dose	9,10,270
Over 60 years	1 st Dose	6,40,886
	2 nd Dose	4,62,372
1st Dose Administered in Total		76,88,889
2nd Dose Administered in Total		27,53,295

Total	1,04,42,184
--------------	--------------------

The vaccination exercise as a tool to protect the most vulnerable population groups in the country from COVID-19 continues to be regularly reviewed and monitored at the highest level.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1750863>

The recovery of **36,275** patients in the last 24 hours has increased the cumulative tally of recovered patients (since the beginning of the pandemic) to **3,19,59,680**.

Consequently, India's recovery rate stands at **97.53%**.

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for 65 consecutive days now.

30,941 new cases were reported in the last 24 hours.

Nearly 3 l k New Cases reported in last 24 hrs

The Active Caseload is presently **3,70,640**. Active cases presently constitute **1.13%** of the country's total Positive Cases.

India's Active cases Trajectory

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 13,94,573 tests being conducted. India has so far conducted over **52.15 Cr (52,15,41,098)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate at 2.51% remains less than 3% for the last 67 days now**. The **Daily Positivity rate stands at 2.22%**. The daily Positivity rate has remained below 5% for 85 consecutive days now.

AYUSH medicines also proved effective in dealing with post Covid issues: MunjparaMahendrabhai

A Webinar organized as part of the celebrations of 'Azadi Ka Amrit Mahotsav'

Minister of State for Ayush Dr. MunjparaMahendrabhai said that Ayush medicines have also proved effective in dealing with post-Covid issues. He added that the Corona pandemic was still lurking around and there was a need for everyone to be alert and follow the Covid protocol.

The Minister was addressing a webinar organized by All India Institute of Ayurveda under Ministry of AYUSH, on the role of AYUSH system in the management of COVID-19 on Monday. The event was organized as the first in a series of week-long AYUSH programmes under 'Azadi Ka Amrit Mahotsav', a celebration to commemorate 75 years of India's freedom next year.

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage crossed 64 Cr landmark

More than 53 lakh Vaccine Doses administered today till 7 pm

Recovery Rate currently at 97.51%

42,909 New Cases reported in the last 24 hours

India's Active Caseload (3,76,324) is 1.15% of Total Cases

Weekly Positivity Rate (2.41%) less than 3% for last 66 days

In a significant achievement, India's COVID-19 vaccination coverage has crossed **64 Crore** landmark milestone today. More than **53 lakh (53,37,042)** Vaccine Doses have been administered today, as per the 7 pm provisional report. Final reports would be completed for the day by late tonight.

As per the provisional 7 pm provisional report, India's Cumulative COVID-19 Vaccination Coverage is **63.99 Cr (63,99,01,822)**. The cumulative coverage of vaccine doses, segregated based on population priority groups, is as follows:

	Cumulative Vaccine Dose Coverage					
	Healthcare workers	Frontline workers	People Aged 18-44 Years	People Aged 45-59 Years	People Aged ≥ 60 Years	Total
1st Dose	10357664	18320807	247136975	130107674	86576489	492499609
2nd Dose	8369624	13136776	27224648	53983180	44687985	147402213

Today's achievement in the vaccination exercise, segregated by population priority groups, is as follows:

Date: 30th August, 2021 (227th Day)
--

	Healthcare workers	Frontline workers	People Aged 18-44 Years	People Aged 45-59 Years	People Aged ≥ 60 Years	Total
1 st Dose	202	1290	2861405	692692	299998	3855587
2 nd Dose	13478	51181	679966	491039	245791	1481455

The vaccination exercise as a tool to protect the most vulnerable population groups in the country from COVID-19 continues to be regularly reviewed and monitored at the highest level.

Details: <https://pib.gov.in/PressReleasePage.aspx?PRID=1750544>

The recovery of **34,763** patients in the last 24 hours has increased the cumulative tally of recovered patients (since the beginning of the pandemic) to **3,19,23,405**.

Consequently, India's recovery rate stands at **97.51%**.

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for 64 consecutive days now.

42,909 new cases were reported in the last 24 hours.

Nearly 43k New Cases reported in last 24 hrs

The Active Caseload is presently **3,76,324**. Active cases presently constitute **1.15%** of the country's total Positive Cases.

India's Active cases Trajectory

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 14,19,990 tests being conducted. India has so far conducted over **52.01 Cr (52,01,46,525)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate at 2.41% remains less than 3% for the last 66 days now**. The **Daily Positivity rate stands at 3.02%**. The daily Positivity rate has remained below 5% for 84 consecutive days now.

Details: <https://pib.gov.in/PressReleasePage.aspx?PRID=1750317>

More than 63.09 Crore vaccine doses provided to States/UTs

More than 4.87 Crore balance and unutilized vaccine doses still available with States/UTs with 21.76 Lakh doses in Pipeline

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

VACCINE DOSES	(As on 30 August 2021)
SUPPLIED	63,09,30,270
PIPELINE	21,76,930

BALANCE AVAILABLE	4,87,39,946
-------------------	--------------------

More than **63.09 crore (63,09,30,270)** vaccine doses have been provided to States/UTs so far through Govt of India (free of cost channel) and through direct state procurement category. Further, more than 21.76 Lakh doses (**21,76,930**) are in the pipeline.

More than **4.87 Cr (4,87,39,946)** balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered.

Vice President asks DRDO scientists to intensify research to combat any pandemic threat in the future

VP interacts with scientists and frontline workers from DIPAS at Upa-RashtrapatiNivas

VP lauds the role of DRDO labs in treatment and management of COVID-19

DRDO Chairman, Dr. G Satheesh Reddy briefs Vice President on various products and equipment developed by DRDO to tackle COVID-19

The Vice President, Shri M Venkaiah Naidu today commended the contribution of scientists and frontline workers from DIPAS (Defence Institute of Physiology and Allied Sciences), a DRDO lab, in the fight against COVID-19 pandemic and advised them to intensify their research to effectively combat any such pandemic in the future.

Around 25 scientists and technicians from DIPAS were invited to Upa-RashtrapatiNivas by the Vice President. They were accompanied by DRDO Chairman, Dr G. Satheesh Reddy.

Interacting with them, Shri Naidu said that the pandemic has triggered unprecedented health crisis and severely impacted lives and livelihoods across the world. Lauding DIPAS and other DRDO labs for rising to the occasion and developing various indigenous products for treatment and management of COVID-19, he said that in the wake of the emergence of new variants of SARS-CoV-2, it is important to be ever vigilant to effectively tackle any future threats.

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage crossed 61 Cr landmark

More than 79 Lakh doses administered in the last 24 hours

Recovery Rate currently at 97.60%

44,658 New Cases reported in the last 24 hours

India's Active Caseload (3,44,899) is 1.06% of Total Cases

Daily Positivity Rate (2.45%) less than 3% for last 32 days

India's cumulative vaccination coverage has crossed the 61 Crore landmark yesterday. With the administration of **79,48,439** vaccine doses in the last 24 hours, India's COVID-19 vaccination coverage has surpassed the cumulative figure of 61.22Cr (**61,22,08,542**) as per provisional reports till 7 am today. This has been achieved through 66,60,983 sessions.

The break-up of the cumulative figures as per the provisional report till 8 am today include:

HCWs	1 st Dose	1,03,56,368
	2 nd Dose	82,94,906
FLWs	1 st Dose	1,83,14,369
	2 nd Dose	1,28,61,222

Age Group 18-44 years	1 st Dose	23,25,61,664
	2 nd Dose	2,34,57,529
Age Group 45-59 years	1 st Dose	12,65,76,574
	2 nd Dose	5,13,99,879
Over 60 years	1 st Dose	8,50,29,798
	2 nd Dose	4,33,56,233
Total		61,22,08,542

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

The recovery of **32,988** patients in the last 24 hours has increased the cumulative tally of recovered patients (since the beginning of the pandemic) to **3,18,21,428**.

Consequently, India's recovery rate stands at **97.60%**.

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for 14 consecutive days now.

44,658 new cases were reported in the last 24 hours.

44k New Cases reported in last 24 hrs

The Active Caseload is presently **3,44,899**. Active cases presently constitute **1.06%** of the country's total Positive Cases.

India's Active cases Trajectory

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 18,24,931 tests being conducted. India has so far conducted over **51.49 Cr (51,49,54,309)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate at 2.10% remains less than 3% for the last 63 days now**. The **Daily Positivity rate stands at 2.45%**. The daily Positivity rate has remained below 3% for the last 32 days and below 5% for 81 consecutive days now.

Union Home Secretary reviewed steps taken by State Governments of Kerala and Maharashtra for checking the spread of COVID-19

Union Home Secretary chaired a meeting yesterday through video conferencing to review the steps taken by the State Governments of Kerala and Maharashtra for checking the spread of COVID-19. During the meeting, the overall management of COVID-19 situation in Kerala and Maharashtra was discussed. Union Home Secretary reviewed the efforts being made by the state governments to contain the spread of infections and observed that more efforts would be required to arrest the increase in infections. This would require adequate intervention in geographical areas having higher infection, through measures such as contact tracing, vaccination drives and COVID appropriate behavior. He also suggested that the state governments should explore the possibility of placing night curfew in areas of high positivity.

Ayush Ministry Strongly Condemns the Tirade Against AYUSH-64 by a Section of Media

‘It is Misinterpreting the Facts, Lacking the Understanding of the Matter’

A malicious campaign is being carried out by a section of media against Ayurveda in general and the ministry of Ayush in particular for the last couple of days, citing a small study which is in pre-print stage (not peer reviewed yet). The one-sided tirade is focused on AYUSH-64, a herbal formulation found effective in the management and treatment of COVID-19 based on many larger studies and a robust multi centered clinical trial.

The results of the said study clearly show that Ayush 64 is a safe drug with an equivalence in safety with the standard of care. Also, the pre-publication cites a larger study (Chopra A, Tillu G, Chuadhary K, Reddy G, Srivastava A, Lakdawala M, et al. Coadministration of AYUSH 64 as an adjunct to Standard of Care in mild and moderate COVID-19: A randomized, controlled, multicentric clinical trial. medRxiv2021.06.12.21258345. <https://doi.org/10.1101/2021.06.12.21258345>) which takes care of the lacunae of the pre-publication.

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage crossed 59 Cr landmark

More than 61 Lakh doses administered in the last 24 hours

Recovery Rate currently at 97.67%

37,593 New Cases reported in the last 24 hours

India's Active Caseload (3,22,327) is 0.99% of Total Cases

Daily Positivity Rate (2.10%) less than 3% for last 30 days

39,361 Daily New Cases reported in last 24 hours

India's cumulative vaccination coverage has crossed the 59 Crore landmark yesterday. With the administration of **61,90,930** vaccine doses in the last 24 hours, India's COVID-19 vaccination coverage has surpassed the cumulative figure of 59.55 Cr (**59,55,04,593**) as per provisional reports till 7 am today. This has been achieved through 65,52,748 sessions.

The break-up of the cumulative figure as per the provisional report till 8 am today include:

HCWs	1 st Dose	1,03,54,325
	2 nd Dose	82,50,871
FLWs	1 st Dose	1,83,09,553

	2 nd Dose	1,27,11,166
Age Group 18-44 years	1 st Dose	22,37,85,210
	2 nd Dose	2,11,94,373
Age Group 45-59 years	1 st Dose	12,43,11,158
	2 nd Dose	4,99,65,293
Over 60 years	1 st Dose	8,40,42,537
	2 nd Dose	4,25,80,107
Total		59,55,04,593

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

The recovery of **34,169** patients in the last 24 hours has increased the cumulative tally of recovered patients (since the beginning of the pandemic) to **3,17,54,281**. Consequently, India's recovery rate stands at **97.67%**.

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for 59 consecutive days now. 37,593 new cases were reported in the last 24 hours.

37k New Cases reported in last 24 hrs

The Active Caseload is presently 3,22,327. At 0.99%, Active cases presently form less than 1% of the country's total Positive Cases.

India's Active cases Trajectory

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 17,92,755 tests being conducted. India has so far conducted over 51.11 Cr (51,11,84,547) cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate at 1.92% remains less than 3% for the last 61 days now.** The **Daily Positivity rate stands at 2.10%.** The daily Positivity rate has remained below 3% for the last 30 days and below 5% for 79 consecutive days now.

Centre Reviews Progress of COVID19 Vaccination with States/UTs

Centre to provide 2 Cr additional Vaccine Doses in the last week of August to immunize School

Strategy to maintain buffer stock of COVID-19 medicines reviewed

Union Health Secretary Shri Rajesh Bhushan chaired a high-level meeting today with all States/UTs in the presence of Union Pharma Secretary Ms. S. Aparna. The progress of COVID-19 vaccination was reviewed and States were advised to focus on enhancing second dose coverage as well as immunization of school teachers and staff (both government and private). States were apprised on prompt utilization of Emergency COVID Response Package (ECRP) funds. States were also advised to ensure compliance of COVID Appropriate Behaviour and other precautionary measures ahead of the upcoming festival season.

Union Health Secretary stressed on having a definite district level plan to increase coverage of second dose. States were advised to undertake targeted strategies like earmarking specific days/ specific vaccination sites (CVC)s/ specific timings every day/ separate queue to exclusively administer second dose of the vaccines. They were also advised to undertake widespread IEC campaigns for enhanced awareness among the beneficiaries. The States were also requested to identify districts whose vaccine coverage is lower than the State average and monitor as well as enhance progress of vaccination in these districts.

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage exceeds 59 Cr

Recovery Rate (97.68%) at its highest since March 2020

25,467 New Cases reported in the last 24 hours

At less than 1% of total cases, Active Cases lowest since March 2020

India's Active Caseload (3,19,551) lowest in 156 days is 0.98% of Total Cases

Daily Positivity Rate (1.55%) less than 3% for last 29 days

India's COVID-19 vaccination coverage has surpassed the cumulative figure of 59 crores. As per provisional reports till 7 am today, over 58.89 Cr (58,89,97,805) vaccine doses had been administered. This had been achieved through 65,03,493 sessions.

The break-up of the cumulative figure as per the provisional report till 8 am today include:

HCWs	1 st Dose	1,03,53,692
	2 nd Dose	82,32,742
FLWs	1 st Dose	1,83,07,076
	2 nd Dose	1,26,40,318
Age Group 18-44 years	1 st Dose	22,03,32,468
	2 nd Dose	2,03,29,375
Age Group 45-59 years	1 st Dose	12,34,70,622
	2 nd Dose	4,93,70,668
Over 60 years	1 st Dose	8,36,87,351
	2 nd Dose	1,03,53,692
Total		58,89,97,805

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

The recovery of **39,486** patients in the last 24 hours has increased the cumulative tally of recovered patients (since the beginning of the pandemic) to **3,17,20,112**.

Consequently, India's recovery rate stands at **97.68%**, the highest since March 2020.

Recovered cases over 3.17 Cr & Recovery rate at 97.68%

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for 58 consecutive days now.

25,467 new cases were reported in the last 24 hours.

25k New Cases reported in last 24 hrs

High recoveries and a low number of new cases have subsided the Active Caseload to **3,19,551** which is at its **lowest in 156 days**. At **0.98%**, Active cases presently form **less than 1%** of the country's total Positive Cases. Active Caseload is at its lowest since March 2020.

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 16,47,526 tests being conducted. India has so far conducted over **50.93 Cr (50,93,91,792)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate at 1.90% remains less than 3% for the last 60 days now.** The **Daily Positivity rate also stands at 1.55%.** The daily Positivity rate has remained below 3% for the last 29 days and below 5% for 78 consecutive days now.

Vice President urges medical fraternity to educate people on the safety of COVID-19 vaccine to make it a people's movement

Calls upon people's representatives to ensure vaccination of people in their constituencies

Vaccination is the most effective shield against COVID-19: VP

VP advises media to dispel false beliefs with accurate information

VP cautions people against complacency, says "we are still not totally out of the woods"

VP urges the private sector to supplement government's efforts in giving boost to health infrastructure

VP launches 'Vaccinate India Programme'

The Vice President, Shri M Venkaiah Naidu today urged the medical fraternity in general and the Indian Medical Association, in particular, to take up special awareness campaigns to educate the people about the safety and importance of getting vaccinated against COVID-19.

Inaugurating 'Vaccinate India Programme', an initiative of Sustainable Goals Coordination Center, Government of Karnataka in collaboration with Give India Foundation, the Vice President said, there appears to be hesitancy in some quarters to get vaccinated. It is absolutely essential to educate and create awareness among those who are still harboring doubts, he added.

Calling for turning COVID vaccination drive into a 'Jan-Andolan', Shri Naidu exhorted all people's representatives to ensure that everyone is vaccinated in their constituencies. He also urged the media to educate people on the need to shed vaccine hesitancy. "False beliefs need to be dispelled by providing

accurate information,” he stressed.

DBT-BIRAC supported Nation’s first mRNA-based vaccine found to be safe gets a nod from the Drugs Controller General of India DCG(I) to move into Phase II/III trial

India’s First COVID-19, mRNA vaccine developed in partnership with DBT-BIRAC under Mission COVID Suraksha

Gennova Biopharmaceuticals Ltd., the Pune-based biotechnology company, working on the nation's first mRNA-based COVID-19 vaccine, submitted the interim clinical data of the Phase I study to the Central Drugs Standard Control Organisation (CDSCO), the Government of India's National Regulatory Authority (NRA).

Vaccine Subject Expert Committee (SEC) reviewed the interim Phase I data and found that HGCO19 was safe, tolerable, and immunogenic in the participants of the study.

Gennova submitted the proposed Phase II and Phase III study entitled "A Prospective, Multicentre, Randomized, Active-controlled, Observer-blind, Phase II study seamlessly followed by a Phase III study to evaluate the Safety, Tolerability, and Immunogenicity of the candidate HGCO19 (COVID-19 vaccine) in healthy subjects" which was approved by the office of the DCG(I), CDSCO

Union Health Minister Shri Mansukh Mandaviya inaugurates OPD services in the new AYUSH building and night shelter at AIIMS Deoghar

“New facilities will benefit more than 3 crore population of Jharkhand”: Shri. Mansukh Mandaviya

The Union Health Minister took the occasion to point out that the Union Government under the dynamic leadership of the Prime Minister Shri. Narendra Modi has always stood by the States throughout the Pandemic. The ECRP-1 and ECRP-II (Emergency COVID19 Response Package) have played a huge role in mounting a sturdy Public Health Response to COVID. Similarly, the Pradhan Mantri Swasthya Suraksha Yojana (PMSSY) is addressing the regional imbalance in tertiary medical care and is providing quality medical education in underserved States.

Shri Mansukh Mandaviya said that centre has helped Jharkhand in every possible way in its fight against COVID-19. He invoked the concept of ‘Antyodaya’ of serving the last citizen in the society as propounded by Shri Deendayal Upadhyaya as the guiding principle of the Union Health Ministry’s efforts to implement PMSSY.

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage exceeds 58.25 Cr**Recovery Rate (97.63%) at its highest since March 2020****25,072 New Cases reported in the last 24 hours****India's Active Caseload (3,33,924) lowest in 155 days****Active cases constitute 1.03% of total cases; lowest since March 2020****Daily Positivity Rate (1.94%) less than 3% for last 28 days**

India's COVID-19 vaccination coverage has surpassed the cumulative figure of 58.25 Cr (**58,25,49,595**) as per provisional reports till 8 am today. This has been achieved through 64,69,222 sessions.

The break-up of the cumulative figure as per the provisional report till 8 am today includes:

HCWs	1 st Dose	1,03,53,405
	2 nd Dose	82,15,000
FLWs	1 st Dose	1,83,04,397
	2 nd Dose	1,25,74,264
Age Group 18-44 years	1 st Dose	21,69,00,386
	2 nd Dose	1,94,77,956
Age Group 45-59 years	1 st Dose	12,26,16,599
	2 nd Dose	4,87,88,970
Over 60 years	1 st Dose	8,33,38,747
	2 nd Dose	4,19,79,871
Total		58,25,49,595

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

The recovery of **44,157** patients in the last 24 hours has increased the cumulative tally of recovered patients (since the beginning of the pandemic) to **3,16,80,626**.

Consequently, India's recovery rate stands at **97.63%**, the highest since March 2020.

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for fifty-seven consecutive days now.

25,072 new cases were reported in the last 24 hours, this is lowest in 160 days.

High recoveries and a low number of new cases have subsided the Active Caseload to **3,33,924** which is at its **lowest in 155 days**. Active cases presently form only **1.03%** of the country's total Positive Cases which is the lowest since March 2020.

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 12,95,160 tests being conducted. India has so far conducted over **50.75 Cr (50,75,51,399)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate at 1.91% remains less than 3% for the last 59 days now**. The **Daily Positivity rate also stands at 1.94%**. The daily Positivity rate has remained below 3% for the last 28 days and below 5% for 77 consecutive days now.

Indian Scientist Partners with BRICS Group to Setup Network of Genomic Surveillance and Study the Overlap of SARS-CoV-2 with tuberculosis

Department of Biotechnology, Ministry of Science and Technology, Government of India in collaboration with BRICS countries is implementing SARS-CoV-2 NGS-BRICS consortium and multi centric programme to study the impact of severe COVID-19 conditions on TB patients.

The SARS-CoV-2 NGS-BRICS consortium is an interdisciplinary collaboration to advance COVID-19 health-relevant knowledge and to contribute to improvements in health outcomes. The consortium will accelerate the translation of genomic data leading to clinical and public health research and interventions from clinical and surveillance samples by utilising the high-end genomic technologies, and epidemiologic and bioinformatics tools for future use in diagnostic assays and tracking transmission dynamics of COVID-19 and other viruses. The Indian team consists from National Institute of Biomedical Genomics (Professor Arindam Maitra, Professor Saumitra Das, Dr Nidhan K Biswas), Centre for DNA Fingerprinting and Diagnostics (Dr Ashwin Dalal) and Indian Institute of Science (Dr Mohit K Jolly) along with National Laboratory for Scientific Computation - LNCC/MCTI (Dr Ana Tereza Ribeiro de Vasconcelos) from Brazil, Skolkovo Institute of Science and Technology (Professor GeorgiiBazykin) from Russia, Beijing Institute of Genomics, Chinese Academy of Sciences (Professor Mingkun Li) from China and University of KwaZulu-Natal (Professor Tulio de Oliveira) from South Africa will participate in this consortium.

GOVERNMENT OF INDIA

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage crossed 58 Cr landmark

More than 52 Lakh doses administered in the last 24 hours

Recovery Rate (97.57%) at its highest since March 2020

30,948 New Cases reported in the last 24 hours

India's Active Caseload (3,53,398) lowest in 152 days

Active cases constitute 1.09% of total cases; lowest since March 2020

Daily Positivity Rate (1.95%) less than 3% for last 27 days

India's cumulative vaccination coverage crossed the 58 Crore landmark yesterday. With the administration of **52,23,612** vaccine doses in the last 24 hours, India's COVID-19 vaccination coverage has surpassed the cumulative figure of 58.14 Cr (**58,14,89,377**) as per provisional reports till 7 am today. This has been achieved through 64,39,411 sessions.

The break-up of the cumulative figure as per the provisional report till 7 am today include:

HCWs	1 st Dose	1,03,53,366
f		
		in

	2 nd Dose	82,10,206
FLWs	1 st Dose	1,83,03,885
	2 nd Dose	1,25,60,909
Age Group 18-44 years	1 st Dose	21,63,66,206
	2 nd Dose	1,93,27,127
Age Group 45-59 years	1 st Dose	12,24,63,403
	2 nd Dose	4,87,01,565
Over 60 years	1 st Dose	8,32,68,790
	2 nd Dose	4,19,33,920
Total		58,14,89,377

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

The recovery of **38,487** patients in the last 24 hours has increased the cumulative tally of recovered patients (since the beginning of the pandemic) to **3,16,36,469**.

Consequently, India's recovery rate stands at **97.57%**, the highest since March 2020.

Recovered cases over 3.16 Cr & Recovery rate at 97.57%

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for fifty-six consecutive days now.

30,948 new cases were reported in the last 24 hours.

31k New Cases reported in last 24 hrs

High recoveries and a low number of new cases have subsided the Active Caseload to **3,53,398** which is at its **lowest in 152 days**. Active cases presently form only **1.09%** of the country's total Positive Cases which is the lowest since March 2020.

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 15,85,681 tests being conducted. India has so far conducted over **50.62 Cr (50,62,56,239)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate at 2.00% remains less than 3% for the last 58 days now.** The **Daily Positivity rate stands at 1.95%.** The daily Positivity rate has remained below 3% for the last 27 days and below 5% for 76 consecutive days now.

National Institute of Animal Biotechnology, Hyderabad notified as Central Drugs Laboratory for testing and batch release of vaccines

Department of Biotechnology, Ministry of S&T, is committed to Scaling up the Vaccine Development and Manufacturing Ecosystem

In public interest it is necessary to establish more facilities to regulate the testing of COVID-19 vaccines for quick release of vaccine batches for prevention and treatment of COVID-19 infection. Considering this requirement, the Government of India has identified two Autonomous Institutes of the Department of Biotechnology (DBT), viz., National Institute of Animal Biotechnology (NIAB), Hyderabad and National Centre for Cell Science (NCCS), Pune, for upgradation as Central Drug Laboratories (CDLs). The funding support for the same was provided under the PM-CARES funds.

The Department of Biotechnology, Ministry of Science and Technology, Government of India, continues its support to scale up the vaccine development and manufacturing ecosystem. The setting up of facilities for vaccine testing at NCCS, Pune and NIAB, Hyderabad, is a step in this direction.

Age Group 18-44 years	1 st Dose	20,84,79,874
	2 nd Dose	1,73,21,864
Age Group 45-59 years	1 st Dose	12,05,14,789
	2 nd Dose	4,73,45,647
Over 60 years	1 st Dose	8,24,60,190
	2 nd Dose	4,11,85,897
Total		56,64,88,433

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

The recovery of **39,157** patients in the last 24 hours has increased the cumulative tally of recovered patients (since the beginning of the pandemic) to **3,15,25,080**.

Consequently, India's recovery rate stands at **97.53%**, the highest since March 2020.

Recovered cases over 3.15 Cr & Recovery rate at 97.53%

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for 100+ three consecutive days now.

Just 36,401 new cases were reported in the last 24 hours.

36k Daily New Cases reported in last 24 hrs

High recoveries and a low number of new cases have subsided the Active Caseload to **3,64,129** which is at its lowest in 149 days. Active cases presently form only **1.13%** of the country's total Positive Cases which is the lowest since March 2020.

India's Active cases Trajectory

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 18,73,757 tests being conducted. India has so far conducted over **50.03 Cr (50,03,00,840)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate at 1.95% remains less than 3% for the last 55 days now.** The **Daily Positivity rate also stands at 1.94%.** The daily Positivity rate has remained **below 3% for the last 14 days** and **below 5% for 13 consecutive days now.**

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage crossed 56 Crore landmark

Recovery Rate (97.52%) at its highest since March 2020

35,178 Daily New Cases reported in last 24 hours

India's Active Caseload (3,67,415) lowest in 148 days

Active cases constitute 1.14% of total cases; lowest ever since March 2020

Daily Positivity Rate (1.96%) less than 3% for last 23 days

India's COVID-19 vaccination coverage crossed 56 Cr landmark yesterday. Cumulatively, **56,06,52,030** vaccine doses have been administered through 62,67,149 sessions, as per the provisional report till 7 am today. **55,05,075** vaccine doses were administered in the last 24 hours. These include:

HCWs	1 st Dose	1,03,51,471
	2 nd Dose	81,39,176
FLWs	1 st Dose	1,82,91,828
	2 nd Dose	1,23,10,279
Age Group 18-44 years	1 st Dose	20,53,38,194
	2 nd Dose	1,66,89,475
Age Group 45-59 years	1 st Dose	11,96,50,340
	2 nd Dose	4,68,78,435
Over 60 years	1 st Dose	8,20,88,223
	2 nd Dose	4,09,14,609
Total		56,06,52,030

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

India's recovery rate stands at **97.52%**, this is highest since March 2020. Out of the people infected since the beginning of the pandemic, **3,14,85,923 people have already recovered from COVID-19** and **37,169** patients have recovered in the last 24 hours.

Recovered cases over 3.14 Cr & Recovery rate at 97.52%

India has reported 35,178 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since fifty-two consecutive days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

35k Daily New Cases reported in last 24 hrs

India's Active Caseload at **3,67,415** is lowest in 148 days. Active cases now constitute only **1.14%** of the country's total Positive Cases which is lowest since March 2020.

With substantially ramped up testing capacity across the country, a total of 17,97,559 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **49.84 crore (49,84,27,083)** tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate at 1.95% remains less than 3% for last 54 days now.** The **Daily Positivity rate also stands at 1.96%.** Daily Positivity rate has remained below 3% for last 23 days and below 5% for 72 consecutive days now.

“In future, recommendations for boosters will definitely come”

“Mix-and-match of vaccines will definitely not cause a safety issue”

“Wearing mask properly and actively encouraging everyone to get vaccinated are the two biggest weapons to control further waves”

Priya Abraham, National Institute of Virology Director speaks on scientific developments on COVID-19

ICMR-National Institute of Virology (NIV) in Pune has been working on a war-footing for the whole of last one year. “2021 was a difficult but rewarding year for us”, said Ms. Priya Abraham, Director of ICMR-NIV, which has been at the forefront of scientific research on SARS-CoV-2 in the country. in an interview with India Science, the OTT channel of the Department of Science & Technology.

Giving a quick overview of vaccine development process carried out at the institute which has been at the forefront of scientific research on SARS-CoV-2 in the country, she explained: “We quickly isolated and gave a strain to Bharat Biotech International Limited (BBIL) by the end of April (2020), after which they developed a whole virion-inactivated vaccine in the month of May and gave us back for review. We checked it for its complete inactivation, did its complete characterisation and started pre-clinical trials on hamsters and non-human primates, that is, monkeys. Those are very difficult experiments to do. These

were conducted in our highest Bio-Safety Level-4 level containment facilities. In the next phase, we assisted them in the Phase I, II and III clinical trials in areas such as diagnostic aspect and laboratory support”.

More than **56.81 crore (56,81,32,750)** vaccine doses have been provided to States/UTs so far, through all sources and a further **1,09,32,960** doses are in the pipeline.

Of this, the total consumption including wastages is **55,11,51,992** doses (as per data available at 8 AM today).

More than **2.25 Cr (2,25,52,523)** balance and unutilized COVID Vaccine doses are still available with the States/UTs and private hospitals to be administered.

Details: <https://pib.gov.in/PressReleasePage.aspx?PRID=1746555>

India scales the peak of Highest Ever Single Day Vaccination with the administration of more than 88.13 lakh vaccine doses in the last 24 hours

46% of all adult Indians have received the First Dose while 13% of all adult Indians have received Both Doses of vaccine

In a landmark achievement, nearly 88 lakh (88,13,919) doses have been administered under the Largest Vaccination Drive yesterday on the 16th of August 2021.

While announcing the present phase of vaccination on 7th June, 2021, Hon'ble Prime Minister had also given a clarion call to all citizens to vaccinate themselves and encourage the others who are eligible to take the COVID19 vaccine. Today's achievement showcases the trust placed by the people of India in the Government in its fight against the COVID-19 Pandemic. The Union Government is committed to accelerating the pace and expanding scope of the nationwide COVID19 vaccination drive. The vaccination drive has been ramped up through availability of more vaccines, 15 days' advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

With the administration of the more than 88.13 lakh doses, the cumulative vaccination coverage has increased to 55.47Cr (55,47,30,609). This translates to 46% of all adult Indians receiving the first dose. 13% of all adult Indians have received both doses of vaccine and are protected against COVID-19.

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

India's recovery rate stands at **97.48%**.

Out of the people infected since the beginning of the pandemic, **3,14,11,924 people have already recovered from COVID-19** and **35,909** patients have recovered in the last 24 hours.

Recovered cases over 3.14 Cr & Recovery rate at 97.48%

India has reported 32,937 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since fifty consecutive days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

32k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **3,81,947**. Active cases now constitute only **1.18%** of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 11,81,212 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **49.48 crore (49,48,05,652)** tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate currently stands at 2.01%** and the **Daily Positivity rate stands at 2.79% today**. Daily Positivity rate has remained below 3% for last 21 days and below 5% for 70 consecutive days now.

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage crosses 53 Cr

More than 57 Lakh vaccine doses administered in last 24 hours

India achieves its highest ever Recovery Rate of 97.46%

40,120 Daily New Cases reported in last 24 hours

India's Active Caseload (3,85,227) presently constitute 1.20% of total cases

Daily Positivity Rate (2.04%) less than 3% for last 18 days

India's COVID-19 vaccination coverage has crossed 53 Crore today afternoon. Cumulatively, as per the provisional report till 7 am today, **52,95,82,956** vaccine doses had been administered through 60,40,607 sessions. **57,31,574** vaccine doses were administered in the last 24 hours.

These include:

HCWs	1 st Dose	1,03,43,406
	2 nd Dose	80,50,401
FLWs	1 st Dose	1,82,54,407
	2 nd Dose	1,19,88,029
Age Group 18-44 years	1 st Dose	18,80,51,247
	2 nd Dose	1,39,53,516
Age Group 45-59 years	1 st Dose	11,48,89,656
	2 nd Dose	4,44,21,296
Over 60 years	1 st Dose	8,00,90,640
	2 nd Dose	3,95,40,358
Total		52,95,82,956

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

India's recovery rate rises to **97.46%**. This is **the highest ever recovery rate achieved by India since the start of the pandemic**.

Out of the people infected since the beginning of the pandemic, **3,13,02,345 people have already recovered from COVID-19** and **42,295 patients** have recovered in the last 24 hours.

Recovered cases over 3.13 Cr & Recovery rate at 97.46%

India has reported 40,120 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since forty-seven consecutive days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

40k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **3,85,227**. Active cases now constitute only **1.20%** of the country's total Positive Cases, which is the **lowest since March 2020**.

With substantially ramped up testing capacity across the country, a total of 19,70,495 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **48.94 crore (48,94,70,779)** tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate currently stands at 2.13%** and the **Daily Positivity rate stands at 2.04% today**. Daily Positivity rate has remained below 3% for last 18 days and below 5% for 67 consecutive days now.

National Commission for Women Urges Chief Secretaries To Take Measures To Close Gender Gap In Vaccination

Need To Create Public Health Awareness So That More And More Women Are Vaccinated On Priority: NCW Chairperson

‘Centre Has Been Running Intensified Vaccination Drives To Reach Every Nook & Cranny Of The Country’

The National Commission for Women, taking cognisance of a media report which highlights low uptake of COVID-19 jabs among women, has written to Chief Secretaries of all States/UTs urging them to take measures to close the gender gap in vaccination and to ensure that women are not left behind in the vaccination drive. The gap in immunisation coverage between the two genders is a matter of great concern for the Commission and therefore, Chairperson, Ms Rekha Sharma, in the letter, has mentioned that there is an urgent need to increase the proportion of women coming to vaccination booths for receiving the vaccine so that the gap in immunization coverage can be corrected.

Indian Immunologicals receive manufacturing license under Department of Biotechnology - Mission Covid Suraksha Project for Augmentation of Manufacturing Capacity for COVAXIN

Department of Biotechnology and BIRAC under the Mission Covid Suraksha announced by the Government of India, under Atmanirbhar Bharat 3.0 to accelerate the development and production of Indigenous COVID Vaccines, have launched a project to augment production capacities of Covaxin.

Indian Immunologicals limited, Hyderabad, is the first site under this project to receive from CDSCO, a loan license for supplying Covaxin Drug Substance produced at its repurposed facility to Bharat Biotech. Indian Immunologicals will supply the first lot of commercial Covaxin Drug Substance to Bharat Biotech on 13th August 2021. The facility will produce 2-3 million doses per month initially, and another 4-5 million doses from its new facility at Karkapatla, in next few weeks.

Chief Scientist, WHO Dr Soumya Swaminathan calls on Union Minister Dr Jitendra Singh and discusses various aspects of COVID pandemic

India has undertaken the fastest & the largest vaccination drive so far: Dr Jitendra Singh

Chief Scientist, WHO, Dr Soumya Swaminathan, yesterday called on Minister of State (Independent Charge) Science & Technology; Minister of State (Independent Charge) Earth Sciences; MoS PMO, Personnel, Public Grievances, Pensions, Atomic Energy and Space, Dr Jitendra Singh. Dr Soumya, who is an eminent medical professional and former Head of ICMR, discussed with Dr Jitendra Singh various aspects of the current COVID pandemic as well as a wide range of other issues.

Emphasising on the importance of mass vaccination through easy availability and accessibility, Dr Soumya said, even though the vaccine may not be able to provide absolute protection against different variants of Virus, it can certainly reduce the risk of death and complications. The Minister informed her

that with the personal intervention and day-to-day personal monitoring by Prime Minister Narendra Modi, India has undertaken the fastest and the largest vaccination drive. On the call of Prime Minister Modi, people from all sections of the society are coming forward to cooperate.

India's Cumulative COVID-19 Vaccination Coverage exceeds 51.90 Cr

More than 41 Lakh vaccine doses administered in last 24 hours

India achieves its highest ever Recovery Rate of 97.45%

38,353 Daily New Cases reported in last 24 hours

India's Active Caseload (3,86,351) is the lowest in 140 days

Active cases presently constitute 1.21% of total cases

Daily Positivity Rate (2.16%) less than 3% for last 16 days

India's COVID-19 vaccination coverage has exceeded 51.90 Cr. Cumulatively, 51,90,80,524 vaccine doses have been administered through 59,57,616 sessions, as per the provisional report till 7 am today. 41,38,646 vaccine doses were administered in the last 24 hours. These include:

HCWs	1st Dose	1,03,38,727
	2nd Dose	80,17,291
FLWs	1st Dose	1,82,42,071
	2nd Dose	1,18,74,095
Age Group 18-44 years	1st Dose	18,23,88,445
	2nd Dose	1,29,63,932
Age Group 45-59 years	1st Dose	11,34,11,880
	2nd Dose	4,35,83,965
Over 60 years	1st Dose	7,92,14,965
	2nd Dose	3,90,45,153
Total		51,90,80,524

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

India's recovery rate has reached 97.45% in the last 24 hours. This is the highest ever recovery rate achieved by India since the start of the pandemic.

Out of the people infected since the beginning of the pandemic, 3,12,20,981 people have already recovered from COVID-19 and 40,013 patients have recovered in the last 24 hours.

Recovered cases over 3.12 Cr & Recovery rate at 97.45%

India has reported 38,353 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since forty-five consecutive days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

38k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at 3,86,351. This is the lowest recorded active cases in 140 days. Active cases now constitute only 1.21% of the country's total Positive Cases, which is also the lowest since March 2020.

With substantially ramped up testing capacity across the country, a total of 17,77,962 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over 48.50 crore (48,50,56,507) tests so far.

While on one side testing capacity has been enhanced across the country, Weekly Positivity Rate currently stands at 2.34% and the Daily Positivity rate stands at 2.16% today. Daily Positivity rate has remained below 3% for last 16 days and below 5% for 65 consecutive days now.

COVID-19 Update**India's Cumulative COVID-19 Vaccination Coverage exceeds 50.86 Cr****India achieves its highest ever Recovery Rate of 97.40%****35,499 Daily New Cases reported in last 24 hours****India's Active Caseload (4,02,188) presently constitutes 1.26% of total cases****Daily Positivity Rate (2.59%) less than 3% for last 14 days**

India's COVID-19 vaccination coverage has exceeded 50.86 Cr. Cumulatively, **50,86,64,759** vaccine doses have been administered through 58,79,068 sessions, as per the provisional report till 7 am today. **16,11,590** vaccine doses were administered in the last 24 hours. These include:

HCWs	1 st Dose	1,03,32,881
	2 nd Dose	79,82,037
FLWs	1 st Dose	1,82,17,136
	2 nd Dose	1,17,58,909
Age Group 18-44 years	1 st Dose	17,67,66,853
	2 nd Dose	1,20,24,776
Age Group 45-59 years	1 st Dose	11,18,71,679
	2 nd Dose	4,26,95,084
Over 60 years	1 st Dose	7,84,79,044
	2 nd Dose	3,85,36,360
Total		50,86,64,759

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

In another positive development, India's recovery rate has reached **97.40%** in the last 24 hours. This is **the highest ever recovery rate achieved by India since the start of the pandemic.**

Out of the people infected since the beginning of the pandemic, **3,11,39,457** people have already recovered from COVID-19 and **39,686** patients have recovered in the last 24 hours.

India has reported 35,499 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since forty-three consecutive days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India's Active Caseload today stands at **4,02,188** and active cases now constitute **1.26%** of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 13,71,871 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **48 crore (48,17,67,232)** tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate currently stands at 2.35%** and the **Daily Positivity rate stands at 2.59% today**. Daily Positivity rate has remained below 3% for last 14 days and below 5% for 63 consecutive days now.

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage achieved a significant milestone of 50 Cr

Nearly 50 Lakh vaccine doses administered in last 24 hours

Recovery Rate currently at 97.37%

38,628 Daily New Cases reported in last 24 hours

India's Active Caseload (4,12,153) presently constitutes 1.29% of total cases

Daily Positivity Rate (2.21%) less than 3% for last 12 days

India's COVID-19 vaccination coverage achieved a significant milestone of 50 Cr yesterday. Cumulatively, **50,10,09,609** vaccine doses have been administered through 58,08,344 sessions, as per the provisional report till 7 am today. **49,55,138** vaccine doses were administered in the last 24 hours.

These include:

HCWs	1 st Dose	1,03,28,986
	2 nd Dose	79,53,278
FLWs	1 st Dose	1,82,06,470
	2 nd Dose	1,16,55,584
Age Group 18-44 years	1 st Dose	17,26,01,639
	2 nd Dose	1,12,87,774
Age Group 45-59 years	1 st Dose	11,08,54,315
	2 nd Dose	4,19,57,311
Over 60 years	1 st Dose	7,80,50,150
	2 nd Dose	3,81,14,102
Total		50,10,09,609

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,10,55,861 people have already recovered from COVID-19** and **40,017 patients** have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.37%**.

India has reported 38,628 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since forty-one consecutive days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India's Active Caseload today stands at **4,12,153** and active cases now constitute **1.29%** of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 17,50,081 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **47.83 crore (47,83,16,964)** tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate currently stands at 2.39%** and the **Daily Positivity rate stands at 2.21% today**. Daily Positivity rate remains below 3% for last 12 days and below 5% for 61 consecutive days now.

PM Interacts with the beneficiaries of Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) in Madhya Pradesh

- **About 5 crore beneficiaries are getting the benefit of PMGKAY in the state**
- **Government of India and entire country is standing with Madhya Pradesh during floods and rain: PM**
- **In the strategy for dealing with the Corona crisis, India accorded the highest priority to the poor: PM**
- **Not only more than 80 crore citizens are getting free ration but more than 8 crore poor families got free gas cylinder**
- **30 thousand crore rupees were directly transferred to the Jan-Dhan accounts of more than 20 crore women.**

- **Thousands of crore rupees were transferred to the accounts of laborers and farmer, next instalment day after**
- **In ‘Double-Engine governments’, state governments supplement and improve the schemes of the central government and increase their power: PM**
- **Under the leadership of Shri Shivraj Singh Chouhan, Madhya Pradesh has shed the image of BIMARU state long ago: PM**
- **Earlier, they never provided any facility, just false sympathy. Working style of people who rose from the ground is different, we have faced these hardships: PM**
- **In the recent years real and meaningful efforts are being undertaken to strengthen and empower the poor: PM**
- **Buy some local handicraft product during the upcoming festivals and don’t forget Corona precautions: PM**

Referring to Corona pandemic as once in a century calamity, the Prime Minister said that entire nation stood as one to fight against the challenge. He reiterated that, in the strategy for dealing with the crisis, India accorded the highest priority to the poor. From the very first day itself, attention was paid to food and employment of the poor and labourers. Not only more than 80 crore citizens are getting free ration but more than 8 crore poor families got free gas cylinder. 30 thousand crore rupees were directly transferred to the Jan-Dhan accounts of more than 20 crore women. Similarly, thousands of crore rupees were transferred to the accounts of laborers and farmer. He also informed about thousands of crore rupees will be transferred in the bank accounts about 10-11 crore farmer families on 9th August.

COVID-19 Update**India's Cumulative COVID-19 Vaccination Coverage crossed landmark of 49 Cr****Nearly 58 Lakh vaccine doses administered in last 24 hours****Recovery Rate currently at 97.36%****44,643 Daily New Cases reported in last 24 hours****India's Active Caseload (4,14,159) presently constitutes 1.30% of total cases****Daily Positivity Rate (2.72%) less than 5% for two months**

India's COVID-19 vaccination coverage crossed the landmark of 49 Cr yesterday. Cumulatively, **49,53,27,595** vaccine doses have been administered through 57,64,712 sessions, as per the provisional report till 7 am today. **57,97,808** vaccine doses were administered in the last 24 hours. These include:

HCWs	1 st Dose	1,03,24,101
	2 nd Dose	79,35,738
FLWs	1 st Dose	1,80,22,988
	2 nd Dose	1,15,97,454
Age Group 18-44 years	1 st Dose	16,97,29,527
	2 nd Dose	1,08,07,866
Age Group 45-59 years	1 st Dose	10,99,20,377
	2 nd Dose	4,15,01,902
Over 60 years	1 st Dose	7,76,34,057
	2 nd Dose	3,78,53,585
Total		49,53,27,595

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,10,15,844 people have already recovered from COVID-19 and 41,096 patients have recovered in the last 24 hours.** This constitutes an overall recovery rate of **97.36%**.

India has reported 44,643 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since forty consecutive days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India's Active Caseload today stands at **4,14,159** and active cases now constitute **1.30%** of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 16,40,287 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **47.65 crore (47,65,33,650)** tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate currently stands at 2.41% and the Daily Positivity rate stands at 2.72% today.** Daily Positivity rate has remained below 5% for 60 consecutive days now.

Scientists from four BRICS countries to carry out genomic sequencing and mathematical modelling of the COVID-19 pandemic

Indian Scientists, in partnership with Scientists from China, Russia and Brazil, will carry out genomic sequencing of SARS-CoV-2 and studies on the epidemiology and mathematical modelling of the COVID-19 pandemic. This will help trace genetic mutations, recombinations as well as distribution of the virus and also make projections about the future of its spread.

A whole-genome sequencing is required for identification of genetic mutations and recombinations of the virus, while epidemiological studies can help assess its distribution. Mathematical modelling is required to assess its future spread.

PM interacts with beneficiaries of Pradhan Mantri Garib Kalyan Anna Yojana in Uttar Pradesh

- **August 5 is becoming a significant date in the Indian History as abrogation of 370, and Ram Mandir are associated with this: PM**
- **Our youth has taken a big step in re-establishing the glory of our national game hockey today: PM**
- **Our youth is scoring goal of victory whereas some are doing self-goal due to political selfishness: PM**
- **India's youth has firm belief that both they and India are on the move.: PM**
- **This great country cannot become hostage to selfish and anti-national politics: PM**
- **Double engine government has ensured that the schemes made for the poor, downtrodden, backward, tribals are implemented expeditiously in UP: PM**
- **Uttar Pradesh was always seen through the prism of politics. The confidence that UP can become the powerhouse of India's growth engine has emerged in recent years: PM**
- **This decade is the decade of making up for the shortfall of the last 7 decades for Uttar Pradesh: PM**

The Prime Minister, Shri Narendra Modi interacted with beneficiaries of Pradhan Mantri Garib Kalyan Anna Yojana in Uttar Pradesh via video conference. Chief Minister of Uttar Pradesh Shri Yogi Adityanath was also present on the occasion.

Talking about the pandemic, the Prime Minister noted that in the past, when such a big crisis hit the country, then all the systems of the country were shaken badly. However, today in India, every citizen is fighting this pandemic with full force. The Prime Minister dwelled at length on the efforts to deal with the once in a century crisis. Augmentation of medical infrastructure, world's largest free vaccination programme, campaign to fight starvation among the vulnerable section, such programmes received investment of lakhs of crore rupees and India is moving ahead successfully. Infrastructure projects did not stop amidst the pandemic as exemplified by the highway, expressway projects, dedicated freight corridor and defence corridor in Uttar Pradesh.

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage crossed landmark of 48 Cr

More than 60 Lakh vaccine doses administered in the last 24 hours

Recovery Rate stands at 97.37%

42,625 Daily New Cases reported in last 24 hours

f **India's Active Caseload (4,10,353) presently constitutes 1.29% of total cases** **in**

Daily Positivity Rate (2.31%) less than 5% for 58 consecutive days

India's COVID-19 vaccination coverage has crossed a landmark of 48 Cr yesterday.

Cumulatively, **48,52,86,570** vaccine doses have been administered through **56,83,682** sessions, as per the provisional report till 7 am today. **62,53,741** vaccine doses were administered in the last 24 hours. These include:

HCWs	1 st Dose	1,03,18,462
	2 nd Dose	79,00,794
FLWs	1 st Dose	1,80,03,726
	2 nd Dose	1,14,89,972
Age Group 18-44 years	1 st Dose	16,41,84,445
	2 nd Dose	98,50,898
Age Group 45-59 years	1 st Dose	10,85,51,839
	2 nd Dose	4,06,01,807
Over 60 years	1 st Dose	7,70,32,125
	2 nd Dose	3,73,52,502
Total		48,52,86,570

The new phase of universalization of COVID-19 vaccination has commenced from 21st June, 2021. The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

Out of the people infected since the beginning of the pandemic, **3,09,33,022 people have already recovered from COVID-19** and **36,668** patients have recovered in the last 24 hours. This constitutes an overall recovery rate of **97.37%**.

Recovered cases over 3.09 Cr & Recovery rate at 97.37%

India has reported 42,625 daily new cases in the last 24 hours.

Less than 50,000 Daily New Cases have been reported since thirty-eight consecutive days. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

42k Daily New Cases reported in last 24 hrs

India's Active Caseload today stands at **4,10,353** and active cases now constitute **1.29%** of the country's total Positive Cases.

With substantially ramped up testing capacity across the country, a total of 18,47,518 tests were conducted in the last 24 hours in the country. Cumulatively, India has conducted over **47.31 crore (47,31,42,307)** tests so far.

While on one side testing capacity has been enhanced across the country, **Weekly Positivity Rate is currently stands at 2.36%** and the **Daily Positivity rate stands at 2.31% today**. Daily Positivity rate has remained below 5% for 58 consecutive days now.

COVID-19 Vaccination Update

More than 50.37 Crore vaccine doses provided to States/UTs

More than 2.60 Crore balance and unutilized doses still available with States/UTs and private hospitals to be administered

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

VACCINE DOSES	(As on 4 August 2021)
SUPPLIED	50,37,22,630

IN PIPELINE	49,19,780
CONSUMPTION	48,19,75,798
BALANCE AVAILABLE	2,60,17,573

More than **50.37 crore (50,37,22,630)** vaccine doses have been provided to States/UTs so far, through all sources and a further **49,19,780** doses are in the pipeline.

Of this, the total consumption including wastages is **48,19,75,798** doses (as per data available at 8 AM today).

More than **2.60 Cr (2,60,17,573)** balance and unutilized COVID Vaccine doses are still available with the States/UTs and private hospitals to be administered.

COVID-19 Mortality- Myths Vs. Facts

Union Health Ministry has highlighted need for all states to monitor district wise cases and deaths on a daily basis

MoHFW has advised States and UTs through formal communications, video conferences and through deployment of Central teams for recording of deaths in accordance with prescribed guidelines

Robustness of statute based Civil Registration System (CRS) ensures proper recording of births and deaths in the country

There have been some speculative media reports inferring undercounting of COVID-19 deaths from eight states, while also stating that the deaths can only be estimated and the exact data may never be known. The report highlights data from the Civil Registration System (CRS) and Health Management Information System (HMIS) including all-cause death numbers, leading to erroneous inferences terming it as 'counting the uncounted.'

It is clarified that given the robust and statute-based Death Registration System in India, while some cases could go undetected as per the principles of Infectious Disease & its management, missing out on deaths is completely unlikely. This could also be seen in the case fatality rate, which as on 31st December 2020 stood at 1.45% and even after an unexpected surge observed in the second wave in April-May 2021, the case fatality rate today stands at 1.34%.

PM to interact with beneficiaries of Pradhan MantriGaribKalyan Anna Yojana in Uttar Pradesh on 5th August

Prime Minister Shri Narendra Modi will interact with the beneficiaries of Pradhan MantriGaribKalyan Anna Yojana in Uttar Pradesh on 5th August 2021 at 1 PM, via video conferencing.

Uttar Pradesh will celebrate 5th August, 2021 as Pradhan MantriGaribKalyanYojana Day. A massive awareness programme will be launched throughout the state to ensure that no beneficiary is left out from availing the benefits of the scheme.

Almost 15 crore beneficiaries of the state have been getting ration free of cost through Pradhan MantriGaribKalyan Anna Yojana. Nearly 80,000 Fair price shops in the state have been distributing food grains to the beneficiaries of the scheme.

PM interacts with beneficiaries of Pradhan Mantri Garib Kalyan Anna Yojana in Gujarat

- Earlier, the scope and budget of cheap ration schemes kept on increasing but starvation and malnutrition did not decrease in that proportion: PM
- Beneficiaries are getting almost double the earlier amount of ration after Pradhan Mantri Garib Kalyan Anna Yojana started. PM

- **More than 80 crore people are getting free ration during the pandemic with an expenditure of more than 2 lakh crore rupees: PM**
- **No citizen went hungry despite the biggest calamity of the century: PM**
- **Empowerment of the poor is being given top priority today: PM**
- **New confidence of our players is becoming the hallmark of New India: PM**
- **Country is moving rapidly towards the vaccination milestone of 50 crore: PM**
- **Let's take holy pledge to awaken new inspiration for nation building on Azadi ka Amrit Mahotsav: PM**

Prime Minister Shri Narendra Modi interacted with beneficiaries of Pradhan Mantri Garib Kalyan Anna Yojana in Gujarat today via video conferencing. A public participation programme was launched in the state to create further awareness about the scheme. Addressing the event, the Prime Minister said that lakhs of families in Gujarat are getting free ration under PM Garib Kalyan Ann Yojana. This free rations reduces distress for the poor and gives them confidence. He said that the poor should feel that whatever might be the calamity, the country is with him.

The Prime Minister urged the people to continue this confidence in the fight against Corona and also in our vaccination campaign. He stressed on the need to maintain our vigilance continuously, in this environment of global pandemic. He said that as the country is moving rapidly towards the vaccination milestone of 50 crore, Gujarat is also approaching the milestone of 3.5 crore vaccine doses. He stressed the need to vaccinate, wearing masks and avoid being a part of the crowd as much as possible.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1741812>

"No poor will sleep hungry" - The Prime Minister

Beneficiaries getting almost double the earlier amount of ration after Pradhan Mantri Garib Kalyan Anna Yojana started: PM

More than 80 crore people getting free ration during the pandemic with an expenditure of more than 2 lakh crore rupees: PM

No citizen went hungry despite the biggest calamity of the century: PM

Empowerment of the poor is being given top priority today: PM

The Prime Minister pointed out that after independence, almost every government talked about providing cheap food to the poor. The scope and budget of cheap ration schemes increased year after year, but the effect it should have had remained limited. The country's food stocks kept increasing, but starvation and malnutrition did not decrease in that proportion. One major reason for this was the lack of an effective delivery system. To change this situation work was started afresh after 2014. He said, using new technology, crores of fake beneficiaries were weeded out of the system and ration cards were linked

to Aadhar cards. This helped in ensuring that no citizen went hungry despite the biggest calamity of the century when livelihoods were threatened and business suffered due to lockdown. The world has acknowledged the Pradhan Mantri Garib Kalyan Anna Yojana. Free ration has been made available to more than 80 crore people during the pandemic with an expenditure of more than 2 lakh crore rupees, said the Prime Minister.
