## PIB'S BULLETIN ON COVID-19

Posted On: 14 JAN 2022 6:12PM by PIB Delhi

- 155.39 cr vaccine doses have been administered so far under Nationwide Vaccination Drive
- India's Active caseload currently stands at 12,72,073
- Active cases stand at 3.48%
- Recovery Rate currently at 95.20%
- 1,09,345 recoveries in the last 24 hours increases Total Recoveries to 3,48,24,706
- 2,64,202 new cases recorded in the last 24 hours
- 5,753 Total Omicron cases detected so far; an increase of 4.83% since yesterday
- Daily positivity rate (14.78%)
- Weekly Positivity Rate (11.83%)
- 69.90 cr Total Tests conducted so far; 17,87,457 tests conducted in the last 24 hours

## India's Cumulative COVID-19 Vaccination Coverage exceeds 155.39 Cr

**More than 73 lakh Vaccine Doses administered in the last 24 hours**

**Recovery Rate currently at 95.20%**

**2,64,202 New Cases reported in the last 24 hours**

**5,753 Total Omicron cases detected so far; an increase of 4.83% since yesterday**

**India's Active Caseload currently stands at 12,72,073**

**Weekly Positivity Rate is presently at 11.83%**

With the administration of **over 73 lakh Doses (73,08,669)** vaccine doses in the last 24 hours, India's COVID-19 vaccination coverage has exceeded **155.39 Cr (1,55,39,81,819)** as per provisional reports till 7 am today.

This has been achieved through 1,66,59,387 sessions. The break-up of the cumulative figure as per the provisional report till 7 am today include:

| Cumulative Vaccine Dose Coverage                                                                                                                                                                                                                                                                                                                                                                                                                     |                      |              |

### Update on COVID-19 Vaccine Availability in States/UTs

**More than 157.50 Crore vaccine doses provided to States/UTs**

**More than 15.17 Crore balance and unutilized vaccine doses still available with States/UTs**

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16<sup>th</sup> January 2021. The new phase of universalization of COVID-19 vaccination commenced from 21<sup>st</sup> June 2021. The vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

**VACCINE DOSES**

**(As on 14<sup>th</sup> January, 2022)**

|                          |                       |
|--------------------------|-----------------------|
| <b>SUPPLIED</b>          | <b>1,57,50,62,435</b> |
| <b>BALANCE AVAILABLE</b> | <b>15,17,25,871</b>   |

More than **157.50 crore (1,57,50,62,435)** vaccine doses have been provided to States/UTs so far through Govt. of India (free of cost channel) and through direct state procurement category.

More than **15.17 Cr (15,17,25,871)** balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered.

### **COVID-19 Myth vs Facts**

#### **Media reports claiming under-reporting of COVID-19 deaths are Ill informed, Baseless & Misleading**

#### **India has a Robust system of Birth & Death reporting as per a Statute across the Gram Panchayat district and State levels**

#### **A large number of States have regularly reconciled their death numbers and have reported arrear deaths in a broadly transparent manner**

There have been some media reports alleging a ‘significant undercount’ of the actual number of people who have died in India due to COVID-19 in the first two waves, claiming that the final toll may be ‘substantially greater’ crossing the figures of about three million.

Government of India has a very comprehensive definition to classify COVID deaths, based on globally acceptable categorisation. All deaths are being independently reported by States, and are being compiled centrally. The backlog in COVID19 mortality data being submitted by the States at different times are being reconciled in the data of Govt of India on a regular basis. A large number of States have regularly reconciled their death numbers and have reported arrear deaths in a broadly transparent manner. Therefore, to project that deaths have been under-reported is without basis and without justification.

It is clarified that there is an extreme difference in COVID case load and linked mortality between Indian States. Any assumptions putting all States in one envelope would mean mapping skewed data of outliers together with States reporting lowest mortality which is bound to stretch the median towards higher and wrong results.

**COVID-19 Myth vs Facts**

**Media Reports stating vaccine shortage in Maharashtra are not factually correct; Do not represent the True picture of Available stock of vaccine doses with the State**

**Maharashtra has over 24 lakh Unutilized doses of Covaxin available with it; an additional 6.35 lakh doses have been received today**

There have been some media reports alleging vaccine shortage in Maharashtra, further stating that due to lack of vaccine the State Government is unable to increase the pace of vaccination in the state. Such reports are ill informed and incorrect.

It is clarified that, as per the reports available today (14th January 2022), Maharashtra has over 24 lakh unutilized doses of Covaxin available with it. An additional 6.35 lakh doses have been received today. As per their weekly consumption data available on Co-WIN, the average consumption by Maharashtra for Covaxin to cover the eligible beneficiaries for 15-17 years and for precaution dose is almost 2.94 lakh doses per day. Therefore, the State has adequate vaccine doses for about 10 days to cover the eligible beneficiaries with Covaxin.

Furthermore, for Covishield, the state has 1.24 crore unutilized and balance doses available as on date. With an average consumption of 3.57 lakhs per day, this will sustain for more than 30 days for the beneficiaries to be vaccinated using the vaccine.

Hence, the media reports are not factually correct and do not reflect the correct picture of the available stock of balance and unutilized COVID vaccine doses with Maharashtra.

### Update on COVID-19 Vaccine Availability in States/UTs

**More than 157.36 Crore vaccine doses provided to States/UTs**

**More than 15.75 Crore balance and unutilized vaccine doses still available with States/UTs**

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16<sup>th</sup> January 2021. The new phase of universalisation of COVID-19 vaccination commenced from 21<sup>st</sup> June 2021. The

vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

| <b>VACCINE DOSES</b>     | <b>(As on 13<sup>th</sup> January, 2022)</b> |
|--------------------------|----------------------------------------------|
| <b>SUPPLIED</b>          | <b>1,57,36,18,605</b>                        |
| <b>BALANCE AVAILABLE</b> | <b>15,75,22,876</b>                          |

More than **157.36 crore (1,57,36,18,605)** vaccine doses have been provided to States/UTs so far through Govt. of India (free of cost channel) and through direct state procurement category.

More than **15.75 Cr (15,75,22,876)** balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered

भारत में बनी वैक्सीन्स तो दुनिया भर में अपनी श्रेष्ठता सिद्ध कर रही हैं।

ये हर भारतीय के लिए गर्व का विषय है कि आज भारत, लगभग 92 प्रतिशत वयस्क जनसंख्या को पहली डोज़ दे चुका है।

देश में दूसरी डोज की कवरेज भी 70 प्रतिशत के आसपास पहुंच चुकी है: PM  
@narendramodi

### Update on COVID-19 Vaccine Availability in States/UTs

**More than 157.13 Crore vaccine doses provided to States/UTs**

**f More than 16.50 Crore balance and unutilized vaccine doses still available with States/UTs**

 The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16<sup>th</sup> January 2021. The new phase of universalization of COVID-19 vaccination commenced from 21<sup>st</sup> June 2021. The  vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine  supply chain.

**in** As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

| VACCINE DOSES     | (As on 12th January, 2022) |
|-------------------|----------------------------|
| SUPPLIED          | 1,57,13,43,575             |
| BALANCE AVAILABLE | 16,50,88,086               |

More than **157.13 crore (1,57,13,43,575)** vaccine doses have been provided to States/UTs so far through Govt. of India (free of cost channel) and through direct state procurement category.

More than **16.50 Cr (16,50,88,086)** balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered.

**India's Cumulative COVID-19 Vaccination Coverage exceeds 153 Cr**

**More than 92 lakh Vaccine Doses administered in the last 24 hours**

**Recovery Rate currently at 96.36%**

**1,68,063 New Cases reported in the last 24 hours**

**India's Active Caseload currently stands at 8,21,446**

**Weekly Positivity Rate is presently at 8.85%**

India's Cumulative COVID-19 Vaccination Coverage has exceeded 153 Cr today afternoon.

**f** This has been achieved through 1,63,81,175 sessions. The break-up of the cumulative figure as per the provisional report till 7 am today include:

### Cumulative Vaccine Dose Coverage

|                       |                      |                |
|-----------------------|----------------------|----------------|
| HCWs                  | 1 <sup>st</sup> Dose | 1,03,89,162    |
|                       | 2 <sup>nd</sup> Dose | 97,49,504      |
|                       | Precaution Dose      | 5,19,604       |
| FLWs                  | 1 <sup>st</sup> Dose | 1,83,87,535    |
|                       | 2 <sup>nd</sup> Dose | 1,69,87,318    |
|                       | Precaution Dose      | 2,01,205       |
| Age Group 15-18 years | 1 <sup>st</sup> Dose | 2,62,35,531    |
| Age Group 18-44 years | 1 <sup>st</sup> Dose | 51,64,88,421   |
|                       | 2 <sup>nd</sup> Dose | 35,52,58,150   |
| Age Group 45-59 years | 1 <sup>st</sup> Dose | 19,64,00,931   |
|                       | 2 <sup>nd</sup> Dose | 15,70,66,390   |
| Over 60 years         | 1 <sup>st</sup> Dose | 12,24,27,789   |
|                       | 2 <sup>nd</sup> Dose | 9,85,94,887    |
|                       | Precaution Dose      | 2,63,867       |
| Precaution Dose       |                      | 9,84,676       |
| Total                 |                      | 1,52,89,70,294 |

**f** 69,959 patients have recovered in the last 24 hours and the cumulative tally of recovered patients (since the beginning of the pandemic) is now at **3,45,70,131**.

**🐦** Consequently, India's recovery rate stands at **96.36%**.

**in**

**1,68,063 new cases** were reported in the last 24 hours.

**in**

India's Active Case load is presently at **8,21,446**. Active cases constitute **2.29%** of the country's total Positive Cases.

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of **15,79,928** tests being conducted. India has so far conducted over **69.31 Cr (69,31,55,280)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate** in the country currently **stands at 8.85%** and the **Daily Positivity rate** also reported to be **10.64%**.

## Update on COVID-19 Vaccine Availability in States/UTs

### More than 156.71 Crore vaccine doses provided to States/UTs

### More than 17.11 Crore balance and unutilized vaccine doses still available with States/UTs

 The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16<sup>th</sup> January 2021.

 The new phase of universalization of COVID-19 vaccination commenced from 21<sup>st</sup> June 2021. The vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

| VACCINE DOSES     | (As on 11th January, 2022) |
|-------------------|----------------------------|
| SUPPLIED          | 1,56,71,24,055             |
| BALANCE AVAILABLE | 17,11,31,206               |

More than **156.71 crore (1,56,71,24,055)** vaccine doses have been provided to States/UTs so far through Govt. of India (free of cost channel) and through direct state procurement category.

More than **17.11 Cr (17,11,31,206)** balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered.

**India's Cumulative COVID-19 Vaccination Coverage exceeds 147Cr**

**Close to 1 Cr Vaccine Doses administered in the last 24 hours**

**Recovery Rate currently at 98.13%**

**37, 379 New Cases reported in the last 24 hours**

**India's Active Caseload currently stands at 1,71,830**

**Weekly Positivity Rate is presently at 2.05%**

India's Cumulative COVID-19 Vaccination Coverage has exceeded 147Cr today afternoon. This has been achieved through 1,57,38,732 sessions.

The break-up of the cumulative figure as per the provisional report till 7 am today include:

|                       |                      |               |
|-----------------------|----------------------|---------------|
| HCWs                  | 1 <sup>st</sup> Dose | 103,88,236    |
|                       | 2 <sup>nd</sup> Dose | 97,21,229     |
| FLWs                  | 1 <sup>st</sup> Dose | 183,86,265    |
|                       | 2 <sup>nd</sup> Dose | 169,16,589    |
| Age Group 15-18 years | 1 <sup>st</sup> Dose | 42,06,433     |
| Age Group 18-44 years | 1 <sup>st</sup> Dose | 50,31,39,868  |
|                       | 2 <sup>nd</sup> Dose | 33,88,64,854  |
| Age Group 45-59 years | 1 <sup>st</sup> Dose | 19,50,66,883  |
|                       | 2 <sup>nd</sup> Dose | 15,24,39,814  |
| Over 60 years         | 1 <sup>st</sup> Dose | 12,17,14,067  |
|                       | 2 <sup>nd</sup> Dose | 96,17,4226    |
| Total                 |                      | 146,70,18,464 |

11,007 patients have recovered in the last 24 hours and the cumulative tally of recovered patients (since the beginning of the pandemic) is now at 3,43,06,414.

Consequently, India's recovery rate stands at 98.13%.

## Recovered cases over 3.43 Cr & Recovery rate at 98.13%

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for last 190 days now.

**37,379 new cases** were reported in the last 24 hours.

## 37K New Cases reported in last 24 hrs

India's Active Case load is presently at **1,71,830**. Active cases constitute **0.49%** of the country's total Positive Cases.

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 11,54,302 tests being conducted. India has so far conducted over **68.24 Cr (68,24,28,595)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate** in the country currently **stands at 2.05%** and the **Daily Positivity rate** also reported to be **3.24%**.

## Update on COVID-19 Vaccine Availability in States/UTs

**More than 152.96 Crore vaccine doses provided to States/UTs**

**More than 19.69 Crore balance and unutilized vaccine doses still available with States/UTs**

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16<sup>th</sup> January 2021.

The new phase of universalization of COVID-19 vaccination commenced from 21<sup>st</sup> June 2021. The vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

| VACCINE DOSES     | (As on 4th January, 2022) |
|-------------------|---------------------------|
| SUPPLIED          | 1,52,96,00,055            |
| BALANCE AVAILABLE | 19,69,01,436              |

More than **152.96 crore (1,52,96,00,055)** vaccine doses have been provided to States/UTs so far through Govt. of India (free of cost channel) and through direct state procurement category.

More than **19.69 Cr (19,69,01,436)** balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered.

**Ministry of Health & Family Welfare  
INITIATIVES & ACHIEVEMENTS-2021**

**1. Steps taken by the Government of India for COVID-19 containment and management**

 The Government of India continued to closely monitor the evolving nature of COVID-19 pandemic in India as well as globally. A close watch was also kept on improving knowledge about the virus, the disease, its long-term impacts, advancements being made in India as well as globally in terms of public health tools, diagnostics, therapeutics and vaccines. The various technical bodies under various  Ministries/Departments continued to maintain a close watch over the evolving nature of the causative virus and their public health implications. India continued its graded yet pre-emptive and proactive  approach towards COVID-19 management.

## 2. Ayushman Bharat:

 **Comprehensive Primary Health Care (CPHC) through Ayushman Bharat Health and Wellness Centres (AB-HWCs)** – Ayushman Bharat aims to holistically address health (covering preventive,  promotive, curative, rehabilitative and palliative care), at primary, secondary and tertiary level by adopting a continuum of care approach. In the lifetime of an individual, the primary healthcare services cater to 80-90% of the healthcare needs for improved healthcare outcomes and quality of life of the population.
