8,055 patients have recovered in the last 24 hours and the cumulative tally of recovered patients (since the beginning of the pandemic) is now at 4,24,06,150.

Consequently, India’s recovery rate stands at 98.68%.

3,993 new cases were reported in the last 24 hours.
India’s Active Caseload is presently at 49,948. Active cases constitute 0.12% of the country's total Positive Cases.

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 8,73,395 tests being conducted. India has so far conducted over 77.43 Cr (77,43,10,567) cumulative tests.

While testing capacity has been enhanced across the country, Weekly Positivity Rate in the country currently stands at 0.68% and the Daily Positivity rate is reported to be 0.46%.
Update on COVID-19 Vaccine Availability in States/UTs

More than 180.14 Crore vaccine doses provided to States/UTs

More than 15.49 Crore balance and unutilized vaccine doses still available with States/UTs

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16th January 2021. The new phase of universalization of COVID-19 vaccination commenced from 21st June 2021. The vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

14,123 patients have recovered in the last 24 hours and the cumulative tally of recovered patients (since the beginning of the pandemic) is now at 4,23,38,673.

Consequently, India’s recovery rate stands at 98.60%.

7,554 new cases were reported in the last 24 hours.
India’s Active Caseload is presently at **85,680**. Active cases constitute **0.20%** of the country's total Positive Cases.

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of **7,84,059** tests being conducted. India has so far conducted over **76.91 Cr (76,91,67,052)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate** in the country currently stands at **1.06%** and the **Daily Positivity rate** is reported to be **0.96%**.
Update on COVID-19 Vaccine Availability in States/UTs

More than 177.70 Crore vaccine doses provided to States/UTs

More than 14.45 Crore balance and unutilized vaccine doses still available with States/UTs

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16th January 2021. The new phase of universalization of COVID-19 vaccination commenced from 21st June 2021. The vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.
