प्राक्कथन

एनएसएसओ द्वारा असमाविष्ट गैर-कृषि उद्यमों पर किए गए सर्वेक्षण राष्ट्रीय और राज्य स्तर पर विनिर्माण, व्यापार और अन्य सेवा क्षेत्रों (निर्माण को छोड़कर) के उद्यमों की आर्थिक और प्रचालनात्मक विशेषताओं के विभिन्न संकेतकों संबंधी आंकड़ों का प्राथमिक स्रोत है। इनका प्रयोग योजना बनाने, नीति-निर्माण और निर्णय लेने में सहायता हेतु तथा विभिन्न सरकारी संगठनों, शिक्षाविदों, शोधकर्ताओं तथा विद्वानों द्वारा आगे के आर्थिक और सांख्यिकीय विश्लेषण हेतु आवश्यक इनपुट के रूप में किया जाता है। 73वें दौर (जुलाई 2015 से जून 2016) के दौरान एनएसएसओ ने विनिर्माण, व्यापार, गैर-बाधित विद्युत उत्पादन और प्रसारण और अन्य सेवा क्षेत्रों (निर्माण को छोड़कर) में असमाविष्ट गैर-कृषि उद्यमों पर एक अखिल-भारतीय सर्वेक्षण किया। इन्हीं विषयों पर पिछला सर्वेक्षण राष्ट्रीय प्रतिदर्श सर्वेक्षण के 67वें दौर (जुलाई 2010- जून 2011) के दौरान किया गया था।

2. एनएसएसओ का निरंतर यह प्रयास रहा है कि सर्वेक्षण के क्षेत्र कार्य के समापन के एक वर्ष के भीतर अपने सर्वेक्षण के आधार पर मुख्य संकेतकों को जारी किया जाए ताकि उसके प्रयोगकर्ताओं की आवश्यकताओं की समय रहते पूर्ति की जा सके। इस उद्देश्य को ध्यान में रखते हुए, एनएसएसओ द्वारा केंद्रीय प्रतिदर्श आंकड़ों पर आधारित दस्तावेज 'भारत में असमाविष्ट गैर-कृषि उद्यमों (निर्माण को छोड़कर) के प्रमुख संकेतक', जिसमें सर्वेक्षण के मुख्य परिणामों को उपलब्ध कराया गया है, को प्रकाशित किया गया तथा इकाई स्तरीय आंकड़े भी जून 2017 में जारी किए गए। इसके अलावा, असमाविष्ट गैर-कृषि उद्यमों के विभिन्न पहलुओं पर दो विस्तृत रिपोर्टें भी जारी करने की योजना बनाई गई है। इस श्रृंखला में पहली रिपोर्ट मार्च, 2018 के दौरान पहले ही जारी की जा चुकी है। वर्तमान रिपोर्ट, अर्थात् 'भारत में असमाविष्ट गैर-कृषि उद्यमों (निर्माण को छोड़कर) की आर्थिक विशेषताएं' इस श्रृंखला की दूसरी और अंतिम रिपोर्ट है जिसमें असमाविष्ट गैर कृषि उद्यमों की आर्थिक विशेषताओं से संबंधित राष्ट्रीय और राज्य/संघ-राज्य स्तर की व्यापक विशेषताओं को विस्तृत कार्यकलाप श्रेणी स्तर पर दर्शाया गया है।

3. सर्वेक्षण अभिकल्प तथा अनुसंधान प्रभाग (एसडीआरडी) ने सर्वेक्षण-साधन विकसित करने तथा इस रिपोर्ट को तैयार करने का कार्य किया। क्षेत्र संकार्य प्रभाग (एफओडी) द्वारा सर्वेक्षण का क्षेत्र कार्य किया गया तथा आंकड़ा विधायन तथा सारणीयन कार्य समंक विधायन प्रभाग (डीपीडी) द्वारा किया गया था। समन्वय एवं प्रकाशन प्रभाग (सीपीडी) ने सर्वेक्षण संबंधी विभिन्न कार्यकलापों में समन्वयन का कार्य किया।

4. मैं सर्वेक्षण के विभिन्न चरणों में बहुमूल्य मार्गदर्शन प्रदान करने हेतु राष्ट्रीय सांख्यिकी आयोग (एनएससी) के अध्यक्ष और सदस्यों का एवं राष्ट्रीय प्रतिदर्श सर्वेक्षण के 73 वें दौर के कार्य दल के अध्यक्ष और सदस्यों का अत्यंत आभारी हूँ। मैं इस दस्तावेज को तैयार करने में शामिल एनएसएसओ के विभिन्न प्रभागों के अधिकारियों द्वारा किये गये प्रयासों की भी सराहना करता हूँ।

5. मैं आशा करता हूँ कि यह रिपोर्ट योजनाकारों, नीति-निर्माताओं, शिक्षाविदों और शोधकर्ताओं के लिए उपयोगी सिद्ध होगी। इस दस्तावेज की विषयवस्तु, अभिन्यास और दस्तावेज के किसी अन्य पहलू में सुधार के लिये सुझावों का स्वागत है।

महानिदेशक (सर्वेक्षण)

Preface

Surveys on unincorporated non-agricultural enterprises conducted by NSSO are the primary source of data on various indicators of economic and operational characteristics of enterprises in manufacturing, trade and other services sector (excluding construction) at the national and state level. These are used for planning, policy formulation, decision support and as input for further economic and statistical analysis by various Government organizations, academicians, researchers and scholars. During 73rd round (July 2015 - June 2016), NSSO carried out an all-India survey on unincorporated non-agricultural enterprises in manufacturing, trade, non-captive electricity generation & transmission and other services sector (excluding construction). The previous survey on the similar subjects was conducted during the NSS 67th round (July 2010- June 2011).

2. It has been the persistent endeavour of NSSO to bring out Key Indicators based on its survey within one year of completion of field work of the survey to meet the requirements of its users. With this aim in mind, NSSO brought out 'Key Indicators of Unincorporated Non-Agricultural Enterprises (excluding Construction) in India', giving the salient results of the survey and also released the unit level data in June 2017 based on the Central sample data of the survey. Apart from this, two detailed reports are planned for release on various aspects of the unincorporated non-agricultural enterprises. The first report in the series has already been released during March, 2018. The present report, namely 'Economic Characteristics of Unincorporated Non-Agricultural Enterprises (Excluding Construction) in India' is second and the final report in the series depicting national and State/UT level broad features pertaining to the economic characteristics of the unincorporated non-agricultural enterprises at detailed activity category level.

3. Survey Design and Research Division (SDRD) undertook the development of survey instruments and the preparation of this document. Field work of the survey was carried out by the Field Operations Division (FOD) and the data processing and tabulation work was undertaken by the Data Processing Division (DPD). Coordination and Publication Division (CPD) coordinated various activities pertaining to the survey.

4. I am highly thankful to the Chairman and Members of the National Statistical Commission (NSC) as well as the Chairman and Members of the Working Group of NSS 73rd round for providing their valuable guidance at various stages of the survey. I would also like to appreciate efforts made by the officers of the different Divisions of NSSO involved in preparation of this document.

5. I hope this report will be useful to planners, policy makers, academicians and researchers. Suggestions for improvement in content, layout and other aspects of this document will be highly appreciated.

मुख्य बातें

यह रिपोर्ट रा.प्र.स. के 73वें दौर के जुलाई 2015 से जून 2016 के दौरान चलाए गए असमाविष्ट गैर-कृषि उद्दमों (निर्माण को छोड़कर) पर किए गए सर्वेक्षण की रिपोर्ट पर आधारित है। यह सर्वेक्षण सम्पूर्ण भारतीय संघ में चलाया गया, जिसमें 290113 उद्दमों के प्रतिदर्श थे (8488 ग्रामों में 143179 उद्दम एवं 7860 नगरीय ईबीएस/यूएफएस खण्डों से 146934 उद्दम थे)। सर्वेक्षण से प्राप्त असमाविष्ट गैर-कृषि उद्दमों (निर्माण को छोड़कर) की आर्थिक विशिष्टताओं से सम्बन्धित कुछ मुख्य प्राक्कलन निम्नलिखित हैं:--

--

- i.* अखिल भारतीय स्तर पर 2015-16 के दौरान, असमाविष्ट गैर-कृषि उद्दमों (निर्माण को छोड़कर) की संख्या का अनुमान 6.34 करोड़¹ प्राक्कलित हुआ। उनमें से, 31.0% उद्दम विनिर्माण में लगे हुए थे, 36.3% उद्दम व्यवसाय में एवं 32.7% उद्दम 'अन्य सेवा' क्षेत्र में थे।

[स्टेटमेंट 1.0 एवं 1.2]
- ii.* असमाविष्ट गैर-कृषि उद्दमों की प्राक्कलित कुल संख्या में से करीब 51.3% ग्रामीण क्षेत्रों में स्थित थे।

[स्टेटमेंट 1.1]
- iii.* ग्रामीण एवं नगरीय क्षेत्रों में स.का.उ. (OAE) के भाग क्रमशः 91.4% एवं 76.6% थे।

[स्टेटमेंट 1.2]
- iv.* सर्वेक्षण व्याप्ति के अन्तर्गत 84.2% असमाविष्ट गैर-कृषि उद्दम स.का.उ. (OAE) थे। शेष 15.8% उद्दम अधिष्ठान थे (अर्थात् वे उद्दम जो कि नियमित रूप में भाड़े पर कामगार रखते थे)। अखिल भारतीय स्तर पर, स.का.उ. (OAE) की बाह्य अधिष्ठान उन तीनों बड़े क्रियाकलाप वर्गों में जैसे 'विनिर्माण' (85.5%) 'व्यवसाय' (84.5%) एवं 'अन्य सेवाएं' (82.5%) था।

[स्टेटमेंट 1.1]
- v.* असमाविष्ट गैर-कृषि उद्दमों की कुल संख्या में उत्तर प्रदेश का सबसे अधिक शेयर (14.2%) था, तत्पश्चात् पश्चिम बंगाल (14.0%), तामिलनाडू (7.8%), महाराष्ट्र (7.5%), एवं कर्नाटका (6.1%) थे। अखिल भारतीय स्तर पर इन पांचों राज्यों का असमाविष्ट गैर-कृषि उद्दमों का लेखा करीब आधा था।

[स्टेटमेंट 2.0]
- vi.* 2015-16 के दौरान निर्माण को छोड़कर करीब 11.13 करोड़ कामगार (अंश-कालिक कामगार सहित) असमाविष्ट गैर-कृषि उद्दम क्रियाकलापों में लगे हुए थे। कुल प्राक्कलित कामगारों की संख्या में से, 55.2% नगरीय क्षेत्रों में स्थित थे।

[स्टेटमेंट 3.0 एवं 3.1]
- vii.* अखिल भारतीय स्तर पर कामगारों का शेयर विनिर्माण, व्यवसाय एवं 'अन्य सेवाओं' में क्रमशः 32.4%, 34.8% एवं 32.8% था। अखिल भारतीय स्तर पर, कामगारों का शेयर जो कि ग्रामीण, नगरीय एवं संयुक्त क्षेत्रों में स्व-कार्यरत उद्दमों (OAE) में कार्यरत थे क्रमशः 76.5%, 50.4%, 62.1% थे।

[स्टेटमेंट 3.3]
- viii.* उत्तर प्रदेश का कामगारों की कुल संख्या में अधिकतम शेयर (14.9%) था, तत्पश्चात् पश्चिम बंगाल (12.2%), तामिलनाडू (8.7%), महाराष्ट्र (8.2%), एवं कर्नाटका (6.4%)। इन पाँच राज्यों में असमाविष्ट गैर-कृषि क्षेत्र में निर्माण को छोड़कर कामगारों की कुल संख्या करीब आधा था।

[स्टेटमेंट 4.0]

¹(1 करोड़ = 10⁷)

ix. महिला कामगारों का शेयर विनिर्माण में अधिकतम (52.67%) था, तत्पश्चात आया 'अन्य सेवाओं' क्षेत्र उद्दम (25.91%) एवं उद्दम जो कि व्यवसाय में कार्यरत थे (21.42%)।

[स्टेटमेंट 5.1]

x. प्राक्कलित 11.13 करोड़ कामगारों में, महिला कामगारों का असमाविष्ट गैर-कृषि उद्दमों के कुल संख्या में मोटे तौर पर 23.9% था। स.का.उ. एवं स्थापनाओं में अखिल भारतीय स्तर पर कुल महिला कामगारों का शेयर 28.5% एवं 16.5% था।

[स्टेटमेंट 5.2]

xi. पश्चिम बंगाल में महिला कामगारों का अधिकतम शेयर (16.35%) था, तत्पश्चात तामिलनाडू (12.14%) एवं उत्तर प्रदेश (10.27%)। कुछ राज्यों में जैसे पश्चिम बंगाल, तेलंगाना, गुजरात, ओड़ीसा, झारखंड, बिहार एवं छत्तीसगढ़, में 80% से अधिक महिला कामगार स.का.उ. (OAE) से थे।

[स्टेटमेंट 7.0]

xii. असमाविष्ट गैर-कृषि उद्दमों में जोड़ी गई कुल वार्षिक मूल्य बाजार उत्पादन में संलग्न उद्दमों में अनुमान रू. 11,52,309 करोड़ थी। विनिर्माण क्षेत्र की देन 23.2% व्यवसाय क्षेत्र की देन 39.0% एवं उद्दम जो 'अन्य सेवाओं' में संलग्न थे की देन 37.8% मानी गयी थी। गैर-बाजार उत्पादन में संलग्न उद्दमों द्वारा जोड़ी गई कुल मूल्य रू. 1257.9 करोड़ था, जो कि बाजार उत्पादन में संलग्न उद्दमों द्वारा जोड़ी गई कुल मूल्य की तुलना में नगण्य था।

[स्टेटमेंट 8.0, 8.2 एवं फिगर 3]

xiii. गुजरात का विनिर्माण क्षेत्र में जीवीए का अधिकतम शेयर (12.9%) था। 'व्यवसाय' एवं 'अन्य सेवाओं' से उद्दमों का जीवीए शेयर उत्तर प्रदेश (13.0%) एवं महाराष्ट्र (12.6%) के राज्यों के लिए क्रमशः सबसे अधिक था।

[स्टेटमेंट 10.2]

xiv. अखिल भारतीय स्तर पर, असमाविष्ट गैर-कृषि क्षेत्र में सकल मूल्य युग्मित प्रति बाजार उद्दम (जीवीएपीई) रू. 1,81,903 रूपया था। यही ग्रामीण भारत के लिए रू. 1,06,235 एवं नगरीय भारत के लिए रू. 2,61,441 था।

[स्टेटमेंट 11.0]

xv. ग्रामीण एवं नगरीय क्षेत्रों के लिए अधिकतम जीवीए प्रति उद्दम क्रमशः केरल (रू. 2.18 लाख) एवं दिल्ली (रू. 5.00 लाख) था। स.का.उ. (OAE) का अधिकतम जीवीए दिल्ली में (रू. 2.39 लाख) था एवं अधिष्ठानों का अधिकतम जीवीए गुजरात राज्य के लिए था (रू. 10.12 लाख)।

[स्टेटमेंट 13.1]

xvi. प्रतिकामगार के लिए सकल मूल्य (जी.वी.ए.पी.डब्ल्यू.) असमाविष्ट गैर-कृषि उद्दमों के लिए, जो कि बाजार उत्पादन से जुड़े हैं, रू. 1,03,741 प्राक्कलित था। जी.वी.ए.पी.डब्ल्यू. उन उद्दमों के लिए जो कि विनिर्माण, व्यवसाय एवं 'अन्य सेवाओं' से जुड़े थे क्रमशः रू. 74,378 रू. 1,15,884 एवं रू. 1,19,939 थे।

[स्टेटमेंट 14.0]

xvii. ग्रामीण क्षेत्र के लिए जीवीए प्रति कामगार रू. 69,263 था और वही नगरीय क्षेत्र के लिए रू. 1,31,754 था। अधिष्ठानों के लिए अनुमानित जीवीए प्रति कामगार (रू. 1,52,703) था जो कि स.का.उ. (OAE) के (रू. 73,959) से दो गुणा अधिक था।

[स्टेटमेंट 14.0]

xviii. हर तीन मुख्य क्रियाकलाप वर्गों के लिए 2015-16 के दौरान दिल्ली का जीवीए प्रति कामगार अधिकतम था। विनिर्माण (रू.1.82 लाख), व्यवसाय (रू. 2.33 लाख) एवं 'अन्य सेवाओं' (रू. 1.88 लाख) था।

[स्टेटमेंट 16.2]

xix. संयुक्त क्षेत्र में भाड़े पर लिए गए प्रति कामगार का प्राक्कलित वार्षिक परिलब्धियाँ रू. 87,544 था। भाड़े पर लिये गए प्रति कामगार की वार्षिक परिलब्धियाँ ग्रामीण क्षेत्रों में 74,871 था, और यही नगरीय क्षेत्रों में रू. 92,441 था। भाड़े पर लिये गए प्रति कामगार का विनिर्माण, व्यवसाय एवं 'अन्य सेवाओं' में परिलब्धिया क्रमशः रू. 75,595 रू. 80,267 एवं रू. 1,01,094 था।

[स्टेटमेंट 17]

xx. बाजार उत्पादन में संलग्न प्रति उद्दम जिनका संचालन क्रमशः घरेलु परिसर के भीतर एवं बाहर से होता था युक्त सकल मूल्य रू. 87,782 एवं रू. 2,55,939 था। जो उद्दम विनिर्माण क्रियाकलाप में लगे हुए थे एवं घरेलु परिसर के बाहर से संचालन कर रहे थे, का अधिकतम युक्त सकल मूल्य प्रतिउद्दम रू. 3,26,810 लगाया गया।

[स्टेटमेंट 19]

xxi. अखिल भारतीय स्तर पर, प्रति उद्दम बाजार मूल्य स्वाधिकृत स्थायी परिसम्पत्ति के लिए रू. 2,31,870 प्राक्कलित किया गया। स्थायी परिसम्पत्ति का मूल्य सन्दर्भ वर्ष के अंतिम दिन उद्दम द्वारा दिए गए रिपोर्ट पर स्थायी परिसम्पत्ति के बाजार मूल्य के रूप में लिया गया। तीन मुख्य बड़े क्रियाकलाप वर्गों के बीच, 'अन्य सेवाएँ' प्रति उद्दम स्वाधिकृत स्थायी परिसम्पत्ति के लिए अधिकतम मूल्य दर्ज करवाया (रू. 3,28,060)। नगरीय क्षेत्रों में प्रति उद्दम स्वाधिकृत स्थायी परिसम्पत्ति का बाजार मूल्य रू. 3,43,503 था, जबकि ग्रामीण क्षेत्रों में तदनु रूप मूल्य रू. 1,25,690 था। स्थापनाओं के लिए प्रति उद्दम का स्वाधिकृत स्थायी परिसम्पत्ति के लिए मूल्य स.का.उ. (OAE) से करीब 7 गुणा था।

[स्टेटमेंट 25]

xxii. पूरे भारत के लिए स्थायी परिसम्पत्तियों का जीवीए अनुपात 52.1% था। स्थायी परिसम्पत्तियों का प्रति उद्दम जीवीए का अनुपात (दोनों स्वयं एवं भाड़े पर लिया गया) ने दर्शाया की अखिल भारतीय स्तर पर स.का.उ. (OAE)(54.2%) ने स्वाधिकृत परिसम्पत्तियों को अधिष्ठानों के मुकाबले ज्यादा बेहतर व्यवहार किया (50.7%)।

[स्टेटमेंट 28]

xxiii. 2015-16 के दौरान भाड़े पर लिए गए स्थायी परिसम्पत्ति पर प्रति उद्दम देय वार्षिक किराया रू. 8,100 था। तीन व्यापक क्रियाशील श्रेणियों- विनिर्माण, व्यवसाय एवं 'अन्य सेवाएँ' के लिए भाड़े पर लिए गए स्थायी परिसम्पत्तियों पर प्रति उद्दम देय वार्षिक किराया क्रमशः रू. 4,398, रू. 9,960, एवं रू. 9,548 था। अधिष्ठानों के लिए भाड़े पर लिए गए स्थायी परिसम्पत्ति पर प्रति उद्दम देय वार्षिक किराया रू. 29,090 था, जो कि अखिल भारतीय स्तर पर उस स.का.उ. (OAE)(रू. 4,153) से तकरीबन 7 गुणा अधिक था।

[स्टेटमेंट 31]

xxiv. अखिल भारतीय स्तर पर, 2015-16 के दौरान प्रति उद्दम स्वाधिकृत स्थायी परिसम्पत्ति का कुल योग रू. 8,623 था, जिसमें 'प्लांट एवं मशीनरी' 'बिल्डिंग' एवं 'उपकरण तथा अन्य स्थायी परिसम्पत्तियों' की देन क्रमशः रू. 2,741, रू. 2,504 एवं रू. 1689 थे। गुजरात (रू. 47,688), केरल (रू. 25,392) एवं हिमाचल प्रदेश (रू. 13,211) प्रति उद्दम स्वाधिकृत स्थायी परिसम्पत्ति के कुल योग की दृष्टि से सर्वोच्च तीन राज्य थे।

[स्टेटमेंट 34.0]

- .xxv. तीन व्यापक क्रियाशील वर्गों के बीच, वे उद्दम जो 'अन्य सेवाओं' में सलग्र थे प्रति उद्दम स्वाधीकृत स्थायी परिसम्पत्तियों में अधिकतम योग रू. 12,294 था, तत्पश्चात रू. 9,787 विनिर्माण उद्दमों एवं व्यवसाय उद्दमों जिनका आंकलन रू. 4,334 था।
[स्टेटमेंट 34.1 - 34.3]
- .xxvi. अखिल भारतीय स्तर पर, 2015-16 के दौरान बकाया ऋण प्रति उद्दम रू. 27,470 प्राक्कलित था, अधिष्ठानों के लिए यह रू. 1,24,729 प्राक्कलित था, जो कि प्रति स.का.उ. (OAE) (रू. 9,183) के बकाया ऋण के तदनुरूप प्रक्कलन से करीब 13 गुण अधिक था।
[स्टेटमेंट 35]
- .xxvii. संयुक्त क्षेत्र में मुख्य प्रचालन खर्च का लेखा 73.2% था, उस कुल खर्च का जो प्रति असमाविष्ट गैर-कृषि उद्दम (निर्माण को छोड़कर) था। स.का.उ. (OAE) एवं अधिष्ठानों - दोनों के लिए भी मुख्य खर्च का लेखा कुल खर्च में क्रमशः 70% एवं 75% के करीब था।
[स्टेटमेंट 38.0]
- .xxviii. 2015-16 के दौरान, संयुक्त क्षेत्र में प्रति उद्दम कुल पावतियों के 94.6% के लिए मुख्य पावती लेखा था। स.का.उ. (OAE) एवं अधिष्ठानों के लिए मुख्य पावती का लेखा क्रमशः कुल पावतियों में 94.1% एवं 94.9% था।
[स्टेटमेंट 39]
- .xxix. पिछले तीन वर्षों से अधिक से 43.3% उद्दमों ने गतिरोध का रिपोर्ट किया, जबकि 28.6% उद्दमों ने रिपोर्ट किया कि वे बढ़ रहे थे। 2015-16 के दौरान अखिल भारतीय स्तर पर 11.0% उद्दमों ने संकुचित होते रहने का रिपोर्ट किया।
[स्टेटमेंट 41.0]

HIGHLIGHTS

This report is based on the Survey on Unincorporated Non-Agricultural Enterprises (Excluding Construction) conducted in the 73rd round of NSS during July 2015 to June 2016. The survey was conducted over whole Indian Union with a sample of 290113 enterprises (143179 enterprises from 8488 villages and 146934 enterprises from 7860 urban EBs/ UFS blocks). Some of the key estimates related to the economic characteristics of the unincorporated non-agricultural enterprises (excluding construction) obtained from the survey are presented below:

- i. During 2015-16, the number of unincorporated non-agricultural enterprises (excluding construction) was estimated as 6.34 crore¹ at the all-India level. Out of them, 31.0% enterprises were engaged in manufacturing, 36.3% enterprises were in trading and 32.7% enterprises were in 'other services' sector.
[Statements 1.0 and 1.2]
- ii. Of the total number of unincorporated non-agricultural enterprises, 51.3% were located in rural areas.
[Statement 1.1]
- iii. The shares of Own Account Enterprises (OAEs) in the total unincorporated enterprises in rural and urban areas were 91.4% and 76.6% respectively.
[Statement 1.2]
- iv. 84.2% of unincorporated non-agricultural enterprises under survey coverage were OAEs. Rest 15.8% of the enterprises were establishments (i.e. the enterprises which employ hired workers on a fairly regular basis). The share of OAEs in the three broad activity categories were 'Manufacturing' (85.5%), 'Trade' (84.5%) and 'Other Services' (82.5%).
[Statement 1.1]
- v. Uttar Pradesh had the highest share (14.2%) in total number of unincorporated non-agricultural enterprises followed by West Bengal (14.0%), Tamil Nadu (7.8%), Maharashtra (7.5%) and Karnataka (6.1%). These five states accounted for nearly half of the unincorporated non-agricultural enterprises at all-India level.
[Statement 2.0]
- vi. About 11.13 crore workers (including part time workers) were engaged in unincorporated non-agricultural enterprise activities excluding construction

¹ (1 crore = 10⁷)

- during 2015-16. Out of the total estimated number of workers, 55.2% were located in urban areas.
- [Statements 3.0 and 3.1]
- vii. The share of workers in manufacturing, trading and ‘other services’ were 32.4%, 34.8% and 32.8% respectively at all-India level. At all-India level, the share of workers engaged in own account enterprises in rural, urban and combined sectors were 76.5%, 50.4% and 62.1% respectively.
- [Statement 3.3]
- viii. Uttar Pradesh had the highest share in total number of workers (14.9%) followed by West Bengal (12.2%), Tamil Nadu (8.7%), Maharashtra (8.2%) and Karnataka (6.4%). These five states accounted for nearly half of the total workers of the unincorporated non-agricultural sector excluding construction.
- [Statement 4.0]
- ix. The share of female workers was the highest in manufacturing (52.67%) followed by ‘other services’ (25.91%) and trading (21.42%).
- [Statement 5.1]
- x. Out of the estimated 11.13 crore workers, female workers constituted roughly 23.9% of total workers in unincorporated non-agricultural enterprises. Share of female workers in OAEs and establishments were 28.5% and 16.5% of the total workers at all-India level.
- [Statement 5.2]
- xi. West Bengal had the highest share of female workers (16.35%) followed by Tamil Nadu (12.14%) and Uttar Pradesh (10.27%). In States like West Bengal, Telangana, Gujarat, Odisha, Jharkhand, Bihar and Chhattisgarh, more than 80% of the female workers were from OAEs.
- [Statement 7.0]
- xii. Aggregated Gross Value Added by the unincorporated non-agricultural enterprises engaged in *market production* was estimated as Rs. 11,52,309 crores. Manufacturing sector contributed 23.2%, trading sector contributed 39.0% and enterprises engaged in ‘other services’ contributed 37.8%. The amount of Net Value Added by enterprises engaged in non-market production was Rs. 1257.9 crores, insignificant in comparison to Gross Value Added by the enterprises engaged in *market production*.
- [Statements 8.0, 8.2 and Figure 3]

- xiii. Gujarat (12.9%) had the highest share of GVA in manufacturing sector. The shares of GVA from trading and ‘other services’ enterprises were highest for the States of Uttar Pradesh (13.0%) and Maharashtra (12.6%) respectively.
[Statement 10.2]
- xiv. At all-India level, Gross Value Added per market enterprise (GVAPE) in unincorporated non-agricultural sector was Rs. 1,81,903. The same for rural India was Rs. 1,06,235 and for urban India was Rs. 2,61,441.
[Statement 11.0]
- xv. Kerala (Rs. 2.18 lakhs) and Delhi (Rs. 5.00 lakhs) had the highest GVA per enterprise respectively for rural and urban sectors. The highest GVA for OAEs was observed in Delhi (Rs. 2.39 lakhs) and the same for establishments was for the state of Gujarat with Rs. 10.11 lakhs.
[Statement 13.1]
- xvi. Gross Value Added per worker (GVAPW) for unincorporated non-agricultural enterprises, engaged in market production, was estimated at Rs. 1,03,741. GVAPW for enterprises engaged in manufacturing, trading and ‘other services’ were Rs. 74,378, Rs. 1,15,884 and Rs. 1,19,939 respectively.
[Statement 14.0]
- xvii. GVA per worker for rural sector was Rs. 69,263 and the same for urban sector was Rs. 1,31,754. Estimated GVA per worker for establishments (Rs. 1,52,703) was more than twice that of OAEs (Rs. 73,959).
[Statement 14.0]
- xviii. Delhi had the highest GVA per worker for each of the three broad activity categories – Manufacturing (Rs. 1.82 lakhs), Trade (Rs. 2.33 lakhs) and ‘other services’ (Rs. 1.88 lakhs) during 2015-16.
[Statement 16.2]
- xix. Rs. 87,544 was the estimated annual emoluments per hired worker in the combined sector. Annual emoluments per hired worker in rural areas was Rs. 74,871 and the same in urban areas was Rs. 92,441. The emoluments per hired worker were Rs. 75,595, Rs. 80,267 and Rs. 1,01,094 for manufacturing, trading and ‘other services’ respectively.
[Statement 17]
- xx. Rs. 87,782 and Rs. 2,55,939 were the Gross Value Added per enterprise engaged *in market production* which operated from within the household premises and

outside household premises respectively. Enterprises engaged in manufacturing activity and operating from outside household premises, fetched the maximum gross value added per enterprise with Rs. 3,26,810.

[Statement 19]

- xxi. At all-India level, the reported market value of owned fixed assets per enterprise was estimated as Rs. 2,31,870. Value of fixed assets was taken as the market value of fixed assets on the last day of the reference year as reported by the enterprise. Among the three broad activity categories, 'other services' reported the highest value of owned fixed assets per enterprise (Rs. 3,28,060). The market value of owned fixed assets per enterprise in urban areas was Rs. 3,43,503 while the corresponding value in rural areas was Rs. 125690. Per enterprise value of owned fixed assets for establishments was about 7 times that of OAEs.

[Statement 25]

- xxii. GVA to fixed assets ratio was 52.1% for all-India. The ratios of GVA to fixed assets per enterprise (taking together both owned and hired), revealed OAEs (54.2%) utilized fixed assets better than establishments (50.7%) at all-India level.

[Statement 28]

- xxiii. Annual rental payable on hired fixed assets per enterprise was Rs. 8,100 during 2015-16. For the three broad activity categories – manufacturing, trading and 'other services', the annual rental payable on hired fixed assets per enterprise were Rs. 4,398, Rs. 9,960 and Rs. 9,548 respectively. For establishments, rental payable on hired fixed assets per enterprise was Rs. 29,090, almost 7 times higher, than that of OAEs (Rs. 4,153) at all-India level.

[Statement 31]

- xxiv. During 2015-16, the net additions to owned fixed assets per enterprise at all-India level were Rs. 8,623, out of which 'plant and machinery', 'building' and 'tools and other fixed assets' contributed Rs. 2,741, Rs. 2,504 and Rs. 1689 respectively. Gujarat (Rs. 47,688), Kerala (Rs. 25,392) and Himachal Pradesh (Rs. 13,211) were the top three States in terms of net additions to owned fixed assets per enterprise.

[Statement 34.0]

- xxv. Among the three broad activity categories, enterprises engaged in 'other services' had the highest net additions to owned fixed assets per enterprise with Rs. 12,294, closely followed by Rs. 9,787 of manufacturing enterprises and trading enterprises with an estimate of Rs. 4,334.

[Statements 34.1 – 34.3]

- xxvi. At all-India level, outstanding loans per enterprise during 2015-16 were estimated at Rs. 27,470. For establishments, it was estimated at Rs. 1,24,729 which was about thirteen times higher than the corresponding estimate of outstanding loans per OAE (Rs. 9,183).
[Statement 35]
- xxvii. The principal operating expenses accounted for 73.2% of total expenses per unincorporated non-agricultural enterprise (excluding construction) in the combined sector. Also for both OAEs and establishments, the principal expenses accounted for about 70% and 75% of total expenses respectively.
[Statement 38.0]
- xxviii. During 2015-16, principal receipts accounted for 94.6% of total receipts per enterprise in the combined sector. For OAEs and establishments, the principal receipts accounted for 94.1% and 94.9% of total receipts respectively.
[Statement 39]
- xxix. 43.3% enterprises reported stagnation over last three years while 28.6% enterprises reported they were expanding. 11.0% enterprises reported to be contracting during 2015-16 at all-India level.
[Statement 41.0]

Chapter One

Introduction

CHAPTER ONE

INTRODUCTION

1.1 Background

1.1.1 The unincorporated sector in the Indian economy has prime importance. Besides its contribution to GDP, the sector is important on account of the number of enterprises in this sector and the very large number of persons depended on it for their employment. The sector comprises of a large number of enterprises of varying size and spread. The most growing categories of Indian economy like manufacturing, trade and other services are dominated by unincorporated units. This unincorporated segment of the Indian economy is characterized by the proprietary and partnership enterprises.

1.1.2 The National Sample Survey Office (NSSO), Ministry of Statistics and Programme Implementation (MOSPI), Government of India, since its inception in 1950 has been conducting nationwide integrated large scale sample surveys, employing scientific sampling methods, to generate data and statistical indicators on diverse socio-economic aspects. Along with the household based socio-economic surveys, *Enterprise surveys* as follow up surveys of Economic Census (EC) are also being conducted by NSSO, periodically, since the first Economic Census in the year 1977. So far 15 such follow up surveys on non-agricultural enterprises have been conducted by NSSO starting from the survey on *Unorganised Manufacturing - Non-Directory Establishments and Own-Account Enterprises* during NSS 33rd round (July 1978 – June 1979) to the Survey on *Unincorporated Non-Agricultural Enterprises (Excluding Construction)* of NSS 73rd round (July 2015- June 2016).

1.2 Objective of the Survey

1.2.1 The survey on Unincorporated Non-Agricultural Enterprises (excluding Construction) of NSS 73rd round (July 2015- June 2016) was conducted as a repeat survey of NSS 67th round (July 2010 –June 2011) survey on the same subject. NSS 67th round was the first NSS round which covered the entire unincorporated non-agricultural sector (excluding construction) in a *focused* way as a follow-up survey of 5th EC¹. In this round different industry sectors were covered in an integrated approach instead of covering them in isolation as done in previous NSS rounds. The survey was designed to generate estimates of various operational and economic characteristics of the unincorporated non-agricultural enterprises in manufacturing, trade and other services (excluding construction) at more disaggregated *activity category* level as required by Central Statistics Office (CSO) which is also one of the prime users of the survey results.

1.2.2 To make use of the survey results in preparation of Supply-Use Table in National Accounts Division (NAD), a specially designed three digit product classification was introduced for the first time in the enterprise schedule of this round. Additionally, provision for collecting information related to availability of skilled manpower, access to toilet

¹ Though NSS 55th Round also covered the entire unincorporated sector including construction (termed as 'informal sector'), it being a quinquennial round, the focus was not entirely on the Enterprise survey.

facilities, waste management system in the unincorporated non-agricultural sector were included in the survey to generate estimates related to some major focus of the government such as Skill Development and *Swachh Bharat Abhiyan*. The Survey also collected information on original investment in plant and machinery/ equipment based on which the unincorporated enterprises could be classified as Micro, Small and Medium Enterprises (MSMEs) and others.

1.3 Comparability of results of NSS 73rd round with other sources of data on unincorporated sector enterprises

1.3.1 In India, indicators related to the unincorporated sector enterprises are available from multiple sources, enterprise surveys of NSSO and Economic Census conducted by CSO being the two main official sources. However, the estimates obtained from these sources are not directly comparable due to some differences in coverage and concepts and definitions adopted.

1.3.2 NSS 73rd round and NSS 67th round

1.3.2.1 NSS Surveys on unorganised/ unincorporated sector enterprises are designed to have information on the operational and economic characteristics of this sector for effective policy formulation. At the same time, they are also intended for generating periodic economic indicators that could be used in National Accounts. Accordingly, coverage of NSS enterprise surveys generally is restricted to the sectors for which no other official data source is available. Similarly, certain concepts and definitions also undergo periodic changes in an attempt to make them consistent with the latest System of National Accounts (SNA). As a result, estimates obtained from NSS surveys on same topic conducted over different time points may not be directly comparable with each other.

1.3.2.2 The survey of unincorporated non-agricultural enterprises (excluding construction) of NSS 73rd round was planned as a repeat survey of the survey on same topic conducted during NSS 67th round (July 2010- June 2011). However, the Working Group of NSS 73rd round, while deciding the coverage of the survey suggested the following changes:

- *Activities related to Non captive electric power generation, transmission and distribution by units not registered with the Central Electricity Authority (CEA) under NIC 2008 codes 35103, 35105, 35106, 35107, 35109, which were not covered in NSS 67th round are included in the coverage of NSS 73rd round.* It was observed by the Working Group that this activity, which was not covered in previous NSS enterprise surveys and no alternative data source was available, needs to be brought into the coverage of NSS 73rd round.
- *Two additional special codes, namely, 64193: Chit funds and 64921: Investment club are introduced under NIC 2008 Div.64: Financial service activities other than insurance and pension funding.* These special codes were introduced to capture detailed information on some important financial activities which were understood to have a sizable presence in the unincorporated sector.

- *NIC 2008 Div.65: Insurance, reinsurance and pension funding, except compulsory social security and NIC 2008 code 6622: Activities of insurance agents is excluded from the coverage of NSS 73rd round:* Since Insurance companies in the country are only present in the incorporated sector, the inclusion of this activity did not carry much meaning, which was also clear from the analysis of data of NSS 67th round. Further, data on activities of insurance agents is available from Insurance Regulatory and Development Authority of India (IRDAI).

1.3.2.3 In addition to the difference in activity coverage, the following changes in the concepts and definitions followed for collecting the information and presenting estimates were also introduced in NSS 73rd round as a deviation from NSS 67th round:

- The office bearers of Self Help Groups (SHGs) and the active members (i.e. those members of SHG who regularly participates in the meetings) were treated as working owners and were included in estimates of workers generated from the results of NSS 67th round. The active members of SHGs were not considered as working owners (and therefore workers) in NSS 73rd round. However, information on active members of SHGs was separately collected in this round to have a comparable study with 67th round, if needed.
- The purchase value of the goods sold in the same condition as purchased and the sale value of goods sold in the same condition as purchased were included respectively in the estimates of operating expenses and receipts in the results released from NSS 67th round survey. Whereas in NSS 73rd round tabulation, adopting the SNA recommendations for such activities, the purchase value of traded goods were excluded from the operating expenses and the trade margin (instead of entire sale value) was included in the receipt side wherever possible².
- As a deviation from the approach followed in NSS 67th round, the procedure used for calculation of receipts, expenditure and Gross Value Added (GVA) for financial enterprises in NSS 73rd round were rectified by (a) excluding the interest payment from the expenses part and (b) not directly taking the interest receipt in the output/receipt calculation of the financial enterprise. Instead, the output / receipt of the financial enterprise was worked out using the formula 'FISIM³ + Actual Receipts' using the FISIM formula with a reference rate of 7.71 percent for the period 2015-16. The GVA was also accordingly changed. (*FISIM is computed, as per SNA 2008, on loans and deposits using Reference Rates (RR) approach. Denoting LR/ DR as interest rates for Lending/Deposit, FISIM = (LR-RR) * Av. stock of Loans + (RR-DR) * Av. stock of Deposits. RR which is taken as harmonic mean of lending and deposit rate for banking sector was provided by NAD, CSO as 7.71 percent for the year 2015-16 and the same was used in*

² In case of food services activities, though receipt from traded goods like bread bakery products, dairy products, alcoholic and non-alcoholic beverages were collected separately, separate expense figures for these items are not available and therefore, the adjustment could not be made.

³ FISIM- Financial Intermediation Services Indirectly Measured

calculation. Also in unorganized/ informal banking activities, which are mainly Money lenders, second factor in the FISIM formula would be absent.)

- For Non Profit Institutions Serving Households (NPISH) and other enterprises engaged in non-market production, output is calculated by cost approach using the formula:

Output of NPISH = Intermediate consumption (IC) + compensation of employees (CE) + consumption of fixed capital (CFC) + other taxes (less subsidies) on production

GVA for NPISH is calculated by the formula *Net Value Added (NVA) + Consumption of Fixed Capital (CFC)* where *NVA* being *Output – IC* (which is equal to *CE*). Since *CFC* and ‘other taxes on production’ for non-market producers are not available from the survey, the GVA could not be calculated for NPISH and other enterprises engaged in non-market production and instead, *NVA* is presented for such enterprises.

1.3.2.4 For presentation of estimates obtained from NSS 73rd round, the activity categories similar to those used in NSS 67th round survey reports are adopted. However, while comparing the estimates obtained from these two surveys, it is necessary to take into consideration the above mentioned differences in coverage, concepts and definitions.

1.3.3 NSS 73rd round and 6th Economic Census

1.3.3.1 The Survey on unincorporated non-agricultural enterprises of NSS 73rd round covered all (i) unorganised manufacturing units (ii) enterprises engaged in cotton ginning, cleaning and baling which are not covered by the Annual Survey of Industries (ASI) and (iii) units engaged in trading, non-captive electricity generation and transmission and other services activities. The ownership categories of enterprises that were under coverage of NSS 73rd round were proprietary and partnership enterprises, Trusts, Non Profit Institutions (NPIs), Self Help Groups (SHG), etc. The ownership categories (a) incorporated enterprises (i.e. those registered under Companies Act, 1956), (b) Government and public sector enterprises and (c) Cooperatives were not considered for inclusion in the survey.

1.3.3.2 While the 6th Economic Census covered all the unincorporated enterprises as included in the coverage of NSS 73rd round, it also covered all other units engaged in various agricultural and non-agricultural activities excluding crop production, plantation, public administration, defence and compulsory social security. While covering these activities, 6th Economic Census considered the following ownership categories for inclusion:

- Government/ PSU
- Proprietary and Partnership establishments
- Private Corporate Establishments (Companies)
- Non-Profit Institutions (NPIs)
- Trusts
- Cooperatives
- Self Help Groups (SHGs)

1.3.3.3 The SHGs, which were formed for engaging in financial intermediary services and later changed into some group based non-financial activity, were also considered as SHGs in 6th EC. In the NSS 73rd round, however, units formed as an SHG and engaged in non-financial activities were considered as a partnership enterprise with members not all from the same household. Further, all members of SHG who were regularly attending meetings or taking part in decision making procedure like secretary, treasurer, active committee member etc. were treated as working owners in 6th EC. In the NSS 73rd round, on the other hand, they were not considered as working owners (or workers).

1.3.3.4 While comparing the estimates of number of enterprises and number of workers obtained from NSS 73rd round with those of the 6th EC figures of number of enterprises and workers, the adjustments for the above mentioned differences in coverage and concepts need to be done.

1.3.4 Treatment of Active members of SHG in NSS 73rd round

1.3.4.1 With reference to the treatment of active members of SHG as working owners both in Economic Census as well as NSS 67th round survey, the issue was considered in detail by the Working Group of NSS 73rd round and made the following observations:

- Self-help groups (SHGs) principally carry out the activity of financial intermediation. The funds of the SHGs are created from individual members' deposits and loans taken from banks. The members of the SHGs undertake economic activities, either individually or collectively, using micro-credit from the respective SHGs. Some of the SHGs undertake collective economic activities (say stone-cutting, rice processing, running a ration shop, cooking mid-day meal etc.) based on group credit from the SHG and labour and management by members under the name of the SHG.
- Active members (i.e., office bearers and other members who regularly attend meetings, etc.) of SHGs that provide financial intermediation services only for its own members are not to be treated as "worker" of the SHG.
- However, a paid staff employed (full-time or part-time) by the SHG will be treated as a worker. Needless to say, a member running his/her own enterprise – whether individually or collectively – using micro-finance from the SHG will be treated as a worker of the enterprise, but not of the SHG. An enterprise run collectively by the members under the name of the SHG should be treated as a separate enterprise.

1.4 Features of the Survey

1.4.1 Schedule of Enquiry

1.4.1.1 The schedule of enquiry of survey on 'Unincorporated Non-Agricultural Enterprises (excluding Construction)' (Schedule 2.34) was designed to collect information on the operational characteristics of the unincorporated non-agricultural enterprises such as their type of ownership, nature of operation, type of enterprise, their status of registration, problem faced in operation, government assistance received, employment particulars, use of Information and Communication Technology (ICT) etc. and their economic characteristics

measured in terms of operating expenses and receipts, Gross Value Added, compensation to workers, owned and hired fixed assets, indebtedness status in terms of outstanding loans, etc. Specific information was also collected to have some estimates related to skill development, Swachh Bharat Abhiyan and also to classify the unincorporated enterprises as MSMEs and others. Change in inventory during the accounting year/ last 365 days in respect of enterprises where information was collected from book of accounts and the loan amount advanced by enterprises engaged in financial activities were also collected.

1.4.2 Scope and Coverage

1.4.2.1 Geographical Coverage: The survey covered the whole of the Indian Union.

1.4.2.2 Subject Coverage: The coverage of NSS 73rd round (July 2015 – June 2016) was unincorporated non-agricultural enterprises belonging to three sectors viz., Manufacturing, Trade and Other Services (excluding construction).

The survey covered the following broad categories:

- (a) Manufacturing enterprises excluding those registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948
- (b) Manufacturing enterprises registered under Section 85 of Factories Act, 1948
- (c) Enterprises engaged in cotton ginning, cleaning and baling (code 01632 of NIC-2008) excluding those registered under Factories Act, 1948
- (d) Enterprises manufacturing beedi and cigar excluding those registered under beedi and cigar workers (conditions of employment) Act, 1966
- (e) Non captive electric power generation, transmission and distribution by units not registered with the Central Electricity Authority (CEA) (*for example: small units operating generators on diesel, kerosene to produce electricity*)
- (f) Trading enterprises
- (g) Other Services sector enterprises excluding construction

Categories of enterprises under coverage in (a) to (g) above were:

- (a) Proprietary and partnership enterprises [excluding Limited Liability Partnership (LLP) enterprises]
- (b) Trusts, Self-Help Groups (SHGs), Non-Profit Institutions (NPIs), etc.

Following enterprises were excluded from the coverage:

- (a) Enterprises which are incorporated i.e. registered under Companies Act, 1956
- (b) The electricity units registered with the Central Electricity Authority (CEA)
- (c) Government and public sector enterprises
- (d) Cooperatives

1.4.3 Survey Period: The survey was conducted during the period July 2015- June 2016.

1.4.4 Reference period

1.4.4.1 *Last 30 days preceding the date of survey* or *last month* was used as the reference period to collect most of the data. Various items of receipts and expenses as well as data on employment, emoluments, rent, interest, net surplus and value added for the enterprises were collected for the above reference period only. However, for seasonal enterprises the reference period referred to the last 30 days (preceding the date of survey), if they have worked continuously for last 30 days or more (including scheduled holidays) in the season in which it was surveyed (current season). For seasonal enterprises which have worked for less than 30 days in the current season, last month will referred to an average month in the last working season.

1.4.4.2 For some of the items like value of fixed assets, amount of loan outstanding etc., the reference period was ‘as on the date of survey’. For some other items like net additions to fixed assets, number of months operated, number of other economic activities taken up etc., the period of reference was the ‘last 365 days preceding the date of survey’. For enterprises maintaining accounts and giving information from their books of accounts, reference year, ‘last 30 days/ last month’ and ‘last date of the reference year’ would respectively relate to ‘last accounting year for which information is available’, ‘last month of the said accounting year’ and ‘last date of the accounting year’. If the information for the entire year was available from the book of accounts, the same was divided by ‘*the number of months worked*’ to arrive at the monthly figures.

1.4.5 Sample Size

1.4.5.1 First stage units: For rural India, the number of villages (Census Enumeration Blocks for Kerala) surveyed in the central sample was 8484 and the number of urban blocks/ Census Enumeration Blocks surveyed was 7839. In addition to this, a “State Sample” was also surveyed by the State/UT Governments who participated in this survey. The results presented in this document are, however, based on central sample alone.

1.4.5.2 Second Stage Units: The unincorporated non-agricultural enterprises were the ultimate sampling units in NSS 73rd round survey. At all India level a total of 290113 enterprises were surveyed (143179 enterprises in rural and 146934 enterprises in urban sector). Detailed information on the operational and economic characteristics was collected from each of these surveyed enterprises using Schedule 2.34. State-wise number of first stage units allocated and surveyed and the enterprises surveyed in the central sample are given in **Table A1**.

1.5 Reports of 73rd Round survey on Unincorporated Non-Agricultural Enterprises (excluding Construction)

1.5.1 The estimates of NSS rounds are released in reports based on comprehensive tabulation of subject parameters and indicators in various cross classifications generated from the sample data. For the use in decision making, policy inferences and analysis, the key findings of the survey of unincorporated non-agricultural enterprises (excluding construction)

of NSS 73rd round was brought out within a year of completion of field work in a document titled '*Key Indicators of Unincorporated Non-agricultural Enterprises (excluding Construction) in India*'. The detailed findings of the survey are planned for release in two other reports – covering 'operational characteristics' and 'economic characteristics' of unincorporated non-agricultural enterprises (excluding construction). NSSO has already published one report named "Operational Characteristics of Unincorporated Non-Agricultural Enterprises (excluding Construction) in India". The present report titled "*Economic characteristics of Unincorporated Non-agricultural Enterprises (excluding Construction) in India*" is the last in the sequel.

1.5.2 There have been minor changes in the figures related to GVA (presented in Chapter Three of this report) after the release of Report KI (73/2.34): Key Indicators of Unincorporated Non-Agricultural Enterprises (excluding Construction) in India. Readers and users may take into account the changes while consulting figures from the published Report KI (73/2.34).

1.6 Contents of this Report

1.6.1 This report brings out the economic characteristics like gross value added, gross value added per enterprise, gross value added per worker, value of owned fixed assets, utilization of fixed assets and annual rent payable on hired assets, emoluments of hired workers, operating expenses, receipts, outstanding loans and interests, etc., of unincorporated non-agricultural enterprises emanating from survey of unincorporated non-agricultural enterprises (excluding construction) of NSS 73rd Round. It contains three Chapters and three Appendices. Chapter Two gives the concepts and definitions followed in the survey. Summary of findings of the survey related to the economic characteristics of unincorporated non-agricultural enterprises are presented in Chapter Three. The detailed tables are presented in Appendix A. Appendix B provides an outline of the sample design and estimation procedure for the survey. A copy of the schedule of enquiry – "Schedule - 2.34" used in the survey are given in Appendix C.

1.6.2 The coverage of the survey in terms of NIC 2008 is given in Table A2 and notations used for different activities for presenting estimates in this report are given in Table A3 at the end of this chapter.

87	Residential Care Activities
88	Social Work Activities Without Accommodation
90	Creative, Arts and Entertainment Activities
91	Libraries, Archives, Museums and Other Cultural Activities
92	Gambling and Betting Activities (<i>coverage will be restricted to legal activities</i>)

Table A2: Coverage of the survey in terms of National Industrial Classification – 2008 codes**A. National Industrial Classification 2008 codes under coverage of the survey**

Division/ Group	Description
	<i>only</i>)
93	Sports Activities and Amusement and Recreation Activities
941	Activities of business, employers and professional membership Organizations
949	Activities of Other Membership Organisations (excluding 9492 and part of 9491 relating to organisation)
95	Repair Of Computers and Personal and Household Goods
96	Other Personal Service Activities

B. National Industrial Classification 2008 codes outside the coverage of the survey

1. All codes under sections:
 - A (Agriculture, forestry and fishing excluding 01632);
 - B (Mining and quarrying);
 - D (Electricity, gas, steam and air conditioning supply excluding 35103, 35105, 35106, 35107, 35109);
 - F (Construction);
 - O (Public administration and defence; compulsory social security);
 - T (Activities of households as employers; undifferentiated goods and services producing activities of households for own use);
 - U (Activities of extraterritorial organizations and bodies).
2. Codes: 36, 491, 49212, 49213, 493, 51, 641 (excluding special code 64193), 642, 65, 6611, 6622, 6629, 774, 942, 9491(organisations only), 9492

Chapter Two

Concepts and Definitions

CHAPTER TWO

CONCEPTS AND DEFINITIONS

2.1 Important concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs.

2.2 **Population coverage:** The following rules regarding the population/households covered were followed while visiting households for the purpose of listing of enterprises:

1. Under-trial prisoners in jails and indoor patients of hospitals, nursing homes etc., were excluded, but residential staff therein was included during listing. The persons of the first category were considered as normal members of their parent households. Convicted prisoners undergoing sentence were outside the coverage of the survey.
2. Floating population, i.e., persons without any normal residence were not considered. But households residing in open space, roadside shelter, under a bridge, etc., more or less regularly in the same place, were taken into account.
3. Foreign nationals were not considered, nor were their domestic servants, if by definition the latter belong to the foreign national's household. If, however, an enterprise was run by a member of such household located within the premises of the household or without any fixed premises, it was listed as an enterprise.
4. Persons residing in barracks of military and paramilitary forces (like police, BSF, etc.) was kept outside the survey coverage due to difficulty in conduct of survey therein. However, civilian population residing in their neighbourhood, including the family quarters of service personnel, were covered.
5. Orphanages, rescue homes, *ashrams* and vagrant houses were outside the survey coverage but enterprises run by them and located within the premises of those institutions were considered. However, persons staying in old age homes, students staying in *ashrams*/ hostels and the residential staff (other than monks/ nuns) of these ashrams were treated as forming households (as per the standing practice in NSS) for the purpose of identifying enterprises through such households. For orphanages, although orphans were not covered, the persons looking after them and staying there were considered as forming households.

2.3 **House:** Every structure, tent, shelter, etc. was considered as a house irrespective of its use. It might have been used for residential or non-residential purpose or both or even it might have been vacant.

2.4 **Household:** A group of persons who normally lived together and taking food from a common kitchen constituted a household. It included temporary stay-aways (those whose total period of absence from the household was expected to be less than 6 months) but excluded temporary visitors and guests (expected total period of stay less than 6 months).

Even though the determination of the actual composition of a household was left to the judgment of the head of the household, the following procedures were adopted as guidelines.

(i) Each inmate (including residential staff) of a hostel, mess, hotel, boarding and lodging house, etc., constituted a single-member household. If, however, a group of persons among them normally pool their income for spending, they were together treated as forming a single household. For example, a family living in a hotel was treated as a single household.

(ii) In deciding the composition of a household, more emphasis was given on 'normally living together' than on 'ordinarily taking food from a common kitchen'. In case the place of residence of a person was different from the place of boarding, he or she was treated as a member of the household with whom he or she resided.

(iii) A resident employee, or domestic servant, or a paying guest (but not just a tenant in the household) was considered as a member of the household with whom he or she resided even though he or she was not a member of the same family.

(iv) When a person sleeps in one place (say, in a shop or in a room in another house because of space shortage) but usually took food with his or her family, he or she was treated not as a single member household but as a member of the household in which other members of his or her family stayed.

(v) If a member of a family (say, a son or a daughter of the head of the family) stayed elsewhere (say, in hostel for studies or for any other reason), he/ she was not considered as a member of his/ her parent's household. However, he/ she were considered as a single member household if the hostel is listed.

2.5 Enterprise: An enterprise is an undertaking which is engaged in the production and/ or distribution of some goods and/ or services meant mainly for the purpose of sale, whether fully or partly. An enterprise may be owned and operated by a single household or by several households jointly, or by an institutional body.

2.6 Non-agricultural enterprise: All enterprises covered under Sections 'C' to 'S' of NIC-2008 are "non-agricultural enterprises". All non-agricultural enterprises will be henceforth referred to as NAE for this survey.

2.7 Unincorporated non-agricultural enterprises: Non-agricultural enterprises which are 'not incorporated' (i.e. not registered under Companies Act, 1956) were covered in the survey. Further, the domain of 'unincorporated enterprises' excluded (a) enterprises registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948 or bidi and cigar manufacturing enterprises registered under bidi and cigar workers (condition of employment) Act, 1966, (b) government/public sector enterprises and (c) cooperatives. Thus the coverage was restricted primarily to all household proprietary and partnership enterprises. In addition, Self Help groups (SHGs), Private Non-Profit Institutions (NPIs) including Non-Profit Institutions Serving Households (NPISH) and Trusts were also covered.

2.8 Manufacturing Enterprise: A manufacturing enterprise is a unit engaged in the physical or chemical transformation of materials, substances or components into new products. It covers units working for other concerns on materials supplied by them. The units primarily engaged in maintenance and repair of industrial, commercial and similar machinery and equipment, which were, in general, classified in the same class of manufacturing as those specialising in manufacturing the goods were also included. Thus all activities covered by NIC – 2008 divisions 10 to 33 of NIC- 2008 were considered as 'manufacturing' for the purpose of the survey. In addition, the activity of cotton ginning, cleaning and baling (NIC - 2008 code 01632) was covered in the present survey. However the production of goods for the sole purpose of domestic consumption was not covered in the survey. Non-captive electricity generation and transmission under NIC 2008 code 3510 (except 35101, 35102, and 35104) was also considered under manufacturing while collecting the data. However, the information collected under these codes was tabulated separately under the broad activity category: '*Non-captive electricity generation and transmission*'

2.9 Trading Enterprise: A trading enterprise is an undertaking engaged in trade. Trade is defined to be an act of purchase of goods and their disposal by way of sale without any intermediate physical transformation of the goods. Thus all the trading activities, both wholesale and retail (perennial, casual or seasonal) listed under NIC-08 divisions 45 to 47 was treated as trade in this survey. The activities of intermediaries who do not actually purchase or sell goods but only arrange their purchase and sale and earn remuneration by way of brokerage and commission were also treated as trade. The purchase and sale agents, brokers listed under NIC-08 division and auctioneers listed under NIC group were also covered in the survey.

2.10 Servicing Enterprise: A servicing enterprise or service sector enterprise is engaged in activities carried out for the benefit of a consuming unit and typically consists of changes in the condition of consuming units realized by the activities of servicing unit at the demand of the consuming unit. Some examples of changes that a producer of service brings about in the condition of consumers of service are:

- a) Changes in the condition of consumer's goods: the producer works directly on goods owned by the consumer by transporting, cleaning, repairing or otherwise transforming them;
- b) Changes in the physical condition of persons: the producer transports the persons, provides them with accommodation, provides them with medical or surgical treatments, improves their appearance etc;
- c) Changes in the mental condition of persons: the producer provides education, information, advice, entertainment or similar services;
- d) Changes in the general economic state of the institutional unit itself: the producer provides insurance, financial intermediation, protection, guarantees, etc.

All activities under NIC – 2008 Sections E – U except sections F (construction), G (trade) are considered as *service activities other than trade*. However, Sections O (Public administration and defence; compulsory social security), T (Activities of households as employer;

undifferentiated goods and services producing activities of households for own use) and U (Activities of extraterritorial organisations and bodies) were excluded from coverage of this survey. Only unincorporated enterprises in the service sector under coverage as described in Table A2 of Chapter 1 and Para 2.7 were surveyed. Among these also, activities under certain NIC - 2008 codes, viz. 36 (water collection, treatment and supply), 491 (transport via railways), 49212 (urban or suburban tramways), 49213 (urban or suburban underground or elevated railways), 493 (transport via pipeline), 51 (air transport), 641 (monetary intermediation), 642 (activities of holding companies), 65 (insurance, reinsurance and pension funding), 6611 (Administration of financial markets), 6622 (activities of insurance agents and brokers), 6629 (other activities auxiliary to insurance and pension funding), 774 (Leasing of nonfinancial intangible assets), 942 (activities of trade unions), 9491 (activities of religious organisations [although activities of individuals are covered]), 9492 (activities of political organisations) were kept out of survey coverage.

2.11 Household Enterprise: A household enterprise is one which is run by one or more members of a household or run jointly by two or more households on partnership basis irrespective of whether the enterprise is located in the premises of the household(s) or not. In other words, all proprietary and partnership enterprises are household enterprises.

2.12 Non-household Enterprise: Non-household enterprises are those which are institutional i.e. owned and run by the public sector (Central or State Government, local self-governments, local bodies, government undertakings, etc.), corporate sector, co-operative societies, other type of societies, institutions, associations, trusts, etc.

2.13 Own-account Enterprise (OAE): An enterprise, which is run without any hired worker employed on a fairly regular basis¹, is termed as an own account enterprise.

2.14 Establishment: An enterprise which is employing at least one hired worker on a fairly regular basis is termed as establishment. Paid or unpaid apprentices, paid household member/servant/resident worker in an enterprise are considered as hired workers.

2.15 Perennial enterprise: Enterprises that are run more or less regularly throughout the year are called perennial enterprises.

2.16 Seasonal enterprise: Seasonal enterprises are those, which are usually run in a particular season or fixed months of a year.

2.17 Casual enterprise: Enterprises that are run occasionally, for a total of at least 30 days in the last 365 days, are called 'casual enterprises'.

2.18 Classification of enterprises based on ownership:

(i) *Proprietary:* When an individual is the sole owner of an enterprise it is a proprietary enterprise. Own account production of fixed assets for own use, when produced by a single member, was classified as proprietary enterprise.

¹ "fairly regular basis" means the major part of the period when operation(s) of an enterprise are carried out during a reference period.

(ii) *Partnership*: Partnership is defined as the ‘relation between persons who have agreed to share the profits of a business carried on by all or any one of them acting for all’. There may be two or more owners, belonging to the same or different households, on a partnership basis, with or without formal registration (where there is a tacit understanding about the distribution of profit among the so-called partners). Own account production of fixed assets, when produced by two or more members belonging to the same or different households will be classified as partnership enterprises. Thus, own account production of fixed assets by a group of households for community use was classified as partnership enterprise. The partnership enterprises registered under Limited Liability Partnership (LLP) Act, 2008 were excluded from coverage of the survey. Also, partnership enterprises registered under Factories Act, 1948 was outside the survey coverage.

(iii) *Government/public Sector Enterprise*: An enterprise, which is wholly owned/run/managed by Central or State governments, quasi-government institutions, local bodies like Panchayat, Zilla Parisad, City Corporation, Municipal authorities, etc., autonomous bodies like Universities, Education boards, and institutions like schools, libraries etc. set up by the government, panchayat, etc., was considered as public sector enterprise. Enterprises owned/ managed by a single or a group of private persons with no participation of the Government, local body etc. in it, both in terms of management and shares, was considered as private sector enterprises. An enterprise was not considered as a public sector enterprise if it is run on a loan granted by government, local body, etc.

(iv) *Private Limited Company*²: For the purpose of the survey, Private Limited Company meant a company which by its articles:

- (a) restricts the right to transfer its shares, if any,
- (b) limits the number of its members to fifty not including-
 - (i) persons who are in the employment of the company, and
 - (ii) persons who, having been formerly in the employment of the company, were members of the company while in that employment and have continued to be members after the employment ceased; and

² As per Companies Act, 2013 “private company” means a company having a minimum paid-up share capital of one lakh rupees or such higher paid-up share capital as may be prescribed, and which by its articles,—

(i) restricts the right to transfer its shares;

(ii) except in case of One Person Company, limits the number of its members to two hundred:

Provided that where two or more persons hold one or more shares in a company jointly, they shall, for the purposes of this clause, be treated as a single member: Provided further that—

(A) persons who are in the employment of the company; and

(B) persons who, having been formerly in the employment of the company, were members of the company while in that employment and have continued to be members after the employment ceased, shall not be included in the number of members; and

(iii) prohibits any invitation to the public to subscribe for any securities of the company

(c) prohibits any initiation to the public to subscribe for any share in, or debentures of, the company.

Where two or more persons hold jointly one or more shares in a company, they were considered as a single member in this survey.

(v) *Public Limited Company*: A public limited company is defined as a company that is not a private company. As such public companies can have an unlimited number of members and can invite the public to subscribe to its shares and debentures. The minimum number of members required to form a public company is seven.

(vi) *Co-operative Societies*: Co-operative society is one that is formed through the co-operation of a number of persons, recognised as members of the society to benefit themselves. In the process, the funds are raised by members' contributions/investments and the profits generated out of the society's activities are shared by the members. A government agency itself can also be a member or shareholder of a registered co-operative society but this fact cannot render the society into a public sector enterprise for the purpose of this survey.

(vii) *Trust*: An arrangement through which one set of people, the trustees, are the legal owners of property which is administered in the interest of another set, the beneficiaries. Trusts may be set up to provide support for individuals or families, to provide pensions, to run charities, to liquidate the property of the bankrupts for the benefit of their creditors, or for the safe keeping of securities bought by trusts with their investor's money. The assets, which trusts hold are regulated by law, must be administered in the interests of the beneficiaries, and not for the profit of the trustees.

(viii) **Non-Profit Institutions (NPI)**: Non-profit institutions are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control or finance them.

2.19 Enterprises engaged in non-market production: Enterprises that provide most of their output to others free or at prices which are not economically significant, i.e., at prices which do not have a significant influence on the amounts the producers are willing to supply or on the amounts purchasers wish to buy. Their major sources of finance will be coming from grants and donations. Non-Profit Institutions Serving Households (NPISHs) are examples of enterprises engaged in non-market production, which provide non-market goods and services to households financed mainly by transfers from non-governmental sources - households, corporations or non-residents.

2.19.1 The enterprises engaged mainly in market production are called '*market enterprises*' in this report and those engaged mainly in 'non-market production' are called '*non-market enterprises*' in this report.

2.20.1 **Self-help Groups**: A **self-help group (SHG)** is a financial intermediary usually composed of between 10-20 local persons.

Members make small regular savings contributions over a few months until there is enough capital in the group to begin lending. Funds are lent back to the members or at times to others. In India, many SHGs are 'linked' to banks for the hand delivery of microcredit.

The characteristic features of self-help groups may be summarised as follows:

- SHG is a small group generally comprising of people who are poor or economically weak, who have voluntarily come forward to form a group for improvement of the social and economic status of the members.
- It can be formal (registered) or informal.
- The concept underlines the principle of Thrift, Credit and Self Help.
- Members of SHG agree to save regularly and contribute to a common fund.
- The members agree to use this common fund and such other funds (like grants and loans from banks), which they may receive as a group, to give small loans to needy members as per the decision of the group.
- The ideal size of an SHG is 10 to 20 members. Also, legally it is required that an informal group should not be of more than 20 people. However, in difficult areas like deserts, hills and areas with scattered and sparse populations and in case of disabled persons, this number may be 5-20.
- The group need not be registered.
- From one family, only one person can become a member of an SHG. (More families can join SHGs this way).
- The group normally consists of either **only men** or **only women**.
- Members should be between the age group of 21-60 years.
- Members should be poor people [the term poor is in relation to the economic and living conditions and this has no relation to poverty line. People living above poverty line (APL) can also form SHG like people living below poverty line (BPL)].

2.20.2 Activity of self-help groups

Self-help groups are essentially engaged in the **financial intermediation** i.e. the activity of the SHG is focussed to provide loans to the members and the members can utilise the loan for the purposes - personal or entrepreneurial.

However, an SHG may be formed initially and later all or some members may be engaged in group-based non-financial activities. Examples of such group-based activities are given below:

- i. Collective organization of marketing for the produce of **individual enterprises established using micro-credit**, particularly milk collection centres/ diary cooperatives at village level.
- ii. Collective activities of SHGs **using group credit** to access larger natural assets for production e.g. leasing lands and ponds for cultivation and pisciculture.

- iii. Other collective economic activities based on **group credit** that combines labour and management: stone-cutting, processing rice, managing a tent house etc.
- iv. Management of government contracts such as running ration shops (as part of public distribution systems), cooking mid-day meal for school children, managing a subsidised fodder depot etc.

For **self-help groups engaged in financial intermediation** and also when **all or some members of the group run group based activities**, the following guidelines may be followed:

While listing an SHG the following three cases may be found:-

- (a) SHG is engaged in financial activities only. In that case, it will be listed under financial intermediation.
- (b) An SHG is formed and later all or some members of the group are engaged only in some non-financial activity under survey coverage. In that case, the members will be treated as running a partnership enterprise.
- (c) An SHG is engaged in financial as well as non-financial activity. If accounts are separable, the SHG will be listed under financial intermediation for its financial activity. For the non-financial part, it will be treated as separate partnership enterprise. If separate accounts are not identifiable, the major activity will be decided based on the maximum turnover/employment.

2.20.3 Determination of eligibility of an SHG

An SHG will be considered as eligible enterprise for the purpose of survey if the total number of days of operation of that SHG in last 365 days is at least 15. Working days will include-

- a) Days of meeting
- b) Days of interaction with the bank for purpose of deposit/withdrawal/loan/repayment etc.
- c) Days of performing other jobs related to SHG like maintenance of register

Generally, the SHG activities are coordinated by President/Secretary/Treasurer. In that case the SHG may be listed in the house of the President/Secretary/Treasurer. In case any such member is absent for an SHG it will be listed against the household of the member maintaining the accounts/records. If more than one person maintains the accounts/records, the SHG will be listed against the household of the senior-most member of the group.

2.20.4 Determination of number of hired workers of an SHG

In case of SHGs, if any member (including office bearers) performs the activities of the SHG by drawing remuneration, they will be treated as hired workers. Members of SHG who attend

meetings regularly or participate in the activities of the SHG including decision making process without taking any remuneration will not be treated as a worker for the purpose of this survey. Instead they will be considered as 'active members of SHG'.

2.21 Investment Club: Investment clubs are a group of people who pool their money to make investments. Usually, investment clubs are organized as partnerships members usually meet on periodic basis and study different investments, to make investment decisions as a group. The decisions on buying and selling (investment) are made through voting process. Club meetings may be educational and each member may actively participate in investment decisions. The income and losses of the club are passed through to its partners and are reported on their individual tax returns.

2.22 Chit fund: A chit fund company is the one which manages, conducts or supervises, as foremen, agent or in any other capacity, chits as defined in Section 2 of the Chit Funds Act, 1982. Such schemes can be conducted by organised financial institutions or may be unorganised schemes between friends and/or relatives. According to Section 2(b) of the Chit Fund Act, 1982, "Chit means a transaction whether called chit, chit fund, chitty, kuri or by any other name by or under which a person enters into an agreement with a specified number of persons that every one of them shall subscribe a certain sum of money (or a certain quantity of grain instead) by way of periodical instalments over a definite period and that each such subscriber shall, in his turn, as determined by lot or by auction or by tender or in such other manner as may be specified in the chit agreement, be entitled to the prize amount".

2.23 Mixed Activity: There are enterprises that carry out a number of activities simultaneously. For example, a bakery may also sell cold drinks, a rice mill may sell sugar, a factory may run a hospital in its premises, etc. Each such activity was treated as a separate enterprise if information for them was separately available. If the accounts were not separable then the data pertaining to the enterprise as a whole was collected and the enterprise was classified as having mixed activities and the activities of such enterprises are generally a mixture of NIC's. The activities may be mixed at any level of NIC, but for the present survey an enterprise was considered to have mixed activities if its activities are different at 2-digit level of NIC-2008. The appropriate NIC in such cases was determined on the basis of major activity. Major activity refers to the activity which yields maximum income/turnover/employment. The above criteria are applied in the given order, i.e., income first, then turnover and then employment, to determine the major activity.

2.24 Multiple Activities: Since many of the entrepreneurs belonging to the unorganised and informal sector operate at small or marginal levels, the phenomenon of carrying out more than one activity simultaneously or at different points of time is quite prevalent. If the activities were carried out at one point of time at the same location and the information was not separately available, then it was taken as "mixed activity". Carrying out of more than one economic activity by the entrepreneur during the reference year was called multiple activities. It differs from mixed activities in the sense that former is with respect to the entrepreneur whereas the latter is with respect to the enterprise. However, an entrepreneur of a

manufacturing enterprise manufacturing woollen garments before winter and cotton clothes before summer was not considered as carrying out multiple activities.

2.25 Reference period

2.25.1 *Last 30 days preceding the date of survey* or *last month* was used as the reference period to collect most of the data. Various items of receipts and expenses as well as data on employment, emoluments, rent, interest, net surplus and value added for the enterprises were collected for the above reference period only. However, for seasonal enterprises the reference period referred to the last 30 days (preceding the date of survey), if they have worked continuously for last 30 days or more (including scheduled holidays) in the season in which it was surveyed (current season). For seasonal enterprises which have worked for less than 30 days in the current season, last month will referred to an average month in the last working season.

2.25.2 For some of the items like value of fixed assets, amount of loan outstanding etc., the reference period was 'as on the date of survey'. For some other items like net additions to fixed assets, number of months operated, number of other economic activities taken up etc., the period of reference was the 'last 365 days preceding the date of survey'. For enterprises maintaining accounts and giving information from their books of accounts, reference year, 'last 30 days/ last month' and 'last date of the reference year' would respectively relate to 'last accounting year for which information is available', 'last month of the said accounting year' and 'last date of the accounting year'. If the information for the entire year was available from the book of accounts, the same was divided by '*the number of months worked*' to arrive at the monthly figures

2.26 **Worker:** For this survey, a worker was defined as all persons working within the premises of the enterprise who were in the payroll of the enterprise as also the working owners and unpaid family workers. The worker may serve the enterprise in any capacity - primary or supervisory. He/she may or may not receive wages/salaries in return to his/her work incidental to or connected with the entrepreneurial activity. Salespersons appointed by an enterprise for selling its services and apprentices, paid or unpaid were also treated as workers.

2.26.1 *Full time and part time workers:* A worker need not mean that the same person will be working continuously; it will only refer to a position. i.e., if one person is terminated and another person is appointed in his place, it will be counted as 1 and not 2. A worker engaged for more than half of the normal working hours of the enterprise will be treated as *full time worker*. A *part time worker* is a person who works for less than or equal to half of the period of normal working hours of the enterprise on a fairly regular basis.

2.26.2 *Volunteers, who work without salary / honorarium, were not considered as workers.* Voluntary participation without remuneration in production of goods and services in philanthropic organisation/ institutions or in any other organisation/ institution or even in the

individual capacity will not render one to be counted as worker/enterprise. Voluntary participation will mean that the person has performed these activities without coercion or obligation but has participated in his/ her own volition. Moreover, the voluntary participation in the work should be without remuneration, which means that the person does not become entitled to receive, in respect of the work performed by him/ her, any compensation including honorarium from the institution/ organisation. For the purpose of the survey, minor contingencies/ honorarium received from the institution/ organization against the voluntary work done may not be considered as remuneration. To determine 'minor', average daily wage received by the lowest paid full-time/part-time worker of that enterprise may be used as a guiding tool.

2.26.3 Some enterprises do not hire individuals like porters, sweepers, accountants, etc., on a fairly regular basis. These individuals can **work in one or more enterprises** in a locality, have some autonomy to determine the charges receivable by him depending upon volume of job performed and usually receive service charges as and when they render such services to the enterprise. Such persons were not considered as workers of the enterprise using their services. Instead, they were considered as independent OAEs.

2.26.4 If an enterprise has some contract with some other agency (e.g. security, cleaning, nursing, midwife), or persons (like CA, lawyer, etc.), the employees of the agency (or persons) who were working within the premises of the enterprise under survey (e.g. sweeper, guard, nurse, etc.) were not counted as the employee of the enterprise. Rather they were considered as the worker of the agency (or separate OAE, for persons).

2.26.5 *Skilled Worker*: If a worker of an enterprise possesses any special ability/ expertise to perform a particular task is treated as a *skilled worker* for the purpose of the survey. The skill will be in relation to the activities of the enterprise concerned. If a worker of an enterprise possess some kind of skill which is not applicable/ required for the activities of the enterprise he/ she is working, he/she will not be treated as a skilled worker for the enterprise. Both the skills acquired by formal training and those acquired informally are considered for the survey. Soft skills (which would include computer literacy, language and workplace interpersonal skills relevant for the sector/trade) are also considered.

2.27 **Working owner**. In the case of proprietary enterprises, if the owner himself/ herself works in the enterprise on a fairly regular basis, then he/she will be treated as working owner. In fact, in most of the own-account enterprises the owner himself/ herself manages all activities of the enterprise without help of anybody else (on fairly regular basis). In the case of partnership enterprises, if only one partner or some of the partners or all the partners work in the enterprise on a fairly regular basis then information for them shall be recorded.

2.28 **Formal hired worker**: A formal hired worker is one having continuity of job and eligible for paid annual leave and also eligible for social security benefits like provident fund or insurance provided by the employer.

2.29 Informal hired worker: An informal hired worker is not having continuity of job and/or not eligible for paid annual leave and/or not eligible for social security benefits like provident fund or insurance provided by the employer.

2.30 Other worker/ helper: This includes all persons belonging to the household of the proprietor or households of the partners who are working in or for the enterprise without regular salary or wages. Persons working as exchange labourer in the enterprise without salary or wages will also be covered in this category. All unpaid household workers / helpers who are associated with the activities of the enterprise during the reference month are considered in this category.

2.31 Working on Contract: The enterprises in the unorganised sector are mainly small units. In many cases, the enterprises are seen to be working as per orders from a bigger unit. In such cases, certain conditions are put on the servicing unit by the contractor or master unit. Conditions may pertain to sale of products, supply of raw materials, mode of payment etc. In many cases, the contractor specifies the design of the product to the servicing unit e.g. garment manufacturing, shoe manufacturing etc. If the surveyed enterprise had undertaken any work on contract during the reference year, it was considered as 'enterprises working on contract'.

2.32 Broad Activity Categories: The activities under coverage of the survey have been classified into four broad heads: Manufacturing, Non-captive electricity generation and transmission, Trade and Other Services.

2.33 Subsidy: Subsidies are current unrequited payments that government units, including non-resident government units, make to enterprises on the basis of the levels of their production activities or the quantities or values of the goods and services which they produce, sell, import or export. Subsidies can also be received by an enterprise for achieving a particular type of efficiency in production (e.g., getting ISO certification, implementing pollution control measures, repaying interests in time, etc.). Subsidies are equivalent to negative taxes on production in so far as the impact on the operating surplus is in the opposite direction to that of taxes on production. Subsidies can be on production or on interest. Various types of subsidies are back-end subsidies on interest, export subsidies, duty drawback, etc. Subsidies do not include grants that governments may make to enterprises in order to finance their capital formation, or compensate them for damage to their capital assets, such grant being treated as capital transfers.

2.34 Taxes on Products: Taxes are compulsory, unrequited payments, in cash or in kind, made by institutional units to government units. *A tax on a product is a tax that is payable per unit of some good or service.* Tax on product may be a specific amount of money per unit of quantity of a good or service, the quantity being measured either in terms of discrete units or continuous physical variables such as volume, weight, strength, distance, time, etc. or it may be calculated *ad valorem* as a specified percentage of the price per unit or value of the goods and services transacted. Some examples of taxes on products are VAT, excise duties,

general sales tax, service tax, export duties, turnover tax, taxes on financial and capital transactions (mainly inheritances and gifts), etc.

2.35 Taxes on Production: *Taxes on production consist of all taxes that the enterprise incurs as a result of engaging in production.* It is payable irrespective of the profitability of the enterprise and consists of all taxes except those included under ‘Taxes on Products’. Some examples of taxes on production are recurrent taxes on land, buildings or other structures, business or professional licence fees, road tax and registration fee of vehicles, taxes on pollution, taxes on international transactions such as travel abroad, foreign remittances, etc. Stamp taxes on sale of specified products, which relate to per unit of product sold (e.g., per unit of alcoholic beverages) will be considered as taxes on products, but other stamp taxes (e.g., stamps on legal documents or cheques) will be considered as taxes on production.

2.36 Fixed Assets: Assets held for the purpose of producing or providing goods or services and not for resale in the normal course of entrepreneurial activities were classified as fixed assets. These cover all goods, new or used, that have a normal economic life of more than one year from the date of purchase.

2.37 Investments: An enterprise can purchase shares, debentures and other securities to earn interest and dividend. These shares, debentures and other securities are called investments. If securities are purchased and sold at regular intervals to make gains using market values of the securities, then these investments are called investments for trade. Otherwise, it is called investments (other than trade).

2.38 Financial liability: Financial liability is the total liability incurred by the enterprise as on a particular date (generally the last date of the accounting year). It includes capital deployed by the partners of an enterprise, share capital, reserve and surplus amount noted in the balance sheet, long-term loans and also all short-term commitments for payments like unpaid wages etc. With regard to loan, any borrowing in cash or kind to be repaid in cash or kind was treated as loan. Loans taken for the purpose of utilising the same in the entrepreneurial activities of an enterprise were considered even if such loans were used for other purposes. On the other hand, loans taken for other purposes but ultimately used in the enterprise were excluded.

2.39 Compensation of employees: Compensation of employees is the total remuneration, in cash or in kind, payable by an enterprise to an employee in return for work done by the employee during the accounting period. It is recorded on accrual basis, i.e. measured by the value of remuneration in cash or in kind which an employee becomes entitled to receive from an employer in respect of work done during the relevant period, whether paid in advance, simultaneously or in arrears. Self employed persons (like working owners or unpaid family workers) receive mixed income and not compensation of employees. However, the books of accounts of some enterprises show salary payment to one or two working owners. In such cases, these payments were recorded as compensation to employee. Compensation of employees has two main components, i) wages and salaries payable in cash or in kind and ii) value of social contributions payable by the employer. Wages and salaries also included

goods or services provided to employees as remuneration in kind instead of, or in addition to, remuneration in cash. Employer's contribution to canteen, health clinic, child care centre etc. is also a part of salary/wages of the employees. This item has been collected separately in Schedule 2.34 in 73rd round.

All these items have been referred to as *emoluments* in Chapter Three of this report.

2.40 Transfers: A transfer is a transaction in which an institutional unit provides a good, service or asset to another unit without receiving from the later any good, service or asset in return. A cash transfer consists of the payment of currency or transferable deposit by one unit to another without any counterpart (or return). A transfer in kind consists either of the transfer of ownership of a good or asset, other than cash, or provision of a service, again without any counterpart (or return).

2.41 Receipts: The sale value of services produced together with the value of services rendered to other concerns and other receipts incidental to entrepreneurial activities including the value of products and by-products manufactured, if any, by an enterprise during the reference period was considered as total receipts.

2.41.1 Computation of total receipts and expenses for trading activities of all enterprises has been modified in the current round. In 67th round, the purchase value of goods sold in the same condition as purchased was included in the estimates of expenses and the sale value of goods sold in the same condition as purchased was included in the estimates of receipt side. In 73rd round, adopting the SNA practices for such activities, the purchase value of traded goods is excluded from estimates of expenses and the receipt for trading activities of all enterprises is adjusted by only including the trade margin (i.e. sale value – purchase value).

2.42 Gross Value Added: Gross Value Added (GVA) is an important economic indicator that measures the contribution of a particular sector to the economy. It gives the value of goods and services produced less the cost of all intermediate consumption that are directly attributable to that production.

2.42.1 The unincorporated non-agricultural enterprises covered in NSS 73rd round included both market producers and non-market producers. Non-market producers are enterprises that provide the goods and services produced by them either free of cost or on a price which is not economically viable. Non-Profit Institutions Serving Households (NPISH), other NPIs whose major receipt is from grants/ donations are examples of non-market producers. Since the enterprises engaged in non-market production and those engaged in the activities of Head Office (NIC 2008 Code 70100) do not generate receipts from their production process, GVA for such enterprises cannot be calculated by the *product approach* as in case of market producers. For Non Profit Institutions Serving Households (NPISH) and other enterprises engaged in non-market production, output is calculated by cost approach using the formula:

Output of NPISH = Intermediate consumption (IC) + compensation of employees (CE) + consumption of fixed capital (CFC) + other taxes (less subsidies) on production

GVA for NPISH is calculated by the formula *Net Value Added (NVA) + Consumption of Fixed Capital (CFC)* where *NVA* being *Output – IC* (which is equal to CE). Since CFC and ‘other taxes on production’ for non-market producers are not available from the survey, the GVA could not be calculated for NPISH and other enterprises engaged in non-market production and instead, NVA is presented for such enterprises. **Accordingly, this document presents Gross Value Added (GVA) only for the enterprises engaged in market production. For enterprises engaged in non-market production and units engaged in the activities of Head Offices (NIC 2008 Code 70100) Net Value Added (NVA) is presented.**

2.42.2 The procedure used for calculation of receipts, expenditure and Gross Value Added (GVA) for financial enterprises in NSS 73rd round were modified by (a) excluding the interest payment from the expenses part and (b) not directly taking the interest receipt in the output/receipt calculation of the financial enterprise. Instead, the output/receipt of the financial enterprise was worked out using the formula ‘FISIM + Actual Receipts’ using the FISIM formula with a reference rate of 7.71 percent for the period 2015-16. The GVA was also accordingly changed.

Chapter Three

Summary of Findings

CHAPTER THREE

SUMMARY OF FINDINGS

3.1 Introduction

3.1.1 The *Survey of Unincorporated Non-Agricultural Enterprises (Excluding Construction)* conducted in NSS 73rd round (July 2015 – June 2016) was designed as a repeat survey of the Enterprise survey of NSS 67th round (July 2010- June 2011) that covered all the unincorporated non-agricultural enterprises in manufacturing, trade and other services sector (excluding construction). The present survey also covered *non-captive* electricity generation and transmission under NIC 2008 group 351. Enterprises registered under Companies Act, 1956, the electricity units registered with the Central Electricity Authority (CEA), Government and public sector enterprises and Cooperatives were outside the coverage of the survey. Detailed data was collected from the selected enterprises, on both their operational and economic characteristics.

3.1.2 This chapter presents the estimates of some economic characteristics of unincorporated non-agricultural enterprises (*excluding construction*) viz., GVA per enterprise, GVA per worker, outstanding loans and fixed assets per enterprise etc. by activity category. A summary of some of these results is presented and discussed in this section. State-wise estimates, only for the top 22 States which have a cumulative share of about 98% of the total annual GVA, are presented and discussed in this chapter. However, estimates for all the States and UTs, separately for rural, urban and for both sectors combined, are available in the summary tables given at the end of this chapter and the detailed tables given in **Appendix A**. In addition, information for ‘Own Account Enterprises (OAEs)’ and ‘establishments’ have been presented separately. The marginal totals and the sum of the proportions presented in various detailed tables may, in some cases, differ slightly due to rounding off. Estimates of some of the smaller States and UTs are based on very small sample sizes. Users may consult the *Relative Standard Error (RSE)* given in the detailed tables to determine the level of reliability before using such estimates. Similarly, estimates for different activity categories under the broad activity categories of manufacturing, trading and ‘other services’, even at all-India level, may be used cautiously as sample number of enterprises are very small in certain cases. Sample number of enterprises in Table T01 may be taken into consideration while using the estimates.

3.1.3 The term ‘enterprise’ is used in general to represent OAEs and also establishments as per the usual practice in NSS. In the statements, ‘all’ is used to denote all the enterprises taken together. A “-” has been used in the statements and tables if no enterprise of the relevant category was surveyed. On the other hand, the figure “0” appears in some levels of disaggregation when the estimated number or quantity is zero or very low and has become “0” due to rounding off.

3.2 Sample number of enterprises: Information was collected from about 2.9 lakh¹ enterprises engaged in the manufacturing, non-captive electricity generation and transmission,

¹ (1 lakh=10⁵)

trade and other services activities (excluding construction) throughout the country. About 49% of these enterprises surveyed belonged to the rural sector. Moreover, 55% of the total surveyed enterprises were OAEs.

3.3 Estimated number of enterprises

3.3.1 The survey estimated the number of unincorporated non-agricultural enterprises in the country during 2015-16 as 6.34 crore², 3.25 crore (51.3%) of which were in rural areas. Among the 6.34 crore total estimated number of enterprises at all-India level, 31% were engaged in manufacturing, 36.3% enterprises were in trading and 32.7% were in other services (*refer Statements 1.0 and 1.2*).

3.3.2 The enterprises engaged in non-captive electricity generation and transmission (*under NIC 2008 codes 35103, 35105, 35106, 35107, 35109*) had a very low estimated share of about 0.005%. This category was represented in the sample by 19 units belonging to 7 States/UTs. Due to an extremely small sample size and very high relative standard error (RSE) for the estimates generated for the broad activity category 'non-captive electricity generation and transmission', estimates are not presented for this category in this report. However, in all estimates presented in this document the figures against 'all enterprises' include enterprises belonging to this category also.

Statement 1.0: Estimated number of enterprises by broad activity category for sector and enterprise type

all-India									
broad activity category	number of enterprises ('00)								
	rural			urban			rural + urban		
	OAE	estt.	all	OAE	estt.	all	OAE	estt.	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
manufacturing	104975	9169	114144	63163	19341	82504	168139	28510	196649

² (1 crore =10⁷)

3.3.3 Percentage distribution of number of enterprises by broad activity category over sector and enterprise type is shown in **Statement 1.1**.

3.3.4 Own Account Enterprises (OAEs) (i.e. enterprises that do not employ any hired worker on a fairly regular basis) had the major share in the unincorporated non-agricultural enterprises (excluding construction) in the country. At all-India level 84.2% of the estimated number of enterprises under coverage was OAEs. The share of OAEs was 91.4% in the rural areas and 76.6% in the urban areas (*refer to Statement 1.0 for number of enterprises*).

Statement 1.2: Percentage distribution of number of enterprises over broad industrial group and share (%) of OAEs

sl. no.	industrial group ³	rural		urban		rural + urban

3.3.5 Comparison with 67th round

3.3.5.1 In comparison with the results obtained from the NSS 67th round (July 2010 – June 2011) survey on the same subject, the number of unincorporated non-agricultural enterprises (excluding construction) has increased by 9.9% over the period with a growth rate of nearly 2% per annum. Much of the overall growth was brought about by higher growth rate in the number of *establishments* as clear from **Statement 1.3**. Strictly speaking, however, the estimates from the two surveys are not comparable. As mentioned in *para.1.3.2.2* of Chapter 1, the coverage of NSS 73rd round survey was different from NSS 67th round survey due to the *inclusion* of activities related to non-captive electricity generation and transmission (under NIC 2008 Div. 35), two additional codes, namely 64193: Chit funds and 64921: Investment club and *exclusion* of NIC

³ Food and Accommodation: S1and S2, Transport and Communication: S3,S4, S5, S6 and S7, Real estate, renting and Business Services: S10 and S11, Financial activities: S8 and S9, rest of the services activities: S12, S13, S14 and S15

2008 Div.65: Insurance, reinsurance and pension funding, except compulsory social security and
NIC 2008 code 6622: Activities of insurance agents.

growth rate (%)	9.3%	13.2%	9.9%

3.3.6 Unincorporated Non-agricultural Enterprises in major States

3.3.6.1 **Statement 2.0** presents the percentage distribution of number of enterprises and share of OAEs by State for each sector. The States are arranged in the descending order of number of enterprises. The 22 major States accounted for more than 98% of the total estimated number of enterprises in the country. Uttar Pradesh reported the highest share in the number of enterprises (14.20%) followed by West Bengal (13.99%). In the rural sector, West Bengal (17.44%) topped among States with highest share in the number of enterprises followed by Uttar Pradesh (14.93%). In the urban sector, Uttar Pradesh (13.43%) followed by Tamil Nadu (10.86%) had the highest share in estimated number of enterprises. Even though Uttar Pradesh and West Bengal had an almost equal share in the total number of enterprises, Uttar Pradesh had higher number of *establishments* than West Bengal. The top 5 States namely Uttar Pradesh, West Bengal, Tamil Nadu, Maharashtra and Karnataka accounted for nearly half of the total estimated number of unincorporated non-agricultural enterprises (excluding construction) in the country during the survey period.

3.3.6.2 Among the major States, share of OAEs was found to be highest in West Bengal (90.06%) and lowest in Delhi (57.69%). In the rural areas, Telangana (96.00%) and Kerala (77.72%) respectively were the States that had highest and lowest share of OAEs. Among urban enterprises, Andhra Pradesh had the highest share of OAEs (83.71%) and Delhi had the lowest share of OAEs (57.38%).

3.3.6.3 **Statement 2.1** gives the percentage distribution of enterprises by broad activity category for major States. At all-India level, 31.02% of the enterprises was in manufacturing, 36.34% was in trading and the remaining 32.63% was in 'other services'.

3.3.6.4 In the States of Assam, Uttarakhand, Haryana and Delhi, less than one-fifth of the total number of enterprises were in manufacturing sector whereas, in States like West Bengal, Telangana, Gujarat, Tamil Nadu and Jammu & Kashmir the share of manufacturing enterprises was about 33% or more. In case of West Bengal, 47.12% of its unincorporated non-agricultural enterprises were in manufacturing.

3.3.6.5 In 10 out of the 22 major States, the share of trading enterprises was 40% or more. The share was as high as 55.13% in case of Assam. The lowest shares of trading enterprises were in Telangana and West Bengal where only one-fourth of the total number of enterprises pursued trading as their major activity.

3.3.6.6 In 11 out of the 22 major States, at least one-third of the enterprises were in ‘other services’ activities. The share of ‘other services’ enterprises were highest in Kerala (45.85%) and least in Jammu & Kashmir (25.23%).

3.4 Estimated number of Workers

3.4.1 **Statement 3.0** reveals that, during 2015-16, about 11.13 crore workers were employed in unincorporated non-agricultural enterprises (excluding construction) in the country. Among the workers, 6.14 crore (55.2%) worked in urban areas and 4.99 crore (44.8%) worked in rural areas. At all-India level, 34.8% of the total estimated number of workers was engaged in trading enterprises followed by 32.8% in ‘other services’ and 32.4% in manufacturing (*refer Statement 3.3*).

Statement 3.0: Estimated number of workers ('000) by enterprise types and sector for each broad activity category**all-India**

3.4.2 Comparison with 67th round

3.4.2.1 In comparison with the results obtained from the NSS 67th round (July 2010 – June 2011) survey on the same subject, the number of workers in unincorporated non-agricultural enterprises (excluding construction) has increased by 3% over the period. There was a decline of 1% in the number of workers in OAEs. The 3% overall growth is due to a substantial increase in the workers engaged by establishments, as observed from **Statement 3.2**.

3.4.2.2 Strictly speaking, however, the figures of workers obtained from these two rounds are not comparable due to difference in coverage. Moreover, the active members of SHGs, who were treated as working owners (and therefore workers) in NSS 67th round, were not considered as workers in NSS 73rd round. Comparing with the adjusted worker figures of NSS 67th round (by excluding the active members of SHGs), the number of workers has increased by 6.7% over the five year period as shown in **Statement 3.2**.

Statement 3.2: Estimated number of workers in NSS 67th and NSS 73rd rounds all-India			
NSS round/ Year	number of workers ('000)

growth rate (%) adjusted*	4.6%	10.5%	6.7%

*excluding active members of SHG

3.4.2.3 **Statement 3.3** gives the percentage distribution of number of workers and percentage for OAE workers over the industrial group. Own Account Enterprises (OAEs) contributed 62.1% of the workers in the unincorporated non-agricultural sector (excluding construction) in India during 2015-16. The share of OAE workers was 76.5% in the rural areas and 50.4% in the urban areas (refer to Statement 3.0 for number of workers). At all-India level, 69.5% of the workers in trading sector was from OAEs. The share of OAE workers was 62.9% in manufacturing.

Statement 3.3: Percentage distribution of number of workers over industrial group and share of OAE workers all-India							
sl. no.	industrial group	percentage of workers					
		rural		urban		rural + urban	
		share in total workers (%)	% of OAE workers	share in total workers (%)	% of OAE workers	share in total workers (%)	% of OAE workers

*total workers includes workers engaged in non-captive electricity generation and transmission also

Ref: Table 4 of Appendix A

3.4.2.4 At all-India level, about 32% of the workers in the unincorporated non-agricultural sector (excluding construction) were employed in manufacturing activities. Trading enterprises accounted for nearly 35% of the workers and the other services sector accounted for the remaining 33% of the workers. In the ‘other services’ enterprises, *Food and Accommodation activities* and *Transport and Communications activities* each employed about 7% of the total workers in the unincorporated non-agricultural sector.

3.4.2.5 In the rural sector, manufacturing enterprises accounted for 37.4% of the workers and trading enterprises had a share of 32.2% of the workers. In the urban sector, 28.3% of the workers were in manufacturing activities and 36.9% of them were in trading activities, while ‘other services’ activities had a share of 34.8% of workers.

3.4.3 Workers of Unincorporated Non-agricultural Enterprises in major States

3.4.3.1 Percentage distribution of workers by State and percentage of OAE workers for each sector is given in **Statement 4.0** in descending order of share of total workers at all-India level. The 22 major States accounted for about 99% of the total number of workers in the unincorporated non-agricultural sector in the country. Uttar Pradesh had the highest share (14.86%) in the total number of workers at all-India level. West Bengal (12.18%) and Tamil Nadu (8.70%) were the two States reporting the next highest shares in the total number of workers. As in the case of estimated number of enterprises, the top 5 States, namely Uttar Pradesh, West Bengal, Tamil Nadu, Maharashtra and Karnataka accounted for nearly 50% of the total estimated number of workers engaged in this sector during 2015-16.

3.4.3.2 Uttar Pradesh also had the highest share in the number of workers both in the rural sector (16.70%) and the urban sector (13.37%). West Bengal (16.36%) followed by Bihar (6.64%) were the other two States that had next highest share in the number of workers in the rural areas. In urban areas, Tamil Nadu (11.32%) and Maharashtra (10.11%) followed Uttar Pradesh in terms of share of workers.

3.4.3.3 62.21% of the workers in the 22 major States belonged to OAEs. The share of OAE workers in these major States was about 76.50% in rural areas and 50.55% in urban areas. In all these States except for Delhi, Haryana and Kerala, OAEs contributed the major share in workers. About three-fourths of the workers in States like West Bengal, Bihar, Odisha and Jharkhand were from OAEs. About 70% of the workers in Delhi belonged to establishments. In rural areas, OAE workers had the major share in all the 22 major States while in urban areas establishments contributed the major share of workers in 10 out of the 22 major States.

Ref: Table 5 of Appendix A

3.4.3.4 **Statement 4.1** gives the percentage distribution of workers by broad activity category for different States. At all-India level, 32.39% of the workers were in manufacturing sector, 34.81% in trading sector and 32.79% were in the 'other services' sector.

3.4.3.5 In States like Uttarakhand, Assam, Himachal Pradesh, Haryana, Kerala, Bihar and Chhattisgarh, less than one-fourth of the workers in the unincorporated non-agricultural sector were employed in manufacturing enterprises. In West Bengal, more than half of the workers were in manufacturing sector. Gujarat (43.24%), Telangana (37.07%), Tamil Nadu (35.15%) and Andhra Pradesh (34.68%) were the other four States where more than one-third of the workers belonged to manufacturing sector.

3.4.3.6 In Assam about half of the workers in the unincorporated non-agricultural sector were employed in trading activities whereas the share of workers in the trading enterprises was only 24.17% in West Bengal. In 15 out of 22 States, more than one-third of total workers belonged to trading activity.

3.4.3.7 In 12 out of the 22 major States, at least one-third of the workers were in ‘other services’ activities. The share of workers in the ‘other services’ enterprises were highest in Himachal Pradesh (50.02%) and least in West Bengal (24.48%).

3.4.4 Female workers in Unincorporated Non-agricultural Enterprises

3.4.4.1 In order to study the gender differential in employment in unincorporated non-agricultural enterprises in manufacturing, trade and other services sector (excluding construction) enterprises, the particulars of employment was collected by gender of the workers. **Statement 5.1** shows the percentage distribution of female workers out of the total female workers in three broad activity categories over different sectors. The share of female workers was highest in manufacturing (52.67%) followed by other service sector enterprise (25.91%) and enterprises engaged in trade (21.42%). The shares of female workers in total workers by broad activity category and different enterprise types are depicted in **Statement 5.2**. Out of the estimated 11.13 crore workers, female workers constituted roughly 23.91% of total workers in unincorporated non-agricultural enterprises. The share of female workers in total workers engaged in OAEs was

highest for manufacturing activity with about 53.4%. For establishments, the share of female workers in total workers engaged in 'other services' activities was the maximum with about 24.4%.

Ref: Table 4 of Appendix A

3.4.5.1 The percentage distribution of female workers in the manufacturing enterprises by detailed activity category for each sector and share of female workers in OAEs by activity category is given in **Statement 6.1**. Statement 6.1 also gives the percentage of female workers engaged in OAEs in each of the activity category. *In Statements 6.1 to 6.3, columns (2), (4) and (6) give the detailed activity category wise **percentage distribution of female workers out of the total female workers** in each of the three broad activity categories by sector. The **shares of OAE female workers in total female workers** for each activity category are presented in columns (3), (5) and (7).* At all-India level, OAEs accounted for 86.33% of the female workers in manufacturing enterprises. The share of female workers engaged in OAEs was 89.30% among the rural manufacturing enterprises and 81.62% in their urban counterparts. In case of enterprises engaged in ‘Manufacture of tobacco products’ (M4), 99.15% of the female workers were from OAEs. For 16 out of the 25 activity categories in manufacturing, OAEs had a major share in number of female workers. These 16 activity categories accounted for about 93.1% of the total female workers engaged in manufacturing activities.

Statement 6.2: Percentage distribution of female workers in trading enterprises over activity category and share of female workers in OAEs by activity category

all-India

Ref: Table 4 of Appendix A

3.4.5.2 **Statement 6.2** gives the percentage distribution of female workers in trading enterprises and share of female workers in OAEs by activity category. At all-India level, OAEs accounted for 84.47% of the female workers in trading enterprises. 94.96% of these female workers were employed by trading OAEs located in rural areas and 73.25% in urban areas. Out of the total number of female workers employed in trading enterprises, 94.45% were employed in ‘Other retail trade’ (T5) followed by 4.57% employed in ‘Other wholesale trade’ (T4). Percentage share of female workers in the three remaining trading activities taken together was about 1% in trading enterprises during 2015-16. About 87.15% female workers were engaged in OAEs pursuing ‘Other retail trade’ (T5) at all-India level.

3.4.5.3 **Statement 6.3** presents the percentage distribution of female workers in enterprises engaged in ‘other services’ activities and share of female workers in OAEs by activity category. At all-India level, OAEs accounted for 40% of the female workers in enterprises engaged in ‘other services’ activities. The share of female workers engaged in OAEs was 51.59% among the enterprises located in rural sector and 34.25% in their urban counterparts. About 77.82% of the female workers were engaged in OAEs in ‘Other community, social and personal service activities’ (S15), closely followed by ‘Real estate activities’ (S10) with 77.37% female workers engaged in OAEs of this activity category. OAEs had a major share in number of female workers in 5 out of the 15 activity categories in ‘other services’. These 5 activity categories accounted for about 41.2% of the total female workers engaged in ‘other services’ activities. Percentage share of female workers in enterprises engaged in ‘other services’ is highest at 40.62% for ‘Education’ (S13) at all-India level followed by 19.87% workers in ‘Food service activities’ (S2). 89% female workers are engaged in 4 activities, viz., ‘Food service activities’ (S2), ‘Education’ (S13), ‘Human health and social work’ (S14) and ‘Other community, social and personal service activities’ (S15).

3.4.6 Female workers in Unincorporated Non-agricultural Enterprises in Major States

3.4.6.1 Percentage distribution of female workers and share of female workers in OAEs by State for each sector is given in **Statement 7.0** in descending order of share of total female workers in all-India. The 22 major States accounted for about 98% of the total number of female workers in the unincorporated non-agricultural sector (excluding construction) in the country. West Bengal had the highest share (16.35%) in the total number of workers. Tamil Nadu (12.14%) and Uttar Pradesh (10.27%) were the two States reporting the next highest shares in the total number of female workers. The top 5 States namely West Bengal, Tamil Nadu, Uttar Pradesh, Andhra Pradesh and Karnataka accounted for about 54% of the total estimated number of female workers engaged in the unincorporated non-agricultural sector during 2015-16.

Ref: Table 5 of Appendix A

3.4.6.2 West Bengal also had the highest share in the number of female workers in the rural sector (23.09%) followed by Uttar Pradesh (11.86%) and Andhra Pradesh (8.32%). In urban

areas, top three States in terms of female workers were Tamil Nadu (17.03%), West Bengal (9.11%) and Maharashtra (8.95%).

3.4.6.3 In the 22 major States, about 74.11% of the female workers belonged to OAEs. The share of female workers in OAEs in these major States was 83.93% in rural areas and 62.95% in urban areas. In all major States except for Delhi, Haryana and Kerala, OAEs contributed the major share in workers. In States like West Bengal, Telangana, Gujarat, Odisha, Jharkhand, Bihar and Chhattisgarh, more than 80% of the female workers were from OAEs. In rural areas, OAE workers are dominant in all the 22 major States except Haryana while in urban areas except Kerala, Haryana, Delhi, Assam, Himachal Pradesh and Uttarakhand, OAE workers outnumbered the workers of establishments.

Ref: Table 5 of Appendix A

3.4.6.4 **Statement 7.1** gives the percentage distribution of female workers by broad activity category for different States. At all-India level, 52.67% of the female workers were in manufacturing sector, 21.42% in trading sector and 25.91% were in the 'other services' sector.

3.4.6.5 In States like Gujarat, Jammu & Kashmir, Jharkhand, Telangana and West Bengal more than half of the female workers in the unincorporated non-agricultural sector were employed in

manufacturing enterprises. In West Bengal more than 80% female workers were engaged in manufacturing activity.

3.4.6.6 In 16 out of the 22 major States, less than one-fourth female workers were in trading activities. Chhattisgarh (45.61%) had the highest share of workers in trading activity and Jammu & Kashmir (6.88%) had the lowest share in trading activity among all 22 major States.

3.4.6.7 In 7 out of the 22 major States, at least one-third of the female workers were in 'other services' activities. In Haryana and Himachal Pradesh, almost 50% workers were females engaged in 'other services' activities. The share of female workers in the 'other services' enterprises were highest in Delhi (57.48%) and least in West Bengal (10.64%).

3.4.6.8 **Statement 7.2** gives the percentage distribution of female workers and share of rural female workers in the unincorporated non-agricultural enterprises by State for each broad activity category. 25.30% of the female workers in manufacturing enterprises were in West Bengal. The top 5 States in terms of number of female workers in manufacturing enterprises, namely, West Bengal, Tamil Nadu, Uttar Pradesh, Karnataka and Andhra Pradesh accounted for about 60% of the female workers engaged in manufacturing activities at all-India level. The bottom 5 States namely Uttarakhand, Himachal Pradesh, Delhi, Assam and Haryana accounted for only less than 2% of the total workers in unincorporated manufacturing sector of the country.

3.4.6.9, Among the female workers engaged in trading activities in the unincorporated non-agricultural sector in India, 13.63% of the female workers were located in Tamil Nadu. Uttar Pradesh (11.24%) followed by Andhra Pradesh (9.13%), Maharashtra (8.72%) and Karnataka (7.36%) were the other four States with next highest share in the number of female workers in trading enterprises at all-India level. The bottom 5 States namely, Jammu & Kashmir, Uttarakhand, Himachal Pradesh, Assam and Delhi accounted for less than 3% of the workers engaged in trading activities in the country.

3.4.6.10 About 50% of the female workers in 'other services' enterprises of the unincorporated non-agricultural sector in India were located in five States namely, Tamil Nadu, Uttar Pradesh, Andhra Pradesh, Maharashtra and Karnataka. Uttarakhand, Jammu & Kashmir, Assam, Himachal Pradesh and Jharkhand were the five States with least number of female workers engaged in 'other services' activities, together accounting for about 4% of the female workers belonging to that sector in India.

3.4.6.11 **Statement 7.2** also gives the share of rural female workers in each broad activity category over major States. At all-India level, 51.82% of the female workers employed in unincorporated non-agricultural enterprises were located in rural areas. The share of rural female workers was 61.31% in manufacturing, 51.68% in trading and 32.64% in 'other services'.

3.4.6.12 In Jharkhand and Odisha, more than 80% of the female workers were located in rural areas. Himachal Pradesh and West Bengal were the other major States where the share of rural female workers was more than 70%. In Delhi, only less than 1% of the female workers in unincorporated non-agricultural enterprises were located in rural areas.

Statement 7.2: Percentage distribution of female workers and share of rural female workers by States for broad activity categories

3.5 Gross Value Added (GVA)

3.5.1 Gross Value Added (GVA) is an important economic indicator that measures the contribution of different segments to the economy. It gives the value of goods and services produced less the cost of all intermediate consumption that are directly attributable to that production. The survey being conducted on unincorporated enterprises, which do not usually maintain a formal book of accounts, the data on the expenses, receipts and all other flow variables were collected with a short reference period of a month. The GVA and NVA estimates for one year presented in the report were derived as follows:

(Estimated GVA or NVA of the reference month) X (number of months the enterprise operated during last 365 days).

The GVA or NVA estimates thus obtained are referred to as just GVA or NVA in the rest of the report. *The definitions of GVA or NVA are discussed in para 2.42.1 and 2.42.2 of Chapter 2 in some more detail.*

3.5.2 **Statement 8.0** gives the Gross Value Added of the unincorporated non-agricultural enterprises (excluding construction) engaged in market production for different broad activity categories. During the year 2015-16, the aggregate gross value added by the unincorporate non-agricultural enterprises engaged in market production was estimated as Rs.11,52,309 crores. Aggregates shown against columns (4), (7), (10) and the last row may differ from the total of value figures shown against each enterprise type for each sector due to rounding off.

Statement 8.0: Estimated GVA of enterprises engaged in market production by enterprise types and sector for each broad activity category

all- India									
broad activity category	GVA of enterprises (in Rs. crore)								
	rural			urban			rural + urban		
	OAE	estt.	all	OAE	estt.	all	OAE	estt.	all

* includes enterprises engaged in non-captive electricity generation and transmission
Ref: Table 14 of Appendix A

Figure 3: Percentage distribution of GVA over broad activity categories in different sectors

3.5.3 Distribution of GVA by enterprise types in rural and urban areas varied to a large extent. In rural areas, share of OAEs in total GVA was about 61% as compared to 37% for urban areas (refer Statement 10.0). At all-India level, establishments contributed 55.67% to aggregate GVA (refer Statement 8.1). The overall GVA contribution of urban enterprises (70.07%) was much higher than rural enterprises (29.93%). Enterprises engaged in ‘trade’ (39%) had contributed maximum to overall GVA followed by ‘other services’ (37.8%) and ‘manufacturing’ (23.2%) (refer Figure 3).

Statement 8.1: Percentage distribution of GVA of enterprises by sector and enterprise type for each broad activity category

broad activity category	percentage of GVA					all-India
	rural	urban	rural+urban	OAE	estt.	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)

other services	31.88	68.12	100.00	39.17	60.83	100.00
all	29.93	70.07	100.00	44.33	55.67	100.00

Ref: Table 14 of Appendix A

3.5.4 In this survey, 374 enterprises engaged in non-market production (including units engaged in the activities of Head Offices (NIC 2008 Code 70100)) – referred as **non-market enterprises** hereafter – could be captured. Based on data collected from these units, the aggregate net value added by the unincorporated non-agricultural enterprises engaged in non-market production during 2015-16 was estimated at about Rs.1258 crore. The urban non-market enterprises had a share of 64.3% in the aggregate NVA whereas those in the rural sector had contributed about 35.7%. The details are in **Statement 8.2** below. These estimates may be used with caution as they are based on a very small sample. Due to the same reason, the State-wise estimates of net value added for non-market enterprises are not presented in this document.

Statement 8.2: Net Value Added (NVA) of enterprises engaged in non-market production by sector for each broad activity category

broad activity category	NVA of enterprises (in Rs. crore)		
	rural	urban	rural + urban
(1)	(2)	(3)	(4)
manufacturing	0.2 (1.5%)	13.1 (98.5%)	13.3 (100.0%)
trade	-	0.2 (100.0%)	0.2 (100.0%)
other services	448.9 (36.1%)	795.4 (63.9%)	1244.3 (100.0%)
all	449.1 (35.7%)	808.8 (64.3%)	1257.9 (100.0%)

Ref: Table 47 of Appendix A

3.5.5 Comparison of GVA of NSS 67th round and NSS 73rd round

3.5.5.1 GVA of unincorporated non-agricultural enterprises (excluding construction) as obtained from NSS 73rd round survey is not directly comparable with the corresponding GVA figures obtained from NSS 67th round survey due to the difference in coverage and the formula used for calculating GVA as explained in para 1.3.2.2 and 1.3.2.3 of Chapter 1. Further, in 73rd round, GVA was worked out only for the market enterprises whereas, the GVA figures published for NSS 67th round survey were for both market and non-market enterprises. It may be worth to notice that the contribution of non-captive electricity generation and transmission was only Rs. 72 crore (less than 0.01% of the total GVA) and the Net Value Added (NVA) from non-market enterprises was only Rs. 1257.9 crore during NSS 73rd round. Assuming the effect of these changes as small, a broad comparison can be made between the GVA figures obtained from these two rounds. The Gross Value Added (GVA) of non-agricultural enterprises (excluding construction) is given in **Statement 8.3**. It shows an increase of 83.4% in 73rd round (2015-16) over 67th round (2010-11). The growth in GVA was 80.8% in case of OAEs and 85.5% in case of establishments.

Statement 8.3: GVA (Rs. crore) of enterprises in NSS 67th round and NSS 73rd round

NSS round/ Year	GVA (Rs. crore)		
	OAE	estt.	all
(1)	(2)	(3)	(4)
2015-16 (NSS 73 rd round) [#]	510796 (44.3%)	641513 (55.7%)	1152309 (100%)
2010-11 (NSS 67 th round) [*]	282530 (45.0%)	345827 (55.0%)	628356 (100%)
growth rate (%) at current prices	80.8%	85.5%	83.4%

^{*}GVA of 67th round was for all enterprises[#]GVA of 73rd round is for only market enterprises

3.5.5.2 The comparison of GVA figures of non-financial enterprises, for which there is no difference in respect of coverage of activities will be more meaningful except for the inclusion of non-market enterprises in the GVA figures of NSS 67th round.

3.5.5.3 Having excluded non-captive electricity generation and transmission and financial activities from the domain, the comparison of the estimates of GVA at current prices from the two rounds is shown in **Statement 8.4**. There is a growth of about 86% in GVA. The growth in GVA was comparatively higher in urban areas (90.6%) than in rural areas (76.4%).

3.5.5.4 Among the different industrial group, ‘food and accommodation services’ have reported the highest growth in GVA (120.5%) whereas ‘real estate, renting and business activities’ have reported the lowest growth (29.7%) in GVA at current prices.

Statement 8.4: Changes in Gross Value Added (GVA) at current prices of enterprises in NSS 73rd round (2015 -16) over NSS 67th round (2010- 11)

3.5.6 Gross Value Added in different activity categories

3.5.6.1 **Statement 9.1** presents the percentage distribution of estimated GVA of market enterprises in ‘manufacturing’ and share of GVA of OAE for each activity category. It is observed that the activity ‘Manufacture of wearing apparel’ (M6) had the largest share of GVA (19.29%) followed by ‘Manufacture of food products’ (M2) (13.73%) and ‘Manufacture of textiles’ (M5) (11.13%) among all manufacturing activity categories. Market enterprises engaged in manufacturing account for 66.49% of GVA in urban areas while share of their rural counterparts is about 33.51% (*refer Statement 8.1*). In rural areas share of GVA for OAEs appear to be higher than that for urban areas in most of the activity categories. However at all-India level, OAEs contributed major share in GVA for three manufacturing activity categories – ‘Manufacture of tobacco products’ (M4), ‘Manufacture of wearing apparel’ (M6) and ‘Repair and installation of machinery and equipment’ (M25).

Ref: Table 14 of Appendix A

3.5.6.2 The percentage distribution of estimated GVA of market enterprises in ‘trading’ and share of GVA of OAE by activity category is presented in **Statement 9.2**. Among all trading activity categories, the activity ‘Other retail trade’ (T5) had the highest share in total GVA (73.47%). The share of GVA of OAEs from rural areas was 77.86% and that of their urban counterparts was 43.67%. For urban sector, major share of GVA was from establishments for all trading activities, except ‘Other retail trade’ (T5).

Statement 9.2: Percentage distribution of estimated GVA of market enterprises in trading and share of GVA of OAE by activity category

Ref: Table 14 of Appendix A

3.5.6.3 The percentage distribution of estimated GVA of market enterprises in ‘other services’ and share of GVA of OAE by activity category is presented in **Statement 9.3**. ‘Other services’ sector account for 37.8% of the total GVA of the country during 2015-16 (refer Figure 3). The enterprises from rural sector belonging to this category have a share of about 32% in the total GVA of ‘other services’ market enterprises (refer Statement 8.1). Out of these 15 activity categories, OAEs contributed the maximum share of GVA for 5 categories with the highest from ‘Land transport’ (S3) with 70.42%, closely followed by 69.63% from ‘Real estate activities’ (S10), 67.13% from ‘Other community, social and personal service activities’ (S15), 55.37% from ‘Water transport’ (S4) and 51.56% from ‘Financial services activities except insurance and pension funding’ (S8). About 79% of the total GVA of ‘other services’ sector is from five of the fifteen activity categories. Establishments had a major share of GVA in 10 out of 15 activity categories. Among these 10 categories, establishments engaged in ‘Accommodation’ (S1), ‘Warehousing and storage’ (S5) and ‘Education’ (S13) had top three shares in total GVA with 97.6%, 95.5% and 92.6% respectively.

3.5.7 Gross Value Added of Unincorporated Non-agricultural Enterprises in major States

3.5.7.1 Percentage distribution of estimated GVA and share of GVA of OAEs by State for each sector is given in **Statement 10.0** in descending order of share of total GVA at all-India level. The 22 major States accounted for about 98% of the total GVA of the unincorporated non-agricultural sector in the country. Maharashtra had the highest share (11.75%) in the total GVA at all-India level. Uttar Pradesh (10.99%) and Tamil Nadu (9.17%) were the two States reporting the next highest shares in the total share of GVA. The top 5 States namely Maharashtra, Uttar Pradesh, Tamil Nadu, Karnataka and West Bengal accounted for nearly 47% of the total share of GVA at all-India level during 2015-16.

3.5.7.2 In rural and urban sectors, Uttar Pradesh (12.75%) and Maharashtra (13.35%) respectively, had the highest share in GVA. West Bengal (10.78%) followed by Maharashtra (8.01%) were the other two States that had next highest share in GVA in the rural areas. In urban

areas, Tamil Nadu (10.36%) and Uttar Pradesh (10.23%) followed Maharashtra in terms of share of GVA.

3.5.7.3 OAEs have a share of 44.39% of the GVA in the 22 major States. The share of GVA of OAE in these major States was 61.28% in rural areas and 37.13% in urban areas. In seven of these major States, viz., Uttar Pradesh, West Bengal, Bihar, Odisha, Jharkhand, Assam and Uttarakhand, OAEs contributed the major share in GVA. About 72%, 68% and 66% GVA share of Delhi, Kerala and Haryana were from establishments. In rural areas, OAE had the major share in GVA in 17 of the 22 major States whereas in urban areas establishments contributed the major share of GVA in all States, except Uttarakhand.

Ref: Table 15 of Appendix A

3.5.7.4 **Statement 10.1** gives the percentage distribution of estimated GVA by broad activity category for major States. At all-India level, 23.26% of the GVA were from manufacturing sector, 38.96% from trading sector and 37.78% were from the 'other services' sector.

3.5.7.5 Gujarat (42.60%) had the highest share of GVA in manufacturing sector. In States like Delhi, Gujarat, Tamil Nadu and West Bengal more than 25% of GVA in the unincorporated non-agricultural sector were from manufacturing enterprises.

3.5.7.6 In Jammu & Kashmir and Assam more than half of the share of GVA in the unincorporated non-agricultural sector was from trading activities. The share of GVA in the trading enterprises was the least for Gujarat (26.65%). 10 out of the 22 major States had GVA share of more than 40% from trading activities.

3.5.7.7 The share of GVA from the 'other services' enterprises were highest in Himachal Pradesh (54.56%) and lowest in Jammu & Kashmir (24.16%). In 9 out of the 22 major States, at least 40% of the GVA were from 'other services' activities.

3.5.7.8 **Statement 10.2** gives the percentage distribution of estimated GVA of market enterprises and share of rural GVA of the unincorporated non-agricultural market enterprises by State for each broad activity category in India. Maharashtra (11.75%) had the highest share of GVA among all the States. Uttar Pradesh (10.99%), Tamil Nadu (9.17%), Karnataka (8.00%) and West

Bengal (7.43%) were the others in the top five States in the share of GVA. Uttarakhand (0.64%), Himachal Pradesh (0.74%), Chhattisgarh (0.96%), Jammu & Kashmir (1.32%) and Assam (1.48%) were the bottom five States in the share of GVAs contributing to about 5% of total GVA of the country.

Ref: Table 15 of Appendix A

3.5.7.9 Gujarat had the highest share of GVA from manufacturing enterprises at about 13%. The top 5 States in terms of share of GVA in manufacturing sector, viz., Gujarat, Tamil Nadu, West Bengal, Maharashtra and Uttar Pradesh, accounted for about 54% of the total GVA of manufacturing sector at all-India level. The bottom 5 States viz., Himachal Pradesh, Uttarakhand, Chhattisgarh, Jammu & Kashmir, and Assam accounted for only 4% of the total GVA of unincorporated manufacturing enterprises of the country.

3.5.7.10 Uttar Pradesh accounted for 13.05% of the GVA share from enterprises engaged in trading activities in the unincorporated non-agricultural sector. Maharashtra (11.90%) followed by Karnataka (8.15%) were the other two States with next highest GVA share for the trading

enterprises. The bottom 3 States namely, Himachal Pradesh, Uttarakhand and Chhattisgarh accounted for less than 3% of the GVA of enterprises engaged in trading activities in the country.

3.5.7.11 The contribution of Maharashtra to GVA share in ‘other services’ enterprises is highest at 12.63%. About 47% of the GVA share in ‘other services’ enterprises of the unincorporated non-agricultural sector in India were from five States namely, Maharashtra (12.63%), Tamil Nadu (9.71%), Uttar Pradesh (9.55%), Karnataka (8.34%) and Kerala (7.04%). Uttarakhand, Jammu & Kashmir and Chhattisgarh were the three States with least share in GVA from enterprises engaged in ‘other services’ activities, together accounting for about 2% of the GVA share belonging to that sector in all-India level.

Figure 4: Share of GVA of rural enterprises in major States

3.5.8 Gross Value Added per enterprise (GVAPE) for market enterprises

3.5.8.1 The Gross Value Added per Enterprise is given in **Statement 11.0** categorised by type of enterprise separately for rural, urban and combined sector. GVAPE was substantially high for establishments for all sectors over all categories. During 2015-16, the estimated GVAPE in the unincorporated non-agricultural sector (excluding construction) for the country was estimated at Rs. 1,81,903. For rural India, GVAPE for OAEs and establishments were estimated as Rs. 71,302 and Rs. 4,78,557 respectively. The corresponding estimates for urban areas were Rs. 1,26,445 and Rs. 7,03,650 respectively. At all-India level highest GVAPE was for enterprise engaged in ‘other services’ activities estimated as Rs. 2,10,846 followed by ‘trading’ at Rs.1,94,876 and manufacturing at Rs.1,36,317. GVA for enterprise engaged in ‘other services’ was higher compared to trading and manufacturing for all enterprises and establishments located in rural, urban and combined sectors. Own account enterprises engaged in trading activities had highest GVAPE among all broad activity categories for all sectors.

Statement 11.0: Estimated GVA per market enterprise by enterprise type and sector for each broad activity category

broad activity category	GVA per enterprise (Rs.)								
	rural			urban			rural + urban		
	OAE	estt.	all	OAE	estt.	all	OAE	estt.	all

Ref: Table 18 of Appendix A

3.5.9 Comparison of GVA per market enterprise of NSS 67th round and NSS 73rd round**Statement 11.1: GVA per enterprise (Rs) in NSS 67th round and NSS 73rd round**

year/ NSS round	GVA per enterprise (Rs.)		
	OAE	estt.	all
(1)	(2)	(3)	(4)
2015-16 (NSS 73 rd round)*	95763	641020	181903
2010-11 (NSS 67 th round)	57883	390200	108951
growth rate (%)#	65.4	64.3	67.0

*during NSS 73rd round, GVA estimates were worked out only for market enterprises whereas in NSS 67th round, these were worked out for all enterprises

GVA figures given in the Statement are at current prices

3.5.9.1 In comparison with the results of NSS 67th round, Gross Value Added (GVA) per enterprise of the unincorporated non-agricultural enterprises (excluding construction) in the country has increased by 67% at *current prices*. The percentage growth in GVA per enterprise was almost the same for OAEs and establishments. The comparison given in **Statement 11.1** did not take into account the difference in coverage of NSS 67th round and NSS 73rd round as well as the method adopted to work out GVA in NSS 73rd round in contrast with that adopted in NSS 67th round. In the broad activity categories, except for the newly added activity of non-captive electricity generation and transmission and the 'other services' where the coverage of financial enterprises was different in the two NSS rounds, a meaningful comparison can be made in case of manufacturing and trading. **Statement 11.2** gives the comparison of GVA per enterprise of NSS 67th round and NSS 73rd round by broad activity category.

Statement 11.2: Growth in GVA per enterprise (Rs.) in NSS 73rd round over NSS 67th round
all-India

broad activity category	NSS 67 th round (July 2010- June 2011)			NSS 73 rd round (July 2015- June 2016)			growth rate (%)

* includes enterprises engaged in non-captive electricity generation and transmission for the 73rd round

3.5.9.2 Among the broad activity categories, manufacturing enterprises recorded the lowest growth in GVA per enterprise (51.6%) at current prices, over the period of five years between NSS 67th round and NSS 73rd round. The growth in GVA per enterprise was 65.9% in case of trading enterprises and 80.8% in case of ‘other services’. While the growth of GVA per enterprise of rural areas was less than urban sector in case of manufacturing and trading, the result was opposite in case of ‘other services’.

3.5.10 Gross Value Added per market enterprise in different activity categories

3.5.10.1 **Statement 12.1** presents the estimated GVA per market enterprise in manufacturing for each activity category. Among the manufacturing activities, the estimated GVAPE was highest for ‘Manufacture of machinery and equipment n.e.c.’ (M20) with Rs. 17.84 lakhs at all-India level as also for urban sector (Rs. 19.24 lakhs). GVAPE was maximum (Rs. 9.17 lakhs) for manufacturing enterprises engaged in ‘Manufacture of electrical equipment’ (M19) in rural areas. GVAPE is lowest for the manufacturing activity ‘Manufacture of tobacco products’ (M4) for all-India (Rs. 28 thousand) as well as separately for rural (Rs. 26 thousand) and urban (Rs. 32 thousand) sectors.

Statement 12.1: Estimated GVA per market enterprise in manufacturing by enterprise type and sector for each activity category

3.5.10.2 Estimated GVA per market enterprise engaged in trading by activity category for each sector and enterprise type is presented in **Statement 12.2**. Among all trading activity categories, the activity ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1) had the highest GVAPE (Rs. 5.85 lakhs) for all-India and over different sectors. Taking rural and urban trading enterprises together, the GVAPE was lowest (Rs. 1.65 lakhs) in ‘Other retail trade’ (T5) among all the trading activities.

3.5.10.3 The GVAPE of ‘other services’ market enterprises for each activity category by enterprise type and sector are presented in **Statement 12.3**. Both for all-India level and urban sector, enterprises involved in the activity - ‘Accommodation’ (S1) had the highest GVAPE with Rs. 14.32 lakhs and Rs. 15.25 lakhs respectively. But for rural areas GVA per enterprise was highest for enterprises engaged in ‘Warehousing and storage’ (S5) (Rs. 21.42 lakhs). The lowest GVAPE in ‘other services’ was for enterprises engaged in ‘Financial service activities except insurance and pension funding’ (S8) both for rural sector (Rs. 22 thousand) and at all-India level (Rs. 51 thousand). Rs. 1.49 lakhs was the lowest GVA per enterprise in the urban sector corresponding to enterprises belonging to ‘Other community, social and personal service activities’ (S15).

Statement 12.3: Estimated GVA per market enterprise in 'other services' by enterprise type and sector for each activity category**all-India**

3.5.11 Gross Value Added per Market Enterprise in major States

3.5.11.1 The estimated GVA per market enterprise during 2015-16, by State and different enterprise type for each sector is presented in **Statement 13.1**. Delhi had the highest GVA per enterprise at all-India level with Rs. 4.98 lakhs. The estimated GVAPE for each State was higher for establishments for all sectors. Again, GVA per enterprise across the major 22 States was higher in urban areas than rural areas. For rural, Kerala reported the highest GVAPE (Rs. 2.18 lakhs) and Delhi reported the highest GVAPE (Rs. 5 lakhs) for urban areas. Contribution of West Bengal was the lowest for this attribute for rural, urban and also for the combined sector.

Ref: Table 19 of Appendix A

3.5.11.2 **Statement 13.2** gives the estimated GVA per enterprise during 2015-16, by State, broad activity category and enterprise type for the 22 major States of the country. GVA per enterprise for establishments over all categories was substantially higher over all the States and broad activity categories. Delhi had the highest GVA per enterprise for each of the three broad activity categories – Manufacturing (Rs. 7.13 lakhs), Trade (Rs. 4.59 lakhs) and ‘other services’ (Rs. 4.29 lakhs) during 2015-16. The lowest GVAPE among the 22 major States for manufacturing, trading and ‘other services’ were Rs. 64 thousand (Jharkhand), Rs. 1.14 lakhs (Jharkhand) and Rs. 1.10 lakhs (West Bengal) respectively. Considering all the own account enterprises engaged in manufacturing activities, West Bengal had the least GVAPE with Rs. 33 thousand. Among the manufacturing establishments, Bihar and Odisha had the lowest GVAPE (Rs. 3.01 lakhs). Odisha had the lowest GVAPE for OAEs engaged in both trading (Rs. 71 thousand) and ‘other services’

(Rs. 63 thousand) activities. Similarly, among the trading and 'other services' establishments, Assam had the lowest GVA per enterprise with Rs. 3.16 lakhs and Rs. 3.14 lakhs respectively.

3.5.11.3 During 2015-16, it can be observed that at all-India level, GVA per enterprise for market enterprises engaged in 'other service' activities was the highest with Rs. 2.11 lakhs, followed by GVAPE of Rs. 1.95 lakhs for trading enterprises and Rs. 1.36 lakhs for enterprises involved in manufacturing activities.

Ref: Table 19 of Appendix A

3.5.12 Gross Value Added per worker (GVAPW)

3.5.12.1 Gross Value Added per Worker (GVAPW) is a very important measure of labour productivity obtained by dividing the gross value added by the total number of workers employed by the enterprises. The worker definition for this survey includes both full time and part-time workers including working owners, hired workers (i.e., persons who are in the payroll of the enterprise), unpaid family members who help in the entrepreneurial activities and other helpers and apprentices. Equal weightage has been given to full time and part time workers.

3.5.12.2 **Statement 14.0** gives the gross value added per worker for each type of enterprise separately for rural, urban and combined sectors. GVAPW were substantially high in urban areas for each broad activity category. Also, the establishments had higher GVA per worker compared to OAEs for all sectors over all activity categories. During 2015-16, the gross value added per worker in the unincorporated non-agricultural sector (excluding construction) for the country was estimated at Rs. 1,03,741. GVAPW for rural and urban India were estimated as Rs. 69,263 and Rs. 1,31,754 respectively. For rural India, GVAPW for OAEs and establishments were estimated as Rs. 55,526 and Rs. 1,14,080 respectively. The corresponding estimates for urban areas were Rs. 96,653 and Rs. 1,67,577 respectively. GVAPW for enterprises engaged in manufacturing was much lower compared to trading and 'other services'. At all-India level highest GVAPW was for enterprise engaged in 'other services' activities estimated as Rs. 1,19,939 followed by 'trading' at Rs. 1,15,884 and manufacturing at Rs. 74,378.

Statement 14.0: Estimated GVA per worker for market enterprises by enterprise type and sector for each broad activity category

broad activity category	all-India								
	GVA per worker (Rs.)								
	rural			urban			rural + urban

Ref: Table 16 of Appendix A

3.5.13 Comparison of GVA per worker of NSS 67th round and NSS 73rd round

3.5.13.1 The GVA per worker in the unincorporated non-agricultural enterprises during 2015-16 as obtained from the NSS 73rd round survey grew by 78.3% at current prices over a period of five years since NSS 67th round (*Statement 14.1*). The growth was 82.6% in case of OAEs and 68.7% in case of establishments. However, it may be noted that the estimates of GVA per worker obtained from these two surveys are not directly comparable due to the difference in coverage and the difference in the definition of workers as used in these two rounds. In NSS 67th round,

office bearers and active members of Self Help Groups (SHGs) (i.e. those members of SHG who regularly participate in the meetings) were treated as working owners and were included in estimates of workers generated from the results of NSS 67th round. The active members of SHGs were not considered as working owners (and therefore workers) in NSS 73rd round. (Refer to Para 1.3.2.3 and 1.3.4 of Chapter 1 of this report).

Statement 14.1: GVA per worker (Rs) in NSS 67th round and NSS 73rd round			
all-India			
year/ NSS round	GVA per enterprise (Rs.)

2015-16 (NSS 73 rd round)*	73959	152703	103741
2010-11 (NSS 67 th round)	40498	90495	58193
Growth rate (%)[#]	82.6	68.7	78.3

*during NSS 73rd round, GVA estimates were worked out only for market enterprises whereas in NSS 67th round, these were worked out for all enterprises
GVA figures given in the Statement are at current prices.

3.5.13.2 A comparison by broad activity categories will be more realistic for manufacturing and trading where the differences mentioned in para 3.5.13.1 above are least affected. **Statement 14.2** gives the comparison of GVA per worker of NSS 67th round and NSS 73rd round by broad activity categories.

Statement 14.2: Growth in GVA per worker (Rs.) in NSS 73rd round over NSS 67th round									
all-India

GVA at current prices

3.5.13.3 Among the broad activity categories, trading enterprises recorded the lowest growth in GVA per worker (62.3%) at current prices, over the period of five years between NSS 67th round and NSS 73rd round. The growth in GVA per worker was 67.7% in case of manufacturing enterprises and 103.3% in case of other services. While the growth of GVA per worker of rural enterprises was less than urban enterprises in case of manufacturing and trading, the result was the opposite in case of ‘other services’.

Figure 5: Comparison of GVA per enterprise and GVA per worker (in Rs. '000) in different broad activity categories over different sectors

3.5.14 Gross Value Added per worker in different activity categories

3.5.14.1 **Statement 15.1** presents the estimated GVA per worker for market enterprises engaged in manufacturing activities for each sector and enterprise type. Among the manufacturing activities, 'Manufacture of electrical equipment' (M19) had the highest GVAPW with Rs. 3.05 lakhs in rural areas while 'Manufacture of machinery and equipment n.e.c' (M20) had the highest GVA per worker for urban (Rs. 2.69 lakhs) and also for combined (Rs. 2.63 lakhs) sectors. Similar to the GVA per enterprise, GVAPW is lowest for the manufacturing activity 'Manufacture of tobacco products' (M4) for all-India as well as separately for rural and urban sectors. The OAEs in urban areas had GVA per worker as Rs. 63 thousand while for their rural counterparts the estimated value is Rs. 36 thousand. Similarly, Rs. 1.41 lakhs is the estimated GVAPW for establishments belonging to the urban sector as compared to a much lower estimated value of Rs. 86 thousand in rural parts of the country.

3.5.14.2 Estimated GVA per worker in trading market enterprises by activity category and type of enterprise for each sector is presented in **Statement 15.2**. At all-India level, among all trading activity categories, the activity ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1) had the highest GVA per worker (Rs. 2.38 lakhs), during 2015-16. ‘Maintenance and repair of motor vehicles and motor cycles’ (T2) in urban areas (Rs. 1.15 lakhs) and ‘Other retail trade’ (T5) in rural sector (Rs. 68 thousand) had the lowest GVA per worker. The estimated GVA per worker for urban areas (Rs. 1.47 lakhs) is more than twice that in rural areas (Rs. 72 thousand). The highest GVAPW for establishments in urban sector was for ‘Activities of commission agents’ (T3) (Rs. 3.38 lakhs) while ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1) had the maximum GVAPW (Rs. 1.66 lakhs) in rural areas. OAEs engaged in ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1) in urban areas and ‘Other wholesale trade’ (T4) in rural areas had the highest GVAPW with Rs. 2.03 lakhs and Rs. 1.19 lakhs respectively.

3.5.14.3 **Statement 15.3** gives the GVA per worker for ‘other services’ market enterprises for each activity category by rural, urban and combined sectors and type of enterprise. The estimated GVA per worker for urban areas (Rs. 1.40 lakhs) is substantially higher than that in rural areas (Rs. 92 thousand). Gross value added per worker for enterprises pursuing ‘Accommodation’ (S1) was highest for urban (Rs. 3.04 lakhs) and combined (Rs. 2.91 lakhs) sectors. In rural areas, highest GVAPW (Rs. 2.71 lakhs) was for ‘Financial service activities except insurance and pension funding’ (S8). ‘Other community, social and personal service activities’ (S15) had the lowest GVA per worker in all the sectors. The OAEs engaged in ‘Financial service activities except insurance and pension funding’ (S8) in rural areas had the highest GVA per worker (Rs. 3.37 lakhs) while for urban areas, OAEs involved in ‘Other financial activities’ (S9) with the estimated GVAPW as Rs. 2.11 lakhs was the highest. Similarly, the estimated GVAPW of Rs. 3.39 lakhs for establishments engaged in ‘Water transport’ (S4) was the highest in the urban

sector while ‘Warehousing and storage’ (S5) with a GVAPW estimate of Rs. 2.25 lakhs was the highest for establishments in rural parts of the country.

3.5.15 Gross Value Added per worker in unincorporated non-agricultural enterprises of major States

3.5.15.1 The estimated GVA per worker during 2015-16, by State and type of enterprise for each sector is presented in **Statement 16.1**. GVA per worker across the major 22 States was higher in urban areas than rural areas. Again, the estimated gross value added per worker was higher for establishments as compared to OAEs over all the sectors. Delhi had the highest GVA per worker with Rs. 1.47 lakhs in rural sector and Rs. 2.03 lakhs for both urban and combined sectors respectively. Chhattisgarh and West Bengal, respectively, were the States with lowest GVA figure for this characteristic in rural and urban areas. Odisha had the lowest GVAPW of Rs. 43 thousand for OAEs while West Bengal with an estimate of GVAPW of Rs. 1.03 lakhs was the lowest for establishments.

3.5.15.2 **Statement 16.2** presents the estimated GVA per worker for all enterprises engaged in market activities over three broad categories and type of enterprises for 22 major States and all-India during 2015-16. Delhi had the highest GVA per worker for each of the three broad activity categories – manufacturing (Rs. 1.82 lakhs), trade (Rs. 2.33 lakhs) and ‘other services’ (Rs. 1.88 lakhs). Among the 22 major States, Odisha had lowest GVAPW values for manufacturing (Rs. 37 thousand) and ‘other services’ (Rs. 69 thousand) and Chhattisgarh had the lowest GVA per worker for trading (Rs. 65 thousand). Considering all the enterprises engaged in manufacturing activities, West Bengal had the least GVAPW with Rs. 25 thousand among the OAEs, while among the establishments, Andhra Pradesh had the lowest GVAPW (Rs. 74 thousand). Chhattisgarh had the lowest GVAPW for OAEs engaged in trading (Rs. 45 thousand) and ‘other services’ activities (Rs. 53 thousands) respectively. Similarly, among the trading and ‘other services’ establishments among these 22 major States, Madhya Pradesh and Odisha had the lowest GVA per worker with Rs. 1.13 lakhs and Rs. 93 thousand respectively.

3.6 Emoluments per hired worker

3.6.1 The workers in the unincorporated non-agricultural sector in India is dominated by own account workers and unpaid family members helping with the household enterprises. The estimates of workers derived from the survey (11.13 crore) showed that only a quarter of the estimated number of workers in the unincorporated non-agricultural sector (excluding construction) during 2015-16 is *hired worker* (2.94 crore). The survey collected detailed information on the emoluments paid to the hired workers in an enterprise.

3.6.2 The average annual emoluments per hired worker were higher in urban areas than rural areas for all broad activity categories. The average annual emolument per hired worker estimated from the survey was Rs. 87,544. The highest emolument per hired worker was reported for 'other services (Rs. 1,01,094) followed by trading (Rs. 80,267) and manufacturing (Rs. 75,595). Details are presented in **Statement 17**.

3.6.3 Annual emoluments per hired worker in unincorporated non-agricultural enterprises in major States

3.6.3.1 Statewise annual emoluments per hired worker for all unincorporated non-agricultural enterprises (excluding construction) during 2015-16 for sector and type of enterprise is presented in **Statement 18.1**. Annual emoluments per hired worker were highest for Kerala with Rs. 1.26 lakhs. Gujarat (Rs. 1.94 lakhs) and Haryana (Rs. 1.38 lakhs) had the maximum emoluments per hired worker for rural and urban sectors respectively. For urban areas, the emoluments per hired worker among OAEs were highest in Karnataka (Rs. 1.09 lakhs) and the same was reported to be highest in Himachal Pradesh (Rs. 76 thousand) for rural areas. Among the establishments in these 22 major States, Gujarat had highest emoluments of Rs. 1.95 lakhs per hired worker in rural areas and the highest annual emoluments per hired worker in the urban area was in the State of Haryana (Rs. 1.39 lakhs).

3.6.3.2 **Statement 18.2** shows the emoluments per hired worker for enterprises belonging to different broad activity categories over type of enterprise. Among the manufacturing and trading enterprises, Kerala had the highest emoluments per hired worker of Rs. 1.12 lakhs and Rs. 1.18 lakhs respectively. Haryana had the highest emolument of Rs. 1.65 lakhs per hired worker for the enterprises engaged in 'other services' enterprises.

3.6.3.3 In general, establishments had higher emoluments per hired worker than OAEs. During 2015-16, among the 22 major States, emoluments per hired worker for OAEs was highest for Delhi for trading enterprises with Rs. 1.02 lakhs. For OAEs engaged in manufacturing and 'other services' activities, highest emoluments per hired worker are for the States of Kerala (Rs. 94 thousand) and Himachal Pradesh (Rs. 88 thousand). Establishments involved in 'other services' activities in the State of Haryana had the highest emoluments per hired worker of Rs. 1.65 lakhs.

Kerala had the highest annual emoluments per hired worker for trading (Rs. 1.18 lakhs) and manufacturing (Rs. 1.12 lakhs) establishments.

3.7 Gross Value Added (GVA) per enterprise by location

3.7.1 Information on the location of the enterprise was collected from each of the unincorporated non-agricultural enterprises (excluding construction) surveyed during 2015-16 throughout the country. Broadly, the location of the enterprise was categorised into two types – ‘within household premises’ and ‘outside household premises’. For the enterprises operating from ‘outside household premises’, following were the different types of locations into which the surveyed enterprises were classified – with fixed premises and with permanent structure, with fixed premises and with temporary structure/ kiosk/ stall, with fixed premises but without any

structure, mobile market and without any fixed premises (street vendors). **Statement 19** represents the gross value added per enterprise (GVAPE) by location of enterprise for each of the broad activity categories and types of enterprise.

3.7.2 It has been observed that the GVAPE for enterprises located ‘outside household premises’ was higher as compared to those enterprises located ‘within household premises’ for all types of enterprises. The survey revealed that the manufacturing enterprises operating ‘outside household premises’ had the maximum GVAPE (Rs. 3,26,810), followed by ‘other services’ (Rs. 2,58,856) and trading (Rs. 2,29,383) enterprises. Among the enterprises operating from ‘within household premises’, enterprises engaged in trading activities had the highest GVA per enterprise (Rs. 1,14,616), followed by Rs. 1,12,284 for ‘other services’ activities and manufacturing activities (Rs. 63,005). For the enterprises operating from ‘outside household premises’, GVA per enterprise was the highest for establishments engaged in ‘other services’ activities (Rs. 8,02,717) and lowest for trading activities with Rs. 6,09,636. GVAPE for OAEs was highest for the enterprises belonging to trading activity and operating from ‘within household premises’ with estimates of Rs. 91,216. The highest GVAPE for OAEs in ‘outside household premises’ was also for trading activities (Rs. 1,36,174).

Statement 19: Gross value added per enterprise for each broad activity category by location of enterprise and enterprise type

3.7.3 Gross Value Added (GVA) per enterprise by location in different activity categories

3.7.3.1 **Statement 20.1** represents the GVA per market enterprise (GVAPE) in manufacturing by location of enterprise for each activity category. It has been observed that the GVAPE for enterprises located ‘outside household premises’ were higher as compared to those enterprises located ‘within household premises’.

Statement 20.1: GVA per enterprise by location for market enterprises in manufacturing by sector for each activity category

M1: Cotton ginning, cleaning and baling, M2: Manufacture of food products, M3: Manufacture of beverages, M4: Manufacture of tobacco products, M5: Manufacture of textiles, M6: Manufacture of wearing apparel, M7: Manufacture of leather and related products, M8: Manufacture of wood and products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials, M9: Manufacture of paper and paper products, M10: Printing and reproduction of recorded media, M11: Manufacture of coke and refined petroleum products, M12: Manufacture of chemicals and chemical products, M13: Manufacture of pharmaceuticals, medicinal chemical and botanical products, M14: Manufacture of rubber and plastics products, M15: Manufacture of other non-metallic mineral products, M16: Manufacture of basic metals, M17: Manufacture of fabricated metal products, except machinery and equipment, M18: Manufacture of computer, electronic and optical products, M19: Manufacture of electrical equipment, M20: Manufacture of machinery and equipment n.e.c., M21: Manufacture of motor vehicles, trailers and semi-trailers, M22: Manufacture of other transport equipment, M23: Manufacture of furniture, M24: Other manufacturing, M25: Repair and installation of machinery and equipment, M: Manufacturing activities (Total)

Ref: Table 20 of Appendix A

3.7.3.2 At all-India level, among manufacturing enterprises operating from ‘outside household premises’, ‘Manufacture of machinery and equipment n.e.c.’ (M20) had the highest (Rs. 20.02 lakhs) GVAPE and ‘Manufacture of tobacco products’ (M4) had the lowest (Rs. 1.94 lakhs) GVAPE during 2015-16. For the rural sector, ‘Manufacture of electrical equipment’ (M19) had the highest (Rs. 13.17 lakhs) gross value added per enterprise among those operating from ‘outside household premises’ while those engaged in ‘Manufacture of wearing apparel’ (M6) had the lowest (Rs. 1.08 lakhs). In the urban sector, GVAPE was highest (Rs. 20.62 lakhs) and lowest (Rs. 2.19 lakhs) for activity categories ‘Manufacture of machinery and equipment n.e.c.’ (M20) and ‘Repair and installation of machinery and equipment’ (M25) respectively.

3.7.3.3 The gross value added per market enterprise (GVAPE) in trading by location of enterprise for each activity category is given in **Statement 20.2**. Among trading enterprises which had operated from ‘outside household premises’, ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1) had maximum GVAPE in rural and combined sectors – Rs. 2.97 lakhs and Rs. 6.17 lakhs respectively. For the urban sector, enterprises engaged in ‘Activities of commission agents’ (T3) had the highest GVAPE with Rs. 7.40 lakhs. Enterprises engaged in ‘Other retail trade’ (T5) and operating from ‘outside household premises’ had the minimum (Rs. 1.93 lakhs) gross value added per enterprise in the combined sector.

Statement 20.2: GVA per enterprise by location for market enterprises in trading by sector for each activity category

all-India

3.7.3.4 **Statement 20.3** presents the GVA per market enterprise (GVAPE) in ‘other services’ by location of enterprise for each activity category. ‘Other services’ enterprises pursuing ‘Accommodation’ (S1) was the activity earning highest GVA per enterprise among those operating from ‘outside household premises’ in urban (Rs. 18.53 lakhs) as also the combined

sector (Rs. 17.03 lakhs). The lowest GVA per enterprise for those operating from 'outside household premises' in the urban and combined sectors were Rs. 1.70 lakhs and Rs. 1.28 lakhs respectively for the activity category 'Other community, social and personal service activities' (S15). In rural sector, the highest GVA per enterprise (Rs. 26.45 lakhs) was reported for enterprises involved in 'Warehousing and storage' (S5) while the lowest (Rs. 42 thousand) in this category was reported for 'Financial service activities except insurance and pension funding' (S8) enterprises operating from 'outside household premises'.

Statement 20.3: GVA per enterprise by location for market enterprises in 'other services' by sector for each activity category

3.7.4 Gross Value Added per enterprise by location in major States

3.7.4.1 The GVA per enterprise (in Rs.) by location for major States and sectors are presented in **Statement 21.1**. Kerala had the highest GVAPE of Rs. 2.72 lakhs among the enterprises operating from 'outside household premises' in rural sector while those in urban parts of Delhi had the highest GVAPE of Rs. 5.66 lakhs. For the combined sector, GVA per enterprise for those located 'outside household premises' were highest (Rs. 5.63 lakhs) for Delhi and lowest (Rs. 1.37 lakhs) for Odisha.

Statement 21.1: GVA per enterprise by location for all market enterprises by State and sector

Figure 6: GVA per enterprise by location in major States

3.7.4.2 **Statement 21.2** gives State wise estimates of GVA per enterprise (in Rs.) by location and broad activity category. The survey revealed that at all-India level, the GVAPE for manufacturing enterprises (Rs. 3.27 lakhs) located ‘outside household premises’ were highest followed by those involved in ‘other services’ (Rs. 2.59 lakhs) and trading (Rs. 2.29 lakhs) activities. The enterprises located both ‘within household premises’ and ‘outside household premises’ in Delhi had the highest gross value added per enterprise over all the three broad activity categories. West Bengal had the lowest GVAPE (Rs. 1.24 lakhs) among the enterprises situated ‘outside household premises’ and engaged in ‘other services’ activities. For trading and manufacturing activities, lowest GVA per enterprise for those located ‘outside household premises’ were recorded by Jharkhand (Rs. 1.40 lakhs) and Odisha (Rs. 1.31 lakhs) respectively.

Statement 21.2: GVA per enterprise by location for all market enterprises by State and broad activity category

State	GVA per enterprise (in Rs. '000)

all-India	63	327	136	115	229	195	112	259	211

Ref: Table 21 of Appendix A

3.7.4.3 Among the enterprises operating from 'within household premises', highest GVA was recorded by Delhi – Rs. 3.87 lakhs for manufacturing, Rs. 2.76 lakhs for trading and Rs. 2.44 lakhs for 'other services' activities. The lowest GVAPE for enterprises located 'within household premises' within each of the three broad activity categories were observed for the states of West Bengal (Rs. 42 thousand) for manufacturing, Odisha (Rs. 67 thousand) for trading and Andhra Pradesh (Rs. 62 thousand) for the enterprises pursuing 'other services' activities.

3.8 Gross Value Added per worker by normal working hours

3.8.1 **Statement 22** presents GVA per worker by number of normal working hours in a day of all enterprises engaged in market production separately for sector and type of enterprise. At all-India level, it was observed that market enterprises with 8 or more working hours in a day had GVA per worker of Rs. 84,760 for rural, Rs. 1,43,031 for urban and Rs. 1,20,619 for the combined sector. Also the survey revealed that GVA per worker was higher for establishments as compared to OAEs for all the different working hours in a day during reference month.

Statement 22: Estimated GVA per worker by number of normal working hours in a day of all market enterprises for each sector and type of enterprise

normal working hours in a day during reference month	GVA per worker (Rs.)

Ref: Table 24 of Appendix A

3.8.2 **Statement 23.1** shows Gross Value Added per worker by number of normal working hours in a day of all manufacturing enterprises engaged in market production separately for sector and type of enterprise. The all-India estimate of GVA per worker for enterprises which had 8 or more working hours in a day was much higher (Rs. 99,968) compared to the enterprises with 4 to 7 working hours (Rs. 36,581) and less than 4 working hours (Rs. 18,491). GVA per worker for urban sector was higher than that of rural sector in all the ranges of working hours.

Statement 23.1: Estimated GVA per worker by number of normal working hours in a day of market enterprises in manufacturing for each sector and type of enterprise

normal working hours in a day during reference month	GVA per worker (Rs.)

Ref: Table 24 of Appendix A

3.8.3 GVA per worker by number of normal working hours in a day of trading market enterprises over sector and type of enterprise is presented in **Statement 23.2**. GVA per worker were Rs. 1,23,289, Rs. 73,840 and Rs. 50,224 for enterprises with ‘8 or more working hours’, ‘4 to 7 working hours’ and ‘less than 4 working hours’ respectively. Establishments, pursuing trading activities, located in urban areas depicted a higher GVA per worker in enterprises working for 4 to 7 hours a day than those with 8 or more working hours. Establishments had much higher GVAPW than that of OAEs. For the enterprises working for less than 4 hours, GVA per worker for OAEs (Rs. 40,337) was substantially low compared to that for establishments (Rs. 1,33,324).

Statement 23.2: Estimated GVA per worker by number of normal working hours in a day of market enterprises in trading for each sector and type of enterprise

3.8.4 **Statement 23.3** shows Gross Value Added per worker by number of normal working hours in a day of all ‘other services’ enterprises, engaged in market production, separately for sector and types of enterprise. Urban areas accounted for higher GVA per worker than for the rural areas in all ranges of normal working hours. Enterprises engaged in market production with ‘other services’ activities, except for rural enterprises with less than 4 working hours in a day, had higher GVA per worker for establishments compared to OAEs.

3.9 Fixed assets owned by Enterprise

3.9.1 The survey collected information on various fixed assets, owned and hired, by the unincorporated enterprises. For the purpose of the survey, fixed assets are defined as those produced assets held for the purpose of producing or providing goods or services and not for resale in the normal course of entrepreneurial activities and covered all assets that had a normal economic life of more than one year from the date of purchase viz. building, plant & machinery, transport equipment, tools & other fixed assets, software and database, information, computer and telecommunication equipment, capital work in progress. The information on the market value of these fixed assets owned as on last date of the reference period and as reported by the respondent was collected separately for each asset. This is referred to as 'reported market value' in the following paragraphs.

3.9.2 The estimated value of total owned fixed assets per enterprise by broad activity category for different enterprise types are presented in **Statement 25**. At all-India level, the reported market value of owned fixed assets per enterprise was estimated as Rs. 2,31,870. The reported market value of owned fixed assets per enterprise in urban areas was more than double the corresponding value in rural areas and the per enterprise value of owned fixed assets for establishments was about 7 times that of OAEs. The broad activity category 'other services' reported the highest value of owned fixed assets per enterprise (Rs.3,28,060) followed by trading (Rs. 2,03,859) and manufacturing (Rs.1,63,499).

Ref: Table 26 of Appendix A

3.9.3.1 **Statement 26.1** presents the value of owned fixed assets per manufacturing enterprise for each activity category across different sectors and type of enterprises. In general, the reported market value of fixed assets owned per enterprise by establishments of urban areas are higher than those located in rural sector, with an exception of ‘Cotton ginning, cleaning and bailing’ (M1), ‘Manufacture of coke and refined petroleum products’ (M11) and ‘Manufacture of pharmaceuticals, medicinal chemical and botanical products’ (M13) categories. Among the manufacturing activities, the estimated value of owned fixed assets was highest for ‘Manufacture of machinery and equipment n.e.c.’ (M20) with Rs. 49.81 lakhs for urban while for rural, the corresponding value was Rs. 16.17 lakhs for ‘Manufacture of coke and refined petroleum products’ (M11). Lowest value of fixed assets (owned) per enterprise had been observed for the manufacturing enterprises engaged in ‘Manufacture of tobacco products’ (M4) for all-India (Rs. 32 thousand) as well as separately for rural (Rs. 29 thousand) and urban (Rs. 42 thousand) sectors. ‘Manufacture of machinery and equipment n.e.c.’ (M20) had the highest reported market value of owned fixed assets per enterprise (Rs. 45.72 lakhs) for all types of enterprises at all-India level.

3.9.3.2 Estimated value of owned fixed assets per trading enterprise by activity category for each sector and enterprise type is presented in **Statement 26.2**. Among all trading activity categories, the activity ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1) had the highest market value of owned fixed assets per enterprise at Rs. 2.38 lakhs for rural India while ‘Activities of commission agents’ (T3) recorded maximum value with Rs. 7.26 lakhs for the urban part. The value of fixed assets owned per enterprise by establishments engaged in ‘Activities of commission agents’ (T3) in the urban sector (Rs. 13.69 lakhs) was about four times higher than their counterparts of rural areas (Rs. 3.27 lakhs). The highest value of owned fixed assets per enterprise was reported to be Rs. 5.38 lakhs by enterprises engaged in ‘Activities of commission agents’ (T3) at all-India level.

Statement 26.2: Reported market value of owned fixed assets per trading enterprise (Rs.) by activity category for enterprise type and sector

3.9.3.3 Value of owned fixed assets per enterprise for 'other services' enterprises are shown in **Statement 26.3** by activity category for each sector and enterprise type. Both for combined and urban sectors, enterprises involved in - 'Accommodation' (S1) had the highest reported market value for owned assets per enterprise with Rs. 39.99 lakhs and Rs. 39.79 lakhs respectively. But for rural areas, reported value of owned fixed assets per enterprise was highest for enterprises engaged in 'Warehousing and storage' (S5) (Rs. 83.24 lakhs). The value of owned fixed assets per enterprise for establishments located in rural areas and pursuing 'Warehousing and storage' (S5) activity was five times higher than their urban counterparts. The reported market value of owned fixed assets per enterprise was lowest for 'Financial service activities except insurance and pension funding' (S8) for both rural and urban sectors. Considering all the enterprises engaged in 'other services' category together, the reported market value of owned fixed assets per enterprise in urban areas (Rs. 4.43 lakhs) was about twice the corresponding value in rural areas (Rs. 2.10 lakhs) and value of owned fixed assets per enterprise for establishments (Rs. 11.85 lakhs) was about eight times than that of OAEs (Rs. 1.47 lakhs).

3.9.3.4 **Statement 26.4** presents the value of different types of owned fixed assets per enterprise for all unincorporated non-agricultural enterprises (excluding construction) during 2015-16 for the three broad activity categories. At all-India level, the reported market value of owned fixed assets was estimated at Rs. 2,31,870. Major share of the value of fixed assets was originating from buildings owned by the enterprises. The reported market value of building as fixed assets per enterprise was found to be highest for 'other services' with Rs. 1,95,897, followed by that of trading (Rs. 1,51,465) and manufacturing (Rs. 98,667). The values of 'software and hardware' (Rs. 162) and 'capital work in progress' (Rs. 407) for an enterprise was observed to be insignificant among all different types of owned assets for the enterprises engaged in the three broad activity categories. Enterprises engaged in manufacturing activities owned 'plant and machinery' worth Rs. 46,395, the highest among the three broad activity categories. Market value of other fixed assets (except plant and machinery) was highest for 'other services' enterprises at all-India level considering all types of enterprises.

Statement 26.4: Reported market value (Rs.) of types of owned fixed assets per enterprise (in Rs.) for each broad activity category

3.9.4 Owned fixed assets of unincorporated non-agricultural enterprises in major States

3.9.4.1 Reported market value of owned fixed assets per enterprise for all unincorporated non-agricultural enterprises (excluding construction) during 2015-16 for major States by sector and type of enterprise is presented in **Statement 27.1**. At all-India level, Maharashtra (Rs. 5.09 lakhs), Gujarat (Rs. 4.62 lakhs) and Delhi (Rs. 4.54 lakhs) were the top three States in respect of market value of owned fixed assets per enterprise. West Bengal (Rs. 79 thousand), Assam (Rs. 91 thousand) and Odisha (Rs. 95 thousand) were the bottom three States in terms of value of owned fixed assets. Establishments in Gujarat had the maximum market value of owned fixed assets per enterprise for both urban (Rs. 19.67 lakhs) and rural (Rs. 21.77 lakhs) sectors of the country. Among the own account enterprises of rural areas, highest value in this category was

observed for the State of Himachal Pradesh (Rs. 1.91 lakhs) while the maximum value per OAE for urban areas was observed in Maharashtra (Rs. 3.21 lakhs).

3.9.4.2 **Statement 27.2** presents the value of owned fixed assets per enterprise for all unincorporated non-agricultural enterprises (excluding construction) by State, broad activity category and type of enterprise. Among the trading and 'other services' enterprises, Maharashtra had the highest market value of owned fixed assets per enterprise with Rs. 4.91 lakhs and Rs. 6.35 lakhs respectively. Among the 22 major States, Assam (Rs. 57 thousand) and West Bengal (Rs. 1.19 lakhs) had lowest market value of fixed assets per enterprise for trading and 'other services' enterprises respectively. Gujarat (Rs. 5.56 lakhs) and West Bengal (Rs. 50 thousand) respectively had the highest and lowest market value of owned fixed assets among the enterprises engaged in manufacturing activities. In general, establishments reported higher value of owned fixed assets per enterprise than own account enterprises for all the major States during 2015-16.

Ref: Table 29 of Appendix A

3.10 Gross Value Added to fixed assets ratio of unincorporated non-agricultural enterprises

3.10.1 Gross value added to fixed assets (taking together owned and hired) ratio is a measure of income generated per unit of fixed capital and also measures the extent of utilization of fixed assets in the business. Generally speaking, the higher the ratio, the better, because a high ratio indicates the business has less money tied up in fixed assets. A lower ratio may indicate that the business is over-invested in plant, equipment, or other fixed assets.

3.10.2 **Statement 28** shows the ratio of GVA per enterprise to fixed assets (taking together both owned and hired) per enterprise expressed as percentage for different broad activity categories by enterprise type for rural, urban and combined sectors. The figures reveal the ratio of GVA to

fixed assets for OAEs (54.2%) was better than that of establishments (50.7%) at all-India level. Same trend was found in rural sector, but the scenario was reverse for urban sector where the ratio was computed as 47.6% for establishments in comparison to that of 45.9% for OAEs. During 2015-16, manufacturing enterprises had used their fixed assets most efficiently among the three broad activity categories. Performance of rural enterprises was better than those operating from urban areas.

Statement 28: GVA to fixed assets ratio per enterprise by broad activity category for sector and enterprise type

Ref: Tables 18 and 28 of Appendix A

3.10.3.1 From **Statement 29.1**, it is seen that GVA to fixed assets ratio for establishments (59.2%) in manufacturing sector is slightly higher than that for OAEs (58.9%) at all-India level. ‘Manufacture of other non-metallic mineral products’ (M15) had the highest ratio (97.9%) followed by ‘Manufacture of wood and products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials’ (M8) (89.1%) and ‘Manufacture of furniture’ (M23) with 88.0%. The activity categories ‘Manufacture of computer, electronic and optical products’ (M18) (29.1%), ‘Printing and reproduction of recorded media’ (M10) (32.2%) and ‘Manufacture of motor vehicles, trailers and semi-trailers’ (M21) (36.3%) had the lowest GVA to fixed assets ratios. In the rural sector, highest (165.3%) and lowest (24.9%) were seen for activity categories ‘Manufacture of electrical equipment’ (M19) and ‘Manufacture of motor vehicles, trailers and semi-trailers’ (M21) respectively. For the urban sector, ‘Cotton ginning, cleaning and bailing’ (M1) and ‘Manufacture of computer, electronic and optical products’ (M18) had the highest (77.2%) and lowest (28.7%) GVA to fixed assets ratios among all manufacturing activities.

T1: Wholesale and retail trade of motor vehicles and motor cycles, T2: Maintenance and repair of motor vehicles and motor cycles, and repair, T3: Activities of commission agents, T4: Other wholesale trade, T5: Other retail trade, T: Trading activities (Total)

Ref: Tables 18 and 28 of Appendix A

3.10.3.2 For all-India trading sector, GVA to fixed assets ratios for OAEs and establishments were 57.1% and 53.8% as can be observed from **Statement 29.2**. GVA to fixed assets ratios are substantially higher for enterprises located in rural sector (82.9%) in comparison to 49.8% of urban sector. Rural establishments (85.4%) have performed better than rural OAEs (82.2%). Better performance of urban establishments (51.2%) over OAEs (48.0%) was observed in trading sector. The highest GVA to fixed assets ratio was observed in ‘Other wholesale trade’ (T4) for both rural (141.1%) and combined (67.7%) sectors. In urban sector, enterprises engaged in ‘Activities of commission agents’ (T3) recorded the highest GVA to fixed assets ratio with 64.9%. The lowest GVA to fixed assets ratios for urban (46.1%) and combined (52.7%) sectors were from ‘Other retail trade’ (T5). ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1) had the lowest GVA to fixed assets ratio (69.8%) in rural areas.

3.10.3.3 In 'other services' sector, GVA to fixed assets ratio of OAEs (60.7%) was higher than that of establishments (52.5%) in rural sector. In the urban sector, the GVA to fixed assets ratio is almost same for both OAEs and establishments. **Statement 29.3** shows that, during 2015-16 for the entire country, OAEs (48.4%) in 'other services' sector performed better than the establishments (44.7%). Highest performances were achieved by 'Water transport' (S4) in rural (111.7%) and combined (73.9%) sectors. For urban areas, the highest ratio was reported by 'Financial service activities except insurance and pension funding' (S8) as 74.6%. However, GVA to fixed assets ratios were lowest for 'Warehousing and storage' (S5) in urban (12.4%) and combined (16.2%) sectors but for rural areas the lowest ratio (14.7%) was observed for 'Real estate activities' (S10).

3.10.4 GVA to fixed assets ratio of unincorporated non-agricultural enterprises in major States

3.10.4.1 GVA to fixed assets ratios computed for each of the 22 major States by enterprise type separately for rural, urban and combined sectors for all activities taken together and for

enterprise type are presented in **Statement 30.1**. Among the top 5 States namely Maharashtra, Uttar Pradesh, Tamil Nadu, Karnataka and West Bengal which accounted for nearly 47% (*refer Statement 10.0*) of the total share of GVA at all-India level during 2015-16, highest GVA to fixed assets ratio (99.3%) was recorded for West Bengal with corresponding ratios for OAEs and establishments recorded at 97.6% and 101.8% respectively. The lowest GVA to fixed assets ratio among these top 5 States was observed in Maharashtra (29.3%) with corresponding ratios for OAEs and establishments as 30.9% and 28.5%. GVA to fixed assets ratios for rural were higher than that of urban areas for all enterprise types for all States, except Delhi, Haryana, Himachal Pradesh, Tamil Nadu and Uttarakhand.

3.10.4.2 **Statement 30.2** presents the GVA to fixed assets ratio per enterprise for all enterprises by enterprise type separately for the three broad activity categories. In manufacturing sector, among the top 5 States with about 47% share of GVA (*refer Statement 10.0*), highest GVA to fixed assets ratio of 115.8% was recorded for West Bengal with corresponding ratios for OAEs and establishments recorded at 97.8% and 136.3% respectively. The lowest ratio among these

States was observed in Maharashtra (32.4%) with corresponding GVA to fixed assets ratios for OAEs and establishments recorded at 34.7% and 31.6% respectively. West Bengal had the highest GVA to fixed assets ratio for both trading and 'other services' enterprises also, for combined sector, with 119.1% and 74.0% respectively. The lowest GVA to fixed assets ratio for these two broad activity categories were observed in Maharashtra with corresponding ratios of 27.8% (for trading) and 29.5% (for 'other services'). Among these three broad activity categories, ratios of GVA to fixed assets for OAEs was highest for manufacturing with 58.9%, followed by 57.1% of trading and 48.4% of 'other services'. Similarly for establishments, ratio of GVA to fixed assets was highest for manufacturing enterprises (59.2%) followed by a ratio of 53.8% for trading enterprises and finally, 44.7% as the GVA to fixed assets ratio by enterprises belonging to 'other services' category.

3.11 Annual rental payable on hired fixed assets

3.11.1 Data on ‘rental payable on hired fixed assets’ of the enterprise for the reference month was collected from the surveyed unincorporated non-agricultural enterprises during 2015-16. **Statement 31** presents the annual rental payable on hired fixed assets per enterprise for different broad activity categories and type of enterprise. The figure revealed that annual rental for establishments (Rs. 29,090) was almost seven times higher than that of OAEs (Rs. 4,153) at all-India level. Annual rental payable per enterprise was highest for trading establishments (Rs. 32,863) followed by ‘other services’ with Rs. 31,937 and Rs. 20,765 of manufacturing enterprises.

3.11.2 Annual rental payable on hired fixed assets in different activity categories

3.11.2.1 Details of annual rental payable on hired fixed assets in different manufacturing activity categories are presented in **Statement 32.1**. Among different manufacturing activities, the annual rental payable on hired fixed assets was highest (Rs. 32,977) for those enterprises which were engaged in ‘Manufacture of other transport equipment’ (M22) and it was lowest (Rs. 106) in ‘Manufacture of tobacco products’ (M4). The annual rental was much higher for establishments as compared to OAEs for all manufacturing activities. Highest annual rental payable (Rs. 18,607) for manufacturing OAEs was observed in ‘Manufacture of computer, electronic and optical products’ (M18) while the same for establishments was for the activity ‘Manufacture of rubber and plastics products’ (M14) (Rs. 56,354). ‘Manufacture of tobacco products’ (M4) was the activity for which the annual rental payable for both OAEs and establishments was lowest with Rs. 97 and Rs. 908 respectively.

3.11.2.2 From **Statement 32.2**, it is noted that for all-India trading sector, the annual rental payable on hired fixed assets was highest (Rs. 27,497) for those enterprises which were engaged in ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1). This activity had the highest rental payable for hired fixed assets for both OAEs as well as establishments with Rs. 15,798 and Rs. 43,451 respectively. It was estimated lowest (Rs. 7,392) for ‘Activities of commission agents’ (T3). As in the case of manufacturing enterprises, here also the annual rental payable on hired fixed assets was higher for establishments as compared to OAEs.

3.11.2.3 **Statement 32.3** shows that, during 2015-16, among different enterprises engaged in ‘other services’ in the entire country, the annual rental payable on hired fixed assets was highest (Rs. 77,171) for those enterprises engaged in ‘Warehousing and storage’ (S5). OAEs engaged in ‘Accommodation’ (S1) and establishments engaged in ‘Warehousing and storage’ (S5) reported highest values of this attribute at Rs. 25,695 and Rs. 1,27,214 respectively. For the enterprises with ‘Water transport’ (S4) activity, the annual rental payable on hired fixed assets per enterprise was lowest with Rs. 2,261 for establishments and Rs. 397 for all enterprises.

3.11.3 Annual rental payable on hired fixed assets by unincorporated non-agricultural enterprises in major States

3.11.3.1 Estimated annual rental payable on hired fixed assets for the 22 major States by broad activity category and enterprise type is presented in **Statement 33**. The highest value of annual rental payable on hired fixed assets was observed in enterprises located in Delhi for manufacturing (Rs. 19.8 thousand) activities. The trading enterprises of Kerala reported the highest annual rental payable on hired fixed assets of Rs. 25.1 thousand. For 'other services' activity, the highest annual rental payable on hired fixed assets per enterprise was estimated for the State of Maharashtra with Rs. 22.3 thousand. West Bengal had the lowest annual rental payable on hired fixed assets per enterprise of Rs. 0.5 thousand in manufacturing, Rs. 1.3 thousand in trading and Rs. 2.6 thousand in 'other services'. Establishments located in Telangana, Chhattisgarh and Maharashtra, reported the highest annual rental payable on hired fixed assets for establishments in 'other services' (Rs. 70.8 thousand), trading (Rs. 65.5 thousand) and manufacturing (Rs. 54.1 thousand) respectively. Manufacturing OAEs of Delhi

(Rs. 9.2 thousand), trading OAEs of Karnataka (Rs. 13.2 thousand) and OAEs engaged in 'other services' activities in Maharashtra (Rs. 10.7 thousand) recorded the maximum rental payable on hired fixed assets for the own account enterprises engaged in the three broad activity categories.

3.12 Net additions to owned land and fixed assets in major States

3.12.1 **Statement 34.0** shows the net additions to owned land and fixed assets per enterprise during last 365 days/last year by type of assets. Information on different types of assets are categorized under several heads, such as, land, building, plant and machinery, transport equipment, tools and other fixed assets, software & hardware, information, computer and telecommunication equipment and capital work in progress. The survey revealed that during 2015-16, at all-India level the net additions to owned land and fixed assets per enterprise was Rs. 8,623. Among the major States, Gujarat (Rs. 47,688), Kerala (Rs. 25,392) and Himachal Pradesh

(Rs. 13,211) were the top three States in terms of net additions to owned land and fixed assets per enterprise. Bihar had the lowest (Rs. 1,012) value of net addition to owned land and fixed assets per enterprise among the 22 major States. It has also been observed that during the survey period, on an average an enterprise has the maximum net additions to the asset in 'building' and 'plant and machinery' as compared to other assets at all-India level.

Statement 34.0: Net additions to owned land and fixed assets per enterprise (in Rs.) during last 365 days/ last year by type of asset for major States

3.12.2 The net additions to owned land and fixed assets per manufacturing enterprise during last 365 days/last year by type of assets is presented in **Statement 34.1**. Net additions to owned land and fixed assets per manufacturing enterprise at all-India level was estimated as Rs. 9,787 during the survey period. Among the major States, Gujarat (Rs. 96,275) followed by Haryana (Rs. 14,802) and Kerala (Rs. 13,514) were the top three States in net additions to owned land and fixed assets per manufacturing enterprise. It has also been observed that during the survey period, on an average a manufacturing enterprise had the maximum net additions to 'plant and machinery' at all-India level. Bihar, Telangana and Jharkhand were the bottom three States having net additions to owned land and fixed assets about Rs. 233, Rs. 278 and Rs. 283 respectively.

3.12.3 The top three States with respect to total net additions to owned land and fixed assets per trading enterprise over all categories were Kerala (Rs. 19,172), Gujarat (Rs. 9,714) and Karnataka (Rs. 8,451) among the major States at all-India level. It has been observed that at all India level the net additions to owned land and fixed assets per trading enterprise were Rs. 4,334. The lowest net addition of Rs. 88 to owned land and fixed assets per trading enterprise was reported for Assam. On an average, a trading enterprise had the maximum net additions (Rs. 1,795) to the asset 'building' as compared to other studied assets at all-India level. Details are given in **Statement 34.2**.

Ref: Table 33 of Appendix A

3.12.4 **Statement 34.3** presents the net additions to owned land and fixed assets per 'other services' enterprise during last 365 days/last year by type of assets. At all-India level, the net additions to owned land and fixed assets per 'other services' enterprise was Rs. 12,294. Among

the major States, Kerala (Rs. 35,569), Gujarat (Rs. 27,717) and Karnataka (Rs. 27,269) were the top three States by net additions to owned land and fixed assets per 'other services' enterprise. The lowest value for this attribute was observed for the State of Assam with Rs. 154. During the survey period, on an average an 'other services' enterprise had the maximum net additions (Rs. 4,516) to the owned fixed asset 'building' as compared to other owned fixed assets at all-India level.

Statement 34.3: Net additions to owned land and fixed assets per 'other services' enterprise (in Rs.) during last 365 days/ last year by type of asset for major States

State	net additions (in Rs.) to owned land and fixed assets during last 365 days/last year

3.13 Outstanding loans per enterprise

3.13.1 The data on outstanding loans of enterprises as on the last date of reference year had been collected to assess the financial liability of the unincorporated non-agricultural enterprises (excluding construction). **Statement 35** shows the outstanding loans per enterprise by enterprise type and sector for each broad activity category. The survey revealed that, in the combined sector, outstanding loans per enterprise for all enterprises during 2015-16 was estimated at Rs. 27,470. For establishments it was estimated at Rs. 1,24,729 in the combined sector which was about thirteen times higher than the corresponding estimate of outstanding loans per OAEs (Rs. 9,183). A similar trend was also observed in both the rural and urban areas.

Statement 35: Outstanding loans per enterprise (in Rs.) for each broad activity category by sector and enterprise type

3.13.2 Outstanding loans per enterprise in different activity categories

3.13.2.1 **Statement 36.1** presents the value of outstanding loans per manufacturing enterprise for each activity category across different sectors. Among the manufacturing activities, the estimated value of outstanding loans was highest for 'Manufacture of machinery and equipment n.e.c.' (M20) with Rs. 14.58 lakhs for urban and for rural the corresponding value was Rs. 2.07 lakhs for 'Manufacture of pharmaceuticals, medicinal chemical and botanical products' (M13). Lowest value of outstanding loans per enterprise had been observed for the manufacturing enterprises engaged in 'Manufacture of tobacco products' (M4) for all-India (Rs. 1.3 thousand) as well as for urban (Rs. 0.3 thousand) while for rural sector Rs. 1.3 thousand was the lowest value in this category for 'Manufacture of wearing apparel' (M6). 'Manufacture of machinery and equipment n.e.c.' (M20) had the highest amount of outstanding loans per enterprise (Rs. 13.41 lakhs) for all types of enterprises at all-India level.

3.13.2.2 Among all trading activity categories, the activity ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1) had the highest amount of outstanding loans per enterprise at Rs. 81.6 thousand for rural India and Rs. 104.2 thousand for the urban part while the estimated value for combined sector was Rs. 100 thousand. Estimated outstanding loans per trading enterprise by activity category for each sector and enterprise type are presented in **Statement 36.2**. The value of outstanding loans per enterprise by establishments engaged in ‘Wholesale and retail trade of motor vehicles and motor cycles’ (T1) was highest in the combined sector (Rs. 2.08 lakhs) as also separately for rural (Rs. 1.90 lakhs) and urban (Rs. 2.11 lakhs) sectors. At all-India level, the outstanding loans for OAEs located in urban areas (Rs. 13.3 thousand) was almost twice that of their rural counterparts (Rs. 6.7 thousand).

3.13.2.3 Both for combined and rural sectors, enterprises involved in ‘other services’ activity - ‘Warehousing and storage’ (S5) had the highest outstanding loans per enterprise with Rs. 7.43 lakhs and Rs. 33.87 lakhs respectively. But for urban areas, value of outstanding loans was highest (Rs. 2.87 lakhs) for enterprises engaged in ‘Accommodation’ (S1). The value of outstanding loans per enterprise (Rs. 60.52 lakhs) for establishments located in rural areas was for the enterprises pursuing ‘Warehousing and storage’ (S5) activity. Outstanding loans per enterprise were lowest for ‘Other community, social and personal service activities’ (S15) separately for rural and urban sectors as well as for the combined sector. By taking all the enterprises engaged in ‘other services’ category together, the outstanding loans per establishment (Rs. 146.4 thousand) was about nine times the corresponding value for each own account enterprise (Rs. 15.3 thousand). Details are given in **Statement 36.3**.

3.13.3 Outstanding loans of unincorporated non-agricultural enterprises in major States

3.13.3.1 Value of outstanding loans per enterprise for all unincorporated non-agricultural enterprises (excluding construction) during 2015-16 for sector and type of enterprise for major States is presented in **Statement 37.1**. At all-India level, Kerala (Rs. 104.9 thousand), Himachal Pradesh (Rs. 83.5 thousand) and Rajasthan (Rs. 59.6 thousand) were the three States with maximum outstanding loans. Assam (Rs. 4.0 thousand), Bihar (Rs. 5.0 thousand) and West Bengal (Rs. 9.5 thousand) were the three States in terms of lesser amount of outstanding loans per enterprise. Himachal Pradesh and Kerala had the maximum value of outstanding loans per enterprise for urban (Rs. 1.42 lakhs) and rural (Rs. 80.9 thousand) sectors of the country respectively. Among the OAEs in rural areas, highest value in this category was observed for the State of Kerala (Rs. 37.6 thousand) while the maximum value per OAE for urban areas was observed in Himachal Pradesh (Rs. 85.2 thousand).

3.13.3.2 Outstanding loans per enterprise in major States are given in **Statement 37.2** by broad activity category and enterprise types. Among the manufacturing, trading and 'other services' enterprises, Gujarat, Kerala and Rajasthan had the maximum outstanding loans per enterprise with Rs. 1.08 lakhs, Rs. 1.29 lakhs and Rs. 1.48 lakhs respectively. Among the 22 major States, Bihar (Rs. 1.6 thousand) had the lowest outstanding loans per enterprise in manufacturing activities. Assam had lowest outstanding loans per enterprise for trading (Rs. 3.8 thousand) and 'other services' (Rs. 2.8 thousand) in these States. In general, establishments reported higher amount of outstanding loans as compared to own account enterprises for all the major States during 2015-16.

3.14 Operating expenses of unincorporated non-agricultural enterprises

3.14.1 In Schedule 2.34 of 73rd round, provisions were made to collect information on 'principal operating expenses' and other expenses (not covered under 'principal operating expenses') for all the surveyed unincorporated non-agricultural enterprises (excluding construction) during 2015-16. **Statement 38.0** shows the percentage distribution of the above expenses per enterprise by type of expenses for different enterprise types and sectors. The total value of services purchased and other expenses incurred during the reference period by an enterprise on raw materials consumed for own construction, electricity, fuel & lubricants, minor repair & maintenance, rental payable on fixed assets (other than land), service charges for work done by other concerns, travelling, freight and cartage expenses, expenses related to communication, financial charges, other expenses on goods inputs and other expenses on services are termed as '**other expenses**' of

that enterprise in the report. Expenses for rental payable on hired fixed assets (other than land), services charges for work done by other concerns and other expenses on goods inputs and other expenses on services have been clubbed together and reported as '*miscellaneous expenses*' in the report. All expenditure related information was collected on payable basis. It can be observed that 'principal operating expenses' accounted for 73.2% of total expenses per enterprise in the combined sector. Also for both OAEs and establishments, the 'principal operating expenses' accounted for about 70% and 75% of total expenses respectively. The trend is similar for enterprises located in rural and urban areas. Among 'other expenses', 'miscellaneous expenses' accounted for maximum expenditure per enterprise in the combined sector (8.9%) considering all types of enterprises and this holds true for both OAEs as well as for establishments in rural (5.6%) and urban (10.2%) areas.

Statement 38.0: Percentage distribution of annual expenses per enterprise by type of expenses for different sector and enterprise type

3.14.2 The percentage distribution of 'principal operating expenses' and 'other expenses' per manufacturing enterprise by type of expenses in India for different enterprise types and sectors is presented in **Statement 38.1**. 'Principal operating expenses' accounted for 85.1% of total expenses per manufacturing enterprise in the combined sector. For establishments, the 'principal operating expenses' accounted for about 86% while for OAEs their share was about 82% of the total expenses. Share of 'principal operating expenses' in total expenses was higher for establishments in comparison to OAEs in all the sectors. Among 'other expenses' in the combined sector, 'miscellaneous expenses' accounted for maximum expenditure per

manufacturing enterprise in OAEs (4.8%) and establishments (3.5%), with an all enterprise share of 3.8% in combined sector.

Statement 38.1: Percentage distribution of annual expenses per manufacturing enterprise by type of expenses for different sector and enterprise type

Ref: Table 38 of Appendix A

3.14.3 **Statement 38.2** reveals that the share of 'principal operating expenses' in total expenses of an enterprise is lowest for the enterprises engaged in trading activities, among the three broad activity categories. The share of 'principal operating expenses' for a trading enterprise was merely 6.4% in the combined sector. For rural and urban areas separately, 'principal operating expenses' accounted for 8.8% and 5.7% of total annual expenses for trading enterprises respectively. For establishments, the 'principal operating expenses' accounted for about 6% while for OAEs their share was about 7% of the total expenses. Expenses corresponding to 'other expenses' were highest for trading enterprises among the three broad activity categories. For trading enterprises located in rural areas, 'travelling, freight and cartage expenses' accounted for the major share of about 31% of total expenses. 'Miscellaneous expenses' contributed maximum among 'other expenses' for urban areas with about 34% for establishments and 36.2% for OAEs.

3.14.4 Share of 'principal operating expenses' in total expenses for 'other services' enterprises are given in **Statement 38.3**. It was higher for OAEs in comparison to establishments in all the sectors. 'Principal operating expenses' accounted for 77.3% of total expenses per enterprise engaged in 'other services' activities in the combined sector. For establishments, the 'principal operating expenses' accounted for about 75% while for OAEs their share was about 81% of the total expenses. It has been observed that, 'principal operating expenses' accounted for 81.4% of total expenses per 'other services' enterprise in the rural sector and 75.5% for the enterprises operating from urban areas. Among 'other expenses', 'miscellaneous expenses' accounted for maximum expenditure per 'other services' enterprise in the combined sector with 8.5%, separately 9.2% for establishments and 7.5% for OAEs.

3.15 Receipts of unincorporated non-agricultural enterprises

3.15.1 The sale value of services produced together with the value of services rendered to other concerns and other receipts incidental to entrepreneurial activities including the value of products and by-products manufactured, if any, by an enterprise during the reference period is defined as 'total receipts' of that enterprise. Information related to total receipts was collected for surveyed unincorporated non-agricultural enterprises (excluding construction) during 2015-16. **Statement 39** shows the percentage distribution of annual receipts per enterprise by type of receipts in India for different enterprise types and sectors. It can be observed that principal receipts accounted for 94.6% of total receipts per enterprise in the combined sector. Also for both OAEs and establishments, the principal receipts accounted for about 95% of total receipts. The trend is similar for enterprises located in rural and urban areas. Among 'other than principal receipts', 'service provided' accounted for maximum receipts per enterprise in the combined sector considering all types of enterprises and this holds true for both OAEs as also for establishments in rural (3.5%), urban (4.3%) and combined (4.1%) sectors.

Statement 39: Percentage distribution of annual receipts per enterprise by type of receipts for different sector and enterprise type

3.15.2 The percentage of principal receipts in total annual receipts per enterprise by activity category for different enterprise types and sectors is presented in **Statement 40**. Principal receipts accounted for 99.2% of total receipts per manufacturing enterprise in the combined sector. Both for establishments and OAEs, the principal receipts accounted for about 99% of the total receipts. The share of principal receipts for a trading enterprise was about 94% in the combined sector. For rural and urban areas separately, principal receipts accounted for 95.2% and 93.2% of total annual receipts from trading enterprises. For establishments, the principal receipts accounted for about 92% while for OAEs their share was about 96% of the total receipts. Principal receipts accounted for 91.3% of total receipts per enterprise engaged in ‘other services’ activities in the combined sector. For establishments engaged in ‘other services’, the principal receipts accounted for about 93% while for OAEs their share was about 89% of the total receipts. It has been observed that, principal receipts accounted for 90.4% of total receipts per ‘other services’ enterprise in the rural sector and 91.7% for the enterprises operating from urban areas. The share of principal receipts in total receipts of an enterprise is highest for the enterprises engaged in manufacturing activities, among the three broad activity categories.

3.16 Perceived growth status of unincorporated non-agricultural enterprises

3.16.1 Perceived growth status of an enterprise represents the overall performance and sustainability of that enterprise over a period of time. For the purpose of this survey, a three year time period was taken into consideration for determining the status of the enterprise. Information on the status of an enterprise from its owner’s perspective was collected for the surveyed unincorporated non-agricultural enterprises (excluding construction) during 2015-16. **Statement 41.0** shows the percentage distribution of enterprises by perceived growth status for type of enterprise and sector. The survey reveals that during 2015-16 at all-India level, about 43% enterprises were stagnating over last three years whereas 28.6% enterprises were expanding. It has been observed that OAEs were more stagnating as compared to establishments in rural, urban and combined sector. In rural areas, 45.2% enterprises were stagnating during last three years of operation while in urban areas 41.3% enterprises were stagnating. 27.9% and 29.4% enterprises were reported to be expanding during their last three years of operations in rural and

urban areas respectively. 11.0% enterprises were reported to be contracting during 2015-16, with rural and urban shares of 10.9% and 11.1% respectively.

Statement 41.0: Percentage distribution of enterprises by perceived growth status (over a period of last three years) for each type of enterprise and sector

3.16.2 **Statement 41.1** presents the percentage distribution of manufacturing enterprises by perceived growth status for enterprise type and sectors where the growth status of a manufacturing enterprise was as perceived on the basis of its performance over last three years of operations. The survey shows that at all-India level, 46.5% manufacturing enterprises were stagnating over last three years whereas 25% of them were expanding. It has been observed that OAEs were more stagnating as compared to establishments in rural, urban and combined sector. In rural areas, 48.4% of manufacturing enterprises were stagnating during last 3 years of operations while in urban areas the corresponding figure was 43.7%. About 14% enterprises were reported to be contracting during 2015-16, with rural and urban shares of 14.7% and 12.7% respectively. 23.6% and 26.5% manufacturing enterprises were reported to be expanding during their last three years of operations in rural and urban areas respectively.

3.16.3 The percentage distribution of trading enterprises by perceived growth status for each type of enterprise and sector is shown in **Statement 41.2**. 42.4% trading enterprises were stagnating over last 3 years at all-India level, whereas 29.7% were expanding. A share of 10% enterprises at all-India level (8.1% in rural and 11.3% in urban) reported their status as ‘contracting’ during the survey period. OAEs were more stagnating in comparison to establishments in rural, urban and combined sectors. In rural and urban areas, 44.2% and 40.7% trading enterprises were stagnating during last three years of operations. The percentage of trading enterprises which were expanding was 29.2% and 30.2% during their last three years of operations in rural and urban areas respectively.

3.16.4 **Statement 41.3** presents the percentage distribution of ‘other services’ enterprises by perceived growth status for enterprise type and sector where the growth status of ‘other services’ enterprise was reported as perceived on the basis of its performance over last three years of operations. It has been observed that at all-India level, 41.3% ‘other services’ enterprises were stagnating over last three years whereas 31% were expanding. Like manufacturing and trading sectors, here also the OAEs were more stagnating as compared to establishments in rural, urban and combined sector. In rural areas, 42.6% ‘other services’ enterprises were stagnating during last 3 years of operations while the share in urban areas was 40%. About 10% enterprises in rural, urban as well as in the combined sectors reported their status as contracting based on the performance of last three years. During their last three years of operations, about 31% enterprises engaged in ‘other services’ activity, in both rural and urban areas, were reported to be expanding.

Ref: Table 45 of Appendix A

3.17 Precision of estimates

3.17.1 Relative Standard Errors (RSEs) of estimated number of unincorporated non-agricultural enterprises, estimated number of workers, total gross value added, gross value added per enterprise and gross value added per worker categorized by broad activity and sector at all-India level are given in **Statement 42** to show the reliability of estimates. It can be observed that barring RSEs for estimated number of workers for urban establishments engaged in ‘manufacturing’ (5.41%), ‘trading’ (6.31%) and workers belonging to ‘trading’ establishments in combined sector (5.30%), RSEs are less than 5 percent at all-India level both for estimated number of enterprises and estimated number of workers for all other activity categories, indicating that estimates are fairly reliable.

3.17.2 RSEs of total GVA, GVA per enterprise and GVA per worker for rural establishments engaged in ‘other services’ were observed to be relatively higher (about 10%) in comparison to relative standard errors at all-India level. For manufacturing establishments in urban areas, the RSEs of total GVA and GVA per enterprise have been observed to be 9.50% and 7.31% respectively. For all enterprises, RSEs of GVA and GVA per enterprise for rural establishments were 5.94% and 5.78% respectively. RSEs of GVA for manufacturing establishments in urban sector and establishments engaged in ‘other services’ in rural sector were 9.50% and 11.02% respectively while RSE of GVA per enterprise for ‘other services’ establishments in rural sector was 10.89%. RSEs of other estimated characteristics were less than 5 percent at all-India level for all activity categories taken together, indicating that estimates are fairly reliable. Corresponding State wise RSEs are available in detailed tables in appendix. The data users are advised to use the estimates with caution particularly in cases where RSEs of estimates are high.
